For 60 years, we’ve been working to change the world, and we’re not about to stop. At Monash, we see challenges as opportunities to make things better.

It’s hard to imagine a time when the need to make positive change has been greater than now. We want you to help us do it.

Whether you want to change your life, your career, your community or the world, your journey starts at Monash.

As a university with a global footprint, we know we have to play our part in solving the problems facing the world. That’s why all Monash students, lecturers, researchers, professional staff, alumni and supporters contribute to making real change.

You, too, have the opportunity to step up and make a difference.

Are you ready?

IF YOU DON’T LIKE IT, CHANGE IT.

Ready to make a change? Click here to learn more.
CHINA
Suzhou
The Southeast University-Monash University Joint Graduate School, in the heart of one of China’s biggest innovation precincts, offers master’s and PhD study options in areas ranging from industrial design and IT to business.

ITALY
Prato
In the heart of Tuscany and close to Florence, Prato is our European base where eight of our faculties offer units covering design, law, business and more.

MALAYSIA
Kuala Lumpur
Close to fast-paced Kuala Lumpur, Monash University Malaysia is our third-largest campus, with more than 8000 students undertaking courses offered across seven schools.

INDONESIA
Jakarta
Monash University will be establishing the first foreign university campus in Indonesia. Based in Jakarta, Monash Indonesia will be offering master’s and PhD degrees, as well as executive programs and micro-credentials. The course offerings will be research intensive with a focus on industry engagement.

INDIA
Mumbai
Bustling Mumbai is home to the IITB-Monash Research Academy, a collaboration that gives PhD students opportunities to work closely with industry to find solutions to global problems.

MELBOURNE AUSTRALIA
Clayton
Clayton, in Melbourne’s rapidly growing southeast corridor, is our biggest campus, home to 38,000 students and eight of our 10 faculties. Everything you need is on campus – food outlets, sporting facilities, health services and more.

Peninsula
Home to approximately 4000 students, our Peninsula campus offers courses from the Faculty of Education along with select courses from Monash Business School. Partnering with leading players in primary and allied healthcare, we also offer a number of courses from the Faculty of Medicine, Nursing and Health Sciences.

Parkville
Our dedicated pharmacy and pharmaceutical sciences campus hosts 2000 students and is part of Australia’s leading health and biomedical precinct. It’s also home to two of our research hubs, Monash Institute of Pharmaceutical Sciences and the Centre for Medicine Use and Safety.

Caulfield
The base for Monash Art, Design and Architecture, and Monash Business School, as well as some Arts, Medicine, Nursing and Health Sciences, and IT courses, Caulfield hosts 19,000 students. It’s a culture hub, with MUMA, our modern art museum, joining sporting and café facilities.

GET AHEAD WITH MONASH

From day one, a Monash education sets you on the path to future career success.

Our programs and platforms offer work-integrated learning experiences and engagement with industry. You’ll develop an enterprising mindset, hone your employability skills, and gain a competitive edge in the graduate employment market.

Career Connect
Our Career Connect program gives you access to experienced coaches and industry-based professionals. Take part in employability workshops, small group career conversations and, in your final year, one-on-one coaching. monash.edu/career-connect

Student Futures
Our Student Futures platform allows you to collate the real-life skills that will show employers you have what they’re looking for, taking into account not just your university activities, but those that are part of your ‘outside’ life – paid work, family responsibilities, and contributing to your community. monash.edu/student-futures

Develop leadership
While studying, you’ll be encouraged to foster the skills for effective leadership that will enable you to positively influence the University, your community and, eventually, the world. monash.edu/students/leadership

Monash Talent
With our employment service, Monash Talent, you can start your career search without stepping foot off campus. We have a team of recruitment specialists who’ll connect you with reputable employers and match you with jobs that suit your skills and passions. monash.edu/talent

Mentoring
Throughout your studies here, you have the opportunity to mentor or be mentored. You can share or gain insights about life at university, career planning, building employability, as well as future goals. monash.edu/mentoring

Work-integrated learning
Incorporate professional experience into your studies, through clinical placements, fieldwork, study tours, placements, or internships. monash.edu/students/future-work/experience/wil

Click here to find out how a Monash education prepares you for success into the future.
SCHOLARSHIPS TO UNLOCK YOUR TALENT

At Monash, we believe in unlocking your potential to make a difference in the world.

MONASH INTERNATIONAL LEADERSHIP SCHOLARSHIP

If you...
Are an academic high-achiever able to demonstrate your potential to be an ambassador for the University.

The offer
Tuition fees are paid until the minimum number of points for your degree are completed.

Assessment
You’re assessed on a separate scholarship application containing a personal statement that must be submitted once you’ve received a full unconditional Monash course offer. Some courses and qualifications are excluded.

MONASH INTERNATIONAL SCHOLARSHIP FOR EXCELLENCE

If you...
Are one of the top 10 students to achieve an ATAR of 98 or above through the International Baccalaureate or Australian Year 12 systems in 2020.

The offer
A$10,000 per 48 credit points (up to A$40,000) for the duration of your course.

Assessment
No applications necessary. You’ll be automatically assessed for this scholarship.

MONASH INTERNATIONAL MERIT SCHOLARSHIP

If you...
Have achieved within the top five per cent of your international qualification (for example, A levels).

The offer
A$10,000 per 48 credit points (up to A$50,000) for the duration of your course.

Assessment
You’re assessed based on a separate scholarship application containing a personal statement that must be submitted once you’ve received a full unconditional Monash course offer.

For a complete list of scholarships offered by Monash University, including honours and research scholarships, scholarships for current students, faculty and donor scholarships, visit monash.edu/international-scholarships

We want as many bright minds as possible to benefit from a Monash education. 
Click here to learn about our scholarships program.
Our Australian base is a vibrant, multicultural city that offers an abundance of cultural festivities, international sporting events, cafés and restaurants with cuisines from around the world, beautiful parks and beaches, and an eclectic mix of music and arts. You couldn’t pick a better place to live.

As one of the world’s most liveable cities, you can expect excellence in public transport and healthcare, as well as opportunities for casual work while studying. Plus, Melbourne is renowned as a welcoming environment for international students, providing a home away from home.

1 Economist Intelligence Unit 2011-2018.
Peninsula campus’ Gillies Hall is the largest commercial Passive House building in Australia, and is the most energy-efficient structure Monash has built. Gillies Hall won gold in the ‘Architecture – Multi Residential – Constructed’ category at the 2019 Melbourne Design Awards for its green credentials.

LIVING ON CAMPUS

Start with a short stroll to class before lunch. Study on the lawns in the afternoon. Gyms, sports fields and even restaurants – they’re all on your doorstep if you live on campus.

Click here for an interactive tour of our Clayton campus.

ON-CAMPUS ACCOMMODATION

Our on-campus accommodation is supported by live-in staff and student leaders, making campus life a breeze. There’s also 24-hour security on campus, and a thriving events and activities program to help you settle into your new community.

Prices for on-campus accommodation range from $240 to $303 per week.

Applications are free and open in September. You can choose from traditional halls of residence, self-contained studio apartments or shared apartments.

With students from 70 countries and the wide range of facilities on your doorstep, discover why on-campus accommodation is much more than just your room.

monash.edu/accommodation

COST OF LIVING

Before you begin your studies at Monash, it’s a good idea to plan and prepare a budget.

Below are some costs associated with living and studying in Australia, and should be used as an approximate guide. These figures (in Australian dollars) are estimates only, and may vary depending on your location and lifestyle. Rent, for example, is more expensive in some areas of Melbourne than others. You may also need spending money for things like medication and other personal items, such as clothes. All costs are subject to inflation.

Depending on your chosen course, additional costs may apply for class materials and other requirements. Please make sure you check any additional costs for your course before commencing your studies.

monash.edu/accommodation

Off-campus accommodation

- Hostels and guesthouses $90 to $150 per week
- Rooming houses $85 to $215 per week
- Homestay* $376 per week
- Private rental $165 to $440 per week
- Boarding schools $11,000 to $22,000 per year

Other living expenses

- Groceries and eating out $80 to $280 per week
- Gas and electricity $35 to $140 per week*
- Phone and internet $20 to $55 per week*
- Public transport $15 to $55 per week
- Car (after purchase) $150 to $260 per week
- Entertainment $80 to $150 per week

* The fees for living on campus at Monash University vary depending on the type of accommodation. For on-campus accommodation costs, including gas, water, electricity, internet, residential parking permit and laundry, contact monash.edu/accommodation/pricing

** Any student under the age of 18 who chooses to stay in homestay must use the Monash Homestay Accommodation Service. monashcollege.edu.au/life-at-monash-college/accommodation/homestay

2021 INTERNATIONAL UNDERGRADUATE COURSE GUIDE

2021 INTERNATIONAL UNDERGRADUATE COURSE GUIDE
Monash College offers two academic pathways into Monash University undergraduate degrees: Monash University Foundation Year, and Monash College diplomas. All you need to do is decide which is best for you.

**FOUNDATION YEAR**
Prep for success at Monash University with direct entry into undergraduate degrees from all 10 faculties. The Monash University Foundation Year is a pre-un program that will help you develop the academic and English skills to the level expected of Monash University students, while studying subjects that get you ready for your future undergraduate course.

**At a glance**
- **University entry:** first-year Monash University
- **Location:** Docklands
- **International locations:** Indonesia, Malaysia, Sri Lanka, China
- **Duration:** 12 months (alternative entries available)
- **Intake:** January and July (alternative intakes available)
- **Contact hours:** five hours a week per unit
- **Entry requirements:** see page 88.

**Benefits of the Foundation Year program**
- You have flexibility to choose your subjects
- There are no subject prerequisites for entry
- You can enter into any of the 10 faculties at Monash University
- It’s the only pathway into courses in medicine, nursing, health sciences, pharmacy, music and law.

**CRICOS**
- Standard: 071178G
- Intensive: 071180C
- Extended: 072824G

monashcollege.edu.au/foundation-year

---

**DIPLOMA**
Specialise from day one with a Monash College diploma and fast-track into second year. Our diploma program offers international students guaranteed entry into the second year of their destination Monash undergraduate degree. All you need to do is pass all of your units and meet the set entry requirements.

**At a glance**
- **University entry:** second-year Monash University
- **Location:** Docklands
- **International locations:** Sri Lanka, Indonesia, India
- **Duration:** Part 1: four to eight months
- **Part 2:** four to 12 months
- **Intake:** February, June and October
- **Contact hours:** five to seven hours a week per unit
- **Entry requirements:** see page 88.

**Benefits of the diploma program**
- Specialise from day one – only study subjects related directly to your degree
- Flexible entry and exit points
- Fast-track your studies by studying three trimesters a year
- Direct pathway into the second year of art design and architecture, arts, business, education (double degrees only), engineering, information technology and science
- Prepare for university teaching style with a combination of interactive lectorials and small tutorial classes.

**CRICOS**
- Art and design: 045084G
- Arts: 061625F
- Business: 043633M
- Engineering: 043634K
- Information technology: 0100159
- Science: 086068B

monashcollege.edu.au/diploma

---

Both options:
- offer international students guaranteed entry into their chosen degree at Monash University
- demonstrate our teaching style
- have multiple intakes throughout the year to align with your high school exams
- use technology to make learning more interesting and practical
- have proven success in developing high-performing graduates.

---

1. Exceptions apply – fine art and architecture enter the first year with four units of credit.
2. New campus opening 2021, subject to regulatory approval.
3. Entry requirements into Monash College and Monash University apply.
To succeed at Monash, you need excellent English language skills.

We offer three English language courses; the one that’s right for you will depend on your level of English and your chosen Monash degree. When you apply, we’ll provide you with an offer for the best English course for you.

monashcollege.edu.au/courses/english

**Monash English**

This course helps improve your English language skills to prepare you for entry into Monash English Bridging or Monash University.

**Monash English Bridging**

A 10, 15 or 20-week program that’s ideal if you’ve met the academic requirements for Monash but have narrowly missed the English language requirements. Monash English Bridging prepares you for the English language and academic expectations of Monash University.

**Introductory Academic Program**

A five-week program for students who’ve received a full offer to Monash University. The Introductory Academic Program provides academic skills training to give you a head start in your university career.

Email study@monash.edu to find out more about your study options.

---

**Monash English (ME)**

- **Duration**: 10-50 weeks depending on placement test results and destination course.
- **Intakes**: Nine per year. Aligned to destination course start date.
- **Duration**: 10, 15 or 20 weeks depending on English language proficiency.
- **Intakes**: Aligned to destination course start date.
- **Suitable for**: Students looking to improve their English language and academic skills for future study. Available at a range of English proficiency levels.
- **Suitable for**: Students who have met the academic requirements but have narrowly missed the English language requirements for a Monash course.
- **Entry requirement**: Minimum IELTS 4.0 or equivalent. Dependent on Monash course.
- **Entry requirement**: Minimum IELTS 4.0 or equivalent.
- **Contact hours**: 35 hours per week, consisting of 20 hours of classroom tuition plus 15 hours of guided independent learning.
- **Destination course**: Monash University Foundation Year and Monash English Bridging for diplomas. Monash English is also available for students entering diploma, undergraduate, graduate and graduate research courses, with an IELTS test.

2. This is only applicable to Monash University undergraduate courses with minimum English language requirements that require a IELTS 5.5 or higher for direct entry.
3. Monash English Bridging is not accepted for entry into all Monash University undergraduate courses.
When you choose to study overseas, it’s more than your surroundings that change – you’ll experience new cultures and enhance your global perspective.

Many programs are supported by generous scholarships and assistance packages.

**Semester exchange**
Choose from more than 150 partner institutions in Asia, Africa, Europe and the Americas, gaining credit towards your degree while seeing the world.

**Global study tours**
Complete a unit overseas in two to four weeks. You’ll learn from inspiring academics and classmates in places as diverse as China, Fiji, France, Chile, Indonesia or Rwanda.

**Global work-integrated learning**
Rub shoulders with US Congress, or intern with Oxfam in South Africa. Placements and industry projects are offered for credit as part of most degrees.

**Swap your seasons**
Make the most of your semester break. Complete a short study program for credit in a vibrant city abroad.

**Try Malaysia**
Experience our Malaysia campus on the Global Intercampus Program (GIP). You’ll also get the benefit of funding packages and in-country support services.

**Italy awaits**
Spend four to 12 weeks in Prato, Italy, completing a wide range of unit offerings such as Italian, law or criminology.

**Funding while abroad**
By applying for courses overseas, you’re automatically considered for a share of more than $2 million in scholarships.

**Go global**
Build a professional network while you’re still studying. Our Global Discovery Program taps into the expertise of some of our brightest alumni – students have previously travelled to cities such as London and New York. Learn more at monash.edu/global-discovery.
We’ll Support You

University study takes commitment and drive, especially if you’re moving to a new city or country.

We can help you settle into university life by providing an extensive range of support programs and services. And to help you maintain the momentum, we’ll put you in touch with like-minded people – to share information, build networks and get the support to keep you going. We recognise the richness and depth of our Monash community, and are committed to diversity and inclusion.

