A WORLD-CLASS UNIVERSITY IN THE HEART OF ONE OF THE WORLD’S MOST LIVEABLE CITIES*

* Economist Intelligence Unit Global Liveability Index 2019
The University of Adelaide has achieved a five star rating in:
Teaching
Research
Facilities
Life Sciences and Medicine
Inclusiveness
Internationalisation
Innovation
Employability
The University of Adelaide is ranked in the top 1% of universities worldwide and is recognised globally for its research excellence and dedicated staff that are international leaders in their field.

Our postgraduate coursework degrees are world-class, driven by cutting edge research and technology that encourages critical thinking, problem solving, teamwork and communication. The University’s Industry Engagement Priorities ensures close alignment with the needs of industry while our broader research mission is committed to tackling the grand challenges of our time. The University is focused on preparing students for their careers through industry placement and internship opportunities.

Located in the heart of Adelaide, and surrounded by the state’s art gallery, museum and library, the University’s beautiful North Terrace campus forms part of the city’s cultural promenade. We warmly welcome students from over 100 countries to our University each year creating a vibrant campus community. An international orientation program assists students towards a successful transition and provides an insight into local South Australian culture.

A postgraduate coursework degree at the University allows for study at the forefront of discovery, with access to state-of-the-art research facilities, cross-disciplinary programs, and a connection to a globally integrated and culturally diverse community. The academic environment of the University pursues excellence, values creativity, and gives graduates the opportunity to make a major contribution to the world.

Vice-Chancellor and President
Professor Peter Rathjen

FROM OUR VICE-CHANCELLOR
WHY CHOOSE THE UNIVERSITY OF ADELAIDE?

RANKED IN TOP 1% OF UNIVERSITIES WORLDWIDE

5 STARS PLUS QS RATING

ASSOCIATED WITH 5 NOBEL LAUREATES

PRODUCED OVER 110 RHODES SCHOLARS

MEMBER OF THE GROUP OF EIGHT
Founded in 1874, the University of Adelaide is Australia’s third-oldest university and consistently ranks in the top 1% globally and number one in South Australia for tertiary education. Our reputation for excellence and breaking new ground has been forged by a continuous stream of outstanding people. We proudly count among our distinguished alumni five Nobel Laureates and over 100 Rhodes Scholars. Australia’s first female prime minister and Supreme Court judge were also University of Adelaide alumni.

Today, our vibrant culture continues to attract some of the world’s best and brightest—academic leaders from all corners of the globe and students from more than 100 countries.

Outstanding teaching
University of Adelaide students learn with the guidance and support of exceptional academic staff. Operating at their disciplines’ cutting edge, they enthusiastically share their passion for new knowledge and encourage students’ own pursuits of world-changing discoveries. The University also provides a wide range of student support services and opportunities, all of which are detailed in these pages. This nurturing environment—and unwavering commitment to the highest teaching standards—enables students to fulfil their potential and make significant contributions to the world.

Global research impact
The University of Adelaide is committed to conducting world-class research with global, real-world impact. A member of Australia’s prestigious Group of Eight research-intensive universities, we enhance and sustain life for people and planet by addressing the world’s most significant challenges.

Our areas of particular strength include: food and wine; defence and security; health and medicine; engineering and technology; life sciences; mining and energy; and the environment.

AREAS OF STUDY
• Health and Medical Sciences
• Sciences
• Business, Law and Economics
• Education, Humanities, Music and Social Sciences
• Engineering, Architecture, Computer and Mathematical Sciences

* Times Higher Education and QS ranking

OVER 7000 INTERNATIONAL STUDENTS

OVER 100 COUNTRIES REPRESENTED IN STUDENT POPULATION

27000 STUDENTS
Adelaide has a bustling, energetic city centre and is renowned for its festivals, cultural life and sporting events. With great shopping, beaches, a cafe culture, affordable student accommodation and friendly residents, Adelaide offers a relaxed lifestyle with all the convenience of city living.
A truly liveable city

Safe and relaxed, Adelaide is ranked as one of the world’s top 10 most liveable cities.

Source: Economist Intelligence Unit: Global Liveability Index 2019.

Australia’s most affordable mainland city

Adelaide is one of the most affordable mainland Australian cities, with a cost of living up to 14% lower than Sydney and Melbourne.

Source: Study Adelaide: studyadelaide.com

Culturally diverse

South Australians hail from over 120 different countries, creating a wonderful mix of cultures and influences. One in five South Australians were born overseas!
Adelaide is a coastal city, with pristine white sandy beaches that attract thousands for relaxation and recreation in the summer. It takes just 20 minutes on the tram to get from the city centre to the beach.

HIT THE BEACH

Adelaide is a coastal city, with pristine white sandy beaches that attract thousands for relaxation and recreation in the summer. It takes just 20 minutes on the tram to get from the city centre to the beach.
CAFÉ CULTURE

Adelaide is one of Australia’s most cosmopolitan cities, with an array of cafés, restaurants and shops reflecting the diversity of its ethnic communities. Adelaide is reputed to have more cafés and restaurants per head of population than any other city in Australia.

LIVE CENTRALLY

Student accommodation is more affordable in Adelaide than in many other Australian cities, and much of it is in the heart of the CBD. Many students can simply walk to their lectures.
**EASY TO GET AROUND**

Adelaide is a vibrant city that’s easy to navigate. Broad, spacious boulevards accommodate an efficient network of public buses, trains and trams, with international students receiving the same discounts as locals.

**FESTIVAL FEVER**

South Australia is known as the festival state of Australia because of the large number of national and international cultural and sporting festivals it hosts per year.
SHOPPING

Adelaide boasts a range of shopping experiences comparable to anywhere in Australia. Within the CBD, Rundle Mall has the biggest concentration of department and chain stores, while within walking distance are trendy boutiques, pubs and cafés.

CLIMATE

Warm, dry summers and short, mild winters. Over 300 days of sunshine per year.

The University of Adelaide has three campuses in South Australia: North Terrace, Roseworthy and Waite, and a new campus at Melbourne.
The University's main campus on North Terrace is renowned for its historic architecture and lively atmosphere. Located in the heart of Adelaide’s central business and shopping district, the campus is adjacent to the State Library, Festival Theatre, South Australian Museum, Art Gallery of South Australia, Adelaide Zoo, and Botanic Gardens.

The University’s Adelaide Health and Medical Sciences building is also within walking distance, in the South Australian Health and Biomedical Precinct.
The Waite campus is home to the internationally renowned Waite Research Institute—the largest agricultural research institute in the southern hemisphere and third largest in the world. A number of research partners are also co-located there. Staff and students work closely with these organisations, providing a unique opportunity for collaboration on national and international research projects. Research areas include wine, plant biotechnology, plant breeding, sustainable agriculture and land management.

The campus is located eight kilometres south of the city centre and is easily accessible by public transport and a Waite-North Terrace campus shuttle bus service. Campus services include a childcare centre, library, cafe, gym and sporting facilities.
Roseworthy campus is an internationally renowned centre for excellence in dryland agriculture, natural resource management and animal production. Set on over 1,600 hectares of land, it is home to South Australia’s only veterinary school. It features an AUD $37 million veterinary clinic, where students can gain clinical experience while studying.

The campus is located 55 kilometres north of Adelaide and 10 kilometres from the town of Gawler (population 26,000). Access is available by a North Terrace-Roseworthy campus shuttle bus. Campus services include student accommodation, a swimming pool, library, cafe and fitness centre.

Our Melbourne campus is located on the western fringe of the city in Docklands. The free city circle tram stops at our front door, and there is high-end shopping, cinemas and hotels in the neighbourhood.

We offer a selection of degree programs at both the undergraduate and postgraduate levels. For information about the campus visit: www.adelaide.edu.au/melbourne
The University offers a range of support services to help international students succeed at university.

Friendly staff are available to help students manage their studies, assist with student visa-related queries, help with health or disability needs, support students as they fit into their new life in Adelaide, and help solve personal problems. In addition, doctors at the North Terrace campus’ Health Practice can provide students with year-round health support.

International Student Support
Ongoing, one-on-one support from international student advisors, orientation and social programs for all students, and assistance with Confirmation of Enrolment (CoE) and student visa-related queries. 

ua.edu.au/iss

Careers Service
Advice and workshops to help students develop employability skills, a Career Hub database of employment opportunities, and annual career-related events including the Careers Expo. 

adelaide.edu.au/student/careers

Writing Centre
Support with writing academic English through one-on-one advice from writing mentors, workshops, and comprehensive support resources. 

adelaide.edu.au/writingcentre

Maths Learning Centre
Help for all students to develop mathematics skills at every level, with drop-in sessions, lectures, games, and resources. 

adelaide.edu.au/mathslearning

Childcare
Full-time and part-time care for children of students and staff, located on the North Terrace and Waite campuses. 

adelaide.edu.au/childcare

Counselling Support
Professional and confidential one-on-one support for students encountering issues that affect their study and life. 

adelaide.edu.au/counselling

Disability Support
Support for all students who have an ongoing medical condition, to help them focus on their studies. 

adelaide.edu.au/disability

Elite Athlete Support
Support to help student athletes balance their academic and sporting commitments, by providing a flexible and responsive approach to study. 

adelaide.edu.au/eliteathletes

Health Practice
Comprehensive health care for all students and staff, including male and female doctors (GPs), health checks, immunisations, and mental health support. 

adelaideunicare.com.au

Library
One of the state’s most extensive research collections, quiet study spaces, and support from specialist research librarians. 

adelaide.edu.au/library

Peer Assisted Study Sessions (PASS)
Regular extracurricular sessions led by student mentors to help students improve their grades in specific courses. 

adelaide.edu.au/pass
The University of Adelaide offers a stimulating environment where students are encouraged to take part in a wide range of extracurricular activities.
Social programs
international.adelaide.edu.au/life-on-campus/social-programs-clubs-and-sports

The University offers a variety of social programs to help international students adjust to their studies and make new friends. These include ongoing English conversation practice (Talking with Aussies), regular culturally-themed social nights (Language and Cultural Engagement program), a chance to improve intercultural and employability skills (Global IQ Connect) and opportunities to develop leadership and employability skills (Peer Mentor program).

StudyAdelaide
studyadelaide.com

StudyAdelaide provides information and support to students both before they arrive in Adelaide and after they settle into life in their new home. It conducts a busy schedule of events and activities each year. These include everything from a welcome ceremony with the Lord Mayor, international student awards, career advancement workshops, wine education functions, regional trips and social events, such as sports days.

Accommodation plays an important part in building a solid foundation for academic success.

Students benefit from the advantages that come from choosing to study in a city where accommodation of all types, including our University-managed accommodation, is not only accessible but affordable.

The University recommends students adopt the RECAS approach to identifying an accommodation option to suit their individual needs and support a positive educational experience.

- Research all available accommodation options
- Establish a realistic budget
- Consider the value of managed student accommodation
- Avoid extended temporary accommodation
- Seek assistance from the University Accommodation Service

Students unfamiliar with Adelaide are encouraged to consider living in managed student accommodation during their first year of university.

Managed student accommodation provides new students with the opportunity to become better acquainted with the city, settle into their academic program and make new friends, without having to worry about the challenges of the private rental market.
Long-term student accommodation
adelaide.edu.au/accommodation

The University assists international students to obtain suitable longer-term housing. Students may choose any of the following options.

The University of Adelaide Village

The University of Adelaide Village is the largest of our accommodation properties. The Village is home to over 400 students, who experience the safety and security of having access to University staff on-site, 24 hours a day, seven days a week.

Students need only bring their personal belongings, as furniture, kitchen appliances, utilities (including electricity), phone and Internet are all included in the accommodation fees. The only additional costs are for meals (students must cook and clean for themselves) and the on-site, coin-operated laundry facilities.

Roseworthy Residential College

This accommodation is operated by the University and is only available to students of the University’s Roseworthy campus, offering them the opportunity to enjoy the benefits of on-campus residential living.

Independent residential colleges

There are five independent residential colleges situated in North Adelaide that offer accommodation to students. These independent residential colleges are privately owned and operated. They are not owned or operated by the University.

Students can contact the residential colleges directly to better understand what’s available. These residential colleges include: Aquinas, Lincoln, St Ann’s, St Mark’s and Kathleen Lumley College.

Commercial student accommodation

Commercial student accommodation refers to purpose-built off-campus student accommodation facilities, run by private management companies not affiliated with the University of Adelaide. These facilities offer fully-furnished, self-contained apartments that give students flexibility to live alone or share with others. There are also rooms for couples.

In addition to rent, students may need to budget for additional expenses, including:

• gas
• electricity
• telephone connection (optional)
• Internet connection (optional).

Places in commercial student accommodation facilities are offered on a 6 or 12-month fixed-term lease. It’s important to note that these facilities are not directly affiliated with the University of Adelaide and students are advised to inspect them before committing.

Private rental and share accommodation

Affordable share accommodation can also be found in the private rental market, so the University offers a rental database (adelaide.edu.au/accommodation) for our students’ exclusive use.

Our enrolled students can access the database from our Accommodation Service, Level 4, Hub Central, North Terrace campus, with a user name and password. The database is only promoted among the University community, and most accommodation listings are offered by people affiliated with us who would like to share their room/property with a University of Adelaide student.

Students wishing to find share or rental accommodation when they arrive in Adelaide are encouraged to book temporary accommodation in the first instance.

Once in Adelaide, students should visit the University’s Accommodation Service for information on all available options and support in identifying and securing quality long-term living arrangements. Students are discouraged from sending money from offshore to secure share or rental accommodation prior to inspecting it.

---

**LONG-TERM STUDENT ACCOMMODATION OPTIONS**

This table matches long-term student accommodation options to individual needs.

</tr>
<tr>
<td>Independent living</td>
<td>Share/rental accommodation</td>
<td>Students with the skills and experience to enter into tenancy arrangements and pursue an independent lifestyle.</td>
</tr>
</tbody>
</table>
Accommodation for families

Students accompanied by family members will find private rental accommodation in houses or apartments the most suitable accommodation option.

It’s easier for an individual student to initially travel to Adelaide on their own to arrange suitable permanent family accommodation. Spouses and children who arrive later can then move straight in.

Arrival reception and temporary accommodation

Temporary accommodation and arrival reception services are available to commencing international students. Eligible students can book an arrival reception service and be met by a University representative at Adelaide Airport, via a domestic or international flight. Students will then be transported to their accommodation.

Eligible students who choose not to secure long-term managed student accommodation for their arrival in Adelaide may also be eligible for seven nights of temporary accommodation booked through the University. It is important to note that temporary accommodation options arranged through the University are unlikely to be extended further than a period of seven nights due to high demand for short-term accommodation during the traditional student intake periods.

For more information on eligibility criteria, arrival reception and temporary accommodation services, contact Accommodation Services (see below).

For more information, visit:
adelaide.edu.au/accommodation

Telephone: +61 8 8313 5220
Fax: +61 8 8313 3338
Email: accommodation@adelaide.edu.au
Web: adelaide.edu.au/accommodation
Skype: uoaaccommodation
Incidental costs
Prospective students should allow at least AUD $500 per year for textbooks and basic study materials. Depending on the degree, other costs may include: specialist equipment (e.g. laboratory coats, microscopes, stethoscopes); optional supplementary reading and academic program materials; field trips; and expenses such as thesis preparation, printing and binding.

Accommodation
Although living in Adelaide is more affordable than many other major cities, accommodation remains students’ largest variable expense. It can cost anywhere from around AUD $135 per week for share accommodation outside the city centre to AUD $259 per week (including electricity, water, gas and unlimited Wi-Fi) for University-managed accommodation within the city centre. The average rent for a private studio apartment in the CBD is approximately AUD $400 per week.

Application fee
An application fee of AUD $110 must be paid with the University of Adelaide undergraduate online application. An exemption may apply for some government or externally-sponsor students.

Tuition fees
International students are required to pay international student tuition fees, which cover the cost of teaching and many student support services. The indicative annual tuition fee quoted in this prospectus is based on the standard full-time enrolment load of 24 units per year, or 12 units per semester. The quoted fee is reviewed annually and may increase in future years. Fees may also vary depending on enrolment load.

New international students are required to pay a tuition fee deposit when accepting an offer of admission. After enrolment, students are then invoiced for the balance of their fees in that enrolment period. The University invoices students (or their sponsor) each enrolment period according to students’ enrolment load.

Student Services and Amenities Fee
International students commencing in 2021 will be required to pay an annual Student Services and Amenities Fee. This covers activities such as clubs, sporting and recreational activities, and many other services. The fee was AUD $308 for 2020 and is indexed annually.

For more information, visit: adelaide.edu.au/student/finance/ssaf

As part of planning, applicants need to consider the financial requirements before applying at the University, and are advised to set a realistic budget.

Managing your money

MANAGING YOUR MONEY

Health and medical
Student visa holders and their dependants are required to have health insurance for the duration of their student visa through the Overseas Student Health Cover (OSHC) scheme. The University’s preferred OSHC provider is Allianz Global Assistance. Visit: allianzassistancehealth.com.au/en/student-visa-oshc

For additional information, please refer to: international.adelaide.edu.au/student-support/support-services

Student Fees Refund Policy
All applicants must read the University’s policy on refunds and adjustments before accepting an offer of admission. The policy complies with all requirements for tuition fee refunds stipulated in the Education Services for Overseas Students Act 2000 (ESOS), associated Australian Government regulations, and the ESOS National Code of Practice (2018).

For policy details, visit: adelaide.edu.au/policies/4343

For information about refund administration and refund amounts, visit: adelaide.edu.au/student/finance/refunds

For more information, visit: adelaide.edu.au/student/finance/ssaf

Managing your money

24
**Students with families**

International students who bring their families to Australia will need to take into account additional costs associated with health cover, housing, food, transport, childcare and education. For information and advice, visit: internationalstudents.sa.edu.au/en/students/dependants

**Part-time work**

Many international students and their dependants hope to obtain part-time work to supplement funds for living costs. While this may be possible, we recommend that students do not rely on it for essential expenses. Obtaining a job is not guaranteed and can take time. Students should also be aware that the workload for many degrees is intense, so they may not have time to undertake employment. International students who do find part-time work should be aware that they have the same workplace rights as all other workers in Australia. For more information on working while studying, visit: homeaffairs.gov.au/trav/stud

Additional information and advice about your workplace rights and obligations is available at: fairwork.gov.au/find-help-for/visa-holders-and-migrants

**Change to permanent resident status**

Different quota restrictions (imposed by the University and the Australian Government) apply to admissions for international students than for Australian residents. International students whose immigration status changes to Australian Permanent Resident will be required to transfer to a domestic fee-paying place. They may subsequently apply to transfer into a Commonwealth-supported place, depending on their degree.

**Scholarships**

A number of scholarships will be available for international students who wish to study at the University of Adelaide commencing in 2021. For information on the application process, minimum eligibility criteria and important deadlines, visit international.adelaide.edu.au/admissions/scholarships

A selection of scholarships are also available from the Australian Government. For information on these, visit: australiaawards.gov.au

All scholarship details are subject to change, so interested students are encouraged to check these websites regularly.

---

**STUDY-RELATED COSTS**

This should be viewed as a guide only, as costs can vary significantly from one student to another. These are basic living costs at the time of publication and do not include program tuition fees, costs for textbooks, other study-related needs, running a car, medical expenses, or any luxuries.

The University accepts the following English language tests (except where otherwise specified):

- IELTS (International English Language Testing System) Academic Test
- TOEFL (Test of English as a Foreign Language)
- Pearson Test of English (Academic)
- C1 Advanced formerly known as Cambridge Certificate in English: Advanced (CAE)
- Occupational English Test

Other evidence of English proficiency may be accepted in individual cases.

Students whose English test score levels do not satisfy the University’s minimum requirements will need to satisfactorily complete an intensive English language program before being admitted to the University of Adelaide.

The University can arrange an appropriate Academic English Pre-enrolment English Program (PEP) in Adelaide at the English Language Centre (refer to page 28). An offer will be included for eligible students.

These programs provide an alternative entry pathway for prospective students who have received offers to the University conditional upon English proficiency. Upon successful completion of the PEP at the required level, students can be granted entry into the majority of degrees at the University.

For more information, visit: international.adelaide.edu.au/admissions/how-to-apply/admission-requirements#english-language-requirements

1 Applicants seeking entry to these degrees must present the required IELTS/TOEFL/Pearson/CAE/OET scores to meet the English language proficiency requirements and are not permitted to undertake an Academic English PEP pathway.

2 Applicants to master degrees offered by the School of Psychology must provide an IELTS unless eligible for an exemption in accordance with the Psychology Board of Australia requirements prescribed at: www.psychologyboard.gov.au/Registration/Overseas-Applicants.aspx

*These entry requirements are correct at the time of printing. For up-to-date information, visit: international.adelaide.edu.au/apply

The University of Adelaide reserves the right to make the final decision regarding admission to the University.
The University’s English Language Centre (ELC) provides outstanding academic English, general English programs and English teacher training services for international students and groups.

Academic English PEP Pathway
The University of Adelaide offers an academic English pathway for students who have not met their postgraduate coursework degree’s minimum English language entry requirements.

