University of South Australia
The journey starts here

Welcome to the University of South Australia. We are a globally connected and engaged university helping solve the problems of industry and the professions. Our teaching is industry-informed, our research is inventive and adventurous. We create knowledge that is central to global economic and social prosperity. Our graduates are the new professionals, global citizens at ease with the world and ready to create and respond to change.

We are Australia’s University of Enterprise.

SOUTH AUSTRALIA’S LARGEST UNIVERSITY

33,813 STUDENTS

6,195 INTERNATIONAL STUDENTS

211,331 GLOBAL ALUMNI
The University of South Australia is located in Adelaide, Australia’s education city. Adelaide is a cultural destination, filled with many different nationalities, foods, festivals and sporting events. It is home to some of the country’s best beaches, wine regions and parklands, all in very close proximity to the city centre. Adelaide has been globally recognised for its education, environment, stability, healthcare, culture and infrastructure. It is the ideal study location and with free Wi-Fi, free tram and free bus services throughout the city centre, Adelaide is truly a student city.
Glenelg Beach / Located just 12 kilometres away from the city, Glenelg offers classic seaside charm with a white sandy beach known for great swimming, diving, snorkeling and dolphin spotting.

Adelaide Ranked #26, QS Best Student Cities 2019

RATED ONE OF THE WORLD’s FRIENDLIEST CITIES
2018 Condé Nast Traveller Awards
Adelaide. Designed for Life.

Adelaide is a city shaped by stories. The first of these stories were created by the Kaurna people of the Adelaide Plains, which remain alive today and are interwoven with the stories of all the people who choose to live, work, study or spend time in the city. Adelaide is a celebration of diversity and inclusion with a strong sense of community. Its unique layout makes it the world’s only true ‘city in a park’. Make Adelaide part of your story.

Accessible

Adelaide offers all the advantages of big city life but is still small enough to get around easily. It takes just 15 minutes to get from the airport to the city and 20 minutes from the city to the beach or hills.

Multicultural

Almost one in four people in South Australia were born overseas with ancestry tracing back to more than 120 countries. Australia also has a democratic system of government and is accepting of different religious beliefs.

Affordable

Adelaide has one of the highest standards of living in the world, yet is one of the least expensive places to live. This means more money to spend on food, accommodation, supplies, travel and entertainment.

Adelaide is up to 14% more affordable than other major Australian cities. EIU Cost of Living Survey 2019

Adelaide is a global study destination and has been ranked in the top 30 best student cities worldwide by QS. Adelaide is known for education excellence, balanced lifestyle and ability to turn career ambitions into a reality through global industry connections, support of start-ups and leadership in growth areas such as health, engineering, food and wine, creative and high technology, advanced manufacturing, space, minerals and energy.
**Direct international flights**

- Doha / 13 hours 55 minutes
- Dubai / 13 hours 25 minutes
- Guangzhou / 9 hours 10 minutes
- Hong Kong / 8 hours 20 minutes
- Kuala Lumpur / 7 hours
- Singapore / 6 hours 30 minutes

(Approximate times displayed for direct flights to Adelaide)

**Fast facts**

- Capital city / Adelaide
- Metro population / 1.3 million
- Language / English
- Currency / A$[^1]
- Climate / Mediterranean (hot, dry summers and mild winters)

South Australia is host to more than 400 sporting, food, arts and cultural events each year.

Fringe Festival[^5] / This is the largest open access arts festival in the southern hemisphere, providing 31 magical days of events where Adelaide comes alive with exciting pop-up venues.
STUDY EXPERIENCE

World-class degrees
The University of South Australia offers over 200 world-class degrees across a wide range of study areas. In fact, we are the only university in South Australia to offer undergraduate programs in aviation, journalism, illustration and animation, pharmacy, property, physiotherapy, surveying and more. We are also the only university in the state to offer postgraduate programs in cybersecurity, communications, visual effects, and arts and cultural management.

Modern facilities
Study in state-of-the-art facilities fitted with the latest technologies. From simulated hospital settings and a financial trading room, to robotics laboratories and TV and sound studios, there are modern, purpose-built learning spaces across all campuses.

Practical learning
Learn in a highly practical environment, with opportunities to complete internships, placements and projects, learning from experts in real-world settings. Build your networks and graduate career-ready with the skills required of tomorrow’s professionals.

Global opportunities
Take part in international field trips, work placements, internships, study tours, short-term programs, volunteer opportunities, conferences or a student exchange during your studies. Get a global perspective and a competitive advantage before you graduate.

Top ranking teachers
Be supported by highly qualified academics and teaching professionals. Study a curriculum based on the latest industry knowledge and trends. In fact, we are ranked number two in Australia for teaching quality in the 2019 Times Higher Education Young University Rankings.

Career services
Get the support you need to achieve your career goals. Our dedicated career team offers a range of services, resources and tools to help you plan your future career, prepare for the workplace, connect to industry, find short-term employment and more.

unisa.edu.au/study

unisa.edu.au/careers
Iress Trading Room / A state-of-the-art learning facility featuring live market data and financial analysis tools at City West Campus.

UniSA Cancer Research Institute / A world-leading $247 million health research and teaching facility located in the Adelaide CBD.

Horizon Hospital and Health Service (HHHS) / A fully interactive learning space simulating a real hospital setting at City East Campus.

RESEARCH EXCELLENCE

Our research is innovative, inspired by challenges, and connected to both industry and community needs. We offer a range of research degrees including Masters by Research, Doctor of Philosophy (PhD) and a Professional Doctorate. Our research degrees are focused on producing new knowledge, providing solutions to global challenges and preparing candidates for competitive careers.

Ranked #1 in Australia for industry research income

2019 THE World University Rankings

unisa.edu.au/resdegrees
“Our graduates are highly sought after and they leave not only with the right skills, but also with a hunger for knowing more about how their profession can better shape the built environment. Personally, this is a very rewarding job. It’s the everyday lightbulb moments and when students make large shifts in their understanding about design that really make my day.”

Andrew Wallace / Program Director: Bachelor of Interior Architecture

“As part of my studies I completed a number of placements including one at the new Royal Adelaide Hospital in both the emergency and plastic surgery departments. Placements helped me to develop my knowledge and apply it to clinical practice. The University also offered pre-clinical workshops and practice simulations to help us become familiar with the real working environment.”

Winnie Zhao / Bachelor of Nursing

Wawira Njiru wanted to make a positive impact in her community back in Kenya. She decided to study a degree in nutrition and food sciences with a vision of doing something big.

During her studies, Wawira hosted a community fundraiser and then used A$1,680 to build a make-shift kitchen in Ruiru, near Nairobi.

From here, Food 4 Education was born. Wawira started providing 25 healthy meals a day to primary school children in Kenya.

Eight years on, Wawira’s organisation is providing 10,000 meals a day, sourcing produce from local farmers.

“When I came to the University of South Australia, I had a clear goal in mind: to do something to benefit my community in the long term, she says.

“The kids inspire me the most. I am so privileged to have the opportunity to contribute to their future.”

Wawira now dreams about expanding into other areas of the continent and providing millions of meals over the next decade.

Wawira Njiru / Bachelor of Nutrition and Food Sciences
Founder, Food 4 Education
Industry connections
Our learning is influenced by industry, and the latest trends and demands. We collaborate with more than 2,500 companies worldwide to bring our students placement, project, research and work opportunities.

VOLUNTEER YOUR TIME
We can help you connect with an organisation and become a volunteer during your time at university. It's a great way to give back to the community, gain valuable life experience and add extra value to your resume.
unisa.edu.au/volunteering

JOIN OUR ALUMNI NETWORK
When you graduate you will become part of our global alumni network. We have over 200,000 alumni around the world, supported by formal networks in Hong Kong SAR and the People’s Republic of China, Singapore, Malaysia, Vietnam, Indonesia and the United Kingdom.
unisa.edu.au/alumni

Mawson Lakes Campus is located near more than 100 high-technology companies that make up Technology Park – an innovation hub in Adelaide’s growing northern suburbs.

What you’ll study
Aviation
Education (Early Childhood, Primary and Secondary)
Engineering
Information Technology
Science and Mathematics

On campus
Industry-standard engineering facilities / Specialist IT facilities / Mac and CISCO networking labs / Materials and Minerals Science Learning and Research Hub / Future Industries Institute / Planetarium / Flight and airport simulators / Aviation hangar (located near campus) / Ecological precinct / Drama centre / Food vendors and outdoor dining areas / Sports centre and gym

Take a virtual campus tour at unisa.edu.au/campus-facilities

INVESTED OVER A$400 MILLION IN MODERN CAMPUS FACILITIES
GETTING TO CAMPUS

Airport pick up

Did you know we can meet you at the airport?