Details: monash.edu/student-life

Campus security

While Melbourne is considered one of the world’s most liveable cities, at Monash we always look out for our students’ welfare. We provide a range of security services to ensure our students are safe at all times. These include 24-hour security patrols, security escorts, and an evening security bus between our Clayton and Caulfield campuses. Details: monash.edu/about/safety-security

Monash Connect

Monash Connect Student Service Centres are located on each Australian campus, making it easy for you to understand administrative processes and access information. Staff can assist with your questions about admissions, enrolment, fees, student visas, accommodation, language support, academic support, graduations, scholarships and finding your way around campus. We now offer ‘live chat’ to new and existing students. It’s just another way we’re making it easier to find out what you need to study at Monash. Details: monash.edu/connect

Airport pick-up

Monash University welcomes all new international students with a free airport pick-up service to take you to your accommodation. To arrange a pick-up, you must submit an airport pick-up request form at least three working days before you arrive in Australia. Details: monash.edu/study/international/preparing/reception

Monash Professional Pathways

Offering a 12-week internship and work-readiness training, the Professional Year Program from Monash Professional Pathways helps you obtain the skills and experience that employers demand. Details: monashprofessional.edu.au

Disability support services

If you have a disability, medical or mental health condition that may impact on your study, Disability Services can support you. Registered students can access services such as academic support, assistive software and equipment loans. Details: monash.edu/disability

Wellbeing

Monash offers expert health and wellbeing counsellors, medical practitioners and multi-faith chaplains to support you in all facets of your life. Information is provided at orientation on a wide range of topics, including settling into life in Australia, healthcare, transport, student visas, safety, getting connected, and opportunities to make new friends. We also have an informative handbook specifically for new Muslim students studying in Victoria. You can download a copy of the Salaam Monash handbook in English, Bahasa Indonesia or Arabic from monash.edu/salaam-monash

It will provide information about adjusting to life in Australia and studying at Monash, including campus maps, lists of social groups, and a directory of halal outlets. Alternatively, you can pick up a copy of the handbook from Monash Connect on your campus. Details: monash.edu/health

Clubs and societies

More than 100 student-run clubs and societies organise activities, events, competitions, productions, get-togethers, seminars, camps, conferences and more for our 10,000-plus student members. There’s a wide variety of clubs on offer – academic, cultural, spiritual and special interest – to put you in touch with like-minded people. Our involvement in more than 50 sports means it’s easy to get involved – try our athletics, table tennis, dance, badminton, soccer clubs. Details: monash.edu/study/student-life/clubs-and-societies

Family support

If you have children or other family commitments, Monash provides advice regarding childcare, primary school, playgroups, school holiday care, and other family support matters. We have arrangements with childcare centres at our Clayton, Caulfield and Peninsula campuses. Social events for international students with families are also held throughout the year. Details: monash.edu/childcare

Conversational English Programs

We offer a range of free programs to help you become savvy in Australian culture, further develop your English language skills and engage with students from all over the world. Let’s Chat programs are fun, obligation-free group conversation sessions. Peer Support provides one-on-one assistance with written English. No assessment, no homework, no pressure – all you need is your enthusiasm to participate in practical sessions designed to refine your conversation skills in a supportive environment. Details: monash.edu/english-connect

Click here to see how you can use social networking tool aMigo to connect with other new Monash students before commencing your studies.
***OUR COURSES***

Choosing what to do at uni is an adventure. It’s about discovery, passion and realising your dreams. At Monash, we offer a range of courses that allow you to fulfil these ambitions. Use the index below to find your course of interest.

ARCHITECTURAL DESIGN

Combine your creative vision and technical expertise to shape the future of society, through great design in the built environment.

Think beyond the building, and learn how to create solutions that transform the way we live, creating spaces, places and communities that improve our quality of life. Learn to make places that are both inspiring and sustainable.

You’ll study architecture from day one in this hands-on, studio-based degree. More than half of your time will be in the studio, collaborating with your peers in small groups to develop design responses to a wide range of social and spatial issues, just like you would in an actual architecture firm. You’ll also learn how to effectively communicate these ideas to others – whether they’re clients, communities or policymakers – through drawings, models and live presentation.

In second and third year, you’ll be introduced to architects and designers from across Melbourne and around the world as they pitch ideas for projects you can work on together. Maybe you’ll want to go ‘urban’ and come up with a way to create community spaces, or look at ways to revitalise informal settlements in Southeast Asia. You might choose to focus on new and emerging building technologies. Or you could explore speculative architecture, imagining what ‘punk buildings’ or ‘inclusive architecture’ might be like.

Whatever you choose, you’ll graduate with a portfolio of work that’s unique to you.

Entry requirements

- 2021 ATAR for international students: 75
- GCE A Level: 8
- Indian School Certificate Examination: 65%
- Advanced Placement, America: 6
- ACT, America: 25
- SAT, America (Total score out of 1600): 1160
- High School Diploma, Vietnam: 8.14
- Hong Kong Diploma of Secondary Education: 17
- International Baccalaureate (IB) Diploma: 26
- SMA3, Indonesia: 80%
- STPM, Malaysia: 7.9
- UEC, Malaysia: 5
- Monash University Foundation Year (commencing MUFY in 2021): 76.25
- UNIFY Foundation Studios: 7
- University of Melbourne, Trinity College Foundation Studies: 72%
- Monash College Diploma Part 1: 75%
- Monash College Diploma Part 2: 65%

For information on ‘How to calculate your entry score for the listed qualifications in this guide’ go to page 82.

Prerequisite subject levels

English (Australian Year 12 equivalent).

VCE, IB, GCE A Levels, Advanced Placement

English: Level 1. For prerequisite subject requirements for the above level/s (and other qualifications), refer to pages 84-85.

Monash English language level

Level A (see page 87).

DID YOU KNOW?

Upon graduation, you can choose to move directly into Monash’s Master of Architecture course – which you’ll need to complete in order to become a registered architect – but there are also lots of other creative careers Architectural Design can lead to.

I fell in love with Australia and chose Monash because my high school mentor recommended the University to me because of its teaching and culture. One of my favourite aspects of studying architecture at Monash was the range of architectural practices I had the chance to learn about and work with on projects that dealt with real-life issues. Throughout my studies I worked on a few landscape and water-sensitive projects which allowed me to graduate with a job at a landscape architecture firm.”

JEAN-CRISTOPHE OLIVIER PETITE
Bachelor of Architectural Design and Master of Architecture
DESIGN

Learn how to think like a designer to solve complex problems with curiosity, agility, experimentation and creativity.

When you enrol in Monash Design, you don’t have to decide right away whether you want to study communication design, industrial design or spatial design. You’ll explore all of them in your first year - later you can choose one to focus on. It’s not the only way, though. If you decide you’re interested in elements of all three, you can custom-create your own combination to graduate with a degree in collaborative design.

Communication Design

Become a bold, imaginative communication designer who shapes the visual language of contemporary society through creative visual storytelling.

The Australian government forecasts strong growth in the demand for designers and illustrators over the next few years (Australian Government Department of Jobs and Small Business ‘Employment Projections’). In a single degree, communication design brings together digital and interactive design, graphic design and visual communication so that you graduate as a future-focused design professional, ready to work across a wide range of industries.

At Monash, half of your studies take place in the studio – a hands-on, creative environment. Located on Caulfield campus’ creative hub, you’ll also have access to Monash’s Wacom digital art studio. The studio is equipped with the latest 3D printers, laser cutters, CNC milling tools, thermofomers and a wide range of traditional wood and metalworking facilities. Located on Caulfield campus’ creative hub, you’ll also have access to Monash’s Wacom Authorized Training Centre (WATC) of Inspire 240HD tablets, and Australia’s only automotive clay modelling studio, provided by Holden and the Partners for the Advancement of Collaborative Engineering Education (PACE).

With a degree in industrial design from Monash, you’ll confidently step straight from university into industry and hit the ground running.

Industrial Design

Create beautiful, functional objects by combining your knowledge of materials, manufacturing and human-centred design with innovation and aesthetics.

From innovative transport solutions, to furniture and lighting design, to medical equipment, to products that aid developing countries – the work of industrial designers can advance the human experience, making a better life for us all.

In this Design Institute of Australia ‘Recognised Course’, you’ll be guided by Monash academics, practising industrial designers and top researchers as you learn to use design as a problem-solving tool in hands-on, practical studies. You’ll also learn the tools and techniques to transform your ideas into prototypes with moving parts and realistic details, and have access to the latest 3D printers, laser cutters, CNC milling tools, thermofomers and a wide range of traditional wood and metalworking facilities. Located on Caulfield campus’ creative hub, you’ll also have access to Monash’s Wacom Authorized Training Centre (WATC) of Inspire 240HD tablets, and Australia’s only automotive clay modelling studio, provided by Holden and the Partners for the Advancement of Collaborative Engineering Education (PACE).

With a degree in collaborative design, you’ll be able to shape a unique approach to your own career.

Spatial Design

Design new experiences that set moods, communicate ideas and address social problems through the innovative use of space, lighting and objects.

The work of spatial designers is all around us – from entertainment venues, festivals, exhibitions and theatre sets to retail, office and domestic interiors, and even to the development of virtual worlds. This new Monash course combines architecture and interior design into a new approach to people and space at a variety of scales, from the smallest room to the largest urban environment.

As a Monash student, you’ll meet and work with a variety of guest lecturers, from up- and-coming designers to established industry practitioners. You’ll gain an understanding of industry practice, and by exploring their individual approaches to spatial design you’ll be able to shape a unique approach to your own career.

While the course is new, the idea of spatial design is long-established. Over the next five years, the Australian Department of Jobs and Small Business expects very strong growth in the field, with around 8000 job openings to become available.

Spatial design is a career with a future.

Collaborative Design

Combine elements from Communication Design, Industrial Design and Spatial Design to custom-create your own Collaborative Design degree.

Today’s technology-driven economy is faster and more competitive than ever. It demands new approaches from industry, and people with the creative ability to deliver them.

In its recent report on ‘The Future of Jobs’, the World Economic Forum determined that the top three skills highly valued by future employers are creativity, critical thinking and complex problem-solving.

This unique degree allows you to custom-create your own combination of design specialisations to gain those skills, becoming an outstanding collaborator, critical thinker and problem-solver. It’s a highly appealing and transferable combination of skills that’ll ensure you’re equipped to take on the jobs of today as well as in the future.

Get started on a new career.

Entry requirements

2021 ATAR for international students 70

VCE, IB, GCE A Levels, Advanced Placement, America 6

2 The Monash College Diploma Part 1 and 2 entry requirements published in this guide are for students commencing their undergraduate degree in 2022.

Health e-key

Designed by Mitchell Cheong, Health e-key addresses the growing concern for patient information security in the digital age.

Health e-key is a physical key and lock system that integrates with existing digital medical record ecosystems such as myHealth. Designed to be stylish and integrate seamlessly with your everyday carry, health e-key gives control back to the patient.

MITCHELL CHEONG

Bachelor of Industrial Design

Recipient of an Outstanding Industrial Design Student award for 2014.
FINE ART

Realise your artistic ambitions with the support of a community of creative practitioners.

No matter which specialisation you choose, you’ll be guided by some of Australia’s best artists, theoreticians and cultural commentators.

Our courses give you the choice to study a single degree or combine your interest in art with business, education, arts/humanities, IT or media communication so you graduate with two degrees in four years.

Fine Art

Work with leading professional artists, art theoreticians and cultural commentators as you explore the world of contemporary art through a studio-based approach to learning.

This degree gives you the option to explore the world of contemporary art by focusing on a single degree, or mix it up and combine your artistic practice with business, education, humanities/social science or IT in a double degree.

Guided by Monash’s renowned academics — ranked No.1 in fine art* by the Australian government — you’ll receive skill-specific training in a variety of techniques and mediums, and many hours in the studio each week to work on your own practice.

You’ll have access to tools and workspaces for painting, photography, sculpture, jewellery, glass and printmaking, and some you might not expect, such as 3D printing, laser cutting, robotic manufacturing — the only limit is your own imagination.

Located 15 minutes from the city centre, Caulfield campus is home to a trio of galleries, including the Monash University Museum of Art (MUMA) and extensive creative facilities.

Year-round, our campus hosts exhibitions, talks and extensive creative facilities.

You’ll have the opportunity to turn your knowledge into practice with a six-week curating internship at the end of your second year — a fantastic opportunity to build industry contacts and confidence.

Did you know that with Arts you can graduate with a bachelor’s and a master’s degree in just four years? After completing two years of your bachelor’s course, and providing you’re a high-achieving student, you can take your master’s-level units as your electives in third year. You then complete the remainder of your master’s course in fourth year.

We have the largest offering of bachelor’s/master’s double degrees in Australia, allowing you to match your bachelor’s degree with a master’s degree in one of the following:

- Applied Linguistics
- Bioethics
- Communications and Media Studies
- Cultural and Creative Industries
- International Development Practice
- International Relations
- International Sustainable Tourism Management
- Interpreting and Translation Studies
- Journalism
- Public Policy
- Strategic Communications Management.

We offer double degrees in:

- Anthropology
- Archival and archival history
- Behavioral studies
- Bioethics
- Chinese studies
- Communications and media studies
- Criminology
- Digital humanities
- Film and screen studies
- French studies
- German studies
- Italian studies
- Japanese studies
- Korean studies
- Linguistics and English language
- Literature studies
- Music
- Musical theatre
- Philosophy
- Politics
- Psychology
- Religious studies
- Sociology
- Spanish and Latin-American studies
- Theatre and performance
- Ukrainian studies

* Also available as an extended major.

** Also available as part of a specialisation.

** Studying a Bachelor of Arts has been such an exciting rollercoaster. I started studying arts with the intention of majoring in theatre, but found my true passion in Chinese studies. Although Chinese studies and theatre sound like two completely different majors, through Chinese studies I have been able to marry my passion for performing with my interest in language.

I have found a community of like-minded students that are making waves with their background in arts. The highlight of my arts degree would definitely have to be the people that I met on my recent trip to China."**

SHAHANEEZ THEVAKUMAR
Bachelor of Arts/Bachelor of Science
CRIMINOLOGY

Improve responses to crime and criminality.

This course offers students a world-leading program delivered by a team of outstanding teachers and researchers. You'll consider the local, national and global aspects of crime and justice, and become familiar with a range of lenses for assessing the efficiency and impact of society's changing understandings and responses. You'll learn about victimisation and perpetration, inequality and its impacts, and approaches to understanding crime and difference, crime committed by individuals, groups, organisations and states, and the mechanisms of the criminal justice system, including police, courts and corrections.

Options are available to develop specialist knowledge of specific criminal concerns, including gendered violence, punishment, criminal justice processes, drugs, cybercrimes, risk and surveillance, youth crime, crime prevention and transnational justice practices.