This is a direct entry pathway into further studies at the University of Adelaide. The length of the program depends on the applicant’s English proficiency test score. Students who successfully complete the Pre-enrolment English Program (PEP) at the required level do not need to sit another English test before entering their University degree.

The PEP is offered in lengths of 10, 15, 20 and 25 weeks. For more information on the PEP, visit: adelaide.edu.au/elc/courses/pep

Academic English PEP Pathway – Extended
The PEP Extended 30 and 35-week courses combine General English for Academic Purposes (GEAP) classes (see below) and PEP classes.

Commencing in the GEAP allows students to develop the fundamental linguistic building blocks of grammar and vocabulary for academic level study, before progressing to English classes specifically tailored for students entering an award program.

- PEP Extended 30-week students will complete 5 weeks of GEAP before commencing 25 weeks of PEP classes.
- PEP Extended 35-week students will complete 10 weeks of GEAP before commencing 25 weeks of PEP classes.

Eligibility
To find out which PEP they are eligible for, students should refer to the diagram opposite.

Other programs
Academic English (GEAP)
Our General English for Academic Purposes (GEAP) program is for students wishing to develop effective oral and written communication skills—and boost their learning confidence—at one of the most prestigious universities in Australia.

Delivered in the University of Adelaide’s academic environment and attracting students from all around the world, GEAP is offered in five levels of language proficiency—from elementary through to advanced.

All levels focus on developing speaking, listening, reading and writing skills, with academic tasks added as the student’s proficiency increases.

Students can choose to enrol for anywhere from five to 45 weeks.

Group Study Tour programs
Group Study Tour programs offer an ideal mix of academic excellence and cultural experience for groups of international students or professionals looking for a rewarding Australian experience. Programs are tailored to each group’s specific needs and can be for any length of time, but are usually between two and eight weeks. Homestay accommodation can also be included.

Academic sessions can focus on general English tuition or a specific discipline or interest, while cultural activities include excursions to destinations of cultural, historical, geographical and social interest.

TOEFL Test
The Test of English as a Foreign Language Internet-based Test (TOEFL iBT) measures students’ proficiency in speaking, reading, writing and listening to ensure they can communicate their ideas and interact in real life, classroom and campus situations.

The TOEFL iBT is accepted at all Australian universities and can be taken at the University of Adelaide. Tests are held regularly throughout the year at our ELC. For more information and dates, visit: adelaide.edu.au/elc/toefl

Academic English Pathway program timelines and costs
In addition to the fees below, an enrolment fee of AUD$295 will apply to the Academic English Pathway program (PEP). For trimester dates and fees please visit: adelaide.edu.au/elc/courses/pep
This diagram shows: the IELTS scores required for entry into PEP programs of various lengths; and the amount of time it takes most students to become proficient enough to enter postgraduate coursework degrees requiring an overall IELTS score of 6.5, with no band less than 6.0 (or equivalent). TOEFL, Pearson and C1 Advanced tests are also accepted.

For more information about the English Language Centre, visit: adelaide.edu.au/ele

**IMPORTANT INFORMATION**

**for students applying for degrees with higher English language requirements, or with an English test score other than IELTS.**

Some postgraduate degrees require a higher level of English ability. When studying a PEP in combination with a degree requiring an overall IELTS score greater than 6.5, PEP entry requirements are higher than those shown in the tables. Please note that as well as the IELTS test, the ELC accepts the TOEFL iBT, TOEFL PBT, Pearson and C1 Advanced for entry into the PEP.

**Trimester programs**

For students studying trimester-entry degrees, there are various Academic English pathway options available. For details, visit: adelaide.edu.au/ele/courses/pep/dates-fees

For more information on scores required, visit: adelaide.edu.au/ele/courses/pep/entry-requirements
APPLICATION INFORMATION

Applicants should be aware of their specific degree’s admission and student visa requirements before applying to the University.

Postgraduate entry requirements
Entry is competitive—the minimum academic entry requirement for most postgraduate coursework degrees is an Australian bachelor degree or equivalent qualification, from a recognised institution, at a level of academic achievement specified by the relevant faculty or school.

Entry requirements vary between degrees. Some of the graduate certificates and graduate diplomas offered may be accepted as a requirement for entry to a Master degree, or as professional qualifications in their own right.

For information on particular degree requirements, please refer to the list of academic programs and minimum entry requirements on pages 102-107. More detailed information regarding postgraduate coursework degrees is available in the University of Adelaide Calendar at: adelaide.edu.au/calendar

International students must also meet the University’s English language requirements—see page 26-27 for details.

Deferral of admission
Applicants who have been offered a place in a degree may apply to defer their enrolment for up to two years. Exceptions apply to degrees such as teaching.

Credit for previous study
In some cases, international students may be credited with advanced standing (status/exemptions) on the basis of previous studies at another institution. Applicants seeking advanced standing must submit detailed syllabuses (course outlines) of the subjects they’ve completed with their application.

Student personal information
Under Australia’s strict privacy laws there are very limited circumstances in which the University can release personal or academic information about a student. Such information will usually only be released to Australian government departments where legislatively required, or in a health or safety emergency.

The University cannot release any information about a student’s results, attendance, application status or any other matters to their parents.

For more information on the University’s Privacy Policy and Management Plan, visit: adelaide.edu.au/policies/62

Dates given are a guide only and are subject to change. Please see the Important University Dates website for up-to-date information: international.adelaide.edu.au/admissions/how-to-apply/application-deadlines

* Applicants are advised to apply at least six weeks prior to the commencement of their preferred intake, with the exception of those applying for the degrees listed above. Applicants who apply after that date will have their applications considered for the most suitable intake given their circumstances.
APPLICATION PATHWAY

STEP 1
APPLICATION
Apply through one of the University’s official international representatives or via our online application system at: international.adelaide.edu.au/admissions/how-to-apply/apply-now

Payment and documents required
- A non-refundable AUD $110 application fee.
- Original or certified copies of student academic qualifications, transcripts, English language test results (if applicable) and any other supporting documents. Copies can be certified by an authorised staff member of the University of Adelaide, Justice of the Peace, Notary Public, consular official, commissioner for taking affidavits, registrar of the University from which the transcript or parchment is issued, police officer or examining authority.

Further information and contact details
future.ask.adelaide.edu.au/app/ask_a_question
To apply directly to the University, visit:
international.adelaide.edu.au/admissions/how-to-apply/apply-now

International representatives
For a full listing of our international representatives and their contact details, visit:
international.adelaide.edu.au/admissions/find-a-university-of-adelaide-agent

STEP 2
APPLICATION ASSESSMENT
All applications will be assessed. Successful applicants will be emailed directly (if they applied directly), or via their official representative. Successful applicants will receive the following:
- Offer Statement
- Acceptance Agreement
- Genuine Temporary Entrant (GTE) Questionnaire*
- Payment Form
- Declaration of Financial Capacity
- Acceptance Information Leaflet.
Unsuccessful applicants will be informed by email.
* Where applicable

STEP 3
ACCEPT OFFER
- Complete and sign all pages of the Offer Statement and Acceptance Agreement.
- Complete the Declaration of Financial Capacity.
- Arrange payment of tuition fee deposit as per instructions in Offer letter.
- Arrange for payment of Overseas Student Health Cover (OSHC) for duration of visa.
- Arrange for payment of English language program fees (if applicable).
- Provide a copy of the Personal Details section of the student’s passport.

Conditional offers
Students who receive a conditional offer must provide documentary evidence that they’ve met any outstanding conditions, and send the relevant documentation directly with their acceptance documentation. A new Offer Statement is not sent unless required for scholarship or sponsorship purposes.
STEP 4
CONFIRMATION OF ENROLMENT
After receiving the acceptance documentation listed, the University sends applicants a Confirmation of Enrolment (CoE). Students should use the CoE to apply for an Australian student visa.

STEP 5
OBTAIN INTERNATIONAL STUDENT VISA
Applicants should lodge their student visa application immediately. This can be done with the assistance of a recognised University of Adelaide agent or representative. Or, if applying directly, by visiting homeaffairs.gov.au/trav/visa/Immi to create an ImmiAccount.

STEP 6
PREPARE FOR DEPARTURE
After making travel arrangements, students should consider their accommodation options by visiting adelaide.edu.au/accommodation
While there, they can also book an airport pickup and temporary accommodation if required (fees apply).

STEP 7
ENROLMENT
Prior to orientation, students will receive information about obtaining their University login and password. Then, when enrolments open, students will be able to login to the Access Adelaide section of the University website and enrol.

STEP 8
ARRIVE AND ATTEND ORIENTATION
Students should aim to arrive in Adelaide in time to attend the international student orientation program. Participation in this program will help familiarise students with the city and campus, and provide a chance to meet staff and other students and make friends before commencing studies.
For more information, visit: international.adelaide.edu.au/preparing-to-arrive/orientation

WELCOME TO THE UNIVERSITY OF ADELAIDE!
We specialise in delivering internationally recognised postgraduate degrees in architecture, landscape architecture, urban design, property and construction management. As a student of our school, you’ll benefit from our bigger-picture world view. Our curriculum focuses on the built environment as a whole, not just its individual components.

To become a practising architect, you’ll need to complete a minimum five years’ study: a three-year undergraduate degree in architectural design, followed by a two-year master degree.

The University of Adelaide is the only institution in South Australia to offer a double degree pathway at master level in architecture. Completing the double master requires only one extra year of study, and will qualify you in two disciplines, thereby enhancing your career prospects.

Features of our school
- We’ve invested in three industry professors. Each an award winning professional in their own right, they bring a high degree of inspiration and reality to their teaching.
- Our internship program provides master-degree students with professional work placements within Australian or overseas businesses and professional practices.
- Students have 24-hour access to our computer-aided architectural design (CAAD), creation and fabrication studios, and state-of-the-art model-making laboratory—one of the best equipped architectural design labs at any Australian university.

Professionally accredited by:
- Australian Institute of Architects
- Australian Institute of Landscape Architects
- Planning Institute of Australia
- Royal Institution of Chartered Surveyors
- Architectural Practice Board of South Australia.

Hayley Edwards
Master of Architecture with Master of Landscape Architecture

“The world is facing growing challenges of explosive population growth. I chose an architectural degree, because architects are uniquely placed to meet these challenges head on.”
**Shaping the world that surrounds us**

Architects reflect on and respond to cultural, historical, political, social, environmental, and technological contexts. They shape the spaces and experiences that make up our built environment.

Our Master of Architecture provides advanced design education for entry into today’s architectural profession.

**What will you do?**
- Take a sequence of core design studios, each with a distinct focus.
- Explore material cultures, urban landscapes and complex buildings.
- Build skills in professional practice and construction technologies.
- Cultivate critical judgement via studies of architectural history theory.
- Expand your horizons with travelling studios in Australia and overseas.
- Form interdisciplinary teams to address complex design problems.
- Propose and complete a research-led final design project in a small studio group.

**Where could it take you?**

You’ll graduate as an accredited graduate architect, equipped for a range of creative and managerial careers in the field. You might restore beautiful old buildings, pioneer new responses to the housing crisis or specialise in high-performance architectural technology. You could design schools that inspire learning or hospitals that help heal the sick. Perhaps you’ll distil a culture or an era into today’s architectural profession.

**Professional accreditation**

The Master of Architecture (coursework) is accredited by the Architectural Practice Board of South Australia.

---

**Blur the boundaries**

Architecture and landscape architecture work in concert to create functional, innovative and beautiful buildings and places.

This combined degree examines the vital relationship between the two areas of study and offers a holistic perspective on the profession today. How can we effect environmental change through design? How can we stay responsive to shifting needs and landscapes?

**What will you do?**

In our Master of Architecture with Master of Landscape Architecture you’ll:
- explore and extend your capacity for creativity
- learn to work with advanced ecological, construction and landscape technologies, material cultures, and complex buildings
- share design studios with students across the School of Architecture and Built Environment
- develop your own position on current disciplinary, social and political issues
- apply and advance your learning through internship electives
- undertake individual research-led design projects and immersive overseas studios
- engage with the many industry professionals who teach and tutor in classes as well as extra-curricular activities.

**Where could it take you?**

You’ll graduate as an accredited architecture and landscape professional, well prepared to satisfy stakeholders.

**Professional accreditation**

The Master of Architecture with Master of Landscape Architecture is accredited by the Australian Institute of Landscape Architects (AILA).

---

**Construct your ideal career**

The increase of infrastructure and building projects is a significant driver of the economy—both in Australia and throughout the world.

There is growing demand to ensure these projects are delivered on time, within budget, and at a high level of quality, to satisfy stakeholders.

**What will you do?**

This degree is hosted by the School of Architecture and Built Environment but takes a holistic approach to construction management. You will:
- build advanced technology and management skills related to the field
- apply life cycle and system thinking approaches to the management of construction and civil projects
- draw on business and project management expertise from across the Faculty of the Professions
- complete a supervised research project.

**Where could it take you?**

You might oversee the development of a World Centre for Positive Wellbeing in Adelaide. You could prepare for the 2024 Olympics in Paris. Perhaps you’ll work on high-speed railways or help with the construction of an Australian hyperloop.

**Professional accreditation**

The Master of Construction Management program is accredited by the Royal Institution of Chartered Surveyors. RICS accreditation is an internationally recognised professional standard which allows graduates to work in the property industry in many countries around the world.
### MASTER OF LANDSCAPE ARCHITECTURE

**CRICOS CODE 059318B**
**CAMPUS North Terrace**

**DURATION** 2 years full-time

**INTAKES** February, July

**INDICATIVE ANNUAL TUITION FEE** $39,000

[adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)

**Experiment beyond boundaries**

Landscape architecture is about working with open spaces and built environments engaging with natural systems and human cultures. As a creative and contemporary practice, it is always growing and evolving. Our Master of Landscape Architecture teaches you to use design to expand possibilities, not memorise fixed definitions. The course is accredited by the Australian Institute of Landscape Architects.

**What will you do?**

- Explore and extend your capacity for creativity.
- Share design studios with students across the School of Architecture and Built Environment.
- Learn to work with advanced ecological, construction and landscape technologies.
- Develop your own position on current disciplinary, social and political issues.
- Undertake individual design projects.
- Apply and advance your learning through internship electives.
- Undertake immersive overseas studios.
- Engage with the many industry professionals who teach and tutor in classes as well as extra-curricular activities.

**Where could it take you?**

- You might work in government or private practice finding solutions to pressing societal challenges.
- This degree qualifies you to begin the journey to registration as an RLA (Registered Landscape Architect).
- Collaborate with engineers, architects, policymakers, artists and others in the design professions.
- Design exterior spaces at a variety of scales and for various clients and users, both public and private, from innovative playgrounds, dynamic waterfronts, thoughtful memorials and special-use gardens to local, regional and national parks and critical infrastructure projects.

**Professional accreditation**

The Master of Landscape Architecture is accredited by the Australian Institute of Landscape Architects (AILA).

### MASTER OF PLANNING (URBAN DESIGN)

**CRICOS CODE 062045G**
**CAMPUS North Terrace**

**DURATION** 2 years full-time

**INTAKES** February, July

**INDICATIVE ANNUAL TUITION FEE** $39,000

[adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)

**Distinguish the spaces we all experience**

Urban designers transform streets, squares, malls and other public areas to enhance community, cultivate culture and draw people. They’re creative and strategic. They make sure the city areas experienced by residents, workers, shoppers and visitors are attractive, usable and safe.

**What will you do?**

Our Master of Planning (Urban Design) is accredited by the Planning Institute of Australia. It gives you the skills and knowledge to design functional and attractive urban spaces. You will:

- study the broad context of urban development and planning
- understand urban design principles in depth
- learn techniques for engaging communities in planning
- consider environmental impacts and relationships
- explore planning policy and law
- apply your learning in real-life planning simulations and a major culminating design project.

**Where could it take you?**

You could use colour and texture to transform city squares and walkways. You might beautify buildings and clean city air at the same time with vertical gardens and living walls. Perhaps you’ll design spaces that encourage learning, play and socialising between strangers.

**Professional accreditation**

The Master of Planning (Urban Design) is accredited by the Planning Institute of Australia (PIA).
Contribute to urban innovation

Urban designers and landscape architects work with natural and built environments engaging with natural systems and human cultures—as a creative and contemporary practice, it is always evolving. They design and upgrade our parks, streets, squares and waterfronts. They’re responsible for creating functional, beautiful, sustainable and safe sites that enhance communities, cultivate culture and draw people in.

The program is accredited by the Australia Institute of Landscape Architects and the Planning Institute of Australia.

What will you do?

Our Master of Planning (Urban Design) with Master of Landscape Architecture has a strong focus on practical design studies. You will:

- explore ecological issues and the broad context of urban development
- establish positions on current disciplinary, social and environmental issues
- learn to work with advanced ecological and landscape technologies
- build techniques for engaging communities in planning
- share design studios with students across the School of Architecture and Built Environment
- propose and complete major urban planning and landscape architectural projects.

Where could it take you?

You might:

- work in government or private practice finding solutions to pressing societal challenges
- begin the journey to registration as an RLA (Registered Landscape Architect)
- collaborate with engineers, architects, policy-makers, artists and others in the design professions
- design exterior spaces at a variety of scales and for various clients and users, both public and private, from innovative playgrounds, dynamic waterfronts, thoughtful memorials and special-use gardens to local, regional and national parks and critical infrastructure projects.

Professional accreditation

The Master of Planning (Urban Design) is accredited by the Planning Institute of Australia (PIA).

The Master of Landscape Architecture is accredited by the Australian Institute of Landscape Architects (AILA).

Command the property market

The world is becoming more and more urbanised. Investments in land, infrastructure, offices, housing, retail and recreation facilities are increasing across the globe.

Property developers work to get the best results for all involved. They make sure developments are safe, productive, sustainable, high-quality and profitable.

What will you do?

Our Master of Property is accredited by the Royal Institution of Chartered Surveyors. It draws on the expertise of multiple University faculties. You will:

- take core courses in finance, project management, law, development and construction
- build skills through development and design simulations
- travel overseas for a course on International Property
- share a studio with the Master of Architecture and Master of Planning students
- complete a major supervised project on property issues.

Where could it take you?

You might assess the feasibility of a multi-storey tower in Dubai. You could work with landlords and tenants managing retail centres in Sydney. Perhaps you’ll assess the redevelopment potential of properties or advise sponsors on how best to invest.

Professional accreditation

The Master of Property program is accredited by the Royal Institution of Chartered Surveyors. RICS accreditation is an internationally recognised professional standard which allows graduates to work in the property industry in many countries around the world.

The Master of Property program is accredited by Consumer and Business Services. CBS accreditation allows graduates to register as land agents, sales representatives or property managers in South Australia.
ARTS
Fulfil your personal and professional potential with postgraduate studies in the arts.

**Become an expert in your field**
Postgraduate arts study at the University of Adelaide will help you develop specialist knowledge and skills well beyond those gained at undergraduate level.
Learning from leading researchers and practitioners, you’ll sharpen your analytical thinking and research skills, and develop advanced transferable skills relevant to the workplace or research environment.

**Expand your career**
Higher level qualifications continue to give additional benefits in the labour market for postgraduate coursework graduates with improved salary and employment outcomes.

Overall employment for postgraduate coursework graduates in 2019 was 93%, with 87% in full-time employment as opposed to 72% of undergraduate graduates.
The median salary of undergraduates employed full-time in 2019 was $62,600 per year while for postgraduate coursework graduates it was $85,300.*

**Grow personally and professionally**
Further study in the arts offers outstanding personal development and career opportunities if you’re seeking to: get promoted, or be considered for higher-level roles; extend or update your industry knowledge mid-career; or branch out into a new field.

**MENGRU CHEN**
Master of Interpreting, Translation and Transcultural Communication

“With a valued degree from University of Adelaide, I am able to look for more job opportunities both in Australia and around the world.”
**MASTER OF ARTS**

**CRICOS CODE 093075M**  
**CAMPUS North Terrace**

**DURATION** 2 years full-time.  
Music extension pathway is 1.5 years.

**INDICATIVE ANNUAL TUITION FEE** $37,000

adelaide.edu.au/degree-finder

Contribute in your discipline

Our Master of Arts challenges you to think, perform and grow to new levels. You’ll develop specialised knowledge in your field of study and advanced research and communication skills.

A master degree will also give you a competitive edge in the Arts community for careers around the globe.

**What will you do?**

- Take 12 units worth of core courses in your chosen discipline.
- Work in close contact with research active academics.
- Benefit from small group learning.
- Intern in an organisation tied to your career aspirations.
- Apply and share your learning in a capstone thesis.

The program currently offers specialisations in:

- Creative Practice in Music (extension pathway only) 1.5 years
- Environmental Studies
- Global Media
- International Relations.

**Where could it take you?**

Graduates from the Creative Practice in Music stream have various performance opportunities in public and private practice, and often undertake teaching in the private studio.

Environmental Studies graduates will be well equipped to take up senior policy roles in government and a variety of roles in environmental management for government agencies, industry and the not-for-profit sector.