We offer a free on-arrival reception service. Complete the online booking form before you leave home and we’ll collect you and your bags as soon as you step off the plane.

unisa.edu.au/airport-pickup
JUMP ON A FREE CITY TRAM
If you need to travel between City West and City East campuses, then jump on the Botanic Gardens or Adelaide Entertainment Centre tram line on North Terrace. The free tram service runs every 10 minutes and will also take you to the Adelaide Central Market, Adelaide Railway Station, Royal Adelaide Hospital, Botanic Gardens and the Adelaide Zoo.

PUBLIC TRANSPORT
You will find bus stops near each campus and train stations close to the city and Mawson Lakes campuses. Check your bus, train or tram options on the Adelaide Metro website. You will also be eligible for student discounts after enrolment, including purchases of 28-day unlimited passes.

CAMPUS CONNECTOR
We run a free bus service between the Magill and Mawson Lakes campuses to make travelling easier for students who need to make the journey or live in the surrounding suburbs.

FREE Wi-Fi AVAILABLE ON THE UniSA CAMPUS CONNECTOR

RIDE YOUR BIKE
Adelaide is known for its bicycle culture, so we encourage students to ride their bikes to and from campus. Each campus has shower facilities and secure storage areas.
STUDENT LIFE

ORIENTATION
Start your university adventure by attending Orientation Week. Meet your lecturers, connect with new friends and gain valuable insights from current students. Enjoy a free lunch and entertainment, explore your home campus and get ready for your first day at university.
unisa.edu.au/orientation

STUDENT CLUBS
Discover the 100+ academic, cultural and social clubs available at the University of South Australia. From dance and yoga to climate change, gaming and clubs for different nationalities – there is something for everyone! It’s a great way to meet new friends, find common interests with fellow students and build a more vibrant university experience.
unisa.edu.au/clubs

EVENTS AND ACTIVITIES
All sorts of great events and activities are offered to students throughout the year across all of our campuses. From careers and volunteering events to health, sport and wellbeing activities – there is always something to discover. Students can also explore the public exhibitions and events at The Samstag Museum, Hawke Centre and MOD.

USASA is your student association. USASA coordinates student advocacy, clubs, social events, production of the student magazine, campus counters, and free goodies and giveaways.

Unisport
You can join one of our 25+ sporting clubs including rowing, basketball, volleyball, netball football, gridiron, rock climbing and more. Gain access to Pridham Hall with a fully-equipped space for training and competitions. You can also sign-up for a range of sports tournaments from social to national level, keep active in our on-campus gyms, and participate in community events.
unisa.edu.au/unisasport
50+ EVENTS EACH YEAR ACROSS ALL CAMPUSES

GYM memberships AVAILABLE AT ALL CAMPUSES

100+ STUDENT CLUBS TO CHOOSE FROM
STUDENT SUPPORT

We offer a full range of support services to help you succeed at university.

- Academic and personal counselling
- Career advice
- Social support services
- Mentoring
- Disability and inclusion services
- Health services
- Legal advice
- Accommodation support
- International student services
- Language and learning assistance
- On-arrival welcome
- Orientation activities

Library services
Each campus has a library that provides easy access to learning resources including books, electronic journals, databases and more. There are also library workshops designed to help improve your research skills. Quiet study spaces are available and you can connect to our free Wi-Fi.
The Ask the Library/IT service is also available via phone, email, video and chat.

i.unisa.edu.au/international-student-services
Online learning and support
Our multi-million dollar fully interactive learning environment allows students to submit their assignments online, receive their marked assignments, access learning resources, participate in virtual classrooms and download lecture recordings. It’s available 24 hours a day, seven days a week.

Student app
Our mobile app allows all students to view their timetable, check emails, get important notifications, track assessments and see course enrolments and details. You can also find available PCs on campus, book a study room, check your print quota and library loans, and view announcements.

SafeZone app
Students can download this free app, providing additional security and support when studying on campus. The app allows you to get help quickly in a personal emergency. You can check-in when working alone or after hours and the app will share your status with an on-site response team.

Scholarships
Each year more than 2,500 students benefit from our scholarships and grants, totalling millions of dollars. We have a range of categories including support for high achievers and students in need, along with scholarships specifically for international students.

unisa.edu.au/international-scholarships

AUSTRALIA AWARDS
Australia Awards give the next generation of global leaders an opportunity to complete study, research and professional development in Australia. The University is proud to have hosted hundreds of recipients from all over the world through this prestigious initiative developed by the Australian Government.
australiaawards.gov.au

SPONSORED STUDENTS
A sponsored student is someone who has all or part of their education costs paid by a third party, such as a foreign government, the Australian Government, a partner university or employer. We currently host over 200 sponsored students and have the support services in place to ensure they achieve their best.
unisa.edu.au/sponsored-students

Getting started
We are here to help you transition into university. We offer the following services to all new students:

- On arrival transport to your accommodation
- Advice on living in Adelaide
- Orientation to university
- Understanding your working rights in Australia
- Finding community and government services
- Accessing academic policies and procedures

3+1 Pathway to Masters
Package a Bachelor of Business (Financial Planning) with a Master of Professional Accounting and graduate in just four years.

Prepare for a rewarding career in accounting and business advisory with an industry-accredited degree. Study core courses in accounting and quantitative methods for business, business law, finance, business intelligence and data analysis; economics and management. You will then explore advanced courses in financial and management accounting, taxation and company law, auditing, sustainability accounting, global and contemporary accounting issues, and strategic financial analysis. Develop critical skills in problem solving, reporting, decision-making, communication and teamwork. Learn about the economic, legal and political influences that impact global business and participate in an overseas study tour learning about business practices in other regions. Graduate with a degree accredited by Chartered Accountants Australia and New Zealand and satisfy the requirements for entry into the Chartered Accountants Program. This degree is also accredited by CPA Australia and you will satisfy requirements for entry into the CPA Program, as well as the Chartered Institute of Management Accountants. Furthermore, this degree is professionally recognised by the Association of Chartered Certified Accountants.

PROGRAM CODE: DMMA | CRICOS CODE: 048635B
*see pages 93–95 for details

Graduate with an internationally-recognised and highly-awarded MBA qualification designed for experienced managers and enterprising leaders. You will explore the latest industry insights and management research, and learn to create new solutions to modern business challenges, lead innovative teams and deliver exceptional business outcomes in the context of disruptive change and global uncertainty. Analyse real case studies and business challenges and draw upon your experiences and workplace-based issues for assessment tasks. Complete a major capstone project in your final year, where you will plan and execute a research project for a company board or senior management group. Engage with a cohort of experienced peers from diverse industry backgrounds in a highly interactive learning environment. Participate in an optional two-week global study experience to China, Europe or Mexico. You can also complete the Company Directors Course as part of this degree through our unique partnership with the Australian Institute of Company Directors. Recognised and respected globally for excellence and outcomes, our MBA has been ranked No.1 Online MBA in Australia and No.6 Online MBA in the world.* It is also ranked in the Top 5 MBAs in Australia^ and has received 5 Stars from the Graduate Management Association of Australia (GMMA) for more than ten consecutive years.

WE ALSO OFFER

Masters by Research
Doctor of Philosophy (PhD)

ENTRY REQUIREMENTS
- Minimum three years full-time management experience and a recognised university undergraduate degree or equivalent professional qualifications; or
- Graduate Certificate in Business Administration (OCMA) or Graduate Diploma in Business Administration (OCMA) from the University of South Australia with an average of at least Pass Level 1 across four (or more) courses, or an equivalent qualification from the University of South Australia or another recognised university; or
- Applicants are also required to submit a detailed curriculum vitae or equivalent with at least one referee who can validate work experience.

- English and Creative Writing: An Introduction
- Writing and Text Workshop
- Writing and Reading Short Fiction and Poetry
- Reworking the Canon
- The Writer’s World
- World Literatures and English
- Creative Writing Theory and Practice
- The Power of Story

Bachelor of Arts (English Language)

PROGRAM CODE: MBAA | CRICOS CODE: 097507D
*see pages 91–92 for details

Designed for bilingual and multilingual students who want to develop high level English proficiency for professional life. Develop advanced English speaking, writing and reading skills and the intercultural expertise for future work in local and global contexts, including careers in translation.

DEGREE STRUCTURE

ENGLISH LANGUAGE MAJOR
- English for Academic Use in Australia
- English for Academic and International Communication
- English for the Professions
- World Literatures and English
- Language Ideology and Policy
- Multilingualism: Contact, Change and Mobility
- Language Learning and Assessment

Bachelor of Arts (History and Global Politics)

PROGRAM CODE: MBAA | CRICOS CODE: 097504G
*see pages 91–92 for details

Examine the patterns and processes that have shaped our societies over time and develop the skills to analyse and predict events in our contemporary world. Study key areas such as framing global politics through film and television, global aid and development, world history trends, Australia in the Asian Century, and marginalisation in world affairs. Explore the context of politics and history including Australia’s role domestically and within broader currents of regional and global politics.