You'll have the opportunity to travel internationally to meet criminal justice experts from around the world, and throughout the course you'll be challenged to apply abstract knowledge to real-world problems of crime and justice, and develop solutions.

This course is available as part of a bachelor's/master's program allowing high-achieving students to graduate with both degrees in just four years. Refer to page 28 for further information.

Prerequisite subject levels

English (Australian Year 12 equivalent).

VCE, IB, GCE A Levels, Advanced Placement

English Level 1: For prerequisite subject requirements for the above levels (and other qualifications), refer to pages 84-86.

Monash English language level

Level A (see page 87).

GLOBAL STUDIES

Devise innovative solutions to global problems.

The Bachelor of Global Studies is suited to students who aspire to be leaders in creating social change. You'll learn how to critically analyse global challenges facing cultures and communities throughout the world. You'll learn how to apply your knowledge to these challenges and devise innovative solutions to help solve them.

The course has a number of exciting features that set it apart. Core units provide leadership development, and project-based learning includes the opportunity to work in collaboration with global organisations and NGOs. You'll have access to the Monash Arts Global Immersion Guarantee as part of the required overseas study component. You can do an internship with industries and organisations who are leading advocates for social change around the world. And there's a broad range of electives that train you to think across different disciplines.

This course is available as part of a bachelor's/master's program, allowing high-achieving students to graduate with both degrees in just four years. Refer to page 28 for further information.

Specialisations

Cultural competence

This is an interdisciplinary field that fosters awareness of language, cultural interaction and negotiation, conflict and cooperation. You'll deepen your cross-cultural skills and knowledge through intensive language study, and benefit from the most comprehensive language program available in the country.

By focusing on incorporating cultural competence as you develop your language skills, you'll build intercultural communication skills and apply your knowledge in real-world contexts. Language choices are Chinese, French, German, Indonesian, Italian, Japanese, Korean and Spanish.

Human rights

In the era of globalisation, one of the most important concepts in international affairs is human rights. You'll examine the history and the nature of human rights, and address basic issues (what are human rights, are human rights culturally relative, how can human rights be justified?). You'll examine how these issues relate to pressing practical problems – for instance, how an understanding of human rights help to address issues such as global poverty, unequal access to medicine, refugees, terrorism, warfare, children's rights, humanitarian intervention, torture, surveillance and more.

Monash English language level

Level A (see page 87).

The Global Immersion Guarantee

As a Bachelor of Global Studies student, you’ll have access to our Global Immersion Guarantee. Designed for both Australian and international students – and with rights, accommodation and local travel all paid for – in this fieldwork unit you’ll be placed at the intersection of society, technology and environment. Travelling to China, Italy, India, Indonesia or Malaysia, you’ll think about the human impact on the environment, and how to balance environmental protection and sustainability within economic and social development.
MEDIA COMMUNICATION

A degree for today’s media world.

The rise of digital technology—such as social media, mobile phones and virtual reality—are changing the way we live. Today’s generation consumes data and interacts like never before, leading to a completely new media communication environment.

The Bachelor of Media Communication addresses the growing demand for graduates with new and diverse skills in communication, and a critical understanding of how media influences our lives.

This course is available as part of a bachelor’s/master’s program allowing high-achieving students to graduate with both degrees in just four years. Refer to page 28 for further information.

Specialisations

Journalism

This specialisation gives you the sharp and creative skills required to excel in a rewarding journalism career. Gain expertise in bringing together journalism, theory and practice, and develop advanced skills in writing and communication for professional practice. You’ll gain all production technologies used in the Monash Media Lab, and realise the ethical principles in journalism that form an essential component of a democratic society.

Screen

Screen industries, technologies and cultures are changing faster than ever. This specialisation gives you the knowledge to understand these transformations, navigating how film, television and newer screen formats have led to and function within contemporary media ecologies.

You’ll study an extensive range of units covering historical, analytical and practical approaches to screen content and formats from around the world.

MUSIC

Monash’s Sir Zelman Cowen School of Music has one of the most comprehensive music programs in the country, excelling in classical, jazz and popular music performance. Our ethnomusicology and musicology programs are world-renowned, and we have vibrant programs in composition, improvisation and creative music technology.

As well as receiving individual instrumental teaching, you’ll collaborate with international artists, learn from accomplished teaching staff, study and perform in New York and Prague, Italy, and perform to audiences across the country with an ensemble or orchestra.

This course is available as part of a bachelor’s/master’s program allowing high-achieving students to graduate with both degrees in just four years. Refer to page 28 for further information.

Specialisations

Composition and music technology

Become a music creator of the future. In this specialisation you’ll develop skills in composition for acoustic and electronic instruments, soundscaping, and music for other media such as film and video games. In addition to testing composition techniques in performance scenarios, you’ll learn how to engage with the variety of music technology in the industry for composing, recording, mixing, mastering, interactive music and software programming.

Ethnomusicology and musicology

Study music in its social, historical and cultural contexts to investigate not only what music is, but why it exists, what it means, and how it shapes and impacts our world. You’ll study the music of different cultures, considering Western classical and popular forms, as well as those from Africa and Asia. You’ll investigate the role of music in society, music history, philological and aesthetic aspects of music, and performance practice.

Music performance (classical or jazz improvisation)

Available to those with strong musical aptitude in classical or jazz performance, this specialisation offers you the rigour and richness required to put you on the path to professional music performance success. There’s opportunity to take part in one of our study tours to New York, or to the Monash Prato Centre in Italy, immerse yourself in international music and culture.

Popular music

Designed for popular music performers and creators of the future, you’ll develop practical performance skills and stagecraft, and learn how to engage with a broad range of tools, performance styles and content representative of the popular music industry.

You’ll not only be connected with current industry practitioners and practitioners, you’ll also be encouraged to create music.
POLITICS, PHILOSOPHY AND ECONOMICS

Developed by Monash’s world-renowned politics, philosophy and economics professors, this elite program is designed for deep thinkers who want to have a real impact.

After mastering the main ideas shaping our understanding of society, you’ll move on to study the creative intersection between politics, philosophy and economics. Core study requirements will develop your ability to think critically about analysis, strategy and leadership as you learn how to transform big ideas into tangible results.

During your second year you’ll have the chance to embark on a global study tour exclusive to this course. This study tour traces the contours of the shifting economic and political power relations of the 21st century. You’ll meet with and learn from academics and practitioners in the private and public sectors, gaining first-hand knowledge of the forces shaping the coming century, and the diverse philosophical ideas emerging to interpret this change.

Add an internship, allowing you to gain real-world experience, and you’ll be able to shape your professional networks before you’ve even graduated.

This course is available as part of a bachelor’s/degree/s (and other qualifications), refer to pages 28 for further information.

Specialisations
- Politics
- Philosophy
- Economic analysis.

ACCOUNTING

Accounting plays a critical role in society and provides a strategic function in all organisations.

Accounting is more than a numbers game, and it’s vital to business success. In this course, you’ll gain solid technical skills across key areas such as information systems, corporate finance, auditing and assurance, financial reporting, and data analysis. You’ll learn to interpret data and develop insights that will help organisations effectively allocate resources and make better business decisions.

Your course will be structured around giving you exactly what you need to excel in this area – from problem-solving and complex analysis to communication and professional judgement. Because of this, it’s perfect if you’re set on a career in accounting, or looking to complement another skill set with accounting expertise.

As the largest business school in Australia, we can equip you with the broader business and advisory skills needed to build a successful accounting career. You’ll also gain enterprise skills to prepare you for work as we know it today and also for success into the future.

Gain professional recognition, and, in some cases, the right to practice. If you’ve completed the required units, you’ll be eligible to apply for professional membership with:
- CPA Australia
- Chartered Accountants Australia and New Zealand (CA ANZ)
- Association of Chartered Certified Accountants (ACCA)
- Chartered Institute of Management Accountants (CIMA).

ACTUARIAL SCIENCE

If you’re big on numbers and the role they play in our day-to-day lives, actuarial science can help you turn your curiosity into a promising commercial career. Actuaries play major roles in a range of organisations, and are often considered the backbone of financial security.

You’ll learn to apply mathematical concepts to real-life scenarios, and use your analytical skills to help companies plan for the future. You’ll learn to identify, analyze and assess risk in a range of business areas — including insurance, supervision, business and financial services, scientific and social research, and engineering. As you further develop your maths and analytical skills, you’ll start to use a range of concepts and data findings to solve real commercial problems.

Monash Business School has the only Department of Econometrics and Business Statistics in Australia. It also has the largest concentration of econometricians and statisticians in the region.

This course was designed by actuaries to help students gain professional accreditation and be qualified to work as an actuary according to international standards.

Components of your study can be applied for recognition of Part 1 of the additional study required by the Institute of Actuaries of Australia. Parts 1 and 2 are required to become an Associate of the Institute of Actuaries Australia.

BANKING AND FINANCE

Examine the systemised movement and management of money.

From capital markets to financial forecasting — futures, derivatives, bonds, stocks and more — you’ll explore what makes banking and finance such a central part of the world today, and learn the skills to build a successful career.

You’ll focus on the key theories, practices and concepts that underpin the banking and finance sector, and the skills required for managing money in an institutional setting. In fact, your entire course will be structured around building your knowledge and skills in this area — with a focus on corporate finance, commercial banking, equity markets, financial planning and investment banking.

You’ll also gain enterprise skills to prepare you for work as we know it today and also for success into the future. As the largest business school in Australia, we offer innovative teaching facilities. As part of this course, you can access our Simulated Teaching and Research Laboratory and use market simulation programs to enhance your decision-making ability.

BUSINESS ADMINISTRATION

Entrepreneurial flair mixed with practical skills can turn a great idea into a booming business.

From bringing ideas to life to examining the balance sheet, doing a Bachelor of Business Administration is your chance to get a real-world understanding of the many factors that come together to make a business work.

Hands-on, yet commercially focused, this comprehensive course will teach you the fundamentals of business — from management to marketing and everything in between.

As you develop a strong foundational knowledge in business, you’ll start to focus on a specific area, choosing to major in accounting, finance and economics, management practice, or marketing and communications. Alternatively, you can choose to major in business administration to gain a broad overview of business operations.

This course is located at our Peninsula campus, and features smaller classes that offer a supportive academic environment.

COMMERCEDouble Degrees

Join the brilliant minds of the commercial world – the people taking an analytical approach to problem-solving and influencing change in commercial settings.

If you’re a clever thinker who likes to unpack problems and consider ideas from a fresh perspective, commerce presents a world of exciting career prospects.

This course has an analytical and mathematical focus. You’ll learn to think conceptually, solve problems analytically, and use data to make informed decisions. It’s the perfect foundation for a career in business.

You’ll start by studying a range of core units to get a sense of where your interests lie. You’ll then begin to build specialist skills, majoring in accounting, actuarial studies, behavioural commerce, business analytics, econometrics, economics, finance, management studies, marketing science or sustainability. You can also choose to do a second major from within the business school or from another faculty.

This course could be for you if you have strong mathematical skills and enjoy analysing problems to find the best solutions. With 12 double-degree options and 10 majors, our Bachelor of Commerce offers a huge amount of flexibility.

As the largest business school in Australia, our commerce degree options and 10 majors, our Bachelor of Commerce offers a huge amount of flexibility. As the largest business school in Australia, we offer a wide range of interdisciplinary double degrees that can lead to employment opportunities in a number of industries across the globe.

At Monash Business School, our goal is to create graduates who look beyond their discipline to find innovative solutions for the world.

1. See pages 98-103 for the full list of double degree prerequisites. Course codes and CRICOS codes for double degrees are available at monash.edu/study
2. The Monash College Diplomas Part 1 and 2 entry requirements published in this guide are for students commencing their undergraduate destination degree in 2022.

My majors are in finance and psychology. In finance, you need to understand the news and issues in every country to invest in a wide range of stocks and bonds. As an international student, you need to work hard. You need to earn it. Every finish line is the beginning of a new race.”

CHING YING LEE
Bachelor of Commerce Arts
ECONOMICS

Explore the science of decision-making and the key to understanding how the world works.

Explore the principles our economy is built on, and learn how they impact the way we spend, save, work and live. A Bachelor of Economics will teach you to think analytically, solve problems logically, and make informed decisions in a commercial context.

You’ll learn how to use data to make better business decisions, study the impact of individual economic choices, and build an in-depth understanding of the way local, national and global economies function. You’ll study a broad range of areas – including human behaviour, development economics, politics and business – and learn to bring this information together to form valuable insights.

You’ll further focus your studies by following one of these specialisations.

Specialisations

Economics and economic policy
Understand the bigger economic picture – from how goods and services are consumed, to changes in employment rates. You’ll learn to apply economic theories and analytical tools to the economy, and identify the effects of domestic and international government policies.

Mathematical economics and econometrics
If you’re more interested in the numbers behind the economic theories, this stream could be ideal for you. You’ll learn how to analyse and interpret economic and mathematical data, and apply your findings in a range of contexts, including financial investment, production, taxes, and government expenditure and policies.

A qualification in economics from Monash Business School is recognised by employers across the globe.

FINANCE

Develop the skills you need to manage money well, whether for big corporations, small businesses or governments.

Few things impact our society more than the exchange of money. The way we earn, spend, save, borrow and invest it – both as individuals and as a collective – is reflected in everything from interest rates to property prices.

You’ll learn how to manage and invest money in the form of assets, equity and liability. Your studies will also cover the financial policies and products that allow money to flow efficiently between individuals, businesses, government and other organisations. You’ll explore corporate finance, equities and investments, debt markets and fixed-income securities, financial modelling and international finance. You’ll also learn to develop financial policies and products, solve complex financial problems, and use mathematical models.

As the largest business school in Australia, we offer innovative teaching facilities. As part of this course, you can access our Simulated Teaching and Research Laboratory and use market simulation programs to enhance your decision-making ability.

With a finance degree from a world-renowned university, you’ll be prepared for a career in just about any industry, anywhere in the world.

INTERNATIONAL BUSINESS

The brightest minds in business have a global outlook.

The Bachelor of International Business is tailor-made to not only give you a global mindset, but the skills to turn your international insights into a successful career.

As the largest business school in Australia, we offer a number of environments in which to study. This course is located at our Melbourne city location and features three trimesters a year – so you’ll complete your degree in just two years.

You can also complete a series of accounting electives that could help you gain accreditation with:

• CPA Australia
• Chartered Accountants Australia and New Zealand (CA ANZ)

The course is focused not only on the content but also the real-life application of the concepts you’ll learn in class. You’ll also have the choice to complete accounting electives that could help you gain an accounting accreditation.

As part of the largest business school in Australia, you’ll gain exposure to a range of international guest speakers through our visiting scholars program.

EDUCATION

Education makes the world a better place.

Are you ready to teach the next generation? Do you want to be the teacher that your students remember? Choose to specialise in early childhood, primary or secondary education – or a combination of these – and graduate ready for a successful career, inside or outside of the classroom. You can combine your primary education or secondary education specialisation with a second degree. If you’re specialising in secondary education, you’ll qualify as a subject specialist teacher in two secondary teaching areas. If you’re specialising in primary education you’ll be qualified to teach across the school curriculum, with particular expertise in one or two fields. You’ll graduate with honours, putting you ahead of the game.