Global Media graduates will be well equipped with both applied and theoretical understandings of media in a global environment, and ready to take on careers in a wide range of media-focused industries. The growing and diversified nature of these industries opens up a broad range of opportunities for graduates to utilise their skills and knowledge.

International Relations graduates find successful careers in numerous roles such as security adviser, political analyst, political reporter, foreign affairs reporter, intelligence analyst and within international organisations such as the United Nations.

Facilitate understanding

This two-year degree is for students fluent in both Chinese and English seeking a career as a professional interpreter and/or translator. It has received qualification endorsement of the National Accreditation Authority for Translators and Interpreters (NAATT).

**What will you do?**

In our Master of Arts (Interpreting, Translation and Transcultural Communication) you’ll:

- take courses in cultural and social studies
- explore approaches to cross-cultural communication
- build practical interpreting and translation skills
- undertake a professional internship.

**Where could it take you?**

When you graduate, you’ll be eligible to take NAATT’s Certified Interpreter and Certified Translator tests. From here you might become a medical, judiciary or literary translator. You could pursue interpreting roles in business, tourism, education or public relations. Perhaps you’ll work with government alongside foreign affairs ministers.

**Professional accreditation**

The degree is endorsed by the National Accreditation Authority for Translators and Interpreters (NAATT). Students who successfully complete this program will be eligible to undertake the Certified Interpreter and Certified Translator tests conducted by NAATT.

**MASTER OF ENVIRONMENTAL POLICY AND MANAGEMENT**

**CRICOS CODE 083482A**  
**CAMPUS North Terrace**

**DURATION** 2 years full-time  
**INTAKES** February, July

**INDICATIVE ANNUAL TUITION FEE** $37,000

adelaide.edu.au/degree-finder

A better chance for our environment

Responding effectively to environmental problems involves far more than applying scientific knowledge, or the “top-down” regulation of people and their environments. The future of our planet relies on informed and creative thinking around policy and practice. This kind of environmental expertise is critical and in high demand.

**What will you do?**

Our Master of Environmental Policy and Management addresses how the signature environmental issues of our time are to be managed. You will:

- choose between a coursework or research specialisation
- explore environmental governance and planning in depth
- apply your knowledge to real-world issues
- pursue electives aligned to your personal and professional interests
- undertake meaningful research projects.

**Where could it take you?**

You could set up environmental programs for the public to air their concerns or better understand issues that affect them. You might negotiate policy design with private businesses and government sectors to generate sustainable management systems. Or, perhaps you’ll research economic incentives or decentralised solutions for better environmental outcomes.
MASTER OF INTERNATIONAL SECURITY

Lead strategic security policy and response
The range and complexity of security challenges facing the world has never been greater—and it’s continually growing. Climate change, cyber-attack, violent extremism and inter-state rivalries are a constant threat to stability for nation-states and regions all over the globe.

Understanding and managing these critical and fluid situations is a matter of the highest priority, both in Australia and abroad, with significant implications for foreign policy and international development. Our Master of International Security prepares you to take the lead.

What will you do?
Studied over two years full-time, the degree will equip you with the specialist knowledge, awareness and skills to diagnose emergent cross-border security challenges and produce sustainable policy or practice solutions.

The program is designed and delivered by Adelaide’s internationally recognised academics, whose research informs Australian national security policy, international security organisations and non-government organisations (NGOs).

Highly interdisciplinary, it integrates knowledge from our politics, international relations, public policy, Asian studies and geography experts to provide you with:

• advanced skills in identifying and analysing emerging global security threats
• deep understanding of strategic cultures and unconventional conflict
• the opportunity to explore particular interests in cyber security, Indo-Pacific security, national security law, transnational crime, human rights, the impact of climate change, and more
• high-level research skills, through a major final-year research project.

Where could it take you?
You will emerge equipped for senior security strategy and policy-related roles in Australia, the region and overseas. You could find yourself analysing threats in a national security agency.

You might develop risk-mitigation strategies for an international non-government organisation operating in conflict zones. Or you might contribute to Indo-Pacific policy for Australia’s growing defence industry.

In whichever sector you find yourself, this degree will give you the knowledge and confidence you need to engage with the most complex security dilemmas.
**MASTER OF MEDIA (STRATEGIC COMMUNICATION)**

CRICOS CODE 0100934  CAMPUS North Terrace

DURATION 2 years full-time  INTAKES February, July

INDICATIVE ANNUAL TUITION FEE $37,500

[adelaide.edu.au/degree-finder](adelaide.edu.au/degree-finder)

*Lead and control strategic dialogue*

Organisations of all kinds are becoming increasingly media-savvy. Competition for audiences’ attention is ever more intense. The need for keenly targeted and strategically effective communication has never been greater—and demand for highly-skilled professionals with the judgement to lead it across multiple channels is following suit.

**What will you do?**

Conducted over two years full-time, our new Master of Media (Strategic Communication) will equip you to lead strategic communication planning, management and execution across all key channels: digital and social media, TV, radio and press.

You will graduate with:

• significantly enhanced strategic thinking, problem-solving and decision-making ability
• highly advanced skills in creating and tailoring strategic messaging for all key media channels
• deep understanding of the principles underlying media relationship-building
• awareness of key media channels’ unique consumption drivers
• insight into current and forecast global media trends.

You’ll also gain:

• opportunities for valuable professional experience and connections through an extended industry placement and ongoing mentoring
• high-level skills and understanding in risk and crisis communication and brand messaging.

And you’ll build outstanding research skills by doing a major second-year research project.

**Where could it take you?**

You’ll graduate with the knowledge, skills and depth of insight to lead strategic communication in any sector, anywhere in the world—from advanced manufacturing to professional services, and NGOs to FMCGs. You’ll be well equipped to guide the achievement of all organisational objectives: marketing, business development, community engagement and positive social change.

---

**MASTER OF IMMERSIVE MEDIA TECHNOLOGIES**

CRICOS CODE 0101745  CAMPUS North Terrace

DURATION 2 years full-time  INTAKES February, July

INDICATIVE ANNUAL TUITION FEE $37,000

[adelaide.edu.au/degree-finder](adelaide.edu.au/degree-finder)

*Lead a new generation of digital creativity*

Immersive media, such as virtual, mixed and augmented reality (VR, MR and AR respectively), is changing the way the world delivers and consumes content—both for entertainment and learning.

With demand for highly trained professionals in the area far outstripping supply, our new Master of Immersive Media Technologies will equip you to take advantage of this global career opportunity.

A cross-disciplinary degree blending theory with advanced practical skill development and research, it’s suitable for Immersive Media bachelor graduates wishing to advance their skills, or graduates in other fields seeking to change direction.

**What will you do?**

The degree is completed over 18 months to two years full-time, depending on your previous qualifications. It emphasises both the creative and technical elements required for success in the immersive media industry—including the entrepreneurial foundations of leadership.

Working across South Australia’s highest ranked Arts faculty* and drawing on expertise from our world-top-100 Computer Science school^, you will gain:

• comprehensive understanding of the global immersive media industry and its future markets and applications
• in-depth knowledge of immersive design theory and game-engine capabilities
• advanced technical skills in developing core digital assets, 3D modelling, sound engineering and programming
• a firm grasp of the physiological and ergonomic implications of immersive technology design and human-computer interfacing
• deep insight into the industry’s associated ethical considerations.

You will also undertake a substantial research project, providing the opportunity to not only extend your knowledge even further in a field of interest, but develop highly transferable critical thinking, problem-solving and communication skills.

**Where could it take you?**

You’ll graduate well prepared to play a senior role in immersive media anywhere in the world—whether in hands-on content development and simulation, or project leadership. From the health, education and entertainment sectors, to defence, science and mining.

*QS World University Rankings by Subject, 2019.
Through a combination of cutting-edge research and real-world experience, our postgraduate business and economics degrees will enhance your initiative, encourage creativity and give you advanced skills applicable to any profession.

With a large and diverse range to choose from, you’re sure to find an ideal qualification to help you start, broaden or diversify your career in business—whatever your previous undergraduate degree.

**Internationally recognised education quality**

Adelaide Business School and its Entrepreneurship, Commercialisation and Innovation Centre (ECIC) are accredited by the international Association to Advance Collegiate Schools of Business (AACS). AACS accreditation is the hallmark of excellence in business education, and has been earned by less than 5% of universities worldwide. Being an AACS accredited school also means you won’t have to sit the GMAT for entry into many postgraduate programs globally.

The Business School is home to Australia’s oldest MBA (55 years) and has close affiliations with many other professional bodies to ensure our degrees are practical and relevant in the real world. Our Financial Markets Lab also employs the software you’ll be using in the workplace so you graduate work-ready.

**Access vast expertise**

Through the University’s Centre for Global Food and Resources you can advance your knowledge and research skills in: food, water and environmental policy; behavioural economics; food security; food value chain analysis; post-harvest horticultural science; and agriculture’s role in growth and development.

Through our School of Economics you can develop theoretical and practical mastery of the global language—wherever you travel, your economics knowledge and skills will be immediately relevant.

The Institute for International Trade can deepen your understanding of current international trade, services and investment issues—including the negotiating environment’s political dynamics, and globalisation’s opportunities and challenges.

**Receive structured peer support**

Our Postgraduate Mentor Program will provide you with valuable social and academic support. Ensuring a smooth transition into postgraduate tertiary study, it will enhance your entire student experience by developing professional networks with peers, academics and potential employers.

**Meet the challenge**

The ECIC can hone your entrepreneurial instincts through its ThincLab business incubators and eChallenge New Venture accelerator program—a competition-based learning experience that develops strategic business thinking for early-stage enterprises.

You could also forge a team and take part in the UBS Investment Banking Challenge, where you’ll test if you have what it takes to work on a real-life mergers-and-acquisitions transaction and beat over 300 teams to take out the national final.

Visit ubs.com/auschallenge for more information.

**DEWI BATUBARA**

Master of Global Food and Agricultural Business

“University taught me to work hard towards my dream career, become an independent woman. I’ve had a lot of life-changing experiences here and wouldn’t trade them for anything. I really enjoy my time at University of Adelaide.”
**ADELAIDE MASTER OF BUSINESS ADMINISTRATION**

**CRICOS CODE**: 059067E  
**CAMPUS**: North Terrace  
**DURATION**: 4 trimesters  
**INTAKES**: January, May, September  
**INDICATIVE ANNUAL TUITION FEE**: $48,500

*adelaide.edu.au/degree-finder*

**Inspire greatness**

We are living in a world that is at times volatile, unexpected and ambiguous. It is essential that current and future leaders be equipped to deal with complex problems in a systemic, integrated and collaborative fashion. Our Adelaide Master of Business Administration (MBA) creates leaders who can deliver on the demands of an increasingly complex world, as demonstrated by our broad network of alumni in the business community.

**What will you do?**

The Adelaide MBA is student-focused, with maximum flexibility to suit the needs of busy professionals. You will:

- build professional relationships and networks
- gain advanced problem-solving, analytical and critical thinking skills
- develop strong leadership skills necessary for driving innovation and positive change within organisations
- cultivate a global outlook, strategic mindset, and the ability to see the bigger picture
- understand the management of critical business functions through coursework including finance, accounting, economics and marketing.

There are also opportunities for international exchanges at world-leading business schools.

**Professional accreditation**

The Adelaide MBA program holds a five-star rating from the Graduate Management Association of Australia and is delivered by the only business school in South Australia accredited by the international Association to Advance Collegiate Schools of Business (AACSB). The degree is also ranked second nationally by The Australian Financial Review’s ‘BOSS’ magazine and is recognised internationally as a Tier 1 MBA by CEO Magazine.*

* Rankings released in September 2019 and March 2019 respectively.

**MASTER OF ACCOUNTING**

**CRICOS CODE**: 089704K  
**CAMPUS**: North Terrace, Melbourne*  
**DURATION**: 2 years full-time  
**INTAKES**: North Terrace: February, July  
Melbourne: March, July, November  
**INDICATIVE ANNUAL TUITION FEE**: $46,000

*adelaide.edu.au/degree-finder*

**Focus your career in accounting**

Modern economies depend on good accounting. We need experts who understand and can explain financial and social business environments to others. Our Master of Accounting offers an intensive two-year path to careers in accounting, financial management, auditing and business advising.

**What will you do?**

- Learn the fundamentals of financial and management accounting.
- Study advanced accounting concepts and techniques.
- Take courses in taxation and auditing.
- Explore relevant business areas such as economics, finance, information systems and business law.
- Work on a large-scale applied research project.

**Where could it take you?**

Accounting graduates are in demand and enjoy both stability and variety. Due to changes in reporting practices, career opportunities are increasing across public and private sectors.

You might work with a charity, in education or for the government. Perhaps you’ll become chief financial officer at a company or manage budgets in the sporting world. You could even unmask financial deceptions as a forensic accountant.

**Professional accreditation**

Our Master of Accounting satisfies the academic requirements for associate membership of CPA Australia, and Chartered Accountants Australia and New Zealand.

* Melbourne campus is currently seeking accounting accreditation.

---

**MASTER OF ACCOUNTING AND FINANCE**

**CRICOS CODE**: 053888B  
**CAMPUS**: North Terrace, Melbourne*  
**DURATION**: 2 years full-time  
**INTAKES**: North Terrace: February, July  
Melbourne: March, July, November  
**INDICATIVE ANNUAL TUITION FEE**: $46,000

*adelaide.edu.au/degree-finder*

**The right decision every time**

Combined knowledge in accounting and finance has never been more in demand. There’s a wealth of career opportunities for employees who can draw upon and synthesise the two. Our Master of Accounting and Finance offers an intensive two-year path to financial expertise and a professional accounting qualification.

**What will you do?**

- Explore financial and management accounting, auditing, and taxation.
- Study management theory, business maths, business law, and economics.
- Learn how financial managers make investment and financing decisions.
- Understand how financial instruments and capital markets are used to enhance returns and manage risks.
- Build critical thinking, communication and leadership skills.

**Where could it take you?**

You’ll graduate career-ready and able to adapt to the demands of a global economy. You might secure a job as a company auditor or finance manager. You could take on an accounting role in a flourishing organisation. Perhaps you’ll consult on corporate mergers and acquisitions.

**Professional accreditation**

- Our Master of Accounting and Finance program satisfies the requirements for associate membership of CPA Australia, and Chartered Accountants Australia and New Zealand.
- The University of Adelaide is recognised as a CFA (Chartered Financial Analyst) Program Partner through the Master of Accounting and Finance degree. This signals to employers and the marketplace that the Adelaide Business School’s curriculum is closely tied to professional practice and well suited to preparing students for employment in the finance and investment industry.
- Graduates will be eligible for listing on the Australian Securities and Investments Commission (ASIC) registry as RG146-compliant for several specialised fields of finance.

* Melbourne campus is currently seeking accounting accreditation.
MASTER OF ACCOUNTING AND MARKETING

CRICS CODE 063093B  CAMPUS North Terrace
DURATION 2 years full-time  INTAKES February, July
INDICATIVE ANNUAL TUITION FEE $46,000

A potent combination
Accounting and marketing are key to good business strategy. The two areas work together to please customers and create value in both the short and long term. In a complex business world, broad perspectives and skill sets are invaluable. Our Master of Accounting and Marketing sets you up for success and employability across the professional realm.

What will you do?
This intensive program meets the needs of entrants from both relevant and non-relevant fields. You will:
• explore economic concepts, theories and analytical techniques
• learn the fundamentals of financial and management accounting
• study future-oriented marketing concepts
• undertake a marketing research project.

Where could it take you?
You might use your marketing skills to promote your own accounting business. You could balance costs and evaluate campaign impact for major fashion or tech brands. Perhaps you’ll cook up international sales strategies for winemakers or start your own enterprise.

Professional accreditation
Our Master of Accounting and Marketing satisfies the requirements for associate membership to CPA Australia, and Chartered Accountants Australia and New Zealand.

What will you do?
• Hone your knowledge in advanced econometrics, micro and macroeconomics.
• Partner with an academic supervisor who’ll support and encourage your intellectual development.
• Undertake research projects and complete a major thesis.

Where could it take you?
This program offers a direct pathway into research-based degrees such as the Doctor of Philosophy (PhD) or the Master of Philosophy (M.Phil) in Economics. You’ll also be ready to move into jobs with private and public employers that ask for high level economic research skills. You might design policies to distribute water and natural resources between farmers, industry and consumers. You could prepare interest rate recommendations for central banks, evaluate development aid policies or advise on the impact of trade agreements on jobs, investment and wages. Perhaps you’ll look into the structure of the health care system or the economic impact of carbon taxes.

MUHAMMAD AZHAR FRIDAUS
Master of Accounting and Finance

“...The university helps me gain in-depth understanding of the most current accounting practices and financial analysis.”
Be a leader of agribusiness

Based in the heart of the Australian food, wine and agriculture industry, our Master of Agribusiness program is the first in Australia to provide the elite level of education required to create future food and agribusiness leaders through its unique mix of business fundamentals, practical experience and global connections.

With growing global populations and climate challenges impacting our ability to feed the world sustainably, our master degree prepares you to meet these challenges, and equips you for leadership and problem-solving in an ever-expanding and increasingly complex global marketplace.

What will you do?

Our Centre for Global Food and Resources has conducted extensive research with some of Australia’s leading agribusiness firms to develop a program that effectively integrates academic knowledge with industry application. This degree will help you refine the practical research, advisory, and business skills necessary for a successful career in food and agricultural related industries.

You will
• complete a capstone research project that lets you showcase the skills you have learned across the program
• have access to two elective options that give you the flexibility to tailor your degree to your interests and career objectives, these electives including a full range of internship options with leading agribusiness companies.

Where could it take you?

The agribusiness value chain is one of Australia’s largest and most important industry sectors. Recognised by the Australian Industry Skills Councils as a priority skill, agribusiness is forecast to continue providing positive labour outlooks for years to come.

With reports indicating there have been as many as six agri-business job openings per graduate, favourable employability outcomes exist for you in the local, national, and global value chain networks, including key areas such as: food retailers, processors, traders producers as well as a full range of service providers including financial agencies, agricultural consultancies and input and support suppliers.

Take on economic challenges

Economists analyse the decisions of individuals, governments and businesses and their impact on our lives and welfare. Armed with these insights, they can give expert advice on business strategy, understand the background behind the news, influence public policy for a better world and make informed personal financial decisions.

What will you do?

Our Master of Applied Economics is suited to students with or without prior knowledge in the field. You will:
• hone your understanding of incentives, opportunity costs, trade-offs, supply and demand, and efficiency
• apply economic concepts to a range of fields—from public policy and finance to international trade and natural resources
• practise advanced techniques for analysing and managing data
• explore economic growth and development and the organisation of markets.

Where could it take you?

Economics graduates go on to all sorts of exciting careers and research pathways. You might assess telecommunications mergers as an economic analyst, or reform regulatory frameworks for public forests as a policy officer with state government. You could work on the stock market, in an aid agency researching the best return on aid donations or in banking and financial services. Perhaps you’ll use your analytics and modelling skills to develop optimal strategies for efficient HR recruitment.

Stand out from the crowd

The financial realm is complex. Navigating it successfully requires practical experience and high levels of competence. Our Master of Applied Finance secures you with an advanced suite of financial skills and a competitive edge in the industry.

What will you do?

This intensive degree focuses on managerial effectiveness and best practices for financial problem-solving. You will:
• take core accounting, economics and finance courses
• build practical and real-world skills through five applied courses
• pursue electives according to your interests and career goals
• learn a wide range of advanced analytical tools for financial decision-making
• build strong communication and leadership skills.

Where could it take you?

A Master of Applied Finance sets you up for success in the finance sector. You could be a business manager in New York, London, Shanghai or Hong Kong or become an investment consultant or financial analyst in Sydney. Perhaps you’ll pursue a senior role in commercial banking.

Professional accreditation

The University of Adelaide is recognised as a CFA (Chartered Financial Analyst) Program Partner through the Master of Applied Finance degree. This signals to employers and the marketplace that the Adelaide Business School’s curriculum is closely tied to professional practice and well suited to preparing students for employment in the finance and investment industry.
Make your big ideas a reality

Entrepreneurs and investors are necessary in all areas and industries—from science and health to media, arts and education. They take the risks needed to start up new businesses and social ventures. This intensive 1.5-year degree sets you up to build sustainable organisations, grow wealth for stakeholders and make positive impacts in your community.

What will you do?

Our Master of Applied Innovation and Entrepreneurship gives you practical knowledge, access to networks and a growth mind-set for success. You will:

- build tools for assessing and implementing ambitious ideas and ventures
- learn how to create supportive environments that foster and enable innovation
- examine entrepreneurial investment and management practices
- create a business plan for a real-world venture through a 6-unit research project.

Where could it take you?

You might shine a spotlight on an unexpected renewable energy source. You could explore ecotourism or virtual reality. Perhaps you’ll invest in a world-changing climate change strategy. You might coordinate civil engineers and help start-ups realise their dreams. You could organise major sporting events or coordinate living arts festivals. You might manage megaprojects in healthcare, science, manufacturing, catering, entertainment or the defence sector. Perhaps you’ll lead a marketing team in Silicon Valley or oversee the development of a multi-storey tower in Dubai.