DEGREE STRUCTURE

HISTORY AND GLOBAL POLITICS MAJOR
- Global Politics and Development
- World History Trends and Transformations
- Australia in the Asian Century
- Framing the International: Representations of Global Politics
- The Politics of Environmental Change in Australia and Asia
- Power and Resistance: 1900–Present
- United States History and Cultural Identities
- Villains, Victims and Outsiders: Marginalisation in World Affairs

Bachelor of Arts (Law, Policy and Politics)

PROGRAM CODE: MBAA | CRICOS CODE: 098294D
*see pages 91–92 for details

Immerse yourself in another language. Learn French, Italian or Japanese and enhance your skills by experiencing the language and culture firsthand through international exchange opportunities. Access the Multimedia Languages Lab at Magill campus, where you can connect with native speakers from around the world in real-time. Graduate with a competitive advantage and take your career around the globe.

DEGREE STRUCTURE

LAW, POLICY AND POLITICS MAJOR
- Global Politics and Development
- Foundations of Law
- The Politics of Environmental Change in Australia and Asia
- Framing the International: Representations of Global Politics
- Law, Land and Peoples
- Human Rights Law
- Villains, Victims and Outsiders: Marginalisation in World Affairs
- Public International Law

Bachelor of Arts (Languages)

PROGRAM CODE: MBAA | CRICOS CODE: 081802F
*see pages 91–92 for details

Please note this program only has a February intake.
Bachelor of Arts (Performing Arts)

PROGRAM CODE: MBAA | CRICOS CODE: 081804D
*see pages 91–92 for details

Develop your creative practice within drama and music. Study areas such as body and voice, music and song, musicianship, physical theatre, new media design and production, composition and arranging, and production of soundscapes, cabaret and musical theatre. Follow your pathway as a performer, musician, writer, director or production manager, and contribute to the creation of original material for a variety of art forms.

DEGREE STRUCTURE

The Social World
Sociological Perspectives
Understanding Globalisation
Sociology of Crime and Deviance
Social Theory for the 21st Century
Contemporary Culture and Social Change
Sociology of Gender and Intimacy
Migration, Diversity and Belonging

Bachelor of Creative Industries

unisa.edu.au/creative-industries

PROGRAM CODE: DBCI | CRICOS CODE: 0100163
*Some courses will be delivered at Magill Campus depending on your chosen industry-major
*see pages 91–92 for details

Prepare for a career in the growing creative industries. Study a degree designed and delivered in collaboration with leaders in the industry and explore your creativity in an area that interests you most. Design your own degree by choosing from 12 industry majors, each with a unique focus. You can then select either a second major, or two minors from across a range of creative and business disciplines. Engage with industry from day one as you develop your creative practice while gaining professional knowledge and skills. You will also study core courses in business, design and entrepreneurship, providing you with highly practical and transferable skills to give your career a competitive head-start. Take the opportunity to complete an internship or placement, go on an international exchange, work on real-world projects and build a portfolio of work.

**EDUCATION**

**Admissions information**

**ENTRY REQUIREMENTS**

In accordance with national teacher education program standards, applicants must also fulfill non-academic entry requirements before their application is deemed complete. Applicants for the Bachelor of Early Childhood Education (Honours) and Bachelor of Primary Education (Honours) are required to submit a 400–600 word (maximum) Teaching Capabilities Statement, which speaks to your motivation to be a teacher.

**PLACEMENT REQUIREMENTS**

In the lead-up to each professional experience placement you need to ensure that a number of important prerequisites and requirements are completed or satisfied, including:

- A Department of Human Services Working with Children Check;
- Mandatory Child-Safe Environments Training; and
- Meeting required standards in the national Literacy and Numeracy Test for Initial Teacher Education (LANTITE) – to be completed during your studies.

For more information, visit unisa.edu.au/eds-requirements

**Bachelor of Social Science (Human Services)**

unisa.edu.au/human-services

**PROGRAM CODE:** MBSS  |  **CRICOS CODE:** 002497J

*see pages 91–92 for details

Prepare for a professional career in human services. Develop the skills to enhance the wellbeing of people who have experienced personal or social difficulties. Focus on key areas such as behavioural and social sciences, human service practice, human service management, and social policy. Learn how behaviour is affected by cultural, environmental, psychological and political factors. Develop the necessary communication skills to work in the field, and explore the political influences in human services and the various ethical and cultural considerations. Learn to identify the social policies that impact people’s lives and the strategic ways to implement change. Gain practical experience through our human services studios on campus and complete supervised placements during your studies. Graduate with a degree recognised by the Australian Community Workers Association and be eligible for full membership.

Note: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS) for working with Children, in the Aged Care Sector and in Disability Services; obtain a SA Police National Police Record Check; and complete a one-day course on Safe Environments for Children and Young People. Some placements may require students to hold a current driver’s licence, Mandatory Basic Life Support (BLS) training, and be familiar with the Australian National Disability Insurance Scheme (NDIS) and My Aged Care policies. Inform the social policy development, enhance service provisions, and promote social inclusion within the ageing and disability sectors. Gain valuable work experience and build professional networks through supervised field placements.

**CAREERS**

Community development officer / social policy adviser / social researcher / community services manager / case worker / case manager / human rights advocate / child safety practitioner / outreach program manager / support worker / counsellor (with further study)

**SECOND YEAR**

- Human Service Provision  
- Communication Skills in Social Work and Human Services  
- The Social World  
- Child Development  
- Governance and Citizenship in Australia

**FIRST YEAR**

- Human Service Provision  
- Communication Skills in Social Work and Human Services

---

**Bachelor of Social Science (Ageing and Disability)**

unisa.edu.au/human-services

**PROGRAM CODE:** MBSS  |  **CRICOS CODE:** 098030F

*see pages 91–92 for details

Develop the knowledge and skills to meet and understand the social and emotional needs of individuals, families and carers involved with older people and people with disabilities. Explore ethical practices at the individual, community and policy level of ageing and disability services. Learn to navigate major systems such as the Australian National Disability Insurance Scheme (NDIS) and My Aged Care policies; inform social policy development; enhance service provisions, and promote social inclusion within the ageing and disability sectors. Gain valuable work experience and build professional networks through supervised field placements.

Note: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS) for working with Children, in the Aged Care Sector and in Disability Services; obtain a SA Police National Police Record Check; and complete a one-day course on Safe Environments for Children and Young People. Some placements may require students to hold a current driver’s licence, Mandatory Basic Life Support (BLS) training, and be familiar with the Australian National Disability Insurance Scheme (NDIS) and My Aged Care policies. Inform the social policy development, enhance service provisions, and promote social inclusion within the ageing and disability sectors. Gain valuable work experience and build professional networks through supervised field placements.

**CAREERS**

Policy adviser / disability services coordinator / aged care coordinator / case manager / support worker / leisure activities coordinator / community services coordinator / community development officer / counsellor (with further study)

PROGRAM CODE: MBSW | CRICOS CODE: 00053M

Prepare for a rewarding career in social work. Learn to enhance the wellbeing of others through advocacy, social change, relationship building and the empowerment of people. Focus on four major study areas including social work theory, social work practice and skills, social policy, and social research. Develop knowledge of various social work practices and their application with individuals, families, communities, groups and organisations. Learn how to identify the social policies that impact people’s lives and the strategic ways to implement change. Interpret, evaluate and conduct relevant social research exploring current real-world challenges.

Access custom-built social work studios on campus and practise your skills through simulated scenarios. Gain valuable practical experience through work placements during your third and fourth years of study. Graduate with a degree accredited by the Association of Social Workers and be eligible for full membership.

Note: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS) for working with Children, in the Aged Care Sector and in Disability Services; obtain a SA Police National Police Record Check; and complete a one-day course on Safe Environments for Children and Young People. Some placements may require students to hold a current driver’s licence, Mandatory Basic Life Support (BLS) training, vaccinations, or a recognised First Aid Certificate.

CAREERS

Social worker / case manager / child and youth welfare officer / community development officer / disability support worker / rehabilitation officer / court services officer / cultural diversity officer / social planning officer / social policy adviser / social researcher

AAD Research Methods
Nature, Culture and Sustainability

SECOND YEAR
Masters Project 1
Masters Project Report 1 Elective

Masters Project 2
Masters Project Report 2 Elective

Master of Design

(Contemporary Art)

PROGRAM CODE: DMSP | CRICOS CODE: 095763D

Develop your creativity and art practice through advanced studio work, coupled with valuable studies in marketing, business and financial management to help commercialise your craft. Tailor your studies by choosing a specialised field, including Photo, Digital and Graphic Media, Painting and Drawing, or Spatial Studies (including public art, sculpture, textiles, glass, metal, ceramics or jewellery). You will also learn about grant sourcing and applications, industry associations and professional recognition, communications and marketing.