Professional experience – local or global

Put your learning into practice by completing at least 60 days of professional experience during your course. You can stay local, head rural or overseas. You can be in a classroom or an integral part of a community program. Build your confidence and gain real-world experience so you’re ready to teach when you graduate.

Entry requirements

Monash English language level

Level B (see page 87).

Extra requirements

CASPer – Non-academic selection for initial teacher education

Anyone can learn, but not everyone can teach. It takes gifted, hard-working individuals who are passionate about inspiring young people as they are about educating them. All applicants need to complete a non-academic selection component when applying for the Bachelor of Education (Honours), including double degrees. You’ll be required to complete a mandatory online 90-minute computer-based test called CASPer. For further details, visit monash.edu/education/takecasper

Enrolment considerations

Working with Children Check

Before participating in professional experience in any educational setting, you must meet specific security clearances that apply to the state or territory where the placement is being undertaken. We can assist with this process once you’re enrolled.

Literacy and Numeracy Test

The Australian Institute for Teaching and School Leadership requires all students of initial teacher education courses to successfully complete the National Literacy and Numeracy Test before graduating. We can assist with the scheduling and preparation for this test, and there are multiple opportunities to sit the test if you have any problems.

Pathways into Education

If you have narrowly missed the entry requirement for direct entry into an education double degree, consider a Monash College Diploma Part 2 program. On successful completion of the relevant Monash College Diploma Part 2, and achieving 65 per cent, you’ll be eligible for direct entry into the second year of the following double degrees:
• Education (Honours) and Arts
• Education (Honours) and Business
• Education (Honours) and Science.
See page 12 for more information.

Double degrees

A double degree is a great option if you’re interested in teaching but also want to gain expertise in another discipline. At Monash, you can choose from the following double degrees with either the primary or secondary education specialisation: arts, business, fine art, music and science.

“Cracking the code to a better future”

Through placements, I was able to apply what I learnt at uni into the classroom, which has made teaching more fun.”

LUCAS LI
Bachelor of Education (Honours) (Primary and Secondary Education)

1 This is a 4.5-year course taken as an accelerated course where you’ll complete the equivalent of 4.5 years of study in four calendar years.
2 See page 66 for the full list of double degree prerequisites. Course numbers and CRICOS codes for double degrees are available in monash.edu/study
3 The entry score of 85% is required if you’re planning on studying a double degree in Education/Arts, Education/Science or Education/Business.

Did you know?

“We’re the No 1 Faculty of Education in Australia*, and placed in the top 20 in the world.**

* QS World University Rankings by Subject 2019.

** QS World University Rankings by Subject 2019.

"The Bachelor of Education (Honours) provides a lot of placement opportunities. We gain practical experience right from the first year and throughout the course. Through placements, I was able to apply what I learnt at uni into the classroom, which has made teaching more fun.”

LUCAS LI
Bachelor of Education (Honours) (Primary and Secondary Education)
ENGINEERING

As the No.1 engineering school in Australia for four consecutive years, Monash attracts outstanding academics to support you through your studies.

Engineering is a collaborative and creative problem-solver who designs technology and develops innovative solutions to make things work better. Their work is key to meeting the world’s sustainable development goals, including advancing technologies for clean water, green energy, high-speed communications and transportation, advanced healthcare devices, reliable autonomous systems, and safe, smart, sustainable products, homes and cities, and more.

As an engineer, you’ll apply maths and science in a practical way, and work in teams to develop new technologies and improve existing ones. The Bachelor of Engineering (Honours) has a common first year, allowing you to better understand engineering and its specialisations before deciding which to pursue in second year. Choose from aerospace, biomedical, chemical, civil, electrical and computer systems, environmental, materials, mechanical, robotics and mechatronics, resources or software engineering.

Study an engineering double degree for more career choices and flexibility, all with only one extra year3 of study.

Prerequisite subject levels

English, higher-level mathematics, and chemistry or physics (all Australian Year 12 equivalent).

VCE, IB, GCE A Levels, Advanced Placement

English Level 1: Maths: Level 3: Science: Chemistry or physics only. For prerequisite subject requirements for the above levels (and other qualifications), refer to pages 84-85.

Monash English language level

Level A (see page 87). A total learning experience

At Australia’s No.1 engineering school (for four consecutive years), you’ll have access to some of the world’s finest facilities, including the new maker space, and the latest interactive learning spaces in the new five-storey, smart-technology-enabled Woodside Building for Technology and Design.

Our engineering courses aim to produce highly skilled engineers who are ready for the world. You can get involved in the Engineering Leadership Program, Monash Industry Team Initiative, or join one of the 27 student clubs or teams to develop your strengths and passions, and become a well-rounded engineer.

On graduation, you’ll be highly sought-after across many industries, known for your creative thinking, problem-solving and ability to excel in team-based environments. As a Monash Engineering graduate, you’ll be prepared for leadership, success and, most importantly, life.

Accelerated pathway to master’s

If you’re a high-achieving student, you can accelerate your studies. In just five years, be on track to earn both a Bachelor of Engineering (Honours) and a master’s degree in advanced engineering4. Choose from a rich selection of specialist electives and access master’s-level specialist electives. As a Monash Engineering graduate, you’ll be prepared for leadership, success and, most importantly, life.

Cooperative Education Program

Participate in internships with our partner organisations and gain skills to give you a competitive edge after you graduate. The Cooperative Education Program provides you with work experience opportunities to enhance your technical and professional skills, and builds industry connections.

Aerospace engineering

Join a thriving profession in developing the next generation of light vehicles. The Airbus ASOJ, A400M and the Boeing 787 are just some of the astounding advances being led by aerospace engineers.

Aerospace engineering is concerned with the design, development and maintenance of flight vehicles. It involves aerodynamics, aerostatics, avionics, propulsion, materials engineering and computational simulation. As an aerospace engineer, you’ll have the chance to tackle many of tomorrow’s global challenges. You may be involved in the creation of a more environmentally-friendly passenger aircraft, or even help build a vehicle capable of exploring our solar system, and beyond.

Chemical engineering

Chemical engineers invent, design, develop and improve processes that convert raw materials into useful products with minimal environmental impact. They’re also involved in pollution control, protection of the environment, and energy conservation and conversion. Many everyday items involve chemical engineering during some stage of their production – computer chips, mobile phones, petrol, paper and coffee, to name just a few. You could develop products or catalysts for chemical reactions, design plants for international manufacturers, or develop alternative fuels and energy sources. Chemical engineering blends chemistry with engineering and other fields, including biological science, environmental science, nanotechnology, mathematical modeling, mineral processing, management and economics.

Civil engineering

Civil engineers design and improve systems and processes that allow humans and nature to coexist with minimal impact. Modern society couldn’t function without them. We need civil engineers to design and build higher-capacity transportation systems; to construct larger commercial and industrial complexes; for water supply and drainage control; and to repair or replace roads, bridges and other structures.

As a civil engineer, you can be involved in:

• Structures – design and oversee construction of buildings, bridges, commercial complexes, towers and offshore platforms.
• Water – plan and manage water supply and drainage systems for communities, agriculture and industry within the context of sustainable water use, contamination and accessibility of water as a resource.
• Transport – plan for future travel needs, design safe and efficient transport systems, and investigate transport technologies to improve road and traffic systems.
• Geomechanics – advise on foundation design, support structures, stability of slopes, tunnel design and construction, as well as the suitability of materials for infrastructure projects.

Electrical and computer systems engineering

This is an extremely diverse field, encompassing biomedical, computer systems, electronics, electrical power, AI, robotics and telecommunications. Electrical and computer systems engineers investigate, plan, develop, construct, test, market and maintain a wide range of products and systems. As an electrical and computer systems engineer, you might design and develop digital products such as smartphones, virtual reality systems, computer games, or robotic medical devices to improve people’s quality of life.

Environmental engineering

At Monash Engineering specialisations consider sustainability, but as an environmental engineering student it’ll be your priority. Environmental engineering involves the implementation and management of solutions that are in harmony with the principles of sustainable development. It’s concerned with reducing energy and minimising waste, while providing communities with the development opportunities it needs to grow. With demand on the rise for engineering graduates with environmental expertise, this will allow you to stand out from the crowd.

1 Prerequisites vary by state. In New South Wales, students must complete Mathematics and English. For the purposes of this guide, “English” includes all Australian Year 12 equivalent qualifications, including English (honours) and English language. To calculate your entry score for the listed qualifications, refer to pages 84-85.
2 For information on how to calculate your entry score for the listed qualifications, refer to pages 84-85.
3 Monash qualifications in this guide go to page 82.
4 For information on how to calculate your entry score for the listed qualifications, refer to pages 84-85.
Materials engineering

Materials engineering is all about making new materials and improving those that already exist. It’s about making things stronger, lighter and more functional, sustainable and cost-effective. It underpins much of engineering – if we want to make things, we need to have materials with the right properties and made using the right processing techniques. Whether it’s a next-generation jet engine, a biodegradable tissue scaffold to grow organs from stem cells, or new types of solar cells and batteries, the structure, properties and processing of materials are crucial to the final product. As a materials engineer, you’ll have the opportunity to play a significant role in almost every industry.

Mechanical engineering

As a mechanical engineer, you might design automatic control systems, create efficiently heated and cooled buildings, manage the water supply for a whole state, design wind turbines or F1 cars, work with the medical profession to create robots that can operate with greater precision than a human, or be at the cutting edge of advanced manufacturing using 3D printers to create consumer products with elegance and function.

Mechanical engineering is about the efficient use of energy for the design and function of all types of mechanisms, from the simplest to the most complex. It builds on physics, chemistry, materials, mathematics and biology to achieve elegance and function.

Materials engineering includes two streams, materials and improving those that already exist.

Mechanical engineering is about making new materials and improving those that already exist. It’s about making things stronger, lighter and more functional, sustainable and cost-effective. It underpins much of engineering – if we want to make things, we need to have materials with the right properties and made using the right processing techniques. COMPUTER SCIENCE

Computer scientists and their creations are everywhere.

Computer scientists drive everything from search engines to daily weather reports, animation, cybersecurity and scientific discoveries.

You’ll graduate with the skills to design data structures (to organise information), develop algorithms (as instructions for computers), and create software to solve real-world computational challenges. Build expertise through a specialisation in either advanced computer science or data science.

Imagine a career that can take you anywhere – no other career pushes the boundaries of innovation more than computer science.

You can apply for our Industry-Based Learning program, which gives you a competitive edge and provides valuable professional experience that counts towards your degree.

Specialisations

Advanced computer science

Building on your core computer science knowledge, you’ll construct, manipulate and analyse the performance of advanced algorithms and data structures. A study of object-oriented design, programming paradigms and parallel computing will allow you to create software solutions to real-world problems. You’ll also have a choice of approved electives in areas such as cybersecurity, mobile apps programming and artificial intelligence.

Data science

Data science explores the capture, management and use of the huge volumes of data generated by government, commerce and science, and Monash has the greatest collection of expertise in data analytics of any university in the Asia-Pacific region. If you want to tackle the big-data challenges in fields as diverse as marketing, medicine or finance, then data science is for you.

Entry requirements

2021 ATAR for international students 80
GCE A Level 9
All India Senior School Certificate 83%
Indian School Certificate Examination 77%
Advanced Placement, America 7
ACT, America 27

Prerequisite subject levels

English and higher-level mathematics (all Australian Year 12 equivalent).

VCE, IB, GCE A Levels, Advanced Placement

English: Level 1, Maths: Level 3.

For prerequisite subject requirements, refer to pages 84-85.

Monash English language level

Level A (see page 87).
INFORMATION TECHNOLOGY

Drive the way we communicate and experience the world.

IT is everywhere, but its power comes from the experts who create the IT systems on which we all rely. This highly practical course gives you the problem-solving skills to drive the ongoing revolution in the way we communicate, conduct business and experience the world.

You’ll learn from the best, develop your strengths, and explore new areas through our comprehensive range of majors, minors and double degrees.

Imagine a career that can take you anywhere—no other career pushes the boundaries of innovation more than IT.

Apply for our Industry-Based Learning program, which gives you a competitive edge. Gain hands-on professional experience with industry placements that count towards your degree. Through real-world industry projects or placements, and with generous scholarships available, you’ll hit the ground running towards a successful career.

DEGREE AWARDED

Bachelor of Information Technology

DOUBLE DEGREES1

• Arts
• Business
• Commerce
• Criminology
• Design
• Engineering (Honours)2
• Fine Art2
• Law (Honours)
• Science

CAREER OPTIONS

Animator, business analyst, cloud architect, computer forensics investigator, cybersecurity specialist, games/interactive media developer, project manager, web developer.

DEGREE CODE (Clayton): C2000
CRICOS: 085120M

Clayton
3 years
February and July
A$42,800
2020 fees p.a.

Fees are per 48 credit points, which represent a standard full-time course load for a year.

DEGREE CODE (MC)

Accredited by the Australian Computing Society.

1 See page 85 of the full list of double degree prerequisites. Course codes and CRICOS codes for double degrees are available at monash.edu/study

2 This double degree isn’t available with all specialisations and majors; see monash.edu/study for full details.

3 The Monash College Diplomas Part 1 and 2 entry requirements published for this guide are for students commencing their undergraduate destination degree in 2022.

4 Also available as an extended major.

Vernice Ta
Bachelor of Information Technology (Computer Networks and Security)
and Bachelor of Arts (Criminology)

Monash offers a wide range of double degrees in IT that you probably wouldn’t expect, as my course is in information technology and arts. I chose this because it allows me to work in an area that deviates from what people would consider a traditional job. IT gives me the technical aspect of skills as well as communication, while arts allows me to understand the way people act and gives me an in-depth knowledge of why people commit crimes. Combine the two together and I essentially have a cybercrime course.”
**LAWS**

**Guaranteed experience with real clients on real cases, or in top Australian companies.**

Monash is the only law school in Australia to guarantee the opportunity of practical experience. Every Bachelor of Laws (Honours) and Juris Doctor student is guaranteed this opportunity.

Represent your own clients with real cases, before you graduate. If the case goes to court, so can you, representing your own client in front of a magistrate, and negotiating with the opposing counsel on your client’s behalf.

Or get the experience employers are looking for in corporate placements with Australia’s top legal, tech, government and entrepreneurial firms, including King & Wood Mallesons and the Supreme Court of Victoria.

**Study in a world top-40 law school**

At Monash Law, you study what you want with the largest range of electives of any law school in Australia.

Gain experience arguing complex legal arguments based on controversial real legal cases before real judges in our prestigious multimillion-dollar Moot Court.

Complete a second degree and double your options in just one additional year, with a choice of 10 double degrees, including Commerce and Information Technology.

**Where could Monash Law take you?**

Our graduates are among the highest earning and most employable professionals in Australia and around the world.