Professional accreditation

The University of Adelaide is a Registered Education Provider for the Project Management Institute (PMI®) and approved by PMI® to issue Professional Development Units for its approved training courses. PMI is a registered mark of the Project Management Institute, Inc.

Scale up

Project management is about delivering successful results for business, government and the community. It requires passion, resolve and vision. This intensive degree will set you up to manage projects at whole new scales and levels of complexity.

What will you do?

Our Master of Applied Project Management places a strong emphasis on holistic and systems-based project management. You will:

- learn scalable project management concepts, methodologies and tools
- build your understandings around world-leading practices (PMBOK® Guide and PRINCE2™)
- confidently apply your learning to meet professional and organisational goals
- develop the leadership skills required for large-scale projects
- undertake significant research projects.

Where could it take you?

You could organise major sporting events or coordinate living arts festivals. You might manage megaprojects in healthcare, science, manufacturing, catering, entertainment or the defence sector. Perhaps you’ll lead a marketing team in Silicon Valley or oversee the development of a multi-storey tower in Dubai.

Professional accreditation

The University of Adelaide is a Registered Education Provider for the Project Management Institute (PMI®) and approved by PMI® to issue Professional Development Units for its approved training courses. PMI is a registered mark of the Project Management Institute, Inc.
Lead others to greatness amidst complexity

We’re living in a world that’s frequently volatile, unexpected and ambiguous. It’s essential that current and future business leaders are able to rapidly understand and solve complex problems in a systematic, integrated way.

Success demands the ‘leadership mindset’. And with our new ‘pre-experience’ Master of Business Administration (Emerging Leaders), you can start acquiring it immediately after graduating from any bachelor degree—and complete your studies in as little as 12 months.

What will you do?
The Emerging Leaders MBA is part of the Adelaide Business School’s MBA suite, and is designed for aspiring leaders and young entrepreneurs looking to fast-track their pathway into business management. This program is normally completed over 12 months so is ideal for those coming straight from a Bachelor’s degree.

The degree will equip you with:
• mastery of complex leadership concepts and skills—from identifying technical and human challenges, to mobilising collaborative action in different cultures and environments
• highly advanced strategic thinking skills—the ability to see the bigger commercial and societal picture and make decisions with a truly global outlook
• high-level problem-solving, research and analysis, critical thinking and self-reflection skills
• outstanding management capabilities in critical business functions, including finance, accounting, economics, marketing and business law.

You’ll also:
• partner with an experienced industry mentor to plan and develop a sustainable entrepreneurial enterprise through the Australian eChallenge or Tech eChallenge
• build extensive professional relationships and networks
• have the opportunity to undertake international exchanges at world-leading European business schools.

Where could it take you?
The Master of Business Administration (Emerging Leaders) will prepare you to lead projects, teams and, ultimately, organisations all over the world. You could even take your destiny entirely in your own hands by launching your own business.

Lead market-shaping innovation

Well-honed entrepreneurial skills are critical for all professionals in today’s volatile global workplace. But those who aspire to lead must take them to an entirely different level. The ability to systematically inspire and drive an organisation-wide culture of innovation will give you—and your enterprise—a near future-proof competitive advantage. Our Master of Business Administration (Entrepreneurship) sets you on that path and is available upon completing any bachelor degree.

What will you do?
The MBA (Entrepreneurship) is part of the Adelaide Business School’s MBA suite, and can be completed over two years. The degree will equip you with:
• a deep understanding of the entire entrepreneurial process—from opportunity identification and concept development, to new-product launches and expansion
• highly advanced strategic thinking skills—the ability to see the bigger commercial and societal picture and make decisions with a truly global outlook
• high-level problem-solving, analytical, critical thinking and self-reflection skills
• a firm grasp of the principles of adaptive leadership, systems thinking, organisational behaviour, change management and social enterprise
• outstanding management capabilities in critical business functions, including finance, accounting, economics and marketing.

You’ll also:
• build extensive industry and professional relationships and networks
• receive invaluable ongoing industry mentoring from high-profile Adelaide MBA alumni
• have the opportunity to undertake international exchanges at world-leading European business schools.

Where could it take you?
The MBA (Entrepreneurship) will prepare you to lead innovation in all kinds of senior and leadership positions within your chosen industry. You could head a specialist product or service development team; progress to leading innovation in a national division; and in time drive companies’ visions as a CEO or managing director. You could even take your destiny entirely in your own hands by launching your own business.
INDICATIVE ANNUAL TUITION FEE $46,000
2 years full-time
DURATION

The MBA (International Trade and Development) is part of the Adelaide Business School's MBA suite and can be completed over two years. The degree will equip you with:

- a deep understanding of global trade drivers—economic, geopolitical and cultural—and the levers of power
- a thorough working knowledge of best-practice community development principles
- highly advanced strategic thinking skills—the ability to see the bigger commercial and societal picture and make decisions with a truly global outlook
- high-level problem-solving, analytical, critical thinking and self-reflection skills
- a firm grasp of the principles of adaptive leadership, systems thinking, organisational behaviour, change management and social enterprise
- outstanding management capabilities in critical business functions, including finance, accounting, economics and marketing.

Where could it take you?
The MBA (International Trade and Development) will prepare you to move rapidly into senior management and leadership roles in the private, public and not-for-profit sectors. You could tailor a multinational's market development strategies for specific global regions; mastermind a non-government organisation's community-building programs in developing countries; or lead official delegations to advance your country's interests at the WTO.

You'll also:
- build extensive industry and professional relationships and networks
- receive invaluable ongoing industry mentoring from high-profile Adelaide MBA alumni
- have the opportunity to undertake international exchanges at world-leading European business schools.

What will you do?
The MBA (International Trade and Development) will prepare you to move rapidly into senior management and leadership roles in the private, public and not-for-profit sectors.

Where could it take you?
The MBA (International Trade and Development) will prepare you to move rapidly into senior management and leadership roles in the private, public and not-for-profit sectors.

What will you do?
The MBA (Marketing) will prepare you to lead strategic brand and sales growth.
You’ll also:
• build extensive industry and professional relationships and networks
• receive invaluable ongoing industry mentoring from high-profile Adelaide MBA alumni
• have the opportunity to undertake international exchanges at world-leading European business schools.

Where could it take you?
The MBA (Project Management) will prepare you to move rapidly into project leadership roles within your chosen industry. You could head a unit overseeing major infrastructure upgrades or installations; lead a team assessing the viability of new market entries; or manage the organisation-wide implementation of new mission-critical software.

What will you do?
The MBA (Project Management) is part of the Adelaide Business School’s MBA suite and can be completed over two years. The degree will equip you with:
• a deep understanding of the entire project management process—from cost control and contractor management, to scheduling and legal considerations
• a thorough working knowledge of all internationally recognised project management methodologies
• highly advanced strategic thinking skills—the ability to see the bigger commercial and societal picture and make decisions with a truly global outlook
• high-level problem-solving, analytical, critical thinking and self-reflection skills
• a firm grasp of the principles of adaptive leadership, systems thinking, organisational behaviour, change management and social enterprise
• outstanding management capabilities in critical business functions, including finance, accounting, economics and marketing.

You’ll also:
• build extensive industry and professional relationships and networks
• receive invaluable ongoing industry mentoring from high-profile Adelaide MBA alumni
• have the opportunity to undertake international exchanges at world-leading European business schools.

Where could it take you?
The MBA (Wine Business) will prepare you to move rapidly into project leadership roles within your chosen industry. MASTER OF BUSINESS LAW

CRICOS CODE 081156J CAMPUS North Terrace
DURATION 2 years full-time INTAKES February, July
INDICATIVE ANNUAL TUITION FEE $44,500
adelaide.edu.au/degree-finder

A competitive edge in business
Want to bolster your business skills with legal expertise?
The ability to understand, analyse and use legal information can be critical for strength and longevity in the business realm. Postgraduate law courses provide an overview of legal issues within a contemporary business context.

What will you do?
Our Master of Business Law caters to the needs of busy professionals. The majority of courses are taught intensively over one or two weeks and some include evening and weekend sessions. Intakes occur in late February and late July. You will:
• learn about different laws affecting your business sector
• build legal communication skills
• undertake a substantial research project
• learn best practices for dealing with legal and regulatory challenges
• broaden your networks through the University’s Lex Salus, Next Steps and Law Students’ Society events.

Note: Applicants must hold an undergraduate degree and entry is competitive. Selection is based on academic merit and usually requires a credit average or better.

There is also available a Graduate Certificate in Business Law or Graduate Diploma in Business Law which can lead into the Master of Business Law.

MASTER OF BUSINESS RESEARCH

CRICOS CODE 056947G CAMPUS North Terrace
DURATION 1.5 years full-time INTAKE February
INDICATIVE ANNUAL TUITION FEE $46,000
adelaide.edu.au/degree-finder

Contribute to a better business future
Curious about trends and changes in the commercial realm? Business-minded but thinking bigger than the nine-to-five?
Our Master of Business Research is designed for graduates of a business coursework master degree who want to start on a research pathway or reinforce their edge in the labour market.

What will you do?
There are many different areas of business you can research during your study. You might investigate organisational resilience or mentor-protégé relationships. You could research machine-learning classification techniques and how they’re used to predict movement in the stock market. You might be interested in consumer behaviour, marketing strategies in the wine industry or the impact of cryptography on audit procedures. Perhaps you’ll examine management practice in family businesses or women’s experiences in leadership positions.

Over the course of the program you will:
• discover how to do meaningful research
• plan and conduct your research with high levels of independence, guided by an academic mentor who’ll support and encourage your intellectual development
• develop skills for problem-solving, analytical and critical thinking, project management, self-management and communication
• drive innovation and progress in an area you’re passionate about
• become part of the academic community and build your professional and global networks
• complete a dissertation comprising 33 percent of the program.

Where could it take you?
Completion of this degree satisfies the entry requirements for a PhD but many employers will also value the research skills, networks and experiences you can draw from as a graduate of our master program.
**MASTER OF COMMERCE BY COURSEWORK**

CRICOS CODE 081151C  
CAMPUS North Terrace  
DURATION 2 years full-time  
INTAKES February, July  
INDICATIVE ANNUAL TUITION FEE $46,000

adelaide.edu.au/degree-finder

**Business your way**

The University of Adelaide’s Business School has been pushing boundaries in business education for over 115 years. We have a wide range of innovative postgraduate courses designed to build advanced business skills and knowledge.

Our Master of Commerce provides an opportunity to design an individual study program tailored to your needs, interests and career goals.

**What will you do?**

Your degree can include courses from a variety of different disciplines. You will:

• enrol in five core topics
• choose eight electives—from Strategic Marketing or Understanding Consumers to Income Taxation or Derivatives
• undertake industry internships and placements subject to approval
• complete three research courses.

**Where could it take you?**

If your strengths lie in understanding and working with people you might pursue marketing or project management. You could put your skills to use championing early-stage start-ups. Perhaps you’ve a knack for patterns and numbers that will see you move into corporate accounting or market research.

---

**MASTER OF FINANCE**

CRICOS CODE 081703M  
CAMPUS North Terrace, Melbourne  
DURATION 2 years full-time  
INTAKES North Terrace: February, July  
Melbourne: March, July, November  
INDICATIVE ANNUAL TUITION FEE $46,000

adelaide.edu.au/degree-finder

**Focus on finance**

Finance professionals are pragmatic, quick-thinking and ambitious. They’re skilled problem-solvers who stay informed and get results.

With advanced courses in research, funds management and corporate policy, our Master of Finance offers a competitive edge in the finance world.

**What will you do?**

• Study Australian and international financial markets in depth.
• Learn about derivative assets and their specific markets’ operation.
• Explore different areas of the finance industry according to your interests and career goals.
• Analyse and interpret developments in financial practice.
• Work on a large-scale applied research project.

**Where could it take you?**

You might work in commercial banking as a sales associate, trust officer or loan officer. You could advise on investment decisions or help people secure their dream homes. Perhaps you’ll be a capital market dealer or manage a hedge fund.

**Professional accreditation**

This degree will provide you with an excellent grounding for pursuing Chartered Financial Analyst (CFA) qualifications. Its courses capture large elements of the CFA curriculum.

---

**MASTER OF FINANCE AND BUSINESS ECONOMICS**

CRICOS CODE 056498F  
CAMPUS North Terrace  
DURATION 2 years full-time  
INTAKES February, July  
INDICATIVE ANNUAL TUITION FEE $46,000

adelaide.edu.au/degree-finder

**Multiply your expertise**

Our Master of Finance and Business Economics is suited to business or economics graduates seeking in-depth advancement in their area. It also meets the needs of graduates with related degrees looking to comprehensively adapt to the fields of economics and finance.

**What will you do?**

While the degree includes study in both areas, students must specialise in one. Depending on your goals and interests you will:

• study wealth management and financial modelling in depth
• learn analytical tools for financial decision-making
• analyse theoretical and applied aspects of modern economics and econometrics
• discover advanced techniques for analysing and managing data
• explore matters relating to the growth and stability of the whole economic system.

In our finance specialisation you’ll gain necessary educational grounding for further professional studies towards the Chartered Financial Analyst qualification.

**Where could it take you?**

You might be a high-stakes stockbroker, a banker, a data analyst in a government agency or a health economist with a pharmaceutical group. You could be a demand planner in a big wine company. Perhaps you’ll help people secure their dream homes or retirement goals as a financial planner.

**Professional accreditation**

In our finance specialisation you’ll gain necessary educational grounding for further professional studies towards the Chartered Financial Analyst qualification. This degree is also recognised by the Australian Securities and Investments Commission (ASIC) registry as RG146-compliant for several specialised finance fields.
Get a competitive edge in the food and agriculture industries

Base yourself in Australia’s agricultural hub and be alongside world-class researchers, primary producers and agribusiness leaders, discovering the economic, policy, environmental and social issues affecting agribusinesses and global food systems.

What will you do?

Our Master of Global Food and Agricultural Business will help you develop the conceptual and practical skills necessary for management decision-making, marketing, finance, policy analysis and problem-solving in an ever-expanding and increasingly complex global food and agricultural marketplace.

To complement the fundamental competencies developed through the core courses, you will have the opportunity to:

• customise the program to an area of your interest and career objectives through the available elective units
• develop practical skill sets by completing a full range of internship options with leading agribusiness companies
• undertake a research project that will analyse real-world food and agricultural business problems, issues, or strategic opportunities.

Where could it take you?

The Master of Global Food and Agricultural Business provides you with the necessary conceptual and practical skills to solve global challenges and start a rich career in food and agriculture-related industries.

Whether you are interested in the public or private sector, the program opens up a wide number of possible career paths, including government departments, research centres, international funding agencies, food retailers, financial agencies, agricultural consultancy services, and non-government organisations.
MASTER OF INNOVATION AND ENTREPRENEURSHIP

CRICOS CODE 089735C CAMPUS North Terrace

DURATION 2 years full-time

INDICATIVE ANNUAL TUITION FEE $44,500

See the world for what it could be

Entrepreneurs and investors are necessary in all areas and industries—from science and health to media, arts and education. They take the risks needed to start up new businesses and social ventures.

This rigorous two-year degree sets you up to build sustainable organisations, grow wealth for stakeholders and make positive impacts in your community.

What will you do?

Our Master of Innovation and Entrepreneurship gives you practical knowledge, access to networks and a growth mindset for success. In core courses you will:

• build tools for assessing and implementing ambitious ideas and ventures
• learn how to create supportive environments that foster and enable innovation
• examine entrepreneurial investment and management practices
• complete a six-unit research project.

There’s also a research track available, designed to qualify you for higher degrees by research. In this pathway you’ll complete a 12-unit project.

Where could it take you?

You might shine a spotlight on an unexpected renewable energy source. You could explore ecotourism or virtual reality. Perhaps you’ll invest in a world-changing approach to everyday healthcare. This degree is also suitable if you want to be a corporate intrapreneur, driving innovative products and services for employers. You could even find alternative career pathways in government and not-for-profit sectors.

adelaide.edu.au/degree-finder

A global perspective

International business managers help different types of organisations to benefit from the complex and dynamic forces of globalisation.

The University of Adelaide takes a practical approach to equip students from all around the world with the skills needed to manage these complexities and impact the international market.

What will you do?

With a combination of foundation and specialised courses, this degree is suited to entrants from non-business backgrounds. A shorter, 1.5 year option is available for entrants with an undergraduate degree in related fields. These might include accounting, business management, human resources management, banking and finance.

You will:

• learn to spot and seize international business opportunities, get the best out of the culturally diverse workforce, negotiate across cultures, and deliver value to different types of organisations
• benefit from diverse cohorts and small class environments
• build advanced business, communication and leadership skills
• expand your cultural awareness.

You’ll also gain real-world experience through one of the following:

• a domestic internship with an international project
• an international internship
• an international study tour.

Where could it take you?

Your role on the global stage is dictated by your own ambitions. You might advance to a leadership position within a multi-national organisation. You could land a management role in import and export trading. Perhaps you’ll even end up working in the diplomatic corps or a government body that looks after international trade and investment.

INDICATIVE ANNUAL TUITION FEE $46,000

INDICATIVE ANNUAL TUITION FEE $44,500

achieve sustainable economic development

In a conflicted and inequitable world, practical and informed steps towards positive growth are key. Global collaboration is needed to secure a stable, positive future for our planet.

Our Master of International Trade and Development (MITD) equips you for leading roles in areas related to economic growth and development. We help you build the knowledge, networks and capacity to enable change.

What will you do?

• Gain practical insights into the political dynamics of trading environments.
• Understand the roles of key domestic, regional and global players.
• Consider opportunities and challenges facing businesses and economies in a globalised world.
• Build advanced legal and commercial knowledge.
• Learn negotiation and leveraging strategies through case-based learning experiences.

Where could it take you?

Your role on the global stage is dictated only by your own ambitions. You could find yourself at a world summit, coming up with strategies for achieving long-term international goals. You might look after your community’s interests as a local MP. Perhaps you’ll be an international marketing manager, investment consultant, trade agreements negotiator, corporate export director or economic researcher.

See the world for what it could be.

MASTER OF MARKETING

A competitive edge in marketing
Marketing experts are strategists, innovators and communicators. They craft irresistible experiences, delight customers and create value.

Our Master of Marketing is an advanced degree designed to skyrocket students into senior marketing positions.

What will you do?
This intensive program will challenge marketing and non-marketing undergraduates alike. You will:
• explore future-oriented marketing concepts
• learn to make informed finance and accounting decisions
• develop advanced strategic thinking and leadership skills
• apply cutting-edge analytical tools and techniques
• pursue electives aligned to your interests and career goals—from Social Entrepreneurship to Direct Wine Marketing
• gain deep insights into international pressures and global markets.

Where could it take you?
Our graduates go on to exciting marketing careers in business, government, community service and not-for-profit organisations. You could shape the future of global food, fashion or tech brands. You might analyse consumer data and suggest sales strategies based on your research. Perhaps you’ll connect with partners in public relations or represent the athletic elite as a sports agent. Your role in today’s marketing environment is dictated by your own ambitions.

Professional accreditation
• Graduates may gain partial credit towards the Australian Marketing Institute’s (AMI) Certified Practising Marketer (CPM) qualification.
• Completing four prescribed courses also allows students to apply for the Australian Market and Social Research Society’s (AMSRS) Certificate in Market Research.

MASTER OF PROFESSIONAL ACCOUNTING

Fast track your career in accounting
Modern economies depend on good accounting. We need experts who understand and can explain financial and social business environment to others.

Our Master of Professional Accounting offers an intensive 1.5-year path to careers in accounting, financial management, auditing and business advising.

What will you do?
• Learn the fundamentals of financial and management accounting.
• Study advanced accounting concepts and analytical techniques.
• Take courses in taxation and auditing.
• Explore relevant business areas such as economics, finance, information systems and business law.
• Consider the role of technology and ways to build positive client relationships.

Where could it take you?
Accounting graduates are always in demand and enjoy both stability and variety. Due to changes in reporting practices, career opportunities are increasing across public and private sectors. You might work with a charity, in education or for the government. Perhaps you’ll become chief financial officer at a company or manage budgets in the sporting world. You could even unmask financial deceptions as a forensic accountant.

Professional accreditation
Our Master of Professional Accounting satisfies the requirements for associate membership of CPA Australia, and Chartered Accountants Australia and New Zealand.

MASTER OF WINE BUSINESS

A competitive edge in a global marketplace
Home to some of the most innovative and revered winemakers in Australia, South Australia is the ideal location for you to study how business operates in the wine industry.

This intensive degree sets you up to have a positive impact on the entire wine value chain; a capability demanded of wine business professionals worldwide.

What will you do?
Our Master of Wine Business is designed for both current and aspiring wine business owners, marketers, managers, winemakers, sommeliers, and staff. You will:
• benefit from flexible study modes
• build working knowledge and skills in both winemaking and viticulture
• learn about direct wine marketing
• understand how to evaluate domestic and international markets
• study the foundations of wine science
• explore legal aspects of the business
• undertake a six-unit research project.