CAREERS
Artist / designer / art critic / art director / exhibitions manager / curator / arts administrator / entrepreneur / photographer / illustrator / textile designer / ceramicist / jewellery designer

Develop a deep understanding of the innovative and changing world of design. Specialise in an area that interests you most, including Communication Design, Contemporary Art, Design and Construct, Industrial Design, Interior Architecture or Sustainable Design. Access modern, purpose-built workshops on campus featuring industry-standard technologies and digital equipment. Gain practical experience by working on real design projects and challenges. You will also benefit from industry masterclasses and will learn from national and international design practitioners.

Elective

Masters Project Report 2

DMSP | CRICOS CODE: 082771M

*see pages 93–95 for details*

Study a one-of-a-kind qualification unique to Australia, and develop the technical knowledge and skills to transition straight into your film and television career through a 12-week intensive qualification. Offered in association with Matchbox Pictures – one of Australia’s most successful and award-winning production companies – you will learn in an immersive, real-world business environment with exclusive access to industry. Benefit.
from working alongside highly skilled production professionals using the latest industry-standard tools and technologies. You will complete studies focused on understanding the screen industry, exploring the role of creative producer, idea generation, pitching and financing, pre-production and post-production, and marketing. You will also gain practical experience by working directly on an industry project and will graduate with a professional portfolio of work.

CAREERS
Film editor / location manager / TV producer / screenwriter / cinematographer / production designer / video editor / TV director / talent agent / content producer / videographer

ENTRY REQUIREMENTS
- Bachelor degree from a recognised higher education institution in film, television or a related discipline.
- Advanced Diploma in Screen and Media or equivalent qualification from an accredited Registered Training Organisation.
- Applicants are also required to submit a showreel of their own work and a curriculum vitae outlining their relevant experience.
- Alternatively, applications will be considered from graduates holding a completed bachelor degree from a recognised higher education institution in an unrelated field who are able to demonstrate substantial experience in film and/or television, in their showreel and curriculum vitae submissions.

DEGREE STRUCTURE
FIRST YEAR
The Screen Industry: Business, Creativity and Content

Screen Content Project 2
Professional Film and Television Practice

Graduate Certificate in Compositing and Tracking
unisa.edu.au/VFX

City East Campus
(Classes delivered at Rising Sun Pictures in the Adelaide CBD)

0.5 years full-time

$A26,900 pa* indicative 2021

February and July intakes

PROGRAM CODE: ICVE | CRICOS CODE: 088908F
*see pages 93–95 for details

Master the theory and techniques needed to produce visual effects for film sequences through a 12-week intensive qualification. Develop industry-standard skills in compositing, rotoscoping and tracking. Learn alongside highly-experienced VFX artists through a unique partnership with Rising Sun Pictures — one of the world’s best visual effects companies, who have worked on motion pictures such as Thor: Ragnarok and Tomb Raider. Access their state-of-the-art studio located in Adelaide’s CBD and work with the latest industry tools such as Nuke, 3DEqualizer, Maya and Shotgrid. Gain an in-depth understanding of current industry trends, technologies and professional practices. Build your networks by joining company meetings and events at Rising Sun Pictures, and graduate with an industry standard showreel and a professional curriculum vitae.

CAREERS
Compositor / concept artist / digital preparation artist / layout artist / VFX producer / roto artist / matchmove artist / lighting technical director / matter painter / technical effects director

ENTRY REQUIREMENTS
- Bachelor degree from a recognised higher education institution in media arts, visual effects or a related discipline, or
- Advanced Diploma in Screen and Media or equivalent qualification from an accredited Registered Training Organisation, or
- Graduate Certificate in Dynamic Effects and Lighting (ICDL) from the University of South Australia. Applicants are also required to submit a showreel of their own work and a curriculum vitae outlining their relevant experience.
- Alternatively, applications will be considered from students holding a completed academic qualification from a recognised higher education institution in an unrelated field who are able to demonstrate substantial experience in media arts or visual effects, demonstrable in the showreel and curriculum vitae submissions.

For more information, visit
unisa.edu.au/rsp-admissions-requirements
POSTGRADUATE DEGREES
from a recognised higher education institution.

ENTRY REQUIREMENTS
In accordance with national teacher education program standards, applicants must also fulfill non-academic entry requirements before their application is deemed complete. Applicants for the Master of Teaching programs are required to submit a 400-600 word (maximum) Teaching Capabilities Statement, which speaks to your motivation to be a teacher.

PLACEMENT REQUIREMENTS
In the lead-up to each professional experience placement you need to ensure that a number of important prerequisites and requirements are completed or satisfied, including:

- A Department of Human Services Working with Children Check;
- Mandatory Child-Safe Environments Training; and
- Meeting required standards in the national Literacy and Numeracy Test for Initial Teacher Education (LANTITE) — to be completed during your studies.

EDUCATION

Admissions information

ENTRY REQUIREMENTS
Bachelor degree or equivalent qualification from a recognised higher education institution with a competitive Grade Point Average (GPA), and
- One year of full-time equivalent study, as part of the bachelor degree or equivalent qualification, relevant to one of the Learning Areas of the primary school curriculum (Arts, English, Health and Physical Education, Humanities and Social Sciences, Languages, Mathematics, Science and Technologies), which includes a minimum half a year of equivalent study relevant to one of the Learning Areas of the primary school curriculum.
- Some applicants may be eligible for Advanced Standing and can complete the program in one-year full-time study.
- Entry into this program is competitive and based on academic merit.

DEGREE STRUCTURE

FIRST YEAR
English Education (Junior Primary)
Mathematics and Science Education (Years R–2)
Curriculum and Pedagogy 1 (HASS and Technologies)
Curriculum and Pedagogy 2 (Arts and Health and PE)

SECOND YEAR
English Education (Birth to 5)
Mathematics and Science Education (Birth to 5)
Play, Learning and Development
Early Childhood Professional Experience and Reflection (Insect Primary)

Master of Teaching (Early Childhood)
unisa.edu.au/education

CAREERS
Kindergarten teacher / preschool teacher / junior primary teacher / childcare teacher / childcare centre director / early childhood educator / early childhood coordinator / early learning consultant / policy adviser / researcher

ENTRY REQUIREMENTS
- Bachelor degree or equivalent qualification from a recognised higher education institution with a competitive Grade Point Average (GPA), and
- One year of full-time equivalent study, as part of the bachelor degree or equivalent qualification, relevant to one or more Learning Areas of the primary school curriculum (Arts, English, Health and Physical Education, Humanities and Social Sciences, Languages, Mathematics, Science and Technologies), which includes a minimum half a year of equivalent study relevant to one of the Learning Areas of the primary school curriculum.
- Some applicants may be eligible for Advanced Standing and can complete the program in one-year full-time study.
- Entry into this program is competitive and based on academic merit.

Curriculum and Pedagogy 2 (Arts and Health and PE)

SECOND YEAR
English Education (Birth to 5)
Mathematics and Science Education (Birth to 5)
Play, Learning and Development
Early Childhood Professional Experience and Reflection (Insect Primary)
Prepare for a career in primary education, focusing on children from Reception to Year 6/7. Explore the developmental, emotional and social psychological needs of primary learners. Study core courses in curriculum and education studies, along with integrated practical learning in English, Mathematics, Science, Health and Physical Education, Technologies and Arts. Benefit from highly practical learning, completing supervised placements across metropolitan and regional primary school settings, totalling 60 days.

Note: Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

**Master of Teaching (Secondary)**

Prepare for a career in secondary education, focusing on adolescents from Year 7 to Year 12. Tailor your studies by specialising in two Learning Areas aligned with the Australian Curriculum, including Arts, Design and Technology, English, Health and Physical Education, Humanities and Social Sciences, Languages, Mathematics, and Science. You will also study core courses covering curriculum studies, education studies and pedagogy (the theory and practice of teaching). Choose to study Australia’s only minor specialisation in Islamic pedagogy, providing the knowledge and inclusive practice required for teaching Muslim students. Benefit from highly practical learning, completing supervised placements totalling 60 days.