Law teaches you how to think critically, analyse complex problems and articulate solutions. These skills are demanded by employers across multiple roles and industries, including:

- national, international and boutique law firms
- in-house legal counsel in major corporations and start-ups across all industries
- in business management, leadership, consultancy and governance.

**Work in non-legal industries**

We’re seeing increasing demand for Monash Law graduates in non-traditional industries. Almost a quarter of our graduates now work in non-legal industries, including commercial finance and banking, and artificial intelligence and automation.

Many of the units and experiences we offer will equip you with skills and knowledge transferable to a range of career paths.

**Prerequisite subject levels**

Higher score in English (Australian Year 12 equivalent).

VCE, IB, GCE A Levels, Advanced Placement

**English Level 2.** For prerequisite subject requirements for the above levels (and other qualifications), refer to pages 84-85.

**Monash English language level**

Level C (see page 57).

**Clinical placements**

Monash Law has recently made the bold commitment to offer a guaranteed clinical education experience for all students who wish to incorporate a practical component credited towards their Monash Law degree.

Monash is the first law school in Australia to offer this, with the objectives of:

- improving graduate employability, driven by the skills and knowledge gained through participation
- providing all students, regardless of social or economic background, with pathways into the legal profession
- creating a deeper understanding and appreciation of the law and its application in the community, government and commercial world
- giving students the potential to be involved in meaningful and high-profile law reforms.

**Professional practice**

Enhance your professional skill set while receiving credit towards your degree, and practical experience for your resume.

**Monash/Ashurst Corporate Governance and Responsibility Clinic**

Work with publicly-listed companies to provide advice on corporate governance and responsibility.

**Supreme Court of Victoria Externship**

Shadow judges at the Supreme Court of Victoria.

**County Court of Victoria Clinic**

Assist judges in drafting speeches, preparing case summaries and legal research on some of Victoria’s most prominent cases.

**Monash and King & Wood Mallesons Corporate Governance and Responsibility Clinic**

Work in one of the world’s largest multinational law firms.

**Environmental Protection Authority, Victoria**

Provide legal advice that protects our environment for future generations.

**Human Rights Clinic**

Work in the area of civil litigation with Holding Redlich and the Castan Centre for Human Rights Law.

**Carltun & United Breweries Clinic**

Join one of Australia’s biggest food and beverage companies, working within a team of talented and driven professionals to provide in-house legal advice.

**Transport for Victoria**

Work with the Victorian government on economic development, jobs, transport and resources.

**JobWatch Clinic**

Give employment law advice to workers in Victoria, Queensland and Tasmania through an accredited community legal centre.

**Family Violence Clinic**

Help victims of family violence with the Magistrates’ Court duty lawyer, including making victims of crime applications to the Victims of Crime Tribunal.

**Joint Sexual Assault Clinic**

Work simultaneously with highly vulnerable clients at the South-East Centre Against Sexual Assault at Springvale Monash Legal Service.

**Monash College Diploma Part 1**

- NA

**Monash College Diploma Part 2**

- NA

**Entry requirements**

1. This is a 4.25-year course taken as an accelerated course where you may do the equivalent of 4.25 years of study in four calendar years.

2. See pages 46-50 for the full list of Bachelor degree prerequisites. Course codes and CRICOS codes for Double degrees are available at monash.edu/study for full details.

3. This double degree is not available with all specialisations; see monash.edu/study for full details.
BIOMEDICAL SCIENCE

Make a global difference in people’s lives.

Biomedical sciences help us understand disease—how it occurs, what happens, and how we can control, cure and prevent it. Breakthroughs in biomedical science improve the quality of people’s health and lives.

Our multidisciplinary approach to teaching, presence in major hospitals, and international links will give you access to an exciting world of possibilities and prepare you to make a global difference in people’s lives.

Enjoy the flexibility of taking elective units, allowing you to do a major or minor outside of the biomedical science disciplines.

Entry requirements

| 2021 ATAR for international students | 90 |
| GCE A Level | 93 |
| Indian School Certificate Examination | 77 |
| Advanced Placement, America | 8 |
| AIC, America | 3 |

| Monash College Diploma Part 2 | NA |

For information on ‘How to calculate your entry score for the listed qualifications in this guide’ go to page 82.

For information on prerequisites and double degree requirements, see pages 84–85.

Prerequisite subject levels

English, chemistry and one of higher-level mathematics or physics (all Australian Year 12 equivalent).

VCE, IB, GCE A Levels, Advanced Placement

English: Level 1. Maths or Physics: Level 3.

Science: Chemistry. For prerequisite subject requirements for the above levels (and other qualifications), refer to pages B4–B5.

Monash English language level

Level B (see page B7).

Scholars Program for high achievers

High-achieving students can apply for our Scholars Program, which provides a range of extracurricular opportunities to engage with research staff and the advanced technical facilities used for research. Scholars will receive a Biomedicine International Discovery Scholarship to the value of A$15,000. A VCE study score of 35 (or equivalent) is required for chemistry and mathematical methods, specialist mathematics or physics for entry into the Scholars Program.
**HEALTH SCIENCES**

Learn what you love. We give you the flexibility to explore different areas of health, and you can customise your degree as you learn what inspires you.

This course will give you a sound foundation in health science and a broad overview of healthcare, and skills in identifying, investigating, analysing and assessing health issues.

This foundation is an opportunity for you to tailor your course to pursue a variety of career paths in the health sciences.

If you’re passionate about working with patients, you’ll be ready to pursue graduate studies in public health, social work, running and occupational therapy.

The common thread is the commitment to an evidence-based approach to delivering quality healthcare efficiently and effectively.

The graduate-entry program is open only to Australian citizens.

The course is designed as an integrated curriculum, with units taught in an interdisciplinary fashion and a wide range of learning environments, both on campus and at clinical sites.

For school-leaver entry, the first two years are largely campus-based, although some city and rural clinical placements are possible.

Interdisciplinary units introduce the basic medical and behavioural sciences of anatomy, biochemistry, genetics, immunology, microbiology, pathology, pharmacology, physiology, psychology and sociology.

The graduate-entry program is open only to those who’ve completed a degree from a recognised university. The degree must consist of a significant and broad component of biomedical science content to be eligible for consideration.

- **VCE, IB, GCE A Levels, Advanced Placement English**: Level 1. For prerequisite subject requirements for the above level(s) and other qualifications, refer to pages 64-65.
- **Monash English language level**: Level A (see page 87).

**MEDICINE**

Access to the largest healthcare provider network in Australia.

Monash is the only Victorian university to offer two entry points for students considering a career in medicine— one directly from school, and a graduate-entry pathway. Both allow students to engage with our renowned researchers and medical clinicians, as well as have access to our connections with the largest healthcare provider network in Australia. These include Monash Medical Centre, The Alfred Hospital (Melbourne’s major casualty hospital), Eastern Health, and health services in rural and regional Victoria and outer metropolitan Melbourne.

The course is designed as an integrated curriculum, with units taught in an interdisciplinary fashion and a wide range of learning environments, both on campus and at clinical sites.

**Prerequisite subject levels**

- **Higher scores required in English and chemistry** (Australian Year 12 equivalent).
- **VCE, IB, GCE A Levels, Advanced Placement English**: Level 1. For prerequisite subject requirements for the above level(s) and other qualifications, refer to pages 84-85.
- **Monash English language level**: Level C (see page 87).

### Direct entry selection requirements

- You’ll need to undertake the International Student Admissions Test (ISAT).
- You may be invited to a Mini Interview – see monash.edu/medicine/som/direct-entry/important-dates for more information.

### Extra requirements

- Mandatory immunisation National Police Records Check (annual requirement)
- Working with Children Check
- International Criminal Check
- A current registered Level 2 First Aid certificate (by the end of the first semester of the course).

### For international students applying for permanent residency in Australia

If you think your visa status may change to either Australian permanent resident or New Zealand citizen during the selection process or by the commencement of the course, you must undertake both the ISAT and the Undergraduate Clinical Aptitude Test UCAT ANZ. 1

---

1. There are limited places available in this course. The entry score is only indicative. This course has additional selection requirements.
2. Any offer of a place in a Monash University medical course is made on the understanding that Monash is in no way guaranteeing any period of internship in an Australian hospital at the completion of your medical degree.
3. If you complete your course in a Monash University medical course, you must undertake both the ISAT and the Undergraduate Clinical Aptitude Test UCAT ANZ.
NURSING

Vibrancy and currency in research, and links to major teaching hospitals.

Monash nursing graduates are sought-after worldwide. Acquire the skills to become a registered nurse who can provide leadership and care across the age spectrum, and gain the ability to provide care in multiple settings, including acute care, primary healthcare and health promotion.

We are internationally recognised for nursing excellence, so you’ll be prepared for increasingly complex healthcare situations in Australia and internationally, gaining invaluable skills in clinical decision-making, client care, communication and research, developed through extensive clinical experience in various settings. This is underpinned by Monash’s links to renowned medical researchers and major teaching hospitals.

Graduates are eligible to register as a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA) – please note that AHPRA has additional registration requirements.

Scholars Program1 for high achievers

The Bachelor of Nursing Scholars Program has been designed for high-performing students interested in nursing. The point of difference from the Bachelor of Nursing is the additional engagement in an academic support program. If you’re enrolled in the Bachelor of Nursing Scholars Program, you’ll have an academic mentor who provides individual guidance and academic counselling. The focus of the program is research and leadership development, and provides a pathway to more advanced learning and engagement in nursing research.

NURSING AND MIDWIFERY

Become a versatile and multi-skilled health practitioner.

Nurses and midwives are among the most valued members of any community. Healthcare professionals with these qualifications play a crucial role in the provision of healthcare, the promotion of health and wellbeing, and maternity care.

Completing the dual Bachelor of Nursing and Bachelor of Midwifery (Honours) degree means you’re eligible to apply for registration as a nurse and midwife – a highly capable individual who’s qualified to work in collaboration with the inter-professional team in general nursing and midwifery practice settings.

The versatility of the nurse and midwife is increasingly important in Australian and international health services. This joint qualification makes you highly employable in many practice settings, including rural and remote areas where being a multi-skilled practitioner is highly valued.

Graduates are eligible to register as a registered nurse and a registered midwife with the Australian Health Practitioner Regulation Agency (AHPRA) – please note that AHPRA has additional registration requirements.

1. There are limited places available in this course. Marks included in this guide are the minimum, and higher marks may be required to be competitive in a given year.

2. You’ll undertake some online assessments throughout the course. To access these courses you will need to download specific software that requires a webcam. If you do not have a webcam available, you will need to undertake the online assessments on campus in the computer lab or library.
NUTRITION SCIENCE

Address the complex problems of human nutrition.

Today, the need for nutritionists who can explain the science underpinning the relationship between diet and disease is more important than ever.

In this course you’ll explore the multi-faceted discipline of human nutrition, and gain an appreciation of the broad scope of food in society, an in-depth knowledge of nutritional and biomedical science, and the role of nutrition in health and disease.

You’ll have access to:
• Innovative industrial kitchen facilities
• The fitness studio and body composition suite to help enrich your nutrition knowledge.

You also have the option to do a one-year research project in your final year.

The Bachelor of Nutrition Science at Monash is the only program in Australia accredited by the UK Association for Nutrition (UAN). Graduates are eligible to register as an associate nutritionist in the UK, and are recognised in the UK and Europe for employment.

Graduates are also eligible to apply for membership of the Nutrition Society of Australia (NSA).

Scholars Program¹ for high achievers

If you’re a high-achieving student, you can apply for access to our Scholars Program, which provides a range of extracurricular opportunities to engage with research staff. Bachelor of Nutrition Science (Scholars Program) students who complete their course with an average grade of 95.5 or above are guaranteed entry into the Master of Dietetics program, which is accredited by the Dietitians Association of Australia.

Entry requirements

2021ATAR for domestic students 95.5
GCE A Level 95
All India Senior School Certificate 95%
Indian School Certificate Examination 65%
Advanced Placement, America 6
AAT, America 20
SAT, America (Total score out of 1600) 1160
High School Diploma, Vietnam 8.14
Hong Kong Diploma of Secondary Education 17
International Baccalaureate (IB) Diploma 26
Ontario Secondary School Diploma – Grade 12 78.50%
SMA3, Indonesia – 100% scale (80% pass)
STPM, Malaysia 7.9
UEC, Malaysia 5
Monash University Foundation Year (commencing MUPF in 2021) 75%
UNSW Foundation Studies 7
University of Melbourne, Trinity College Foundation Studies 72%
Monash College Diploma Part 1 NA
Monash College Diploma Part 2 NA

For information on how to calculate your entry score for the listed qualifications, go to page 52.

Prerequisite subject levels

English and chemistry or biology (all Australian Year 12 equivalent).

VCE, IB, GCE A Levels, Advanced Placement English: Level 1. Science: Chemistry or biology only. For prerequisite subject requirements for the above levels (and other qualifications), refer to pages 84-85.

Monash English language level

Level B (see page 87).

Extra requirements
• Working with Children Check.

DID YOU KNOW?

Work placement in the industry

As you progress through the course you’ll have the opportunity to undertake a work placement in a nutrition-related industry, work alongside nutrition researchers on a project, or apply for the opportunity to study nutrition overseas at a partner university.

1. Higher entry requirements apply for the Bachelor of Nutrition Science (Scholars Program), see page 94.
PARAMEDICINE

We link the classroom and the clinical workplace.

This challenging, dynamic course offers successful graduates the potential for a rewarding and satisfying career in out-of-hospital emergency care.

You'll study the structure and function of the human body, human development across the life span, disease processes, and learn about the Australian healthcare system and the role paramedics play within it. You'll also develop core knowledge and skills to treat cardiovascular, respiratory, mental health, traumatic and medical emergency presentations, as well as learn specific care of maternal, neonatal, geriatric and paediatric patients.

The underlying theory of the clinical units will be complemented by large practical components where you'll participate in scenario-based exercises. The on-campus learning is strengthened by a significant clinical placement component spread over the entire course duration, allowing you to put learning into context and practice.

Entry requirements
2021 ATAR for international students 72.50
GCE A Level 75

- International Criminal Check
- Ambulance Victoria medical and fitness prerequisites: www.ambulance.vic.gov.au

A pathway to graduate studies
We offer the only paramedic course from a Group of Eight University. Following the completion of your degree, you'll have the opportunity to undertake the Master of Specialist Paramedic Practice. Monash University has been a leader in graduate education and training for the intensive care paramedic role, as well as within the field of aeromedical retrieval.

Prepare to flourish in one of the most in-demand healthcare professions.

A degree in physiotherapy prepares you to work independently or as part of a team of healthcare professionals.

You'll receive intensive training in relevant clinical environments such as public and private hospitals, community health centres, rehabilitation centres and private practices, and the chance to study with expert physiotherapists and leading researchers.

You'll gain the skills to practise as a physiotherapist, using exercise, movement analysis, manual therapy and specialist techniques to restore, improve and promote health.