There are also internship opportunities across South Australia’s booming wine industry.

Where could it take you?
You might manage a cellar door or an up-and-coming winery. You could work in marketing, sales, tourism or events, delighting customers and crafting irresistible experiences for wine lovers. Perhaps you’ll export South Australia’s best or take on a strategic role in a regional governing body.

COMPUTER SCIENCE / IT
Every day, computer scientists work on software that pushes the limits of human endeavour in areas as varied as disease treatment, weather prediction, cyber security, international finance and space exploration.

As a University of Adelaide computer science graduate, you will be equipped to drive that transformation—to effectively program the future.

Our innovative degrees are at the forefront of the digital technologies revolution. We have strong links with industry. And we’re internationally renowned in multiple areas: computer vision, distributed and high-performance computing, evolutionary systems, formal methods and software architectures.

Learn from outstanding academic staff
The University’s award-winning educators and world-leading researchers provide an exciting, innovative and comprehensive education environment. They also draw on years of education and industry experience to deliver invaluable guidance and mentorship.

Be nationally accredited and globally recognised
All our computer science degrees are accredited by the Australian Computer Society. They also provide the necessary academic requirements for membership of the global Institute of Electrical and Electronic Engineers and the Association for Computing Machinery. Your University of Adelaide qualification can take you anywhere.

Graduate career-ready
You will emerge as a highly skilled, adaptable graduate, ready to design computer-based solutions to many of society’s challenges. You’ll possess a diverse suite of valuable skills sought-after by employers throughout the economy—from finance, defence and information technology, to scientific research, logistics and teaching.

SOHAIB IRSHAD
Master of Computing and Innovation

“One of the most enjoyable things about studying at the University of Adelaide is the broad networking experience it provides. From academic to social events, you get to meet amazing new people with rich history and culture.”
### Masters of Computer Science

**CRICOS CODE 064441A**

**CAMPUS North Terrace**

**DURATION 2 years full-time**

**INTAKES February, July**

**INDICATIVE ANNUAL TUITION FEE $44,000**

[adelaide.edu.au/degree-finder](adelaide.edu.au/degree-finder)

**Experiment and innovate in computer science**

Our Master of Computer Science has a major research component and projects are supervised by leading academics from world-class research groups. Their fields of expertise include computer vision, evolutionary computation, distributed systems, computer networks, high-performance computing, formal verification and systems modelling.

**What will you do?**

- Build advanced technical knowledge and skills.
- Learn to design and construct large software systems.
- Propose and conduct an advanced research project.
- Deliver a report and public presentation on your work.

**Where could it take you?**

High-performing graduates may be able to proceed to further research study. You could take gaming environments to a whole new level. You could break ciphers or automate cloud security analyses. Perhaps you’ll develop interfaces for the visually impaired. A master degree will give you a competitive edge in all sorts of exciting computer science careers.

**Professional accreditation**

The Master of Computer Science is accredited by the Australian Computer Society (ACS). It is designed to provide a professional qualification in computing and information technology. It also provides the necessary academic requirements for membership of the Institute of Electrical and Electronic Engineers (IEEE) and the Association for Computing Machinery (ACM).

**A competitive edge in computing**

Information technology (IT) professionals are faced with new challenges every day. Technical computer science skills are no longer all that’s needed to get the job done. Our Master of Computing and Innovation is designed to build the communication, project management and innovation skills needed to thrive in a growing industry.

**What will you do?**

- Undertake a specialised introductory IT program in your first semester.
- Learn C++ language and programming.
- Understand fundamental data structures and computer systems.
- Benefit from the guidance and mentorship of highly experienced, award-winning educators and world-leading researchers.
- Learn to design and construct large software systems.
- Build management and innovation skills through core courses.
- Apply your learning in a significant project.

This degree will still be invaluable if you already have computer science qualifications. We’ll simply vary your program to reflect your existing knowledge.

**Where could it take you?**

You’ll graduate ready to take on a wide range of IT-based roles. You could be a computer scientist, web developer or tech entrepreneur. You might manage IT contracts and projects in the government sector. Perhaps you’ll work in marketing, selling exciting new IT products to the public.

**Professional accreditation**

The Master of Computing and Innovation is accredited by the Australian Computer Society (ACS). **DURATION 2 years full-time**

**INTAKES February, July**

**INDICATIVE ANNUAL TUITION FEE $45,000**

[adelaide.edu.au/degree-finder](adelaide.edu.au/degree-finder)

**Defend the digital domain**

Governments and organisations all over the world are actively seeking cyber security experts with advanced technical skills and an understanding of the social and legal contexts of the digital world. The need is urgent. It spans all sectors. And your pathway is here.

**What will you do?**

Our Master of Cyber Security will equip you to lead cutting-edge cyber security programs—for governments, law enforcement agencies, companies and NGOs alike.

There’s a flexible blend of online and intensive on-campus learning, with mentoring from world-class cyber security researchers.

You will gain:

- a deep, interdisciplinary understanding of complex cyber security needs and considerations across multiple industries
- highly advanced technical skills and the ability to apply them in real-world contexts
- a sophisticated grasp of cyber security policy and governance considerations—social, legal and commercial
- the ability to critically analyse and evaluate relevant data and technology
- the refined interpersonal skills to effectively communicate issues and strategies to a range of stakeholders.

You’ll also take specialist courses in your chosen major—Cyber Security Management or Secure Software Development. And you’ll apply and expand your learning through a major research project, or industry-based practice.

**Where could it take you?**

To the discipline’s highest levels. You could develop strategies to secure health providers’ patient data. Or protect social media users’ personal details. Perhaps you’ll prevent cyber theft for global financial institutions. Or ensure undercover police officers’ identities aren’t compromised. Wherever your interests lie, your expertise will be in demand.
A competitive edge in data science
Big data and data science is an emerging area of necessity for many fields—from science and engineering to economics and digital humanities.
Our Master of Data Science explores how data is changing our world. We give you the knowledge and skills to contribute in the areas you care about.

What will you do?
- Undertake a specialised introductory IT program in your first semester.
- Build core skills in programming, mathematics and data science.
- Learn how data science techniques can drive changes in organisations, industries and communities.
- Advance your abilities in chosen areas of interest.
- Combine and apply your learning in a significant project.

Where could it take you?
You might help big businesses use data to make more informed decisions in the face of uncertainty. You could analyse data from apps to drive UX updates. Perhaps you’ll come up with innovative management systems as a data architect.

Harness AI to shape the future
Artificial intelligence (AI) and its component discipline machine learning now present the world’s single greatest commercial opportunity. Research indicates that by 2030 it could increase global GDP by up to 14%—a staggering US$15.7 trillion gain.
Employment prospects are equally outstanding. AI and machine learning appointments worldwide have doubled in the past three years, with demand easily outstripping supply.
The Master of Machine Learning, conducted through the University of Adelaide’s world-renowned Australian Institute of Machine Learning (AIML), will position you perfectly to play a senior leadership role in this exciting future.

What will you do?
Our Master of Machine Learning is driven by AIML’s cutting-edge research and extensive industry links, spanning diverse international sectors—from health, medical technology, defence and security to environment and natural resources.
Selecting from either an Applied or Technical specialisation, you’ll undertake a carefully balanced mix of face-to-face intensive courses, work-integrated learning and online study.

Where could it take you?
You could enhance children’s education with AI-based personal study plans. You might help climate-change-affected farmers feed the world with machine-learning-driven environmental management systems. Perhaps you’ll help extend life expectancy by perfecting tailored health-plan development based on AI analysis of key predictive data.
The degree also provides an outstanding foundation for further advanced study through a machine learning or AI PhD.

The two-year full-time degree will equip you with:
- highly advanced technical skills in machine learning and AI application development, including in specialist areas, such as deep learning and visual question answering
- a firm grasp of the commercial, organisational and research opportunities presented by machine learning and AI
- a deep understanding of the disciplines’ ethical and social considerations
- the chance to gain invaluable real-world experience, through a major research or industry-based project
- extensive industry connections and networks.
You’ll also receive ongoing mentoring, feedback and direction from AIML’s world-class researchers and high-performing industry professionals.

To learn more, visit adelaide.edu.au/degree-finder
Teacher. School leader. Educational researcher. Whatever your career stage, our qualifications can help you advance your career in education.

**A degree to start your teaching career**

If you’ve previously completed an approved undergraduate degree, our Master of Teaching (Middle and Secondary) will give you the qualification you need to change paths and become a practising teacher.

You’ll focus on developing the pedagogical knowledge and skills to teach two subject areas. You will also take courses on contemporary educational issues and practice, relevant to both the middle and secondary years of schooling. Particular emphasis will be placed on understanding adolescent behaviour and promoting wellbeing.

Our Master of Teaching (Middle and Secondary) is accredited by the Teachers Registration Board of South Australia. Graduates may register to teach in South Australia, and in most cases, interstate and overseas.

**A degree to take your existing education career further**

If you’re a registered teacher, trainer, vocational educator, educational consultant or university lecturer or supervisor, our Master of Education will refresh and expand your professional knowledge and skills—and help you step into more senior roles.

It enables you to gain specialist training in:

- educational leadership and innovation
- wellbeing
- entrepreneurship education
- science, technology, engineering and mathematics (STEM) education
- English language teaching (ELT/TESOL)
- research.

---

**WAI MAUNG**

*Master of Education*

“I really enjoy interacting with international students from diverse communities, and learning their unique cultures gave me a sense of cross-cultural understanding during my University life.”
Contribute your way in education

The Master of Education is designed for professionals working in the education sector including school leaders, teachers, educational consultants, and trainers or students wishing to pursue a non-school-based teaching career. It is also suitable to study as preparation to teach in the higher education environment, or to develop your research capacity and transition into educational research and lead educational change.

This flexible degree focuses on six specialisations and electives to meet your professional learning needs.

What will you do?
Choose from:

- Educational Leadership and Innovation - study leadership and management theory in depth and consider how it can be applied to lead educational change.
- Wellbeing - examine evidence-based approaches to wellbeing support—a key knowledge area for all educators.
- Entrepreneurship Education - explore entrepreneurship and innovation and its impact on education, schools and systems.
- Science, Technology, Engineering and Mathematics (STEM) Education - investigate issues, opportunities and student engagement in STEM areas.
- English Language Teaching (ELT/ TESOL) - learn the latest strategies for effective English Language Teaching
- Research - strengthen your educational research skills and understandings, with opportunities to go on to a PhD.

Where could it take you?
You’ll graduate ready to pursue a rewarding non-school-based education career. You could revolutionise the field with a new approach to assessment or integrated curriculums. You might want to teach English to adults or work in higher education. Perhaps you’ll be an education consultant or transition into research and publish your own book.

If you’ve already completed a teaching qualification and have worked as a teacher in Australia for two years, you may be granted up to 24 units of credit.

Note: This degree does not provide a recognised qualification for teaching in schools. For this pathway, see our Master of Teaching.

Professional accreditation
This program does not constitute the requirements for a recognised teaching qualification.

JORDON DELLA-PIETRA

Master of Teaching

“ My time at the University of Adelaide was fun and educational. The friends made here have helped me through personal and academic challenges. The university allowed me to explore different career options for my degrees and provided flexible learning options. Support at the university was also very useful. ”
Whether you’re a recent engineering graduate or a practising professional with relevant work experience, our highly ranked postgraduate engineering degrees are your passport to senior high-tech roles around the world.

In addition to graduating with broad, adaptable skill sets applicable to a wide variety of industries, you will also have the chance to enhance your career pathways by specialising in cutting-edge technologies.

This solid technical foundation can open up opportunities in many specialist engineering areas, including: chemical, civil, environmental, mining, electrical and electronic, mechanical, petroleum, data science, and software.

**Graduate career-ready**

The University of Adelaide has an outstanding reputation for high-quality engineering teaching, research and industry links. You will emerge from this ideal educational environment perfectly equipped to immediately make a difference in people’s lives.

**Nationally accredited and globally recognised degrees**

Our engineering postgraduates enjoy lucrative national and international job prospects and rewarding long-term careers involving imagination, innovation and leadership. All our Master of Engineering degrees are fully accredited by Australia’s peak professional engineering body, Engineers Australia.

---

**Why the University of Adelaide?**

- **ERA RANKED 5 (WELL ABOVE WORLD STANDARD)**
- **RANKED NO.2 IN AUSTRALIA FOR COMPUTER SCIENCE AND ENGINEERING**
- **RANKED NO.43 IN WORLD FOR COMPUTER SCIENCE AND ENGINEERING**

---

**YOGESH DOIPHODE**

Master of Engineering (Mechanical Engineering)

“University provides a variety of opportunities to internationalise your student experience, study abroad, connect with other international students and develop a global outlook, which employers will value.”
Chart a new course in aerospace engineering
Aerospace engineers push the boundaries of what is possible. They develop new technologies and materials for aeronautical, space and defence industries.

What will you do?
Our Master of Engineering (Aerospace) comprises a foundation year and an advanced studies year. You will:
• take courses in space vehicle design.
• study applied aerodynamics and aeronautical engineering.
• build skills in business and project management.
• pursue specialist topics according to interests and career goals—from Aircraft Design to Fracture Mechanics.
• undertake a significant research project.

Where could it take you?
You could develop better combat droids, jet engines, or laser-guided weapons systems. You might be an aerospace technician or drafter. Perhaps you’ll plan, build and test robotic systems with artificial intelligence, or engineer the next generation of satellites.

Professional accreditation
The Master of Engineering (Aerospace) is fully accredited by Engineers Australia.

Deliver life-saving medicines to the world
Biopharmaceuticals have a critical role to play in improving global health. The more effectively and efficiently these powerful medicines can be designed and produced, the more lives they can improve and save.

What will you do?
Suitable for high-achieving engineering and science graduates, as well as engineers with relevant work experience, the degree offers three specialist pathways to choose from: Research, Industry or Professional Systems.

The first year is common to all.
Through an engaging blend of face-to-face and online coursework, you’ll gain a comprehensive understanding of biopharmaceutical manufacturing’s technical, management and process engineering aspects.

In year two, depending on your chosen pathway, you’ll undertake a significant research, industry- or business-based project. In all cases, you’ll receive ongoing supervision and mentorship from one of our world-class research-active academics and/or a recognised industry expert.

You’ll emerge with:
• comprehensive awareness of global biopharmaceutical market demands and regulatory requirements
• advanced knowledge and capability in state-of-the-art biopharmaceutical engineering, manufacturing and processing practice, including advanced processing technologies, applied data management and the use of artificial intelligence systems
• the ability to critically reflect on appropriate use of biopharmaceutical principles and techniques, and advise others accordingly
• deep understanding of the industry’s social and environmental impacts
• high-level problem-solving and communication skills.

Where could it take you?
You’ll graduate ready to play a leading role in cutting-edge biopharmaceutical engineering anywhere in the world. You could help design and/or deliver next-level manufacturing and processing of therapies based on monoclonal antibodies, recombinant human insulin or interferons. Your work could reduce the toll of cancer, cardiovascular disease or diabetes. You may even choose to take your knowledge further still with a PhD.
A competitive edge in chemical engineering

Chemical engineers sustain and improve industries as diverse as food processing, petrochemicals, ceramics, petroleum refining, primary metals, plastics, biotechnology, pharmaceuticals, glass and specialty chemicals.

What will you do?
This intensive degree comprises a foundation year and an advanced studies year. You will:
- explore separation processes and simulation design
- build skills in business and project management
- study fluid and particle mechanics
- pursue electives according to interests and career goals—from Pyrometallurgy to Transport Processes in the Environment
- undertake a significant research project.

Where could it take you?
You could develop pharmaceuticals, biofuels, cosmetics or foods. You might work in water treatment, waste management or even tissue engineering. You could conduct safety and risk assessments on process plants. Perhaps you’ll design environmentally sustainable combustion systems.

Professional accreditation
The Master of Engineering (Chemical) is fully accredited by Engineers Australia.

Design high-tech building solutions

Civil and structural engineers create and maintain buildings, systems and infrastructure. They make sure bridges, roads, tunnels, railways, dams, airports and water channels meet the needs of our society in safe and sustainable ways.

What will you do?
Our Master of Engineering (Civil and Structural) comprises a foundation year and an advanced studies year. We have a strong focus on design and analysis using modern, computer-based methods. You will:
- study structural dynamics, reinforced concrete and steel design
- develop and evaluate geotechnical models
- pursue specialist topics according to your interests and career goals
- build communication and project management skills
- undertake a significant research project.

Where could it take you?
You might manage water resources or supervise major transportation projects. You could develop infrastructure for underground renewable energy systems. Perhaps you’ll specialise in the design of earthquake-resistant buildings.

Professional accreditation
The Master of Engineering (Civil and Structural) is fully accredited by Engineers Australia.

Innovators of today and tomorrow

Civil and environmental engineers design sustainable solutions for meeting society’s needs. They build and improve the infrastructure and systems underpinning modern life, without compromising our environment or future generations.

What will you do?
Our Master of Engineering (Civil and Environmental) comprises a foundation year and an advanced studies year. You will:
- practise advanced civil engineering analysis and design
- study environmental science and engineering principles
- pursue specialist topics according to your interests and career goals
- build communication and project management skills
- undertake a significant research project.

Where could it take you?
You might manage coastal erosion, develop policy on energy futures or come up with large-scale recycling schemes. You could supervise major urban water projects. Perhaps you’ll design high-speed railways or help with the construction of Australia’s next state-of-the-art sporting facility.

Professional accreditation
The Master of Engineering (Civil and Environmental) is fully accredited by Engineers Australia.
A competitive edge in your field
Electrical engineers are designers and problem-solvers. They tackle large-scale electrical challenges, develop innovative technologies and improve the quality of modern life.

What will you do?
Our Master of Engineering (Electrical) comprises a foundation year and an advanced studies year. You will:
• practise modelling, analysing and operating electric energy systems
• build communication and project management skills
• gain advanced understandings in mathematics and systems engineering
• pursue specialist topics—from power quality and fault diagnostics to distributed generation technologies
• undertake a significant research project.

Where could it take you?
You might become a project engineer for a national energy company. You could create and maintain sensor systems for smart cities. Perhaps you’ll help developing communities build electrical grids or renewable energy systems from scratch.

Professional accreditation
The Master of Engineering (Electrical) is fully accredited by Engineers Australia.

Stand out in your industry
Electronic engineers possess highly sought-after skills and the knowledge needed to deliver innovative solutions. They design and construct products and services we use each and every day—from smart devices to medical imagery, information systems to security and defence technologies.

What will you do?
Our Master of Engineering (Electronic) comprises a foundation year and an advanced studies year. You will:
• study the principles of control and communication systems
• build communication and project management skills
• gain advanced understandings in mathematics and systems engineering
• pursue specialist topics—from telecommunications and microelectronics to image sensors and processing
• undertake a significant research project.

Where could it take you?
You could drive research and development into autonomous vehicles, or energy-efficient transport. You might work on state-of-the-art avionics as an electronic engineer with the air force. Perhaps you’ll build digital hardware for computers or artificial intelligence.

Professional accreditation
The Master of Engineering (Electronic) is fully accredited by Engineers Australia.
Make smarter machines
Mechatronic engineering combines mechanics, electronics and computing. Mechatronic engineers work comfortably across all three areas, often creating complex and intelligent technologies.

What will you do?
Our Master of Engineering (Mechatronic) comprises a foundation year and an advanced studies year. You will:
• take advanced courses in mechanical engineering and programming
• gain hands-on mechatronic experience through small-group projects
• pursue specialist topics according to your interests and career goals
• build communication and project management skills
• undertake a significant research project.

Where could it take you?
You might design and optimise micro-machines, craft the next generation of cameras or help build underwater exploration vehicles. You could maintain a fully automated robotic assembly line. Perhaps you’ll develop cutting-edge defence or medical technologies.

Professional accreditation
The Master of Engineering (Mechatronic) is fully accredited by Engineers Australia.

Specialise in new mining technologies
Mining engineers work with all aspects of ore extraction and processing. They gather valuable minerals or metals and provide a backbone industry for our society.

What will you do?
Our Master of Engineering (Mining) comprises a foundation year and an advanced studies year. You will:
• study geomechanics, geotechnical engineering and geostatistics
• build skills in mine design, modelling and simulation
• conduct risk and uncertainty analyses
• explore mine management, planning and sustainable practices
• pursue specialist topics according to your interests and career goals
• undertake a significant research project.

Where could it take you?
You might process minerals, take on a managerial role or work with artificial intelligence designed for mining. You could be a highly paid drilling or geotechnical engineer. Perhaps you’ll work in exciting developing fields like deep-sea or space mining.

Professional accreditation
The Master of Engineering (Mining) is fully accredited by Engineers Australia.

Secure your future in the defence sector
South Australia has a world-class maritime industry base and the sector is growing rapidly. We’re currently witnessing a time of multi-billion dollar spending on submarines and surface ships. The University of Adelaide is Australia’s leading university in defence, and partnered with industry both locally and internationally. Whether you’re looking to upskill or change careers, we’ll help match your professional goals to industry objectives.