Note: Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

**CAREERS**

Secondary school teacher / education director / education consultant / youth support officer / education policy adviser / researcher

**ENTRY REQUIREMENTS**

- Bachelor degree or equivalent qualification from a recognised higher education institution with a competitive Grade Point Average (GPA), and
- A major and preferably a minor in the intended specialisation Learning Area, aligning with the Australian Curriculum. Majors consist of a minimum of six courses (27 units) or equivalent with a minimum of two courses at Australian second year undergraduate level or equivalent. Minors consist of a minimum four courses (18 units) or equivalent with a minimum of two courses at Australian second year undergraduate level or equivalent
- Entry into this program is competitive and based on academic merit.

**Master of Education (TESOL)**

Focus on the learning and planning needs of adolescent students from Year 7 to Year 12. Tailor your studies by specialising in two Learning Areas aligned with the Australian Curriculum, including Arts, Design and Technology, English, Health and Physical Education, Humanities and Social Sciences, Languages, Mathematics, and Science. You will also study core courses covering curriculum studies, education studies and pedagogy (the theory and practice of teaching). Choose to study Australia’s only minor specialisation in Islamic pedagogy, providing the knowledge and inclusive practice required for teaching Muslim students. Benefit from highly practical learning, completing supervised placements totalling 60 days.

Note: Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

**CAREERS**

Graduate with a qualification to teach English to speakers of other languages. Explore the educational theory and TESOL methodologies needed to teach English as an additional language across a variety of settings, from preschool to adult through to tertiary education. Study core courses covering areas such as language learning, curriculum studies, teaching and language assessment, and TESOL approaches and strategies. Tailor your studies by choosing a specialised stream, either the Education Project pathway or Education Thesis pathway, which will prepare you for further learning, including doctoral studies. Benefit from highly practical and engaged learning through intensive workshops on campus.

**CAREERS**

English language educator / curriculum developer / educational leader / government adviser / training and development consultant / tutor

**ENTRY REQUIREMENTS**

- Bachelor degree or equivalent qualification in any discipline from a recognised higher education institution. Some applicants may be eligible for Advanced Standing and can complete the program in one year of full-time study.
PSYCHOLOGY, SOCIAL WORK & HUMAN SERVICES

Master of Social Work
unisa.edu.au/social-work

Magill Campus
2 years full-time
$A31,900 pa*
February intake

*see pages 93–95 for details

Prepare for professional practice in social work. Develop an advanced body of knowledge in current social issues, social work values, social policy, ethics and identity, human rights, child protection, mental health and cross-cultural practice. Benefit from a curriculum influenced by world-class research in psychology and social work. Learn in purpose-built social work studios located on campus, working alongside field practitioners and academic staff in simulated scenarios. Gain valuable practical experience by completing field placements during your studies, across local, rural and international settings. Graduate with a qualification accredited by the Australian Association of Social Workers. You will also be eligible for membership.

Note: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS) for working with Children, in the Aged Care Sector and in Disability Services; obtain a SA Police National Police Record Check; and complete a one-day course on Safe Environments for Children and Young People. Some placements may require students to hold a current driver’s licence, Mandatory Basic Life Support (BLS) training, vaccinations, or a recognised First Aid Certificate.

ENTRY REQUIREMENTS

- Bachelor degree or master level qualification in a related discipline (including, but not limited to, human services, community services, social science, psychology, Australian Indigenous or Aboriginal studies, public or community health) from a recognised higher education institution, or equivalent qualification.

- Applicants holding a completed Australian bachelor degree or master level qualification in social work are not eligible for entry into this program.

DEGREE STRUCTURE

FIRST YEAR
Effective Human Service Delivery
Contemporary Practice Theories for Social Work
Social Work Practice Skills
Social Work in the Australian Context OR Aboriginal Health and Wellbeing
Social Work Practicum 1

SECOND YEAR
Innovation and Research
Innovative Social Work Practice with Children and Families
Mental Health and Social Work Practice
Human Rights Based Practice and Community Development
Leadership in Social Work
Social Work Practicum 2

WE ALSO OFFER

Masters by Research
Doctor of Philosophy (PhD)
"In third year, we gained hands-on experience in the new pharmacy practice suite, learning how to dispense medicines to patients. In fourth year we are placed in hospital and community pharmacies for work placements. I can’t wait to explore what my future work place will be like."

Pei Yin
MALAYSIA
Bachelor of Pharmacy (Honours)

"I chose this degree because it was the perfect blend of theoretical and practical knowledge. The degree curriculum is well-structured and taught by great teaching staff. I have also attended networking and university club events, which has enhanced my knowledge in this field."

Apurva Parkar
INDIA
Master of Health Services Management

Prepare for a rewarding career as a healthcare professional or researcher. Study at a university with key industry, government and community partnerships. Benefit from a strong emphasis on practice-based learning, with significant investment in teaching and research facilities including the A$247 million UniSA Cancer Research Institute located in Adelaide’s BioMed City. Learn in modern, purpose-built laboratories and on-campus health clinics that service the wider community. Be part of a new and enterprising workforce focused on collaboration, discovery, progress and innovation.

*see pages 91–92 for details

Become a Registered Nurse and make a positive contribution to the healthcare sector. Develop the knowledge, clinical skills and attitudes needed for professional practice in a range of settings. Benefit from a strong focus on theory and practical experience, including access to our unique clinician-led, hospital and health service on campus, which includes authentic hospital wards, clinical units and community areas. Be prepared to meet healthcare delivery requirements for the 21st century and respond to Australian and international healthcare priorities and trends. Focus on four key areas of nursing practice during your studies, including collaborative and therapeutic practice, critical thinking and analysis, professional practice, and provision and coordination of care. Learn about cultural competence, evidence-based practice, mental health, primary health, professional communication, and safety and quality. Complete more than 900 placement hours starting in your first year of study. Graduate with the academic requirements needed for registration as a Registered Nurse with the Nursing and Midwifery Board of Australia (NMBA).

Note: Students must meet the Fitness to Practice in Clinical Placements’ requirements. For more information, visit unisa.edu.au/health/ftp

CAREERS

Registered nurses can work in a variety of healthcare settings, including:

- Hospitals / clinics / primary health and community support services / aged and rehabilitative care / schools / home care services / drug and alcohol treatment centres / community health organisations / mental health services / international aid agencies

*see pages 91–92 for details

Prepare for a highly rewarding career in maternity care and women’s health as a Registered Midwife. Develop the knowledge and practical skills to support women through pregnancy, labour, birth and postnatal care. Benefit from a strong focus on theory and hands-on experience to prepare you for clinical practice. As an international profession with different birthing practices all over the world, you will learn how political, socio-cultural, economic and technological factors influence midwifery practice. Learn in our clinician-led, authentic simulated hospital and health service on campus, which incorporates a midwifery and paediatric unit, and technologies such as birthing manikins. Complete comprehensive placement hours and be actively involved in 30 births during your studies, along with the pre and post-birth care of at least 100 women, and following 15 women through continuity of care experiences. Graduate with the academic requirements needed for registration as a Midwife with the Nursing and Midwifery Board of Australia (NMBA).

DEGREE STRUCTURE

FIRST YEAR

- Being a Health Professional
- Human Body 1
- Global and National Health

SECOND YEAR

- Human Body 2
- First Peoples’ Health
- Mental Health
- Experiential Learning Activity: Preparation for Clinical Practice Practicum 1

THIRD YEAR

- Health of Older Adults
- Scientific Basis of Clinical Practice
- Experiential Learning Activity: Older Adults Practicum 2
- Health of Adults
- Health of Infants, Children and Young People
- Experiential Learning Activity: Acute Care Practicum 3

- Research Methodologies
- Nursing Contexts of Practice
- Experiential Learning Activity: Extension to Practice Practicum 4

- Becoming a Registered Nurse
- Experiential Learning Activity: Transition to Practice Practicum 5
- Nursing Project

NATIONAL POLICE CERTIFICATE AND DEPARTMENT OF HUMAN SERVICES WORKING WITH CHILDREN CHECK

All students who, as part of their program, undertake activities where interaction with patients/the public is required, such as in field or clinical placements/visits and in University clinics and gyms, must demonstrate that they have a current National Police Certificate (NPC) through SAPOAL (or their home state police service) and a current Department of Human Services (DHS) Working with Children Check, which is valid for the duration of the program. The National Police Check will list disclosable court outcomes that may prevent clinical placement involvement. The University has a process for reviewing these outcomes to assess suitability for placement.

STUDENT REGISTRATION

All students enrolled in a program leading to professional registration must be registered with the relevant national board. The registration process is undertaken by the Australian Health Practitioner Regulation Agency (AHPRA) with the University providing notification to AHPRA following a student’s enrolment. No fees apply.