After completing your degree, you'll be eligible for registration by the Physiotherapy Board of Australia, enabling independent practice.

PSYCHOLOGY

For those with a passion for understanding human cognition and behaviour.

This course provides a comprehensive education in human psychology – from normal to abnormal psychology, and from the genetic/molecular level to the individual and group-behavioural level.

The study of human psychology is ever-growing and changing, and our program provides you with the latest thinking on our understanding of the human brain, thought and behaviour.

The knowledge gained in this course will lay the groundwork for you to make your own scientific discoveries, help to promote mental health, and to influence how those in the community think about mental health and the workings of the mind.

Monash English language level

Level A (see page 87).

PUBLIC HEALTH

Pursue a variety of public health career paths.

Public health focuses on populations and communities rather than individuals, from promoting good health, through to preventing disease and managing illness and disability.

The Bachelor of Public Health builds on your interest in health and human development. The course focuses on developing, implementing and evaluating programs and policies to promote health and prevent disease and injury, as well as undertaking public health research. It has a global orientation, examining both Australian and international health challenges.

Your passport to a global career

On completion, you’ll be eligible for accelerated entry to our Master of Public Health, and gain an internationally recognised graduate qualification in just 18 months.
Radiation therapy is an exciting and engaging healthcare field that uses ionizing radiations for the treatment of cancer and benign conditions.

Studying radiation sciences at Monash allows you to combine scientific and technical knowledge with studies in health and patient care, and prepares you for an 18-month graduate master’s program in radiation therapy.

**Informatics**

Developed in collaboration with the Faculty of Information Technology, this specialisation combines core radiation sciences units with information technology application and knowledge. Informatics graduates can expect to find positions in relation to the management, acquisition, storage, retrieval and use of health information to improve access, security and integrity and the quality of the data and digital images.

**Entry requirements**

**RADIOGRAPHY AND MEDICAL IMAGING**

We link the classroom and the clinical workplace, ensuring that Monash graduates are job-ready.

This course is designed to develop expert skills to become a registered radiographer, enabling patient diagnosis and management by using x-rays — including CT scanning, ultrasound and magnetic resonance imaging (MRI) — to create diagnostic images for analysis and interpretation.

Radiographers are also responsible for implementing best-practice imaging protocols. The program is designed to allow closely related integration between the classroom and the clinical workplace.

The practical skills you acquire will be reinforced by placements in a variety of clinical institutions, from Victorian rural and regional hospitals, to metropolitan Melbourne hospitals and private radiology practices, including limited interstate placements.

Completing the course allows you to apply for registration as a radiographer with the Medical Radiation Practice Board of Australia. This national registration is recognised in all Australian states and territories. Graduates from this course are eligible to apply for a Statement of Compliance from the Australian Society of Medical Imaging and Radiation Therapy.

**Entry requirements**

PHARMACEUTICAL SCIENCE

Research and develop more effective treatments with the world’s No.3 school for pharmacy and pharmacology.

Acquire the skills to improve human health by researching and developing more reliable, accessible and effective treatments. Learn about the chemistry, biology, biomedicine and delivery technology of medicines, and gain the hands-on technical and professional skills that enable you to put your knowledge to work in practice. Our strong relationships with industry ensure you’ll graduate equipped for a successful career in one of Victoria’s fastest-growing sectors – pharmaceuticals and biomedical research.

The first two years provide you with cross-disciplinary knowledge and the key skills relevant to pharmaceutical science. In your third year, you’ll be able to select a specialisation. A research or industry placement in the last semester of the course will give you an insight into real-world applications of your studies and prepare you for the next step, be that employment or further studies.

CAREER OPTIONS
The course will prepare you for work in a range of areas, including:
• developing new drug targets into treatments for patients
• an invitation to an annual social function with the dean and key faculty leaders.
• a standing invitation to faculty research seminars 
• a standing invitation to faculty research seminars (normally only open to staff and PhD students)

Scholars Program1
We acknowledge high-achieving students by offering access to our Scholars Program. This provides exclusive learning opportunities, including:
• a standing invitation to faculty research seminars (normally only open to staff and PhD students)
• an invitation to an annual social function with the dean and key faculty leaders.

Prerequisite subject levels
English, higher-level mathematics and chemistry (all Australian Year 12 equivalent).
VCE, IB, GCE A Levels, Advanced Placement
English: Level 1, Maths: Level 3, Science: Chemistry only. For prerequisite subject requirements for the above level/s (and other qualifications), refer to pages 84-85.

Monash English language level
Level A (see page 87).

Specialisations for Pharmaceutical Science and Pharmaceutical Science Advanced

Drug discovery biology
This focuses on the biomedical science and pharmacology of drug discovery. You’ll learn about the biotechnological aspects of drug design that lead to:
• discovering and evaluating new targets for testing drugs
• investigating the biological effects of drug candidates
• translating outcomes into pharmaceutical products
You’ll develop expert knowledge of biological drug targets and their modulation by different types of active drug compounds, a dynamic at the core of innovative drug discoveries.

Formulation science
Formulation science enables you to understand the principles of making finished products from a blend of individual ingredients. Drawing on the pharmaceutical industry, you’ll learn to apply the same principles to industry-relevant problems in other areas of formulation science, such as consumer products and cosmetics.

Pharmaceutical Science Advanced

Equip yourself for a research career with a global leader.

This advanced version of the Bachelor of Pharmaceutical Science has been tailored for high-achieving students. It culminates in an honours year that gives you the chance to undertake original research, under the guidance of researchers from one of the world’s leading institutes of pharmaceutical science. You couldn’t ask for a better pathway into a research career.
You’ll learn how to develop reliable, accessible and effective medicinal products, and translate new drug targets into treatments for patients. You’ll begin by developing your understanding of the foundations of pharmaceutical science. In your third year, you’ll choose a specialisation. This specialisation year includes an extended placement in one of the pharmaceutical research groups.

Our strong relationships with industry and other research institutes in Australia and overseas ensure you’ll graduate ready for a successful career in two fast-growing sectors – pharmaceuticals and biomedical research.

Scholars Program1
We acknowledge high-achieving students by offering access to our Scholars Program. This provides exclusive learning opportunities, including:
• a standing invitation to faculty research seminars (normally only open to staff and PhD students)
• an invitation to an annual social function with the dean and key faculty leaders.

Prerequisite subject levels
English, higher-level mathematics and chemistry (all Australian Year 12 equivalent).
VCE, IB, GCE A Levels, Advanced Placement
English: Level 1, Maths: Level 3, Science: Chemistry only. For prerequisite subject requirements for the above level/s (and other qualifications), refer to pages 84-85.

Monash English language level
Level A (see page 87).

1 Only available with chemical engineering specialisation. See pages 84-85 for the full list of double degree prerequisites. Course codes and CRICOS codes for double degrees are available in monash.edu/study.

1 Higher entry requirements apply for the Bachelor of Pharmaceutical Sciences Advanced (Honours) (Scholars Program); see page 84.
PHARMACY

Help build healthier communities.

Monash has long been considered the leading pharmacy program in Australia. In 2019, we ranked No.3 in the world for pharmacy and pharmacology—only Oxford and Harvard ranked higher. In part, this is because we believe the world doesn’t just deserve more pharmacists; it deserves better pharmacists. That’s why we offer Australia’s only combined Bachelor of Pharmacy (Honours) and Master of Pharmacy. Our graduates go out into the world equipped not only with the knowledge but also with the skills needed to improve healthcare.

You’ll learn about how the body works, how medicines work, what pharmacists do, and how to provide comprehensive care as part of a team of health professionals. You’ll practise this during experiential placements in community pharmacies, hospitals and other healthcare settings, mentored by some of the best practitioners in Australia and the world.

Same duration, higher qualification

The pathway to registration as a pharmacist in Australia generally takes five years. Traditionally, this has been structured as a four-year bachelor’s degree plus a one-year paid internship. At Monash, our program takes the same amount of time, but instead you’ll earn two degrees—a bachelor’s and a master’s. And when you arrange your (paid) internship, this will be supported by the network of our prestigious Intern Foundation Program and Intern Training Program. This intensive combination of learning and working prepares you for registration as a pharmacist and opens doors to you in a wide variety of pharmacy fields.

Scholars Program1

We acknowledge high-achieving students by offering access to our Scholars Program. This provides exclusive learning opportunities, including:

• an invitation to faculty research seminars (normally only open to staff and PhD students)

• an invitation to faculty research seminars (normally only open to staff and PhD students)

• an invitation to faculty research seminars (normally only open to staff and PhD students)

• an invitation to faculty research seminars (normally only open to staff and PhD students)

• an invitation to faculty research seminars (normally only open to staff and PhD students)

• an invitation to faculty research seminars (normally only open to staff and PhD students)

You’ll be awarded the following degree: Bachelor of Pharmacy (Honours) (Scholars Program) and Master of Pharmacy.

Entry requirements

English: Level 2, Math: Level 3, Science: Chemistry only. For prerequisite subject requirements for the above level/s (and other qualifications), refer to pages 84-85.

Monash English language level

Level C (see page 87).

Extra requirements

Because pharmacists are health professionals, they’re required to have some additional safeguards in place to protect themselves and the patients with whom they work. Our experiential placements in community pharmacies and hospital settings begin in year one. Prior to enrolment in the course, you must:

• satisfy the immunisation requirements specified by the faculty

• hold a valid Working with Children Check (one time)

• complete a National Police Records Check.

The training that we receive from Monash is second to none. The faculty places strong emphasis on communication, because as pharmacists we need to be coherent and concise when delivering important information about medication to patients and other healthcare professionals. We also have workshops that provide a safe space to not only ask questions and receive feedback, but to close the loop on the content that was covered in the lectures, and this serves to reinforce understanding.”

APPLIED DATA SCIENCE

We live in a time where information and knowledge have never been more abundant. From industry leaders and NGOs to policymakers, from educators to research specialists, the decisions that shape our future will rely on graduates who can extract meaning from large volumes of data and transmit it to community and industry leaders.

The Bachelor of Applied Data Science is a program of study that equips you with the skills necessary to provide solutions to a wide range of problems. Working in groups and on individual projects, you’ll bring together key skills in information technology and mathematics, and apply these to real-life projects.

Through selected streams, you’ll develop your passion for the physical sciences, sociological or anthropological studies, business or engineering. This unique blend of skills will empower you to apply data science to a wide range of industries, making you highly desirable problem-solvers.

The advent of big data is creating the need for a unique set of skills.

This honours course is an advanced program designed to equip you with the necessary skills to provide solutions to a wide range of problems. It focuses on the challenges presented to many industries and organisations by large volumes of data, and will develop your technical know-how in approaching these challenges. A new and specially-designed stream of units will harness core skills in data science and mathematics for a series of authentic, interdisciplinary, problem-solving challenges. From the first year of the course, you’ll complete a series of studio-based units where you’ll apply the knowledge you’ve developed to practical projects.

Through selected streams, you’ll develop your passion for the physical sciences, sociological or anthropological studies, business or engineering. In the final year, you’ll synthesise the knowledge acquired during the program in an individual research project. You’ll be able to apply your skills to a real-life project assigned from a variety of sectors.
SCIENCE

Offering choice and depth across a huge range of science disciplines, you'll graduate with a degree tailored to your interests and career aspirations.

Study science at Monash and learn from leading experts whose research is shaping the world's future.

We offer a choice of more than 25 majors, minors and extended majors to give you a broad education and allow you to explore your interests before specialising in one or two areas that most inspire you. Your course can be supplemented by a range of career-ready and industry-based units for professional experience. We also offer the opportunity for internships, which can be taken in Australia or abroad.

Your science experience at Monash will take place in the latest dynamic teaching and learning spaces designed with you in mind, including:
- an innovation community
- a dedicated teaching facility
- purpose-built spaces for the study of maths, biology, and earth, atmosphere and environment
- a science-student-only lounge
- on-campus outdoor classrooms, including the Earth Sciences Garden and the Jock Marshall Reserve.

Entry requirements¹
2021 ATAR for international students 80
GCE A Level 9
UAE Secondary School Certificate 75%

English and one of biology, chemistry, environmental science, geography, physics, psychology or higher-level mathematics (all Australian Year 12 equivalent).

VCE, IB, GCE A Levels, Advanced Placement
English Level 1: Science. For prerequisite subject requirements for the above levels (and other qualifications), refer to pages 84-85.

Monash English language level
Level A (see page 87).

SCIENCE ADVANCED – GLOBAL CHALLENGES

The first course of its kind in Australia, we push the boundaries of science to solve the world's biggest challenges: climate change, conflict, obesity, and an ageing population.

The Bachelor of Science Advanced – Global Challenges (Honours) includes all the elements of a Bachelor of Science, and more. In addition to studying the scientific discipline of your choice – from the broad range available – you'll receive high-level training in leadership, persuasive communication, entrepreneurship, policy, ethics and corporate social responsibility.

The pinnacle of your experience will be a year-long project in which you’ll tackle a problem of real-world significance.

Mentored by successful external leaders, you'll work in small teams to develop innovations and solutions to approach an issue from scientific, policy, social and business perspectives.

If you love science and you're curious, adventurous, creative and prepared to challenge the status quo, then this course is for you.

Selection requirements
You'll need to complete a written submission, and if shortlisted attend an interview: www.vlac-supp.adm.monash.edu/SupplementaryVTAC

¹ There are limited places available in this course. The entry score is only indicative. Studies must have been completed within five years of intended commencement. For more information, please go to page 95.

2 This double degree isn’t available with all specialisations. For full details, see monash.edu/study
3 Students must have been completed within five years of intended commencement. For more information, please go to page 95.
4 The Monash College Diplomas Part 1 and 2 entry requirements published in this guide are for students commencing their undergraduate destination degree in 2023.
SCIENCE ADVANCED – RESEARCH

Make a difference in the world through the advancement of scientific research.

This four-year science degree is suitable for high-achieving students who intend to pursue careers in research, industry or academia. The course allows you to progress more quickly to your choice of units; and provides opportunities to participate in research, embedded in a Monash research team. With access to exclusive enrichment programs and research mentoring by leading scientists, your career as a scientist will take off.

You’ll be studying in our new Science Advanced student-only common room, learning from academics conducting inspiring research. And you’ll graduate with an advanced degree from one of Australia’s leading science faculties.

On completion of this course, you may be eligible to apply directly into a PhD.

Prerequisite subject levels
Higher scores in English, higher-level mathematics, and two of biology, chemistry, environmental science, geography, physics or psychology (all Australian Year 12 equivalent).

VCE, IB, GCE A Levels, Advanced Placement
English: Level 2, Maths: Higher score in level 3, Science: Higher score required in two subjects. For prerequisite subject requirements for the above level/s (and other qualifications), refer to pages 84-85.

Monash English language level
Level C (see page 87).