What will you do?
Our new Master of Marine Engineering is flexible, and delivered in collaboration with ASC, Australia’s builder and sustainer of the Navy’s fleet of Collins Class submarines. During this program you will:
• develop and enhance prior expertise
• build highly sought after knowledge and practical skills
• take core courses intensively, allowing you to complete Submarine Design, Naval Ship Engineering and Systems Engineering within six months
• choose from a wide range of specialist electives and study paths.
Industry-sponsored students will also gain practical experience through workplace projects.

Dual Master of Marine Engineering with ENSTA Bretagne
The University of Adelaide also offers a premium dual 1.5 year Master of Marine Engineering program with ENSTA Bretagne in France. Students spend one semester in Brest, France, one semester in Adelaide and a third semester in a jointly-supervised industry internship. The new dual program feeds directly into the defence engineering skills base available to South Australia and France. Graduates receive two internationally-recognised qualifications—a Master of Marine Engineering from the University of Adelaide and a Master of Science in Marine Engineering, Surface Ships and Submarines from ENSTA Bretagne.
MASTER OF MATERIALS ENGINEERING

CRICOS CODE 099708A CAMPUS North Terrace
DURATION 2 years full-time INTAKES February, July
INDICATIVE ANNUAL TUITION FEE $44,500

adelaide.edu.au/degree-finder

Lead industry’s material progress
Investment in the advanced materials market is expanding the world over—in the space industry, medical technologies, defence, manufacturing, energy, telecommunications and more. Experts with the advanced capabilities to lead discoveries in materials engineering are in high demand.

What will you do?
Our Master of Materials Engineering will equip you with high-level knowledge—and practical research skills—at the real-world interface between materials engineering, chemistry and physics. The industry-driven content is delivered over two years full-time, through a flexible blend of online and intensive face-to-face learning. You will:
• work in the University’s state-of-the-art engineering research labs
• have access to cutting-edge on-campus research and development facilities
• be mentored by world-class materials engineering researchers—including from the University of Adelaide Centre for Materials in Energy and Catalysis, and the ARC Research Hub for Graphene Enabled Industry Transformation.
You’ll also be able to take specialist courses in your chosen major: Energy; Quantum; or Optical. And you’ll apply and expand your learning through a major research project supervised by leading Adelaide engineers and scientists.

Where could it take you?
You could enable smaller, more energy dense batteries. You might allow creation of a high-agility suit for more productive spacewalks. Perhaps your innovation will lead to the conversion of sunlight into transportable fuels to power our cars and society. You may even wish to continue your studies in a materials engineering PhD.

ROBERTUS ROBI
Master of Engineering (Mining)

“All the staff at the University are very friendly and have a passion to help. Even though I’ve only been here 8 months, I feel like Adelaide is my second home.”
MASTER OF PETROLEUM ENGINEERING SCIENCE

Prepare to lead in global resources

Our new Master of Petroleum Engineering Science will not only place you at this in-demand discipline’s cutting edge, but equip you to shape its future. This cross-disciplinary degree is suitable for petroleum engineering bachelor or honours graduates wishing to advance their skills, or honours graduates in other engineering fields seeking to change career paths.

What will you do?

Completed over one to two years full-time (depending on your previous qualifications and professional experience), the degree features an engaging blend of face-to-face tuition, in-the-field application and online learning.

It’s developed and taught by world-class, industry-trained and research-active academics through our Australian School of Petroleum and Energy Resources (ASPER)—Australia’s only school of its kind, and the leading centre for integrated petroleum research and education throughout the Asia Pacific region.

The wide-ranging and internationally informed curriculum draws on ASPER’s strong collaborations with industry and other leading universities around the world. It also includes a significant research project.

You will graduate with:

• deep knowledge and understanding of contemporary global petroleum engineering developments, including reservoir simulation, uncertainty modelling, enhanced oil recovery, advanced geomechanics and the application of machine learning to petroleum engineering.
• wide-ranging skills in evaluating, selecting and using appropriate, environmentally responsible methods and techniques in drilling, reservoir and production engineering
• advanced skills in investigating, analysing and solving complex petroleum engineering problems using best-practice methods, including data analytics.
• highly developed research planning and execution skills, and the ability to apply research principles and methods in the field.
• outstanding interpersonal communication and teamwork skills.

Regular interaction with ASPER’s world-recognised staff and guest industry presenters will also ensure you emerge with a sound base of international connections and real-world insight.

Where could it take you?

You will emerge ready to play a senior role in the upstream petroleum industry anywhere in the world. You may also choose to take your research further with a PhD.

MASTER OF SCIENCE (PETROLEUM GEOSCIENCE)

Upstream excellence

Petroleum geoscience is about understanding our earth and the processes that shape it. Geoscientists are explorers, problem solvers and innovators. They recover resources and meet energy demands in economical, safe and sustainable ways. The Australian School of Petroleum and Energy Resources is a world-class centre for petroleum education, training and research. We have strong links to industry with fully integrated teaching and research programs.

What will you do?

Our Master of Science (Petroleum Geoscience) is a one-year intensive degree. You will:

• work with internationally experienced staff and senior industry personnel
• access industry-standard techniques, software and datasets
• study exploration and development geoscience in depth
• build hands-on skills and practical knowledge
• undertake an advanced research project.

Where could it take you?

You might pursue careers in mineral or petroleum exploration with multinational and local companies. You could be a geologist, a geophysicist or an oil and gas analyst. Perhaps you’ll work in consulting or as a natural resource manager in a government agency.
Drive software solutions

From South Australia to Silicon Valley, software engineers are using a combination of problem solving and creativity to develop new technologies that change the world.

Our Master of Software Engineering is a two-year intensive degree, offering a competitive edge in the industry. Our software engineering graduates are highly sought after by top companies around the globe.

What will you do?

• Develop advanced technical skills.
• Connect with industry professionals.
• Explore mobile and wireless networks and their impact on software development.
• Learn about distributed databases and data mining.
• Undertake a year-long research project with a team of peers.

If you plan to pursue further research study, your year-long project must be undertaken individually. Interested students should consult the program coordinator in first year.

Where could it take you?

You’ll graduate ready to define, design, construct, test and maintain software systems. As an accredited engineer, you might develop software for mobile robots and driverless cars. You could create and test video gaming experiences. Perhaps you’ll design apps or entirely new smart technologies.

Professional accreditation

The Master of Software Engineering is accredited by the Australian Computer Society. It is designed to provide a professional qualification in computing and information technology and also provides the necessary academic requirements for membership of the Institute of Electrical and Electronic Engineers and the Association for Computing Machinery.
The University of Adelaide’s wide range of postgraduate health degrees can provide the knowledge and skills to advance your career and make a positive difference for humanity.

**Industry-driven and connected**
All our postgraduate health degrees are highly informed by real-world needs. Throughout your studies, you’ll be given the opportunity to learn from practising industry experts and significantly develop your professional networks.

**High-level guidance and mentoring**
The pride we take in attracting leading academics and researchers from around the world ensures you will learn from the best. Our staff are experts in their field and have outstanding international reputations, with many recognised as high-cite professors. What’s more, our low student-to-staff ratios mean you’ll get plenty of one-to-one attention during your time with us.

**State-of-the-art facilities**
The University’s $246 million Adelaide Health and Medical Sciences (AHMS) building opened in 2017 in the heart of the Adelaide BioMed City precinct. Here—just metres from the new Royal Adelaide Hospital and the South Australian Health and Medical Research Institute—you will learn alongside more than 1700 of our students and 600 University of Adelaide health researchers in a vibrant and innovative environment.

---

**ROMY HIDAYAT**

Master of Public Health

“I chose to study the Master of Public Health at the University of Adelaide to gain a global perspective on public health issues and improve my knowledge and skills to further my career.”
DOCTOR OF CLINICAL DENTISTRY

CRICOS CODE 088341G
LOCATION Teaching hospitals

DURATION 3 years full-time
INTAKE February

MINIMUM ENTRY REQUIREMENTS
Bachelor of Dental Surgery (or equivalent) or higher. Applicants who hold a relevant honours or master degree (or equivalent) will also be considered. Applicants must have:
- at least two years of general practice and an honours (research training) degree OR
- successfully completed the Primary Examinations of the Royal Australasian College of Dental Surgeons OR
- successfully completed the Primary Examinations of the Royal College of Dental Surgeons (UK).

ADDITIONAL ENTRY REQUIREMENTS
All applicants must complete the online application form at health.adelaide.edu.au/admissions/dclindent/application.html and provide:
- a detailed CV, including work history and publications
- two professional referees
- employment history details
- evidence of professional qualifications
- a short description of their research interests
- a full CV, including work history and publications.

Students applying for the following specialisations must complete an interview in person via phone or Skype:
- Pathology
- Endodontics
- Paediatric Dentistry
- Periodontics
- Oral and Maxillofacial Surgery
- Prosthodontics
- Special Needs Dentistry
- Orthodontics

Further assessments may also be required. Students applying for the specialisation in Orthodontics must complete a multiple mini-interview (MMI) in person, and manual dexterity assessments.

INHERENT REQUIREMENTS
Students accepted into the degree are required to maintain AHPRA registration and the appropriate level of immunisations and criminal history clearances. Please refer to: health.adelaide.edu.au/study-with-us/student-support/clinical-placements

APPLICATION CLOSING DATE 30 April 2020

INDICATIVE ANNUAL TUITION FEE $56,000

 Adelaide Dental School is ranked 1st in Australia and number 29 in the world*. Our leading-edge expertise gives our graduates a competitive advantage in a flexible and rewarding profession. This 3-year degree provides specialist dental education through clinical training and research.

What will you do?
Our Doctor of Clinical Dentistry is a professional postgraduate training program, not a PhD. You will:
- undertake clinical placements in metropolitan, rural, public and private health care settings
- conduct evidence-based clinical research
- propose, present and submit a dissertation
- advance your knowledge and technical skills in a specialisation of your choice.

We offer the following specialist training areas:
- Endodontics
- Oral and Maxillofacial Pathology
- Orthodontics
- Paediatric Dentistry
- Periodontics
- Prosthodontics
- Special Needs Dentistry.

Where could it take you?
You’ll graduate ready to change lives on your chosen dentistry path. You’ll be eligible for specialty registration in Australia provided you’ve fulfilled all the qualifications and strict conditions outlined by the Australian Health Practitioner Regulation Agency. Note: Before applying, make sure this degree allows you to register in the country where you intend to work.

Professional accreditation
All Doctor of Clinical Dentistry specialisations are accredited by the Australian Dental Council.

* Academic Ranking of World Universities of Academic Subjects 2019

GRADUATE CERTIFICATE IN ALCOHOL AND DRUG STUDIES

CRICOS CODE online
CAMPUS North Terrace

DURATION 6 months full-time
INTAKE February

MINIMUM ENTRY REQUIREMENTS
A relevant 4-year undergraduate degree with a high level of academic achievement.

ADDITIONAL NOTES
This degree is delivered online only. It is not available to international applicants who hold or require an Australian student visa. International applications will, however, be accepted from candidates who will undertake their studies offshore, or who hold a valid Australian visa permitting online study.

INDICATIVE ANNUAL TUITION FEE $11,500

adelaide.edu.au/degree-finder

Support recovery in your communities
Substance abuse is a common issue in today’s world. It continues to take a great toll on both individuals and society.

This is a flexible online certificate, ideally suited to professionals maintaining regular work commitments in Australia or overseas. It focuses on building advanced knowledge around drugs and alcohol, and the ways in which addiction can be treated.

What will you do?
- Study the biological mechanisms behind addiction.
- Consider underlying genetic and social factors.
- Explore current approaches to drug problems—from short-term treatments to long-term and community-based management.
- Investigate future developments in drug treatments and the field at large.

Where could it take you?
This certificate will be beneficial in a range of professions that interact with drug and alcohol addiction. These might include medical practitioners, nurses, psychologists, social workers, pharmacists, educators, law enforcement officers, counsellors, and project and policy officers.
**GRADUATE DIPLOMA IN NURSING SCIENCE**

**CRICOS CODE** 02291F

**LOCATIONS** North Terrace, Teaching Hospitals

**DURATION** 1 year full-time

**INTAKES** February, July

**MINIMUM ENTRY REQUIREMENTS** Applicants must be registered (or eligible for registration as a Nurse) in Australia or New Zealand and hold a degree of the Bachelor of Nursing or equivalent; OR have at least 2 years’ experience as a registered nurse in the specialist field they wish to study.

**ADDITIONAL ENTRY REQUIREMENTS** Within 10 days of submitting a formal application, candidates must provide all required additional information online at: health.adelaide.edu.au/admissions/gdnurssci/application.html

**INDICATIVE ANNUAL TUITION FEE** $33,500

[adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)

---

**MASTER OF CLINICAL NURSING**

**CRICOS CODE** 07231M

**LOCATION** Teaching hospitals

**DURATION** 2 years full-time

**INTAKES** February

**MINIMUM ENTRY REQUIREMENTS** Successful completion of a bachelor degree or equivalent in a non-nursing discipline with at least a pass average in a field other than nursing. Applicants must have successfully completed a university level 1 Human Biology subject or equivalent.

**INDICATIVE ANNUAL TUITION FEE** $44,500

[adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)

Flexibility and challenge

Nurses are highly respected members of the community. They help treat patients in all sorts of health care settings and touch lives with empathy, compassion and humour.

Our Master of Clinical Nursing offers you an intensive two-year path to a rewarding career as a registered nurse.

**What will you do?**

This intensive degree cultivates the professional knowledge, skills and confidence needed to make a difference every day. You will:

- benefit from small group learning and diverse student cohorts
- develop hands-on skills in high-tech simulation settings
- study anatomy, physiology, pathophysiology and pharmacology
- gain a keen understanding of professional standards and ethics
- undertake clinical placements in hospital and community settings.

**Where could it take you?**

You’ll emerge with an advanced professional qualification recognised Australia-wide. You could assist in operating theatres, emergency wards, and a multitude of other health care environments. You might pursue hospital roles in acute care, aged care or mental health. Perhaps you’ll work in rural communities or with aid organisations.

**Professional accreditation**

The Master of Clinical Nursing is approved by the Nursing and Midwifery Board of Australia. You could assist in operating theatres, emergency wards, and a multitude of other health care environments. You might pursue hospital roles in acute care, aged care or mental health. Perhaps you’ll work in rural communities or with aid organisations.

---

**MASTER OF MINIMALLY INVASIVE SURGERY**

**CRICOS CODE** Must be a 457 visa holder

**LOCATION** Teaching hospitals

**DURATION** 1 year full-time

**INTAKE** February

**MINIMUM ENTRY REQUIREMENTS** Applicants must be experienced surgeons who have completed, or are within one year of completing, FRACS (Fellow of the Royal Australasian College of Surgeons), FRANZCOG (Fellow of the Royal Australian and New Zealand College of Obstetricians and Gynaecologists) or equivalent training. Applicants should have a surgical fellowship or consultant post with a major interest in minimally invasive surgery. They must also hold a clinical position. This is not automatically offered with the Master of Minimally Invasive Surgery and applicants are personally responsible for obtaining a suitable position.

**ADDITIONAL ENTRY REQUIREMENTS** International applicants must be resident in Australia; meet the requirements of the Temporary Business (Long Stay) 457 visa; and register with the Australian Health Practitioner Regulation Authority (AHPRA) is responsible for student registration with the Nursing and Midwifery Board of Australia. It is completed upon enrolment in the program. In order to be able to register as a Registered Nurse with AHPRA, all applicants must meet the Nursing and Midwifery Board of Australia English language registration standard.

**INDICATIVE ANNUAL TUITION FEE** $40,000

[adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)

**Expand your surgical skill set**

Our Master of Minimally Invasive Surgery is for surgeons who wish to make minimally invasive surgical techniques an integral part of their career.

You’ll gain the required professional qualification—accredited by the Royal Australasian College of Surgeons—and a thorough clinical grounding in laparoscopic surgery.

**What will you do?**

The degree is comprised of online modules with weekly online tutorials and four clinical immersion sessions throughout the year. You will:

- develop advanced theoretical understandings of minimally invasive surgical procedures
- consolidate and improve clinical skills
- gain exposure to robotic surgical techniques.

[adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)
Advocate for health care change and improvement
Nurses are an integral part of society. They are problem-solvers and pillars of strength. Through scholarship and leadership, nurses can challenge, reform, improve and enrich healthcare now and into the future.

This advanced degree is suited to nurses with a solid foundation in clinical practice who want to pursue research or leadership positions.

What will you do?
Our Master of Nursing Science offers a comprehensive grounding in research methods and critical analysis. You will:
• build clinical enquiry and management skills
• take new courses in advanced clinical practice
• gain hands-on experience in simulations and skills laboratories
• partner with an expert in your field of study who'll support and encourage your academic development
• undertake a 12 unit research project, or conduct a systematic review (9 units). If you want to continue to further PhD study, you’ll complete 12 units of research. An exit path for the Graduate Diploma in Nursing Science will be available after the first year.

Where could it take you?
You could develop mental health programs for psychiatric wards or prisons. You might come up with innovative ways to support surgeons in emergency. Perhaps you’ll do large-scale research on cancer pain management or cardiovascular risk factors.

What can you specialise in?
• Acute Care
• Anaesthetic and Recovery
• Cardiac
• Emergency
• Intensive Care
• Oncology
• Orthopaedic
• Perioperative
• Mental Health

Related degrees
• Graduate Certificate in Nursing Science (Infection Control Nursing)
• Graduate Diploma in Nursing Science

Play a leading role in health protection and promotion
Ready to think creatively about policies and practices that prevent disease and prolong life?
Our Master of Public Health offers you a flexible two-year path to working—and making a difference—in health-related sectors such as health departments, local government, environmental health agencies and NGOs.

What will you do?
• Develop specialist knowledge of practice and policy.
• Connect with mentors, active researchers, practitioners and policy makers.
• Learn strong problem-solving and research skills.
• Gain hands-on experience in real-life settings.
• Build professional networks.
• Tailor your study to personal goals and aspirations.

Specialisations are offered in:
• Public Health
• Population Oral Health

Where could it take you?
You could work with communities to manage local health problems or play a role in tackling global health challenges. You might design and implement educational campaigns and health programs. Perhaps you’ll advise on policy, be a research officer or undertake evaluations of national or state health programs.

MASTER OF SCIENCE
IN ADDICTION STUDIES

CRICOS CODE Online only
CAMPUS North Terrace
DURATION 1 year full-time
INTAKES August

MINIMUM ENTRY REQUIREMENTS
As set out by Virginia Commonwealth University (at ipas.vcu.edu), all applicants must have:
• Completed a 4-year bachelor degree in an appropriate field of study if applying in the United States; or, if applying from outside the US, an honours level (2A or 1) or professional bachelor degree in an appropriate field of study at a recognised tertiary institution.
• A high level of proficiency in English, demonstrated by completion of a university qualification study in the English language, or by meeting one of the following English language requirements: an IELTS score of 7.0; a paper-based TOEFL score of 600; or a computer-based TOEFL score of 250.
• Good academic references.
• Access to a reliable internet connection and be computer literate.

ADDITIONAL NOTES This degree is delivered online only. It is not available to international applicants who hold a valid Australian visa permitting online study.

INDICATIVE ANNUAL TUITION FEE
For fee information, visit: ipas.vcu.edu

MASTER OF COUNSELLING AND PSYCHOTHERAPY

CRICOS CODE 091225G
CAMPUS North Terrace
DURATION 2 years full-time
INTAKES February

MINIMUM ENTRY REQUIREMENTS
A bachelor degree or equivalent.

ADDITIONAL ENTRY REQUIREMENTS
All applicants must:
• submit a resume (including academic transcripts) as part of their application
• attend an interview (by phone or Skype). If the number of applicants exceeds the number of places available, applicants will be ranked according to a standardised interview assessment process and the University will offer places in order of rank.
• Students who undertake clinical placements, internships or research projects involving children or people who are ill, elderly or vulnerable must provide a criminal history check. International applicants should obtain a certificate in their home country.

INDICATIVE ANNUAL TUITION FEE $38,500
adelaide.edu.au/degree-finder

Towards wellbeing
Counsellors support others in exploring and overcoming emotional, mental and lifestyle issues. Counselling is a rewarding career choice for students who want to develop personal wisdom and transform the lives of others.

What will you do?
Our Master of Counselling and Psychotherapy supports the development of ethically aware, research-informed and clinically effective counsellors. You will:
• learn from academics with extensive professional counselling experience
• build hands-on skills through experiential learning
• benefit from case-based learning in small group workshops
• gain a core understanding of CBT, grief, attachment theory and ethical practice.

Professional accreditation
The clinical pathway of the Master of Counselling and Psychotherapy has been designed to meet the training requirements for counselling practitioners as outlined by the Psychotherapy and Counselling Federation of Australia (PACFA). This enables graduates to apply for registration with the Counselling Association of South Australia and PACFA, and to be listed with the Australian Register of Counsellors and Psychotherapists (ARCAP).

Where could it take you?
You could support young people in your community through roles and programs in schools or youth work. You might run a private practice or conduct group therapy at a centre. Perhaps you’ll be a relationship or return-to-work counsellor.