IMMUNISATION REQUIREMENTS

In order to progress to clinical placement you must be screened and provide evidence of your immunisation status. Immunisation is a mandatory requirement across all healthcare placement providers. Non-compliance with the Health Care Workers Immunisation Policy Directive will prevent you from progressing to a placement. Additional requirements may apply. For more information, visit unisa.edu.au/health/cpu

unisa.edu.au/study
Note: Students must meet the Fitness to Practice in Clinical Placements’ requirements. For more information, visit unisa.edu.au/health/lp

CAREERS
Midwives can work in a variety of healthcare settings, including:
- Hospitals / community services / rural and remote healthcare / home care services / health agencies / private consulting

DEGREE STRUCTURE

FIRST YEAR
- Foundations of Midwifery
- Human Body 1
- Normal Pregnancy and Childbirth
- Experiential Learning Activity: Midwifery Foundation Practicum 1
- Human Body 2
- First Peoples’ Health
- Healthy Mothers and Babies

SECOND YEAR
- Complex Care across the Childbirth Continuum
- Fetal and Maternal Pathophysiology
- Experiential Learning Activity: Midwifery Development Practicum 2
- Complex Care of the Neonate
- Pharmacology and Diagnostics for Midwives
- Experiential Learning Activity: Midwifery Practice Development Practicum 3

THIRD YEAR
- Research Methodologies
- Perinatal Mental Health and Wellbeing
- Experiential Learning Activity: Midwifery Transition Practicum 4
- Becoming a Midwife
- Experiential Learning Activity: Midwifery Transition Practicum 5
- Midwifery Project

FOURTH YEAR
- Clinical Placements’ requirements. For more information, visit unisa.edu.au/occupational-therapy

CAREERS
Occupational therapists can work in a variety of settings, including:
- Hospitals / private practice / community health services / rehabilitation centres / aged care facilities / home care services / local council services / government departments / schools

DEGREE STRUCTURE

FIRST YEAR
- Foundations of Health
- Human Anatomy 100
- Physiology Essentials 100
- Introduction to Occupational Therapy Practice
- Lifespan Growth and Motor Development
- Introduction to Evidence Based Practice and Research in Health Sciences
- Occupational Therapy Practice in Hospital Settings
- Elective

SECOND YEAR
- Principles of Occupational Therapy Practice
- Applied Psychology
- Enabling Occupation through Environmental Adaptation
- The Individual in Society 200
- Human Neuroscience
- Occupational Therapy Group Work and Counselling
- Occupational Therapy Practice Education
- Occupational Therapy Practice in Occupational Rehabilitation

THIRD YEAR (PROFESSIONAL STREAM)
- Occupational Therapy Practice and Mental Health
- Primary Health Care Approaches in Occupational Therapy
- Advanced Occupational Therapy Practice and Neurological Conditions
- Occupational Science
- Participatory Community Practice 301
- Advanced Community Occupational Therapy Practice and Chronic Conditions Management
- Advanced Evidence Based Practice

FOURTH YEAR (PROFESSIONAL STREAM)
- Participatory Community Practice 400
- Professional Portfolio 400
- Occupational Therapy Field Practice 400
- Occupational Therapy Practice 400
- Professional Portfolio 401

THIRD YEAR (RESEARCH STREAM)
- Occupational Therapy Practice and Mental Health
- Primary Health Care Approaches in Occupational Therapy
- Advanced Occupational Therapy Practice and Neurological Conditions
- Occupational Science
- Participatory Community Practice 301
- Advanced Community Occupational Therapy Practice and Chronic Conditions Management
- Health Science Honours Preparation

Fourth Year (Research Stream)

CAREERS
Develop the skills to assist people in managing personal, environmental and task limitations caused by injury or illness. Focus on areas such as human anatomy, human physiology, human neurosciences, growth and lifespan development, psychology, occupational science, and sociology. Gain valuable practical experience through 1,000 dedicated placement hours in a variety of settings under the supervision of a practising occupational therapist. Choose a professional or research stream in your final years of study. Graduate with a degree that has been approved by the World Federation of Occupational Therapists and the Occupational Therapy Board of Australia, and accredited by the Occupational Therapy Council (Australia & New Zealand) Ltd.

PROGRAM CODE: IHPP | CRICOS CODE: 088338B

*see pages 91–92 for details

Graduate with honours and become a registered physiotherapist in just four years. Develop the capability to assess, treat and prevent human movement disorders, enabling people to lead healthy and functional lives, as a first contact professional and valued member of an allied healthcare team. Focus on various areas of practice and treatments across sports, musculoskeletal, cardiopulmonary and neurological conditions. Study courses in human anatomy, human physiology, physiotherapy studies, pharmacology, exercise physiology, and pain sciences. Learn practical skills through clinical placements in real-world settings, including our on-campus physiotherapy clinics. Complete either a research stream focusing on an independent research project, or a professional stream where you will take part in a group project addressing a real-world problem. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a Physiotherapist with the Physiotherapy Board of Australia. You will also be eligible for membership with the Australian Physiotherapy Association.

CAREERS
Registered physiotherapists can work in a variety of settings, including:
- Private practice / clinics / sporting clubs / exercise services / rehabilitation centres / hospitals / home and community services / disability services / aged care facilities / women’s health / paediatric services
### Bachelor of Podiatry

Study South Australia's only degree in podiatry. Prepare for a career as a registered podiatrist, responsible for diagnosing and treating disorders of the foot, ankle and lower leg. Learn to provide quality care for sports injuries, orthotics, children, foot and heel pain. Develop fundamental knowledge through core courses in human anatomy, human physiology, pain management, pharmacology and biomechanics and learn relevant aspects of medicine and surgery. Gain valuable real-world experience by completing 1,000 clinical placement hours. Further develop your knowledge and expertise in our on-campus podiatry clinics under the supervision of practising clinicians, as well as our Manufacturing Lab where you will learn how to make orthotics. Graduate with the eligibility to apply for registration as a Podiatrist with the Podiatry Board of Australia.

Note: High achieving students may be considered for the Bachelor of Podiatry (Honours) program in their third year of study.

Study South Australia’s only fully-accredited degree in exercise and sport science. Develop a deep understanding of the impact that exercise and physical activity has on the biological, physical and social aspects of human life. Learn how to design and deliver exercise programs to improve clients’ health and wellbeing, perform client screenings, conduct laboratory and field testing, and appraise and interpret scientific research. Be guided by some of Australia’s leading exercise scientists and experts in the field. Develop a solid understanding of human anatomy and physiology, the psychology and sociology of health and physical activity, exercise prescription and delivery, nutrition, and biomechanics. Access state-of-the-art facilities including the High Performance and Exercise Physiology Clinic, Environmental Chamber, and fully-equipped Health and Fitness Centre located on campus. Gain valuable practical experience by completing industry placements across a range of settings including schools and elite sporting clubs. Graduate with a degree accredited by Exercise and Sport Science Australia (ESSA) and be eligible for registration as an Accredited Exercise Scientist.

**Careers**

Exercise scientist / strength and conditioning coach / physical training specialist / performance analyst / community sports project officer / health and wellness promoter

- Physiology
- Human Nutrition
- The Chemistry of Food
- Food Safety and Regulation
- Lifespan Physiology
- Sensory and Consumer Evaluation of Foods

**THIRD YEAR (FOOD SCIENCE STREAM)**
- Food Microbiology and Quality Assurance
- Food Processing and Manufacturing
- Product Development and Food Analysis
- Elective 1
- Molecular Food Microbiology
- Functional Foods, Nutraceuticals and Medicines
- Elective 2
- PLUS one course (4.5 units) chosen from the following:
  - Capstone in Nutrition, Food Sciences
  - Medical Biochemistry

**THIRD YEAR (NUTRITION STREAM)**
- Community Nutrition Promotion
- Nutrition Communication and Food Studies
- Nutrition, Exercise and Weight Management
- Elective 1
- Functional Foods, Nutraceuticals and Medicines
- Elective 2
- PLUS two courses (9 units) chosen from the following:
  - Capstone in Nutrition, Food Sciences
  - Sports Nutrition
  - Designing and Managing Health Projects
  - Medical Biochemistry

Launch a career in the growing food and nutrition industry. Learn to develop innovative foods; promote and manage diets and lifestyles; and conduct meaningful research for enhanced wellbeing. Explore the fundamentals of both nutrition and food sciences in your first two years of study then select one as a formal study stream in your third year, that aligns to your interests and career goals. Develop a strong body of knowledge in biology, food chemistry, microbiology, physiology and consumer education. Study in a dedicated learning hub on campus, including a purpose-built Sensory Lab, Microbiology Lab and Commercial Kitchen. Benefit from our strong links with the food industry and community, and attend field trips to some of South Australia’s major nutrition and food providers. Graduates are eligible to apply for professional membership with the Australian Institute of Food Science and Technology (AIFST). Graduates are also eligible to apply to the Nutrition Society of Australia for registration as an Associate Nutritionist (ANutr), leading to Registered Nutritionist (RNutr), typically after three years of work experience.