I feel privileged and honoured to have been involved with the LIGO Scientific Collaboration as an undergraduate during such a momentous discovery as the first, and second, detection of gravitational waves. I’m thrilled to have been given the opportunity to work directly on the Hanford detector with the LIGO scientists and engineers in Washington, and look forward to further exciting results from the detectors as they’re made even more sensitive to these ripples in space-time.¹

CHRISS WHITTLE
Bachelor of Science Advanced – Research (Honours) (2018)

¹ Studies must have been completed within five years of intended commencement. For more information, please go to page 65.
When you apply to Monash University for an undergraduate course, you must satisfy all of the following requirements:

**MINIMUM AGE REQUIREMENTS**

You must be at least 17 years of age to enrol in a Monash University undergraduate course. Some exemptions may apply. For further information, visit your local education authority.

This age restriction also applies to Monash College Diploma Part 2 programs. Alternatively, if you’re 16 years of age at the time of enrolment you may wish to consider applying to Monash University Foundation Year or Monash College Diploma Part 1 programs.

**ACADEMIC ENTRY REQUIREMENTS**

All Monash University undergraduate courses require you to have successfully completed a minimum of an Australian Year 12 qualification (or equivalent) and achieve the required academic entry score. The course-specific pages and the tables at the end of this guide outline the academic entry scores that apply to each undergraduate course applicable to international students only. Entry scores for the list of qualification (in this guide) are calculated as follows:

- **Australia**
  - Australian Capital Territory Year 12 Certificate
  - ACT Board of Senior Secondary Studies Final ATAR as awarded by the relevant Australian authority

- **Sydney**
  - New South Wales HSC (Higher School Certificate) Diploma of Education

- **Queensland**
  - Queensland Certificate of Education

- **South Australia**
  - South Australian Certificate of Education

- **Tasmania**
  - Tasmanian Certificate of Education

- **Western Australia**
  - Western Australian Certificate of Education

- **Victoria**
  - Victorian Certificate of Education

- **Monash University Foundation Year (MUFY)**
  - Monash College Diploma Part 1 and Part 2

- **Monash College Foundation Studies**
  - Monash College Dublin, The University of Melbourne

- **Canada**
  - Ontario Secondary School Diploma (Grades 11 and 12)

- **Global**
  - GCE A Levels
  - Cambridge International Examinations
  - Pearson Edexcel
  - Council for the Curriculum, Examinations and Assessment
  - Cambridge and IGCSE Examinations
  - Middle States Association of Colleges and Schools

- **International Baccalaureate (IB) Diploma**
  - International Baccalaureate Organization

- **American Admissions Tests**
  - Advanced Placement (AP)
  - American College Testing (ACT)

**ENTRY REQUIREMENTS**

**HONG KONG**

Hong Kong Diploma of Secondary Education

Hong Kong Examinations and Assessment Authority

Total score of the best five subjects excluding Chinese

+ Scores graded as follows: A=5, B=4, C=3, D=2, E=1

+ A maximum of 1 bonus point is offered when achieving Level 7 or Level 6 in a HKEC Category A subject

**INDIA**

Indian Junior School Certificate

Central Board of Secondary Education

Indian School Certificate Examination

Council for the Indian School Certificate Examinations

**INDONESIA**

SMA/MA – 100% scale (80% pass)

Ministry of Education and Culture

**MALAYSIA**

SPM (Sijil Pelajaran Malaysia)

Malaysia Examinations Council

USS (Un.Formal School Certificate of Malaysia)

Monash University and Monash College reserve the right to ask students to undertake an approved English proficiency test to meet English course entry requirements provided it has been taken within the given period of time. The highest valid measure will be accepted as long as it has been taken within the time limitations as specified above.

Monash University and Monash College reserve the right to ask students to undertake an approved English proficiency test to meet English course entry requirements. If you have completed studies at an institution where English is the language of instruction, communication and assessment, you may be exempt from these English entry requirements if you have completed an English subject that is considered equivalent to the Monash English entry requirement.

**English Entry Requirements**

All Monash University undergraduate courses require you to satisfy English entry requirements. Different English entry levels apply to undergraduate courses as outlined in this guide. English entry requirements can be met in one of the following ways:

- **English (Australian Year 12 equivalent)**: You can meet English entry requirements if you have completed an English subject that is equivalent to an Australian Year 12 level, and meet the required score. Some acceptable English subjects for common global qualifications are outlined in the prerequisite table on pages 84 to 85. The equivalent English subject must be taken within two years prior to the Monash course commencement date (other time limitation periods may apply).

- **Language of instruction**: You can meet the English entry requirements if you have completed studies at an institution where English is the language of instruction, communication and assessment for all aspects of study for the award of the educational institution by satisfactorily completing one full-time year of study equivalent to 48 Monash credit points (or a combination of any English qualifications) in one of the following qualifications: an Australian VET diploma level (or equivalent), which must be completed within five years prior to the Monash course commencement date. An Australian bachelor degree (or equivalent), which must be completed within five years prior to the Monash course commencement date.

You must be required to submit documentary evidence in the form of an official letter from the institution at which the study was completed.

**Additional Requirements for American Admissions Tests (AP, ACT and SAT):**

- The American High School Diploma must be regionally accredited by one of the following bodies:
  - National Center for Education Statistics
  - Cognac (previously known as Accreditation Council)
  - Middle States Association of Colleges and Schools
  - New England Association of Schools and Colleges
  - North Central Association of Colleges and Schools (now merged with Cognac)
  - Northwest Commission on Colleges and Universities
  - Northwest Accreditation Commission (now merged with Cognac)
  - Western Association of Schools and Colleges
  - Southern Association of Colleges and Schools

- Students who have completed an American Admission Test (i.e. SAT, AP or ACT) will not be considered for a Monash University undergraduate admission. However, students who have not completed a Monash undergraduate application may be offered admission after they have submitted the completed English entry requirements.

- Students who have undertaken the Monash High School Diploma Program (or equivalent) in their home country will be considered for Monash University undergraduate admissions. Students who have undertaken the program will be required to provide evidence of satisfactory completion of the program.

- Students who have undertaken an International Baccalaureate Diploma in their home country will be considered for Monash University undergraduate admissions. Students who have undertaken the program will be required to provide evidence of satisfactory completion of the program.

- Students who have undertaken a secondary education program outside of Australia that is equivalent to an Australian Year 12 level will be considered for Monash University undergraduate admissions. Students who have undertaken the program will be required to provide evidence of satisfactory completion of the program.

**PREREQUISITE SUBJECTS AND ADDITIONAL REQUIREMENTS**

In addition to meeting English entry requirements, some Monash University undergraduate courses may require you to satisfy other prerequisite subjects and additional selection and/or extra requirements. Refer to pages 84 and 85 for more information on how to satisfy prerequisite subject requirements.

Please note that all entry requirements for Monash University and Monash College are subject to change.

1. Subject examinations taken within two years may include more than one sitting. For example, subject examinations in June 2019 until June 2021 are acceptable.
2. Subject examinations taken within two years may include more than one sitting. For example, subject examinations in June 2019 until June 2021 are acceptable.
3. The grade 12 subjects must be taken from the most recent completed Ontario Student Transcript issued by the Ontario Ministry of Education.
# ACADEMIC PREREQUISITES

All Monash University undergraduate courses require you to have previously studied and achieved required Australian-level standards in certain specific subject knowledge and/or as prerequisite subjects. Different prerequisite sublevels apply to each undergraduate course, and can be located on the course-specific pages (22-81) and the tables at the end of this guide (pages 90-101).

## Advanced Placement

For the above qualifications, if you have completed another mathematics subject that is not listed above please forward the unit outline to Monash University where the faculty will assess your subject to the above Australian levels.

## Science

For the above qualifications, if you have completed another mathematics subject that is not listed above please forward the unit outline to Monash University where the faculty will assess your subject to the above Australian levels.

1. Mathematics subjects listed in the Level 2 and Level 3 columns can also be used to satisfy Level 1 mathematics prerequisite requirements.
2. Mathematics subjects listed in the Level 3 column can also be used to satisfy Level 1 and Level 2 mathematics prerequisite requirements.
3. Science approved for the WACE, Biology, Chemistry, Environmental Science, Geography, Mathematical Methods, Specialist Mathematics, Physics or Psychology, 8LS or 8LG. Biology, Chemistry, Environmental Systems and Societies (SL only), further Mathematics (6LS), Geography, Mathematics, Science, Specialist Mathematics, Mathematical Methods or Specialist Mathematics.
4. Science approved for the WACE, Biology, Chemistry, Environmental Science, Geography, Mathematical Methods, Specialist Mathematics, Physics or Psychology, 8LS or 8LG. Biology, Chemistry, Environmental Systems and Societies (SL only), further Mathematics (6LS), Geography, Mathematics, Science, Specialist Mathematics, Mathematical Methods or Specialist Mathematics.
5. Some Monash courses require a higher prerequisite score than stated above.
6. Monash University does not accept SAT Subject Test in Literature as meeting English prerequisite requirements.
7. The acceptance of Grade 12 English Rich subject is subject to faculty approval.
8. For some courses, completion of Grade 12 Further English Rich subject is required.

## American High School Diploma (must be regionally accredited)

### American High School Diploma

For the above qualifications, if you have completed another mathematics subject that is not listed above please forward the unit outline to Monash University where the faculty will assess your subject to the above Australian levels.

## Other ways on how to satisfy English prerequisite requirements

Refer to Advanced Placement and American High School Diploma to locate other ways on how to satisfy English prerequisite requirements. For the above qualifications, if you have completed another mathematics subject that is not listed above please forward the unit outline to Monash University where the faculty will assess your subject to the above Australian levels.

## Other ways on how to satisfy science prerequisite requirements

Refer to Advanced Placement and American High School Diploma to locate other ways on how to satisfy science prerequisite requirements. For the above qualifications, if you have completed another mathematics subject that is not listed above please forward the unit outline to Monash University where the faculty will assess your subject to the above Australian levels.
# Monash University English Language Levels

Each Monash course has an assigned Monash English language level that applies to Monash-approved English proficiency tests. Entry scores for each level are specified below.

</tbody>
</table>

1. The requirements for successful completion of MEB Standard and MEB Advanced are outlined at the beginning of the course guide.
2. The (2021) Monash University English language levels for each undergraduate course are outlined in the course pages and online data at the end of the guide (page 102).
3. Not applicable to Monash English language level B.
### Course Descriptions

#### Diploma of Science Part 1
- **Duration:** 8 months
- **Location:** CA
- **Fee:** $23,990

Successful completion of a Diploma of Science Part 1 may lead you to a Diploma of Science Part 2. To view the Diploma of Science entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Science Part 2
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Science Part 2 may lead you to a Diploma of Science Degree (Science undergraduate destination degree). To view the Diploma of Science Degree entry requirements, refer to monashcollege.edu.au/courses/foundation-year/destination-degrees.

#### Monash University Foundation Year
- **Duration:** 12 months
- **Location:** CA
- **Fee:** $32,990

Monash University Foundation Year (MUFY) prepares you for your first year of any Monash University undergraduate degree. For more details, please refer to monashcollege.edu.au/courses/foundation-year/entry-requirements.

#### Diploma of Business
- **Duration:** 8 months
- **Location:** CA
- **Fee:** $23,990

Successful completion of a Diploma of Business Part 1 may lead you to a Diploma of Business Part 2. To view the Diploma of Business entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Arts
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Arts Part 1 may lead you to a Diploma of Arts Part 2 (Sociology/Psychology stream). To view the Diploma of Arts Part 2 Sociology/Psychology entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Arts (Sociology) Part 2
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Arts Part 2 Sociology/Psychology stream preparatory unit (selected Artist and Design undergraduate destination degree). To view the Diploma of Arts Part 2 Sociology/Psychology entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Engineering
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Engineering Part 1 may lead you to a Diploma of Engineering Part 2. To view the Diploma of Engineering Part 2 (Engineering stream) entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Engineering (Engineering stream) Part 2
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Engineering Part 2 may lead you to a Diploma of Engineering Part 3. To view the Diploma of Engineering Part 3 (Engineering stream) entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Information Technology Part 1
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Information Technology Part 1 may lead you to a Diploma of Information Technology Part 2. To view the Diploma of Information Technology Part 2 (Information Technology stream) entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Information Technology Part 2
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Information Technology Part 2 may lead you to a Diploma of Information Technology Part 3. To view the Diploma of Information Technology Part 3 (Information Technology stream) entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Information Technology (Business stream) Part 2
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Information Technology Part 2 Business stream may lead you to a Diploma of Information Technology Part 3 Business stream. To view the Diploma of Information Technology Part 3 (Business stream) entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Information Technology (Education stream) Part 2
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Information Technology Part 2 Education stream may lead you to a Diploma of Information Technology Part 3 Education stream. To view the Diploma of Information Technology Part 3 (Education stream) entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Information Technology (Scientific stream) Part 2
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Information Technology Part 2 Scientific stream may lead you to a Diploma of Information Technology Part 3 Scientific stream. To view the Diploma of Information Technology Part 3 (Scientific stream) entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Information Technology (Scientific stream) Part 3
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Information Technology Part 3 Scientific stream may lead you to a Diploma of Information Technology Part 4 Scientific stream. To view the Diploma of Information Technology Part 4 (Scientific stream) entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Information Technology (Scientific stream) Part 4
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Information Technology Part 4 Scientific stream may lead you to a Diploma of Information Technology Part 5 Scientific stream. To view the Diploma of Information Technology Part 5 (Scientific stream) entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Information Technology (Scientific stream) Part 5
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Information Technology Part 5 Scientific stream may lead you to a Diploma of Information Technology Part 6 Scientific stream. To view the Diploma of Information Technology Part 6 (Scientific stream) entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

#### Diploma of Information Technology (Scientific stream) Part 6
- **Duration:** 8 months
- **Location:** CL
- **Fee:** $23,990

Successful completion of a Diploma of Information Technology Part 6 Scientific stream may lead you to a Diploma of Information Technology Part 7 Scientific stream. To view the Diploma of Information Technology Part 7 (Scientific stream) entry requirements, refer to monashcollege.edu.au/courses/diplomas/entry-requirements.

CA – Caulfield | CL – Clayton | CI – City | PA – Parkville | PE – Peninsula.

1 Degree is based on 240 credit points; full-time load is 48 credit points per session.

2 Fees are quoted in Australian dollars; each is the annual average fee per 48 credit points of study in this course for 2020. Fees are adjusted annually.

3 Science approved list (unless specified otherwise).

4 The Monash College Diploma Part 1 and 2 entry requirements published in this guide are for students commencing their undergraduate destination degree in 2022.

5 The following specifications are not offered at Caulfield. Please refer to the course page for further details.

6 This course has additional selection requirements. Please refer to the course page for further details.

7 This course is an accelerated course, where you'll be required to undertake more than the standard annual load of 48 credit points in order to complete the course in two calendar years.

8 This course is an accelerated course, where you'll be required to undertake more than the standard annual load of 48 credit points in order to complete the course in two calendar years.

9 As the course rules are noted, the actual intake months is subject to change and may vary for 2021 entry. Please contact the Faculty for confirmation.