Our clinical pathway graduates can register as an intern with the Psychotherapy and Counselling Federation of Australia and, after further clinical experience, apply for full registration.
MASTER OF PSYCHOLOGY (CLINICAL)

CRICOS CODE 001449C CAMPUS North Terrace
DURATION 2 years full-time INTAKE January

ACADEMIC ENTRY REQUIREMENTS
Entry is available to graduates with an Australian honours psychology degree or equivalent, at a minimum of Second Class, Division A Honours and including an individually-conducted research project counting for 33% or more of the year's work. Applicants with an overseas honours qualification should supply a certified copy of the assessment of their qualifications by the Australian Psychological Society (APS), and information about the research component of their qualifications. Students who undertake honours in psychology at an accredited onshore Australian university do not need to have their qualifications assessed. Selection is dependent on academic results, two referee reports and a structured panel interview.

ADDITIONAL ENTRY REQUIREMENTS
All applicants must complete the additional information online form at: health.adelaide.edu.au/admissions/mpsycharmission/appform.html. Applicants are required to provide two references to support their application. The Heads of Departments and Schools of Psychology Australia (HoDSPA) are providing a service to manage references. Students can register to use this service at: psychologyreference.org

APPLICATION CLOSING DATE 21 October 2020
INDICATIVE ANNUAL TUITION FEE $39,000

Help your community function and flourish
Our Master of Psychology (Clinical) provides the knowledge and skills needed to practise as a registered psychologist. Clinical psychologists work with clients with high and low prevalence mental health issues—from anxiety and depression to psychoses, disability and relationship challenges.

What will you do?
• Benefit from our strong links with a professional community of clinical practitioners.
• Undertake three clinical placements totalling over 1000 hours.
• Enjoy small class sizes and face-to-face teaching.
• Hone listening, empathy and interviewing skills.
• Network with future employers in mental health and health care settings.
• Complete a significant research project in clinical psychology.

Where could it take you?
Upon successful completion, you'll be eligible to apply for full registration with the Psychology Board of Australia. You'll be set to find work in a wide variety of public and private settings. To gain clinical endorsement, further postgraduate supervision is required.

Professional accreditation
The Master of Psychology (Clinical) is accredited by the Psychology Board of Australia.

Graduate registration
The Master of Psychology (Clinical) prepares graduates for registration as a psychologist with the Psychology Board of Australia (PBA). With additional supervised work experience as prescribed by the PBA, graduates can become clinical psychologists.

MASTER OF PSYCHOLOGY (HEALTH)

CRICOS CODE 061743M CAMPUS North Terrace
DURATION 2 years full-time

INTAKES Selection Interviews are typically held in November of the year a potential candidate applies. For successful applicants, classes commence in Summer School, typically January.

ACADEMIC ENTRY REQUIREMENTS
Entry is available to graduates with a four-year qualification in Psychology or equivalent (including Honours with a minimum grade of Second Class, Division A and an individually-conducted research project carrying 33% or more of the years' work). The degree must meet the standards set out by the Australian Psychology Accreditation Council (APAC), including an accredited sequence in Psychology. Applicants must be eligible for Registration as a Provisional Psychologist with AHPRA; it is the applicant's responsibility to determine their eligibility (https://www. psychologyboard.gov.au/Registration/Provisional.aspx).

Applicants who have an overseas Honours qualification should supply a certified copy of the assessment of their qualifications by the Australian Psychological Society (APS), and information about the research component of their qualifications. Information on having your qualification assessed by APS can be found at www.psychology.org.au/About-Us/What-we-do/Assessing-overseas-qualifications/APS-assessment-Skilled-Migration-university-entry. Students who undertake Honours in Psychology at an accredited Australian university do not need to have their qualifications assessed by APS. Selection is dependent on academic results, two referee reports and an interview, using a multiple mini interview (MMI) approach where applicants will be interviewed by a different person is for each question.

ADDITIONAL ENTRY REQUIREMENTS
Additionally, applicants must:
• be eligible for registration with the Psychology Board of Australia (PsyBA) as a provisional psychologist.
• provide two referee reports submitted through the HoDSPA (Heads of Departments and Schools of Psychology Australia) website at www. psychologyreference.org/ by no later than Monday 19 October 2020.
• provide details of relevant work experience and details of any published works via the submission of a comprehensive CV (Curriculum Vitae) within the SATAC application.

International applicants must also satisfy English Language Requirements as set out by AHPRA at www.ahpra.gov.au/Registration/Registration-Standards/English-language-skills.aspx

APPLICATION CLOSING DATE 21 October 2020
INDICATIVE ANNUAL TUITION FEE $39,000

Treat the whole person
Mental and physical health are inextricably connected. Health psychologists explore brain—body interactions with a view to improving client wellbeing. This requires advanced psychological skills and clinical expertise.

Our Master of Psychology (Health) is one of only two health psychology degrees currently available in Australia. It provides the professional knowledge needed to practise as a registered health psychologist.
What will you do?
• Enjoy small class sizes with leading health psychologists and educators.
• Learn about illness, disease, and the promotion and maintenance of health.
• Study health care systems and policy.
• Explore psychological factors that contribute to ill health.
• Undertake three industry placements totalling over 1000 hours.
• Network with future employers in mental health, health care and government settings.

Where could it take you?
Upon successful completion, you’ll be eligible to apply for full registration with the Psychology Board of Australia. You could design public health campaigns to prevent addiction, injury and illness. You might help people manage chronic pain or cope with diagnoses and medical treatments. Perhaps you’ll work to shift individual attitudes, beliefs and behaviours in the clinic. To gain endorsement, further postgraduate supervision is required.

Professional accreditation
The Master of Psychology (Health) is accredited by the Australian Psychology Accreditation Council (APAC) and recognised by the Psychology Board of Australia.

Graduate registration
Upon successful completion of the degree, graduates are eligible to apply for full registration with the Psychology Board of Australia and find work in a wide variety of public and private settings. Further postgraduate supervision is required to become an endorsed health psychologist.

Organisational psychologists inspire change and improve people’s experiences in the workplace. Studying the Master of Psychology (Organisational and Human Factors) can lead to a fulfilling career delivering professional psychological services to organisations and their people. The degree offers a combination of coursework, research and industry placements to ensure students graduate with the skills and knowledge required to establish effective procedures and structures in organisations, and to facilitate the development of productive and committed employees, teams and work units. A unique subject in human factors provides an insight into human safety and ergonomics, and over 1000 hours of placements offer the chance to develop practical skills with patients and build professional networks while studying. Graduates of the degree are eligible to apply for full registration with the Psychology Board of Australia and meet the entry requirements to the Australian Psychological Society (APS) College of Organisational Psychologists as a full member. Organisational psychologists have a range of career opportunities in organisational development, change management, human resources, recruitment, ergonomics and human factors, workplace advice and advocacy, research, teaching, and other areas.

Prospective applicants should note that entry to this degree is competitive and strict quotas apply.

Professional accreditation
The Master of Psychology (Organisational and Human Factors) is accredited by the Psychology Board of Australia.

Graduate registration
The Master of Psychology (Organisational and Human Factors) prepares graduates for registration as a psychologist with the Psychology Board of Australia (PBA). With additional supervised work experience as prescribed by the PBA, graduates can become endorsed organisational psychologists.
LAW
The Adelaide Law School is South Australia’s highest ranked law school* and houses a vibrant community of scholars and teachers, committed to advancing humanity’s understanding and application of law.

Our range of high-quality postgraduate degrees—all of which benefit from a strong commercial and international focus—will significantly expand both your professional capabilities and career opportunities.

Degrees for law graduates and lawyers

If you’re a law graduate or practising lawyer, our competitive, flexible postgraduate coursework degrees will dramatically accelerate your professional development. You’ll enhance and broaden your scholarly skills in legal research and writing, and access a range of elective courses to suit your interests and career aspirations, such as international and comparative commercial law.

Degrees for non-law graduates

Similarly, if you’re a non-law graduate, you can greatly broaden your career options by studying our selection of postgraduate degrees that extend your knowledge in business studies, with a focus in the law.

All with the opportunity to study internationally

The Adelaide Law School has partnerships with nine leading overseas universities at which you will have the chance to study on exchange:

- University of Copenhagen (Denmark)
- University of Mannheim (Germany)
- Pace University (United States)
- University of Alberta (Canada)
- Peking University (China)
- KU Leuven (Belgium)
- Shanghai Jiao Tong University (China)
- University of Montreal (Canada).

* QS World University Rankings by Subject 2019.
**GRADUATE DIPLOMA IN LEGAL PRACTICE**

**CRICOS CODE 077967G**

**CAMPUS North Terrace**

**DURATION** 1 year full-time

**INTAKES** February, April, July, October

**INDICATIVE ANNUAL TUITION FEE** $17,000

---

**Approach the bench**

The Graduate Diploma in Legal Practice (GDLP) is a compulsory requirement to be admitted as a barrister and solicitor in South Australia. It provides practical legal training for law graduates.

To apply, you must have successfully completed a Bachelor of Laws (LLB), or met the criteria specified by admitting authorities in your state or territory. If you studied your LLB overseas you’ll need to have your qualifications accredited by the South Australian Board of Examiners before you can commence the GDLP. You can contact the Law Society of South Australia (www.lawsocietysa.asn.au) to discuss these requirements.

**What will you do?**

The GDLP program is designed to be flexible around other requirements. You’ll choose between weekday, after-hours and weekend classes. There is also an accelerated pathway, which can be completed in 20 weeks. You will:

- complete five core courses
- select two electives aligned to your interests and career goals
- undertake five hours minimum of continuing professional development
- build real-world skills through 30 days (225 hours) of legal practice placement.

After gaining admission, you can apply for a Practising Certificate in other Australian states and territories via mutual recognition.

---

**MASTER OF BUSINESS LAW**

**CRICOS CODE 081156J**

**CAMPUS North Terrace**

**DURATION** 2 years full-time

**INTAKES** February, July

**INDICATIVE ANNUAL TUITION FEE** $44,500

---

**A competitive edge in business**

Want to bolster your business skills with legal expertise?

The ability to understand, analyse and use legal information can be critical for strength and longevity in the business realm. Postgraduate law courses provide an overview of legal issues within a contemporary business context.

**What will you do?**

Our Master of Business Law caters to the needs of busy professionals. The majority of courses are taught intensively over one or two weeks and some include evening and weekend sessions. You will:

- learn about different laws affecting your business sector
- build legal communication skills
- undertake a substantial research project
- learn best practices for dealing with legal and regulatory challenges
- broaden your networks through the University’s Lex Salus, Next Steps and Law Students’ Society events.

---

**MASTER OF COMPARATIVE LAWS (ADELAIDE/MANNHEIM)**

**CRICOS CODE 031022D**

**CAMPUS North Terrace**

**DURATION** 1 year

**3 months full-time**

**INTAKES** February, July

**INDICATIVE ANNUAL TUITION FEE** $44,500

---

**Discover the law at all levels**

Comparative law explores the different legal systems that endure across the globe. It’s about examining these diverse families in order to understand, improve and sometimes reconcile their differences. This innovative degree is offered by the Adelaide Law School and the University of Mannheim’s Faculty of Law in Germany.

**What will you do?**

Our Master of Comparative Laws is conducted entirely in English. However, if you’re proficient in German you may choose to study in that language at Mannheim. You will:

- spend up to one semester in Adelaide and one at Mannheim
- study the different systems of law throughout the world—from common and civil to Islamic law
- understand the European Union’s legal framework in detail
- undertake a dissertation at your ‘home’ institution.

**Where could it take you?**

You might draft new legal bills in local government. You could be an international trade policy adviser. Perhaps you’ll use your advanced understanding of the law to balance the scales of justice against corporate criminals.
A competitive edge in law

Studying law is more challenging and intellectually adventurous than ever before. In an expanding and evolving legal landscape, extended development is a strategic door opener.

Our Master of Laws is suited to students proceeding directly from undergraduate study, as well as experienced legal practitioners looking to specialise.

What will you do?

• Focus your program through a range of elective options—including international and comparative commercial law.
• Develop advanced legal writing, reasoning and analysis skills.
• Study with legal professionals, former judges and international academics.
• Broaden your networks through the University’s Lex Salus, Next Steps and Law Students’ Society events.
• Undertake a substantial research project.

Where could it take you?

You might help update evidence laws around internet activity and new technologies. You could move into property or Native Title law. Perhaps you’ll become a co-owner in a Hong Kong law firm. Whether you want to uphold, use or change the system—a master in law can take you just about anywhere.
In today's highly technical environment, a degree in mathematical sciences teaches students the universal language required to describe, model and understand the world around them.

A postgraduate degree in mathematical sciences from the University of Adelaide provides you with valuable training in rigor and logical thinking. Our graduates are highly regarded for their creativity, problem-solving abilities and research skills, and pursue successful careers in their chosen specialisation—Applied Mathematics, Pure Mathematics or Statistics—in a wide range of industries.

Choose a specialisation

The **Applied Mathematics** specialisation assists you to gain an in-depth understanding of mathematical theories and their practical application in the world around us. It covers topics such as mathematical methods, fluid mechanics, computational mathematics, financial modelling, mathematical biology and applied probability.

The **Pure Mathematics** specialisation enables you to study the abstract theories built by logical deduction that underpin modern science and technology. This discipline is fundamental to applied mathematics, statistics, computer science, and mathematical physics.

The **Statistics** specialisation equips you with the skills needed to effectively collect, analyse and model data from a range of sources—including surveys, experiments and other studies that generate numerical data—to solve complex, real-world problems.

**2015 Rhodes Scholar for South Australia**

The University of Adelaide holds a strong tradition of research and teaching excellence across the disciplines of Applied Mathematics, Pure Mathematics and Statistics. We are proud of our students’ achievements, including the 2015 Rhodes Scholar for South Australia.

**Be career ready**

A postgraduate degree in mathematical sciences from the highly ranked University of Adelaide equips you with the theoretical and practical expertise to standout in your chosen profession, opening the door to career opportunities in specialist areas such as finance, commerce, information technology, scientific research and logistics, and teaching.

---

**What will you do?**

- Develop advanced research skills as you learn from award-winning academics in state-of-the-art facilities.
- Take your mathematical knowledge to an advanced level through a major of your choice.
- Statistics—Solve real-world problems through the collection, analysis and modelling of data.

**Where could it take you?**

Our maths graduates go on to all sorts of fascinating careers in technology-led industries. You could help build business start-ups as a data scientist or enter the growing field of gaming design and performance analysis. You might be an actuary, applying probability and statistics to insurance and banking. Perhaps you’ll take your research to the next level in academia.

---

**Excel in mathematics**

Mathematics is both a logical and creative pursuit. It drives human progress, with millions of industries around the world depending on mathematical scientists.

Our Master of Mathematical Sciences is an intensive degree designed for students with backgrounds in related study areas.

---

**QIU HONG XIAN**

**Master of Mathematical Sciences**

“*The academic staff are inspirational and have supported me to gain the knowledge, skills and confidence to contribute to the future of mathematical sciences.*”

---

**WHY THE UNIVERSITY OF ADELAIDE?**

**05 ERA RANKED 5 (WELL ABOVE WORLD STANDARD)*

**75% FASTEST GROWING OCCUPATIONS REQUIRE STEM SUBJECTS**

**2015 RHODES SCHOLAR FOR SOUTH AUSTRALIA**
With a distinguished history dating back to 1883, the Elder Conservatorium was the first tertiary music school in Australia, and is widely respected as one of the country’s most innovative music institutions.

Through its postgraduate degrees, covering all professional areas of the music industry, Elder Conservatorium encourages the development of new parameters of artistic and scholarly endeavour that contribute to the advancement of knowledge and practice in the art of music.

Over the years, Elder Conservatorium has been a pioneer and a leader. It was one of the first institutions to offer degrees in performance and music composition and more recently, the first electronic music studio.

The Elder Conservatorium also has one of Australia’s longest established and most vibrant Jazz programs and has established innovative partnerships with major cultural organisations including the State Opera, the Adelaide Symphony Orchestra, the Australian String Quartet and the Australian Ballet.

We offer degrees for those seeking to become teachers in a variety of settings, or for musicians who would like to focus on performance and technical mastery of a specific area.

**YUEQI LI**  
Master of Music (Performance and Pedagogy)

“I enjoy all my one-to-one lessons, and we have the freedom to choose what repertoire we are going to do the next year. I am passionate to learn the pieces I like and I can get them to a higher level through the one-to-one lessons.”
Share your passion
Music education is a rewarding and invigorating area to work in. It challenges and inspires musicians all around the world. This one-year degree combines performance studies in your specialisation with the theory, method and practice of teaching.

What will you do?
Our Graduate Diploma in Music (Performance and Pedagogy) advances your technical mastery as you:

• undertake weekly one-to-one lessons with performance staff
• build pedagogical skills and knowledge through seminars and workshops
• gain hands-on experience through teaching practice in selected schools and colleges
• perform two minor recitals with pedagogy related content.

Where could it take you?
You’ll graduate ready to pursue dual careers in music performance and education. You could play in an orchestra while running a private music studio. You might coach ensembles, orchestras or choirs. Perhaps you’ll play chamber music as well as teaching on school and college campuses.

Present programs of major repertoire
Our Graduate Diploma in Music Performance challenges you to reach the highest standards of professional performance. It’s a one-year, skill-based degree focusing on traditional approaches to classical or jazz performance.

What will you do?

• Advance technical mastery within your specialisation.
• Benefit from weekly one-to-one lessons with performance staff.
• Prepare one major and one minor recital.

Where could it take you?
You might travel the globe as an orchestral musician. You could grace the stage of every jazz venue in New Orleans and New York. Perhaps you’ll curate concerts, teach in private studios or find international stardom as a soloist.

Realise excellence
Our Master of Music (Performance Studies) challenges you to reach the highest standards of professional performance. It’s an intensive, skill-based degree focusing on traditional approaches to classical or jazz performance.

What will you do?

• Advance technical mastery within your specialisation.
• Benefit from weekly one-to-one lessons with performance staff.
• Prepare and present programs of major repertoire.
• Study a wide range of styles and repertoire
• Negotiate your own learning outcomes and modes of assessment for creative projects.
• Develop advanced solo and ensemble performance skills.

Where could it take you?
You might travel the globe as an orchestral musician. You could grace the stage of every jazz venue in New Orleans and New York. Perhaps you’ll curate concerts, teach in private studios or find international stardom as a soloist.
## Harmonise your interests

Music education is a rewarding and invigorating area to work in. It challenges and inspires musicians all around the world. This intensive degree combines performance studies in your specialisation with the theory, method and practice of teaching.

### What will you do?

Our Master of Music (Performance and Pedagogy) will advance your technical mastery as you:

- build pedagogical skills and knowledge through seminars and workshops
- undertake a significant research project on learning and teaching processes
- gain hands-on experience through teaching practise in selected schools and colleges
- perform minor and major recitals with pedagogy related content
- benefit from weekly one-to-one lessons with performance staff.

### Where could it take you?

You’ll graduate well prepared to pursue dual careers in music performance and education. You could play in an orchestra while running a private music studio. You might be a soloist who coaches students through masterclasses and workshops. Perhaps you’ll play chamber music as well as teaching on school and college campuses.
The University of Adelaide is leading the way in scientific research and education, equipping scientists with the skills to be at the leading edge of discovery and career success.

We actively partner with industry to make sure you are equipped with the most up-to-date skills for your chosen career. Our world-class facilities enable us to deliver specialised education with a focus on hands-on learning, such as our working vineyard and winery and our $37 million veterinary teaching hospital.

**Teaching led by world-class research**

The University of Adelaide brings together many different strands of science and staff from around the globe to conduct world-class research. Their work informs our teaching and gives you the unique opportunity to work with them on national and international projects.

Our campuses are home to a number of co-located industry partners, affiliated researchers and research institutes of international significance. This means our students have the chance to participate in cutting-edge discovery and gain valuable practical experiences while they study.

---

**LESTER YANG**

Winemaker, Pernod Ricard Winemakers

“Whilst studying my Bachelor of Viticulture and Oenology I heard that the University of Adelaide offers one of the best wine degrees in the world. I made up my mind to continue my career in this industry and the University of Adelaide became my first choice to expand my knowledge further.”
DOCTOR OF VETERINARY MEDICINE
CRICOS CODE 3CD001 CAMPUS Roseworthy
DURATION 3 years full-time INTAKES February
INDICATIVE ANNUAL TUITION FEE $65,000

Our Doctor of Veterinary Medicine provides the necessary training and qualifications for registration as a veterinarian. Most students enter this program after completion of the Bachelor of Science (Veterinary Bioscience) at the University of Adelaide. If you have an equivalent degree, you may also be eligible for entry. However, there are currently no equivalent Bachelor degrees within Australia. Generally, equivalence is found with a completed veterinary program from an overseas institution.

What will you do?
- Learn about the causes, diagnosis and treatment of diseases of domesticated animals including dogs, cats, horses, ruminants, camels, pigs and poultry
- Explore wildlife ecology, conservation medicine and ecoshell
- Hone your scientific and technical skills for research and clinical practice
- Gain advanced professional experience through a structured internship program
- Complete a further 23 weeks of extramural practical work.