**Careers**

Community nutritionist / health promotion officer / food scientist / food technician / flavour technologist / product development manager / microbiology specialist / food policy adviser / food safety adviser / quality assurance officer / research scientist

*see pages 91–92 for details

Prepare for a career working with populations and communities to make a positive difference in the lives of others. Cultivate a range of skills aimed at improving and promoting health and wellbeing outcomes. Develop your knowledge and contribute to the research and education around preventing disease and illness. Complete 200+ hours of industry placements and projects and create a portfolio of work to present to future employers. Explore diverse areas such as health promotion, health monitoring and surveillance, epidemiology, as well as global, national and Aboriginal health issues. You will also develop skills in planning, managing and evaluating healthcare policy, projects, programs and services. Graduates are eligible for membership with the Public Health Association of Australia (PHAA) and other relevant professional bodies.

CAREERS
Health project officer / health policy analyst / health research officer / health promotion officer / wellness and lifestyle coordinator / community development officer / women’s health adviser / clinical trials coordinator / data analyst

DEGREE STRUCTURE

FIRST YEAR
Introduction to Public Health Practice and Research
Health Systems and Services
Aboriginal Australians: Culture and Colonisation
Physiology Essentials 100
Health Promotion Concepts
Introduction to Evidence Based Practice and Research in Health Sciences
Human Anatomy 100
First Peoples’ Health

SECOND YEAR
Marketing for Health and Wellbeing
Evaluation in Public Health
Sociological Perspectives in Public Health
Building Healthy Public Policy
Designing and Managing Health Projects
Science and Policies of Preventive Health
Aboriginal Public Health Practice and Research
Minor Course 1 OR Elective

THIRD YEAR
Epidemiological Principles and Methods
Public Health and Wellbeing Practice
Minor Course 2 OR Elective
Minor Course 3 OR Elective
Applied Public Health Practice and Research
Health Ethics
Minor Course 4 OR Elective

To explore all major and minor areas, visit unisa.edu.au/smss

WE ALSO OFFER

Bachelor of Clinical Exercise Physiology (Honours)
Bachelor of Human Movement, Bachelor of Nutrition and Food Sciences
Bachelor of Human Movement, Bachelor of Psychological Science (Counselling and Interpersonal Skills)
Bachelor of Exercise and Sport Science, Bachelor of Nutrition and Food Sciences
Bachelor of Exercise and Sport Science, Bachelor of Psychological Science (Counselling and Interpersonal Skills)
Bachelor of Biomedical Research (Honours)

PROGRAM CODE: IBPA | CRICOS CODE: 060209G
*see pages 91–92 for details

Study the only degree of its kind in South Australia. Develop the skills to work in areas such as drug discovery, manufacturing and production, clinical trials, regulatory affairs, and pharmaceutical sales and marketing.

Build your understanding of fundamental sciences and the factors influencing the global pharmaceutical industry. You will then focus specifically on key areas such as pharmaceutical sciences, pharmacology and pharmacoekinetics, drug discovery, development, and commercialisation. You can also choose from a range of specialist courses to tailor your studies, covering areas such as research and development, manufacturing and pharmaceutical chemistry, and drug development and business (including sales, marketing, legal, regulatory and drug information). Access purpose-built laboratories on campus and in the A$24 million UniSA Cancer Research Institute. Complete an industry project or placement during your degree. Be eligible for membership with the Royal Australian Chemical Institute (RACI) and other relevant professional bodies such as AusBiotech. Explore the option of a double degree with the Bachelor of Pharmacy (Honours) – academic criteria applies.

CAREERS
Pharmaceutical science professionals can work in a variety of areas, including medicine manufacturing, evaluation, sales, marketing and quality control, along with clinical trials and research and development.

DEGREE STRUCTURE

FIRST YEAR
Chemistry 100
Biology A
Health and Society
Health Professional Essentials
Chemistry 101
Biology B
Pharmaceutical Industry Quantitative Methods in Health

SECOND YEAR
Dosage Form Design 1
Physiology
Fundamentals of Pharmacology
Specialist Course 1
Dosage Form Design 2
Drug Discovery
Pharmacoegy B OR Pharmacology C Specialist Course 2

THIRD YEAR
Dosage Form Design 3
Drug Development
Pharmacokinetics and Biopharmaceutics
Specialist Course 3
Dosage Form Design 4
Pharmaceutical Commercialisation
Pharmaceutical Industry Experience
Specialist Course 4

CHEMISTRY SPECIALIST COURSES
Structure Determination and Analysis
Advanced Structure Determination and Analysis
Synthetic Chemistry
Advanced Synthetic Chemistry

BIOSCIENCES SPECIALIST COURSES
Biochemistry
Immunology
Microbiology
Genetics

CHEMISTRY/BIOSCIENCES SPECIALIST COURSES
Biochemistry
Immunology
Synthetic Chemistry
Advanced Synthetic Chemistry
Bachelor of Pharmacy (Honours)
unisa.edu.au/pharmacy

Study South Australia’s only degree in pharmacy. Become a Registered Pharmacist, equipped to prepare, supply and monitor medicines across a variety of settings. Study a degree accredited by the Australian Pharmacy Council and benefit from a university with over 50 years’ experience in delivering pharmacy education. Focus on key study areas such as biological, chemical and pharmaceutical sciences, ethical pharmacy practice, trialling and regulation of medicines; drug information and advice; preparing, studying and monitoring medicines and their use; and pharmaceutical research methods. Access state-of-the-art learning spaces, including the pharmacy practice suite where you will learn to dispense medicines and counsel patients, along with purpose-built laboratories in the A$247 million UniSA Cancer Research Institute. Complete field placements in community and hospital-based pharmacy settings. Following graduation, you will satisfy the academic requirements for registration as a Pharmacist with the Pharmacy Board of Australia (PBA), which is also determined by a period of supervised training. Enhance your career by exploring the option of a double degree with the Bachelor of Pharmaceutical Science – academic criteria applies.

CAREERS
Registered pharmacists can work in a variety of settings, including:
- Hospitals / pharmacies / community services / aged care facilities / critical care services / regulatory bodies / compounding services / infectious disease services / defence / research / academia

Graduate with honours in just four years and prepare for a career as a medical laboratory scientist focusing on diagnostic pathology or research. Learn to play a vital role in the welfare of patients by supporting clinicians in the diagnosis, management and treatment of disease, conducting research into causes and cures of disease, and developing improved methods for disease detection. Build fundamental knowledge in biochemistry, microbiology, immunology, molecular pathology, haematology and histopathology. Develop the skills to perform a range of diagnostic tests including cross-matching for blood transfusions, identifying the organisms that cause infections and food poisoning, screening for cancer cells, and detecting genes responsible for disease. Gain valuable practical experience in our on-campus laboratories and through field placements across areas of public and private pathology. As part of your honours, you can tailor your studies in either a diagnostic or research setting, learning how to manage specimens, perform tests and operate equipment. Graduate with a degree accredited by the Australian Institute of Medical Scientists (AIMS) and be eligible for membership. You can also apply for membership with the Australasian Association of Clinical Biochemists (AACB) and Australian Society for Microbiology (ASM).

Bachelor of Laboratory Medicine (Honours)
unisa.edu.au/laboratory-medicine

**Careers**
Medical imaging professionals can work in a variety of settings, including hospitals, private practice, defence and research and development. You may also gain employment in specialist areas such as ultrasound, interventional imaging, magnetic resonance imaging and computed tomography.

**Degree Structure**
- **First Year**
  - Foundations of Health
  - Human Anatomy 100
  - Human Physiology 100
  - Physics for Medical Radiation 1

- **Second Year**
  - Human Physiology 101
  - Physics for Medical Radiation 2
  - Medical Radiation Clinical Human Anatomy
  - Pathology for Medical Radiation

- **Third Year**
  - Advanced Evidence Based Practice
  - CT and PET Imaging
  - Medical Imaging Studies 3
  - Elective

- **Fourth Year**
  - Medical Imaging Clinical Practice 1
  - Medical Imaging Clinical Practice 2
  - Specialised Medical Radiation

**Note**: High achieving students may be considered for the Bachelor of Medical Radiation Science (Honours) program in third year.
Develop a career as a nuclear medicine technologist. Learn how to prepare and administer radioactive substances to evaluate the function of an organ or body system in order to diagnose and treat disease. Access industry-standard nuclear medicine software on campus to practise image manipulation and analysis of patient data.

CAREERS

Nuclear medicine professionals can work across a variety of settings, including hospitals, private practice and research and development. You may also gain employment in specialist areas such as ultrasound, magnetic resonance imaging and computed tomography.