10 As the course rules are noted, the actual intake months is subject to change and may vary for 2021 entry. Please contact the Faculty for confirmation.

### Special Requirements

1. 5.0 or 5.0 or 5.0 in Mathematics and Science. Further Mathematics is only required if English is not a first language. Geography, Biology, Chemistry, History, and Economics are also required.
2. Applicants must demonstrate proficiency in English at IELTS level 6.5. Students who do not meet this requirement may be eligible for the Monash College Foundation Year Program.
3. Entry requirements are subject to change and are based on the individual student's performance.
4. The Monash College Diploma Part 1 and 2 entry requirements published in this guide are for students commencing their undergraduate destination degree in 2022.
5. This course has additional selection requirements. Please refer to the course page for further details.
6. Please note that failure to meet all entry requirements may result in the student being denied admission.
7. Monash College provides a pathway for students who do not meet direct entry requirements but wish to progress to their destination degree.

² Students must have completed either the Monash College Diploma - Part 1 or Part 2 or the Monash University Foundation Year.

³ Bachelor of Medical Science and Doctor of Medicine includes clinical science and is therefore assessed on a case-by-case basis.

⁴ Bachelor of Applied Data Science includes 20 credit points of English language proficiency, offered in English.

⁵ Bachelor of Radiography and Medical Imaging includes 20 credit points of English language proficiency, offered in English.

⁶ Bachelor of Health Sciences includes 20 credit points of English language proficiency, offered in English.

⁷ Bachelor of Science includes 20 credit points of English language proficiency, offered in English.

⁸ Bachelor of Science Advanced – Global Challenges includes 20 credit points of English language proficiency, offered in English.

⁹ Bachelor of Science Advanced – Research includes 20 credit points of English language proficiency, offered in English.
DOUBLE YOUR OPTIONS WITH A DOUBLE DEGREE

A Monash double degree course allows you to study towards two degrees at the same time.

What’s a double degree course?
Monash offers two types of double degrees: a double undergraduate degree and an undergraduate/graduate double degree. A Monash double undergraduate degree course allows you to study towards two degrees at the same time. This means you can keep your options open, develop expertise in different but complementary areas, or simply pursue two areas of interest in greater depth. You’ll be awarded with two testamurs, one for each course completed. More than 140 double degree combinations are available.

Double undergraduate degree
How long does it take?
A double undergraduate degree course takes two years less to complete than studying the two degrees separately. This is because the required units in one course count as electives in the other. For example, if you decide to take a Bachelor of Engineering (Honours) and a Bachelor of Commerce, it will take you five years instead of seven. Therefore, you would take all the common core units for engineering as well as your 16 units of specialization. You’ll also take all the prescribed core units in commerce as well as eight units that make up your commerce major. So not only will you save two years of study, you’ll also save two years of course fees.

Sample course map

### Bachelor’s/master’s double degree courses

Some double degree courses incorporate both an undergraduate and graduate element. After five years you’ll graduate with both a bachelor’s and a graduate master’s degree. These courses are:

- Bachelor of Medical Science and Doctor of Medicine
- Bachelor of Pharmacy (Honours) and Master of Pharmacy.

In addition, the Bachelor of Arts (page 28) and the Bachelor of Engineering (Honours) (page 48) offer accelerated master’s pathways that enable you to complete an expert master’s course with only one further year of study.

* Under this arrangement years one to three, including the four master’s units, are covered by CSP funding. The final fourth year is the standard full master’s program.

#### Entry requirements

Some double degree courses may require you to study across two campuses in order to complete your course. To be eligible for admission to a double degree course you’ll need to meet the academic entry requirements for both single degree courses. For example, if you’re applying for the Bachelor of Laws and Bachelor of Music double degree course, you’ll need to satisfy the subject prerequisites for both courses as well as any range of criteria requirements that apply for either of the courses. The back tables in this guide provide a guide to the overall score, or an estimate, required for admission in 2021. All scores are to be used as a guide only. See pages 98-101 for full entry requirements.
2021 DOUBLE DEGREE COURSES AT A GLANCE

Entry requirements
For admission to double degree courses, generally the higher requirements for the two component single degree courses is a good indicator of the likely requirements for the double degree course. Where there’s a range of criteria for one of the component courses, these criteria will still apply to the double degree course. In each case you should expect to meet the entry level of each of the single degree courses. Some double degree courses may require you to study across two campuses in order to complete your course.

1 For all double degree courses codes and CRICOS codes, please visit monash.edu/apply/entrance/entrance-standards.
2 Location is based on a standard full-time load of 48 credit points per annum.
3 Fees are quoted in Australian dollars, each in the interchange fees for per 40 credit points of study in this course for 2021. Fees are adjusted annually.
5 Bachelor of Arts in Data Science
6 This course is completed within four years but has a 4.25-year duration due to an overload in year two and/or year three of the course. As a result, fees in year two and/or year three will reflect 1.25 times the standard 48 credit point fee.
7 This course has additional selection requirements. See monash.edu/study.
8 Media Communication subjects will be taken at Clayton campus.
9 This course is completed within four years but has a 4.25-year duration due to an overload in year two and/or year three of the course. As a result, fees in year two and/or year three will reflect 1.25 times the standard 48 credit point fee.

1. Prerequisite subjects must be completed within the first year of intended commencement. If you have not studied science in the past five years, you may still meet the requirements if you can demonstrate that you have engaged with science after your studies; this could be through work, teaching or volunteering in a capacity where you engaged in science in a meaningful way. If you believe you meet the requirements in this way, please provide us with a CV, letter of support from an employer/supervisor or other form of written proof that can demonstrate how you have engaged with science in the past five years.

2. For all double degree courses, codes and CRICOS codes, please go to monash.edu/study.
# Process for International Students

## HOW TO APPLY

### Step 1: Apply

All students must apply for a Monash University course online. Please refer to the following website for a step-by-step guide: monash.edu/admissions/apply/online

With your online application, please provide academic documentation, including academic transcripts, graduation certificate and grading scales (indicating the pass mark and graduation requirements if applicable). If you’re applying for a course that has selection and/or extra requirements, please also provide the necessary documentation with your online application.

You’ll be required to provide original or certified academic documentation (or other supporting documents) upon request. For further information on certifying documents, visit monash.edu/study/how-to-apply/international-student-applications/certifying-documents

### Need help with your application?

**Contact us:**

monash.edu/study/how-to-apply/enquiries/general-international-enquiry

+61 39903 4788

chat with Monash

### Step 2: Your application is assessed

When your application is received, Monash University will assess your application according to the University entry requirements.

Monash University is obliged to check that you’re genuinely seeking temporary entry to Australia to study. If the University forms the opinion that you’re not a Genuine Temporary Entrant (GTE), it may refuse to assess your application, withdraw an offer of a place, or cancel your confirmation of enrolment.

If your application is successful, you’ll receive a full offer in the form of an International Student Course Agreement (ISCA). Instructions will be supplied on how to accept your offer, including the fees and Overseas Student Health Cover (OSHC) you need to pay.

If we’re not able to make you a full offer immediately, you may receive a conditional offer. A conditional offer means you must submit more information and meet the requirements specified in the ISCA.

Usually the information we need is documentation (for example, official final transcript, graduation certificate or an English proficiency test) to see if you meet the specific entry requirements for the course you have applied for. We’ll explain what’s needed in the ISCA. Please submit the documentation to us as soon as possible, or contact us if you need any help.

If you’re not successful for your first preference, your application will be considered for your next preference or for a pathway program offered through Monash College (Foundation Year or Diploma).

### Step 3: Accepting your offer

To accept your offer, follow the instructions in your ISCA. You must complete, sign and return Part B of your ISCA with payment and a photocopy of the personal details page of your passport before the offer lapse date. Your payment should include OSHC for the duration of your visa for yourself and any family members accompanying you to Australia.

When making your payment, it should be noted that:

- Monash University does not accept cash.
- dishonoured bank drafts may incur additional bank fees.
- you may need to notify your bank of large deductions.

Bank drafts will need to be mailed to Central Admissions. Please ensure you include your full name and Monash student ID on the back of the bank draft.

### Step 4: We send you a Confirmation of Enrolment (CoE) and enrolment package

A CoE will be emailed to you once you accept your full ISCA or packaged ISCA (with no academic conditions specified). You’ll need the CoE to apply for a student visa.

After you have received your CoE, we’ll email you:

- your welcome letter
- Destination Monash – your complete guide to living in Australia and studying at Monash University
- a series of emails with useful information and resources to help with your transition to Monash.

### When you should apply?

- Apply as early as possible. Some courses may close a few months or a year before the start of the course, while others have quotas.
- Aim to have your online application submitted as early as possible. This allows time for your application to be processed, and can help to ensure that you secure a place if your preferred course has limited places.
- Applying early also gives you time to get your student visa, which can take up to six months for some nationalities and countries.

### When to apply through VTAC

International students who are undertaking an Australian Year 12 qualification (for example, VCE or equivalent) in Australia or overseas, International Baccalaureate (IB) Diploma in Australia or New Zealand, or National Certificate of Educational Achievement (NCEA) Level 3 in New Zealand, must apply through the Victorian Tertiary Admissions Centre (VTAC).

www.vtac.edu.au
Step 5
Arrange your student visa
The Department of Home Affairs (DHA) is responsible for issuing visas for entry to Australia. Students who are planning to study a Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) registered course are required to obtain a student visa.

You’re advised not to commence the visa application process until you’ve been issued with your CoE.

You must keep in mind that your student visa application may take up to six months or more, depending on your nationality and country of residence.

All students, regardless of the financial capacity and English language proficiency documentation that may be required, will have to meet all other core visa criteria, such as the GTE requirement, and health and character criteria.

Additional visa information and application forms can be obtained from the Monash University website at monash.edu/study/how-to-apply/international-student-applications/visa-requirements.

Step 6
Enrol in units online and order your Monash ID card
Once you have accepted your full offer, you’ll receive an invitation to enrol in units of study. Working through this process will help you understand and plan your course early so that you can get the best possible start.

Information about enrolment process and course-specific enrolment and arrival dates are available at monash.edu/get-started.

Step 7
Register your arrival and attend orientation
Make your own travel arrangements, aiming to arrive in Melbourne at least two weeks before orientation. Orientation activities at Monash University happen before the semester starts and are designed to help you settle in. Some orientation activities focus on providing more information about your studies, while other activities are designed to help you meet people and become familiar with our amazing campuses. Use the orientation e-Plan to create a personalised orientation plan. Visit orientation.monash.edu.

If you wish to use our airport reception service, you need to complete and return the request form available at monash.edu/study/book-your-airport-reception.

If you require help with arranging accommodation, visit monash.edu/study/student-life/accommodation.

Deferring your studies
If you decide to delay your course commencement date, you have the option to apply to defer your studies. You’ll need to complete the following form and return it to Central Admissions for approval: monash.edu/study/how-to-apply/international-student-applications/after-you-apply/defer-or-change-your-course.

FEES
We’re committed to providing you with an ever-evolving, modern, student experience where you can take charge of your studies while being guided by highly qualified educators who are informed by, and engaged with, industry and the community.

We’re investing in innovative learning environments to deliver collaborative, contemporary and flexible learning opportunities. We embrace the opportunities offered by technology and innovation, and embed them in our teaching, in order to prepare you for any career you pursue.

Our blended learning environment — physical, digital and virtual — prepares you for the workplace, and makes your time at Monash both satisfying and transformative. This underlines our philosophy that the Monash experience extends far beyond university.

In setting our fees, we take into account various factors, including the Consumer Price Index, teaching costs, market trends, demand for expertise, and competitor pricing. We acknowledge that gaining an internationally recognised qualification comes at a cost, but we ensure that the price of our degree programs mirror the true cost of delivering a premium educational experience where you’ll learn from some of the finest minds in the world.

Tuition fees
As an international student, you’ll be charged full fees. Tuition fees vary depending on the course and the year of commencement. All tuition fees and course duration specified in this guide are in Australian dollars and only apply to courses studied at Australian campuses. The tuition fees quoted are for 48 credit points and are applicable to courses commencing in 2020. Tuition fees for courses commencing in 2021 will be different.

Monash University reserves the right to adjust the annual tuition fees in future years of your course. However, any adjustment factor won’t exceed six per cent per year. Any adjustment will be applied on the first day of January each year for teaching periods with a census date thereafter.

monash.edu/fees

OVERSEAS STUDENT HEALTH COVER
It’s a condition of the Student Visa (subclass 500) that you must hold Overseas Student Health Cover (OSHC) for the duration of your stay in Australia. Monash University requires all commencing international students to purchase OSHC for the duration of their visa. If you’re accompanied by immediate family to Australia as dependents on your student visa, you’ll also need to purchase the visa-length OSHC for them.

Your Confirmation of Enrolment (CoE), for student visa purposes, will only be issued once you have:
- accepted your course offer along with payment for OSHC; or
- provided proof of having a valid visa-length OSHC; or
- submitted approved documentation for exemption from payment of OSHC.

monash.edu/fees/fee-types/overseas-health-cover

DEFER YOUR STUDIES
If you decide to delay your course commencement date, you have the option to apply to defer your studies. You’ll need to complete the following form and return it to Central Admissions for approval: monash.edu/study/how-to-apply/international-student-applications/after-you-apply/defer-or-change-your-course.
Glossary

Universities use some words you might not be familiar with. So to make sure nothing is lost in translation, we’ve put together a list of explanations.

Prerequisites
Previous study or other criteria required to gain admission into a particular course or unit.

Undergraduate course
The first level of tertiary studies at university, including diploma or bachelor degree courses.

Units
Subjects that make up your course are known as units.

Elective
A unit where you choose what unit to study. The choice may be from a specified list of units, or it may be a free elective where you can choose any unit within Monash providing you have the necessary entry requirements and there are no restrictions on enrolment in the unit.

Degree
The academic title you get when you complete a course of study. For example: Bachelor of Arts, Master of Business.

Comprehensive course
These courses allow you to select from a wide range of subjects within a broad field of study. You have the option to choose your major immediately or later, and you’ll try a range of subjects in your first year before narrowing your focus in year two — while still having the opportunity to try new things — before finally committing to your major area of study.

Major
The main area(s) of study chosen in a comprehensive course, study in a single discipline, totalling 48 credit points (eight units) taken sequentially over three years. You don’t need to declare your major when you enrol.

Extended major
An extended version of your major requiring you to study 72 credit points (12 units) over three years.

Minor
Study in a single discipline, totalling 24 points (four units).

Specialist course
A structured course usually focused on developing the knowledge and skills needed for professional practice in a specific field or profession.

Specialisation
Taken in specialist courses, a specialisation is a minimum of 12 units in a particular discipline, and provides an in-depth education in your chosen field. You must choose your specialisation when you enrol.

Honours
Honours may be an extra year of study at the end of your undergraduate degree. All of our four-year undergraduate courses include honours in their structure.

Graduate courses
Further study completed after you graduate with a bachelor’s degree.