Where could it take you?
You could work in clinical veterinary practice, treating small and/or large animals. You might work in biosecurity, managing programs to prevent disease incursion. Perhaps you’ll be a researcher or pursue pathways to government work, academia, consultancy, discipline specialisation (e.g. surgery, dermatology) or species specialisation (e.g. equine, wildlife, zoo animal).

Note: This program cannot be studied part-time.

MASTER OF BIOINFORMATICS
CRICOS CODE 092945M CAMPUS North Terrace
DURATION 2 years full-time INTAKES February, July
INDICATIVE ANNUAL TUITION FEE $43,000

Lead biological discoveries
Bioinformaticians are at the interface of mathematics/statistics, computer science and biology and manage, analyse and interpret complex biological data. As genetic information explodes, this high-demand role is highly sought after in personalised medicine, agricultural research, biomedical research, biotechnology and pharmaceutical companies.

What will you do?
Our Master of Bioinformatics prepares you to meet the growing demand for experts in the field. You’ll develop competitive analytical and research skills as you:
- learn how to deal with large, complex biological data sets
- apply bioinformatic analyses to real world problems in human health and agriculture
- examine interlinked issues in translational bioinformatic research, translation and development
- choose electives in particular areas of interest
- conduct a major research project.

Where could it take you?
You might analyse how pharmacologic therapies alter gene expression in cancers. You could look at ways to accelerate and improve the growth of food crops. Perhaps you’ll design new methods for detecting disease or predicting disease risk.

MASTER OF BIOTECHNOLOGY (BIOMEDICAL)
CRICOS CODE 072995M CAMPUS North Terrace
DURATION 2 years full-time INTAKES February, July
INDICATIVE ANNUAL TUITION FEE $43,000

Ready to drive progress in a top-ranking postgraduate degree?
Our Master of Biotechnology (Biomedical) focuses on innovative technologies for disease prediction and treatment.

What will you do?
• Learn from active researchers in biomedical science.
• Gain the latest industry insights from lab placements.
• Take courses in entrepreneurship, innovation and intellectual property management.
• Undertake a one-year independent research project.

You’ll also gain access to the following internationally-renowned research facilities and centres:
- Adelaide Proteomics Centre (APC)
- Adelaide Microarray Centre (SAHMRI)
- SA Genome Editing Facility (SAGE)
- Genomics Facility (SAHMRI)
- Confocal Microscopy
- Adelaide Microscopy
- Bioinformatics Hub.

Where could it take you?
You’ll be at the cutting-edge of biotechnology, where major advances are influencing important issues such as vaccines, cancer and stem cell therapies. Due to the strong research focus, this degree is often used as a pathway to a PhD in biotechnology and biomedical science.
**MASTER OF MEDICAL RADIATION PHYSICS**

**CRICOS CODE 010950E**  |  **CAMPUS North Terrace**

**DURATION** 2 years full-time | **INTAKES** February, July

**PREREQUISITES** Mathematics and Physics knowledge equivalent to MATHS 2101 Multivariable & Complex Calculus, MATHS 2102 Differential Equations, COMP SCI 1191 Introduction to Programming, PHYSICS 1100 Physics I, PHYSICS 1200 Physics II and PHYSICS 2354 Electromagnetism II

**INDICATIVE ANNUAL TUITION FEE** $44,500

Take proton therapy to the world

Proton therapy is big news in the fight against cancer. Offering next-level precision, it’s an attractive option for treating many tumours close to healthy organs or in children. The treatment’s global market is expected to double by 2024 and specialists in the area are in short supply—and high demand—worldwide.

**What will you do?**

Our Master of Medical Radiation Physics is suitable for students with an undergraduate physics degree, or engineering graduates seeking a change of specialisation. Highly clinically oriented, it will enable you to:

- master theoretical and practical mathematics and physics as they relate to clinical radiotherapy and medical imaging
- learn from internationally experienced medical physicists practising at the esteemed Royal Adelaide Hospital
- collect, analyse, critically evaluate and synthesise quantitative and qualitative data relating to physics and medical physics
- develop advanced research skills through a major final-year research project.

**Where could it take you?**

You will graduate equipped to undertake the necessary additional study and clinical training for Australian College of Physical Scientists and Engineers in Medicine accreditation. Once you’ve done this, many doors will open. You could join a cutting-edge proton therapy clinic as a radiation oncology medical physicist, or enhance therapy decisions as a diagnostic imaging medical physicist. Perhaps you’ll minimise treatment side-effects as a radiation safety officer.

International students, please note that you may also need to undertake additional study or research to gain accreditation in your home country.

*Wise Guy Reports, 2019.*

**MASTER OF SCIENCE**

**CRICOS CODE 010953A**  |  **CAMPUS North Terrace, Waite**

**DURATION** 2 years full-time | **INTAKES** February, July

**INDICATIVE ANNUAL TUITION FEE** $44,500

**INDICATIVE ANNUAL TUITION FEE** $47,500

**adelaide.edu.au/degree-finder**

**Carry the world forward**

Choose from unique specialisations in:

- Earth Science
- Grape and Wine Science
- International Agricultural Development
- Plant Breeding Innovation

In the face of numerous grand challenges, the world is turning to scientists—the great problem-solvers—for solutions. To be effective, their efforts must be well conceived, collaborative and inspire action. In short, they must show outstanding leadership. Our new Master of Science—from a leading Australian university ranked among the world’s top 1%*—prepares you to play this critical role in one of four specialist areas (see below).

**What will you do?**

This highly interdisciplinary degree is completed over two years full-time. It includes an engaging, student-centred blend of face-to-face and online coursework, and a significant independent research project. Supported by an inspiring team of world-class researchers and academics, and working with state-of-the-art scientific research technology and facilities, you’ll gain:

- a deep understanding of your chosen specialisation’s key theoretical and practical aspects, and its place within science’s broader scope
- advanced capabilities working across scientific disciplines
- high-level skills in collecting, analysing, critically evaluating and synthesising qualitative and quantitative data
- the ability to communicate effectively in a variety of modes, to diverse audiences, for a range of purposes
- strong research design, execution and reporting skills.

You’ll also have the option of gaining valuable real-world experience through an industry internship, and undertaking life-changing overseas study tours.

**Where could it take you?**

You could manage a vineyard or winery. You might experiment with the latest technologies to innovate and develop efficiencies in related industries. Perhaps you’ll focus on sustainable and natural practices, building an organic, biodynamic or solar-powered future for the wine industry.

*Times Higher Education and QS ranking*

**MASTER OF VITICULTURE AND OENOLOGY**

**CRICOS CODE 082842A**  |  **CAMPUS Waite**

**DURATION** 2 years full-time | **INTAKES** July

**adelaide.edu.au/degree-finder**

**Be part of a renowned institution**

Adelaide is one of the great wine capitals of the world with over 200 cellar doors within an hour of the CBD. Our winemakers are innovators and cultural leaders within a sector helping drive the nation’s economy. In fact, 70 percent of Australian wine research happens at the University of Adelaide’s Waite campus. This intensive two-year degree has an international reputation for excellence. It’s suited to students with a relevant bachelor degree or equivalent in a science field.

**What will you do?**

- Study at a university ranked 3rd in the world for wine research.
- Study at the largest agricultural teaching and research precinct in the Southern Hemisphere.
- Make wine in our state-of-the-art Hickinbotham Roseworthy Wine Science Laboratory.
- Build hands-on scientific and technological skills in the vineyards and winery.
- Learn from over 150 researchers and partners in grape and wine science.
- Access cutting-edge research at the Australian Research Council Training Centre for Innovative Wine Production.
- Undertake a research project and submit a thesis of 10,000 words OR complete a professional placement of at least 10 weeks (375 hours).

**Where could it take you?**

You can be a part of Australia’s national wine industry. Be a key player in the revolution of the Australian wine industry, representing Australia on the world stage.

**Where could it take you?**

You could be a part of Australia’s national wine industry. Be a key player in the revolution of the Australian wine industry, representing Australia on the world stage.

| Adelaide Master of Business Administration  | 48   | 4 trimesters | $48,500                          | Jan, May, Sep | 1. Bachelor degree or equivalent and a minimum of two years' relevant work experience, OR 2. A minimum of seven years work experience and a GMAT test score of 500, OR 3. Graduate Certificate or Diploma in Business Administration from the University of Adelaide. All applicants must adequately meet the attributes of: 
leadership, communication, team Skills, motivation and business skills. Applicants may demonstrate they meet the work experience and attributes via their CV, essay responses or interview. |
| Advanced Economics                          | 49   | 1.5 years | $44,500                       | Feb           | A completed Bachelor degree in Economics or equivalent, and grades of credit or higher in Intermediate Microeconomics, Intermediate Macroeconomics and Intermediate Econometrics, and approval of the Postgraduate Coursework Program Coordinator. Alternative Pathway: Students may enter this degree from the Master of Applied Economics. |
| Agribusiness                                | 50   | 4 trimesters | $44,500                          | Jan, May, Sep | 1. Relevant agriculture, food or business bachelor degree or equivalent with a minimum of one years' full-time equivalent work experience supported by a CV, essay and interview, OR 2. Any bachelor degree or equivalent with a minimum of three years' full-time equivalent work experience supported by a CV, essay and interview, OR 3. Applicants without a bachelor degree or equivalent will be considered on the basis of a minimum of seven years' full-time equivalent work experience supported by a CV, essay and interview. |
| Applied Economics                           | 50   | 2 years  | $44,500                       | Feb, Jul      | Bachelor degree or equivalent.                   |
| Applied Finance                             | 50   | 1.5 years | $46,000                       | Feb, Jul      | Bachelor degree or equivalent.                   |
| Applied Innovation and Entrepreneurship     | 51   | 4 trimesters | $44,500                          | Jan, May, Sep | Bachelor degree or equivalent.                   |
| Applied Project Management                  | 51   | 4 trimesters | $44,500                          | Jan, May, Sep | Bachelor degree or equivalent.                   |
| Applied Project Management (Project Systems)| 51   | 2 years  | $44,500                       | Jan, May, Sep | Bachelor degree or equivalent.                   |
| Architecture by coursework                  | 36   | 2 years  | $39,000                       | Feb, Jul      | Bachelor of Architectural Design or equivalent. Students are required to submit a Portfolio of Work and a Curriculum Vitae if they do not hold a Bachelor of Architectural Design from the University of Adelaide. |
| Arts                                        | 42   | 2 years  | $37,000                       | Feb, Jul      | 36 unit extension pathway: Bachelor degree in cognate discipline. 48 unit conversion pathway: Bachelor degree or equivalent. |
| Arts (Interpreting, Translation and Transcultural Communication) | 42 | 2 years | $37,000                       | Feb, Jul      | Bachelor degree or equivalent. Bachelor must have: 
• a major in Chinese language studies, OR 
• have been taught in a Chinese language. |
| Bioinformatics                              | 100  | 2 years  | $43,000                       | Feb, Jul      | Bachelor degree or equivalent. Degree must be in the area of Biological Science, Physics, Chemical Science, Mathematical Sciences or Computer Science. |
| Biopharmaceutical Engineering               | 72   | 2 years  | $43,000                       | Feb, Jul      | Bachelor degree with a Science, Engineering or Technology background. |

### Notes

1. Students satisfactorily completing all courses may expect to complete an academic program within the normal duration of that degree. Students who have failed courses, or students needing to complete prerequisite courses will take longer.

2. The indicative annual tuition fee quoted is based on the standard full-time enrolment load of 24 units per year or 12 units per semester. These fees cover the cost of teaching and the cost of student support services. The quoted fee is reviewed on a yearly basis. Prospective students should be aware that their fees may increase each year and that they are liable for these fees upon acceptance of their offer. Where the standard duration is less than one year, the full cost of the degree is displayed. Where the standard duration of the degree is greater than one year, the annual fee is displayed. Where a degree is offered on a trimester basis, and has a duration of one year or more, the quoted fee is for 24 units only. Each student will be advised of their fee schedule in their offer of admission to the University. Fees may vary depending on enrolment load, e.g. if students ‘overload’ or ‘underload’, fees may be increased or decreased accordingly.

3. External degree: to apply, please contact the relevant school/department as stated in the detailed degree information in this prospectus.

4. Available online only.

5. Available in both internal and external modes; to study externally, please contact the relevant school/discipline as stated in the detailed degree information in this prospectus.

6. Applicants must submit a portfolio and a Curriculum Vitae to Admissions. The portfolio should be of the applicant’s own work (uploaded as a .pdf or link to their online application, or by mail as a CD/DVD) demonstrating manual graphic skills and ability through freehand drawing or sketches, skills in relevant design-related areas, as well as familiarity using a Computer-Aided Design (CAD) software package.

7. Delivered on a trimester basis. Trimesters are compressed study periods which usually run from late January to May, May to August and September to November.

8. A total tuition fee for 12 units of study is provided for Graduate Certificates.

9. Trimester 2 delivery considered on a case-by-case basis.

10. GPA (Grade Point Average) is a numerical index that summarises academic performance on a scale of 0 to 7.0.

11. Offered part-time and available to non-student visa holders only.

12. Applicants considered for July intake on a case-by-case basis.

13. See full program entry for additional entry requirements.

14. Program is not available to international applicants who hold or require a student visa. International applications will however be accepted from applicants who hold a valid Australian visa permitting study.

15. Music extension pathway only 1.5 years.

16. Other non-academic entry criteria may apply.

17. Melbourne campus offers intakes in March, July and November.

6. Applicants must submit a portfolio and a Curriculum Vitae to Admissions. The portfolio should be of the applicant’s own work, uploaded as a .pdf or link to their online application, or by mail as a CD/DVD: demonstrating manual graphic skills and ability through freehand drawing or sketches, skills in relevant design-related areas, as well as familiarity using a Computer-Aided Design (CAD) software package.

7. Delivered on a trimester basis. Trimesters are compressed study periods which usually run from late January to May, May to August and September to November.

8. A total tuition fee for 12 units of study is provided for Graduate Certificates.

9. Trimester 2 delivery considered on a case-by-case basis.

10. GPA (Grade Point Average) is a numerical index that summarises academic performance on a scale of 0 to 7.0.

11. Offered part-time and available to non-student visa holders only.

12. Applicants considered for July intake on a case-by-case basis.

13. See full program entry for additional entry requirements.

14. Program is not available to international applicants who hold or require a student visa. International applications will however be accepted from applicants who hold a valid Australian visa permitting study.

15. Music extension pathway only 1.5 years.

16. Other non-academic entry criteria may apply.

17. Melbourne campus offers intakes in March, July and November.

</table>

**NOTES**

1. Students satisfactorily completing all courses may expect to complete an academic program within the normal duration of that degree. Students who have failed courses, or students needing to complete prerequisite courses will take longer.

2. The indicative annual tuition fee quoted is based on the standard full-time enrolment load of 24 units per year or 12 units per semester. These fees cover the cost of teaching and the cost of student support services. The quoted fee is reviewed on a yearly basis. Prospective students should be aware that their fees may increase each year and that they are liable for these fees upon acceptance of their offer. Where the standard duration is less than one year, the full cost of the degree is displayed. Where the standard duration of the degree is greater than one year, the annual fee is displayed. Where a degree is offered on a trimester basis, and has a duration of one year or more, the quoted fee is for 24 units only. Each student will be advised of their fee schedule in their offer of admission to the University. Fees may vary depending on enrolment load, e.g. if students 'overload' or 'underload', fees may be increased or decreased accordingly.

3. External degree: to apply, please contact the relevant school/department as stated in the detailed degree information in this prospectus.

4. Available online only.

5. Available in both internal and external modes; to study externally, please contact the relevant school/discipline as stated in the detailed degree information in this prospectus.

Glossary

Advanced standing Status/credit/exemptions granted on the basis of work already completed at another post-secondary institution.

Articulation agreement A formal agreement where study at selected institutions may be counted towards University of Adelaide qualifications.

Assumed knowledge Previously acquired knowledge that will enable understanding of a course or degree.

Bachelor degree An undergraduate qualification gained after a minimum of three years full-time study. A bachelor degree is made up of a range of core (compulsory) courses and elective courses, usually delivered via lectures and tutorials.

Campus The grounds of a university or other institution of higher education.

Combined degree A combined degree allows students to complete the requirements of two degrees in less time than when completed separately. Successful completion results in the award of a single parchment listing the combined degrees. A student may not graduate until the requirements for both degrees have been met.

Confirmation of Enrolment The document sent by the University after receipt of the tuition fee deposit. May be used as proof of student status to apply for a student visa.

Conversion Master Programs are AQF Master (Coursework) programs that are designed to convert students from their undergraduate discipline to another discipline.

Core course A compulsory subject taken as part of a program of study.

Course An individual subject taken as part of a program of study.

Coursework program A degree structured around particular courses, usually delivered via lectures and tutorials.

CRICOS Commonwealth Register of Institutions and Courses for Overseas Students.

DHA Department of Home Affairs.

Diploma Some schools in the University offer diplomas, which usually consist of 1-2 years of full-time coursework, delivered via lectures and tutorials.

Discipline A field or area of study, e.g. engineering, architecture, nursing.

Double degree A double degree allows students to complete the requirements of two degrees in less time than when completed separately. Successful completion results in the award of two degrees with separate parchments. A student may graduate from each degree as soon as the requirements for each degree have been met. For example: Master of Architecture with Master of Landscape Architecture.

Extension Master Programs are AQF Master (Coursework) Programs that are designed to extend a student’s skills and knowledge in the same discipline as their undergraduate Award.

Elective course A non-compulsory subject that may be chosen as part of a program of study.

Exchange agreement An agreement between universities allowing students to undertake 1-2 semesters of their degree at an overseas institution.

Extra admission requirements Requirements, in addition to the specified qualifications, needed for a student to be accepted into a particular discipline, e.g. audition, interview, portfolio submission, personal qualities assessment.

Full-time study A standard full-time study load consists of 24 units per academic year, and 12 units per semester. The University and the DHA considers a 75% study load (9 units per semester or trimester) a full-time load. While international students can enrol in a 75% study load, this isn’t recommended as it may result in them not completing their degree within the standard duration. International students are required by DHA to complete within the specified duration of the degree.

Faculty An academic branch in the University, consisting of various schools, e.g. the Faculty of Health and Medical Sciences.

GEAP (General English for Academic Purposes) A course for students looking to improve their English for a variety of reasons, such as to assist with future study or their career. GEAP by itself is not a direct entry pathway to undergraduate or postgraduate study at the University of Adelaide.

Honours Honours is a one-year full-time (or equivalent part-time) program that allows students to consolidate learning from their undergraduate studies by undertaking research and a thesis.

IELTS The International English Language Testing System, an internationally recognised UK-based test for English language assessment, essential for student visa requirements.

Indicative annual tuition fee The indicative annual tuition fee quoted in this prospectus is based on the standard full-time enrolment load of 24 units per year or 12 units per semester. These fees cover the cost of teaching and the cost of student support services. The quoted fee is reviewed on a yearly basis. Prospective students should be aware that their fees may increase each year and that they are liable for these fees upon acceptance of their offer. Each student will be advised of their fee schedule in their offer of admission to the University. Fees may vary depending on enrolment load, e.g. if students ‘overload’ or ‘underload’, fees may be increased or decreased accordingly. All fees listed are in Australian dollars (AUD$).

Lecture A class on a specific topic presented by a lecturer to a large group of students.

Level A stage or period of study (generally one year in duration) within a degree, e.g. Level 1, 2, 3. The depth and complexity of courses increases through each level.

Major sequence A combination of approved courses leading to specialisation within a field of study, completed over one or more years of a degree.

OSHC Overseas Student Health Cover is compulsory health insurance that provides basic and emergency health cover. It is an essential requirement for international students to obtain a student visa.

Part-time study Any study load that is less than 75%, or 18 units a year. Note that under current student visa regulations, part-time study is not recommended for international students as they are required by the DHA to complete within the specified duration of their degree.

PEP (Pre-enrolment English Program) A direct entry pathway English language program for students that have not met the entry requirements for their chosen award program.

Prerequisites To be eligible for some degrees, particularly in the areas of Science, Engineering, Mathematics and Computer Science, applicants are required to have passed specific subjects called prerequisites.

Program A series of courses making up a particular qualification, e.g. Bachelor of Commerce.

Selection Rank A score that is given to a degree and used as part of the Admissions process.

Semester The standard length of an individual course. University courses are taught in two semesters: semester 1, from February/March until late June, and semester 2, from July/August until November.

Seminar A small class similar to a tutorial, involving presentations by students.

TOEFL Test of English as a Foreign Language, an internationally recognised US-based English language test.

Trimester The academic year may be divided into trimesters (three study periods). Trimesters are compressed study periods which usually run from late January to May, May to August and September to November with a short break in between trimesters.

Tutorial Small, weekly classes led by a tutor or lecturer, where students discuss issues relevant to a particular course.

Unit A value assigned to courses identifying the amount of work involved. Full-time students normally undertake 24 units of study a year. Majority of courses are equivalent to 3 units.
