

Overseas Student Program - Assessment Levels

This information sheet contains a list of the current Assessment Levels for all passports and education sectors in Australia's Student Visa Program (SVP). These Assessment Levels came into effect on 27 March 2010 and apply to student visa applications made on or after this date.

Applying for a Student visa

Use the Student (Temporary) (Class TU) visa form if you intend to apply for a Student visa in Australia. You must identify your **highest Assessment Level** before you can proceed with your student visa application.

Refer to information sheet *Applying for a student visa*, or the Department of Immigration and Citizenship website www.immi.gov.au/students for more information about applying for a student visa.

Course packaging

If you intend on packaging courses, you will be assessed under the visa subclass applicable to your **main** course of study (the principal course) indicated on the application, and at the **highest Assessment Level** of the courses in your nominated package.

For more information on course packaging, refer to information sheet *Applying for a student visa* at www.immi.gov.au/allforms/

Using this information sheet

Your Student visa application will be assessed according to your **highest Assessment Level**. The lowest Assessment Level being Assessment Level 1 and the highest Assessment Level 5.

The passport you hold and the education sector of your course will determine the appropriate Assessment Level for your visa application.

To identify the Assessment Level for your visa application, match your passport type with the visa subclass for the education sector/s of your course/s. The table on the next page lists passport countries in alphabetical order, and the visa subclasses/education sectors.

Visa subclass/Education Sector

There are a number of different types of student visas. The following subclasses are based on the education sector of your **main** course of study (the principal course):

- 573 – Higher Education
- 574 – Postgraduate Research