DEGREE STRUCTURE

**NUCLEAR MEDICINE SPECIALISATION**

**FIRST YEAR**
- Foundations of Health
- Human Anatomy 100
- Human Physiology 100
- Physics for Medical Radiation 1
- Pathology for Medical Radiation
- Human Physiology 101
- Physics for Medical Radiation 2
- Medical Radiation Clinical Human Anatomy

**SECOND YEAR**
- Applied Psychology
- Physics for Medical Radiation 3
- Nuclear Medicine Studies 1
- Human Anatomy 201 (Gross and Sectional)
- Nuclear Medicine Clinical Practice 1
- Nuclear Medicine Studies 2
- Physics for Medical Radiation 4
- Introduction to Evidence Based Practice and Research in Health Sciences

**THIRD YEAR**
- Advanced Evidence Based Practice
- CT and PET Imaging
- Nuclear Medicine Studies 3
- Elective
- Nuclear Medicine Studies 4
- Nuclear Medicine Clinical Practice 2
- Specialised Medical Radiation

**FOURTH YEAR**
- Nuclear Medicine Clinical Practice 3
- Nuclear Medicine Clinical Practice 4
- Nuclear Medicine Professional Entry Practice 1
- Nuclear Medicine Professional Entry Practice 2

Prepare for a career as a qualified radiation therapist. Learn to work alongside radiation oncologists and medical physicists to plan and deliver individual radiation treatments to patients. Develop the skills to use dedicated radiotherapy treatment planning software, to model doses and operate radiation equipment. Gain practical experience in our purpose-built, state-of-the-art Virtual Environment Radiotherapy Training (VERT) suite on campus.

CAREERS

Qualified radiation therapists can work across a variety of settings, including hospitals, private practice, research and development and medical technology companies. You may also gain employment in specialist areas such as brachytherapy and stereotactic radiotherapy.

DEGREE STRUCTURE

**RADIATION THERAPY SPECIALISATION**

**FIRST YEAR**
- Foundations of Health
- Human Anatomy 100
- Human Physiology 100
- Physics for Medical Radiation 1
- Human Physiology 101
- Physics for Medical Radiation 2
- Medical Radiation Clinical Human Anatomy

**SECOND YEAR**
- Applied Psychology
- Physics for Medical Radiation 3
- Radiation Therapy Studies 1
- Human Anatomy 201 (Gross and Sectional)
- Radiation Therapy Studies 2
- Introduction to Evidence Based Practice and Research in Health Sciences
- Physics for Medical Radiation 4
- Radiation Therapy Clinical Practice 1

**THIRD YEAR**
- Advanced Evidence Based Practice
- CT and PET Imaging
- Radiation Therapy Studies 3
- Elective
- Radiation Therapy Studies 4
- Radiation Therapy Clinical Practice 2
- Specialised Medical Radiation

**FOURTH YEAR**
- Radiation Therapy Clinical Practice 3
- Radiation Therapy Clinical Practice 4
- Radiation Therapy Professional Entry Practice 1
- Radiation Therapy Professional Entry Practice 2

Designed for students who have completed a health-related bachelor’s degree, this program will provide you with the requirements to practise as a registered occupational therapist in just two extra years of study. Learn how to assist people in managing constraints caused by injury or illness, as well as emotional, developmental, environmental, societal, age-related and psychological limitations. Benefit from highly practical learning with over 1,000 placement hours. Develop strong foundational knowledge in occupational science, occupational therapy practice and human neuroscience, along with critical communication and problem-solving skills. Graduate with a qualification accredited by the Occupational Therapy Council (Australia & New Zealand). The program is also approved by the World Federation of Occupational Therapists and the Occupational Therapy Board of Australia for professional registration as an Occupational Therapist in Australia.

CAREERS

Occupational therapists can work in a variety of settings, including hospitals, private practice, community health services, rehabilitation centres, aged care facilities, community services, home care, local councils, government departments and schools.

ENTRY REQUIREMENTS

- Bachelor degree or higher from a recognised higher education institution completed in the last ten years with a minimum Grade Point Average (GPA) of 5 or international equivalent score.
- Applicants must also have successfully completed set prerequisite courses. For more information, visit unisa.edu.au/occupational-therapy.
**ENTRY REQUIREMENTS**

- Bachelor degree or equivalent entry level qualification in physiotherapy from a recognised higher education institution;
- Minimum 10 months full-time, or equivalent, physiotherapy practice in a relevant field following completion of the professional entry level qualification; and
- Fully met the requirements for eligibility for registration as a physiotherapist or limited registration under supervision with the Australian Health Practitioner Registration Authority. Students must apply for limited registration after acceptance into the program.

**Master of Advanced Clinical Physiotherapy (Musculoskeletal)**

**PROGRAM CODE: IMAP** | CRICOS CODE: 088576K

*see pages 93–95 for details

Further your expertise in musculoskeletal physiotherapy. Gain advanced knowledge in clinical reasoning, communication, physical and psychosocial examination, as well as education and procedural management. Learn through a balance of theoretical and practical classes. Take core courses in allied health evidence translation, factoring in cognitive behaviours and lifestyle, pain science, assessment and management, and advanced musculoskeletal examination and management. Graduate with a qualification accredited by the Australian Physiotherapy Association and Musculoskeletal Physiotherapy Australia. You will also be eligible for Titled Membership with Sports Physiotherapy Australia.

**CAREERS**

This program is designed for qualified physiotherapists seeking to further their qualifications and can lead to careers in settings such as private practice, clinics, rehabilitation centres, hospitals, home and community services, disability services, aged care facilities and research.

**DEGREE STRUCTURE**

**FIRST YEAR**

**MUSCULOSKELETAL SPECIALISATION**

- Allied Health Research Evidence Translation
- Musculoskeletal Physiotherapy Theory and Practice 1
- Musculoskeletal Physiotherapy Theory and Practice 2
- Pain Theory and Science
- Pain Assessment, Rehabilitation and Management
- Exercise and Conditioning
- Advanced Physiotherapy Practice 1
- Advanced Physiotherapy Practice Musculoskeletal

**SECOND YEAR**

- Allied Health Research Evidence Translation
- Musculoskeletal Physiotherapy Theory and Practice 1
- Musculoskeletal Physiotherapy Theory and Practice 2
- Pain Theory and Science
- Pain Assessment, Rehabilitation and Management
- Exercise and Conditioning
- Advanced Physiotherapy Practice 1
- Advanced Physiotherapy Practice Musculoskeletal

**Master of Advanced Clinical Physiotherapy (Sports)**

**PROGRAM CODE: IMAP** | CRICOS CODE: 088577J

*see pages 93–95 for details

Study an advanced qualification in sports physiotherapy. Enhance your knowledge, clinical skills and application of evidence-based practice in the treatment of sporting and other injuries sustained in field and outpatient settings. Develop quick decision-making skills to triage injuries during events and to perform pre-season screening, as well as understanding how to develop injury prevention strategies for teams and individuals. Take core courses in musculoskeletal physiotherapy, pain theory and science, and advanced physiotherapy sports theory and management. Graduate with a qualification accredited by the Sports Professional Practice Standards Committee of the Australian Physiotherapy Association.

You will also be eligible for Titled Membership with Sports Physiotherapy Australia.

**CAREERS**

This program is designed for qualified physiotherapists seeking to further their qualifications and can lead to careers in settings such as elite sports, amateur sports, national and international sports, clinics, hospitals, private practice, disability services, rehabilitation centres and research.
Master of Medical Sonography

Degrees:
- Master of Medical Sonography (General)
- Master of Medical Sonography (Cardiac)
- Master of Medical Sonography (Vascular)

unisa.edu.au/medical-radiation

MEDICAL SONOGRAPHY

Master of Medical Sonography

Degrees:
- Master of Medical Sonography (General)
- Master of Medical Sonography (Cardiac)
- Master of Medical Sonography (Vascular)

unisa.edu.au/medical-radiation

DEGREE STRUCTURE

First Year
- People, Leadership and Performance
- Responsible Leadership in Health
- Quantitative Design for Nursing, Midwifery and Health Research
- Workplace Health and Safety Management
- Workplace Learning and Development
- Project Management for Business
- Managing Change
- Financial and Economic Management for Health and Aged Care
- Performance Review and Health Economics
- Health Ethics
- Capstone in Health Services Management

Second Year
- Service Management
- Business Analytics and the Data-driven Organisation
- Business Ethics
- Strategy for Health and Aged Care Managers
- Performance Review and Health Economics
- Health Ethics
- Capstone in Health Services Management

CAREERS

Designed for qualified allied health professionals, these part-time programs will extend your knowledge and practical skills in ultrasound imaging. Choose a broad qualification or specialise in either cardiac or vascular sonography. Study a combination of theory and practice where you will gain advanced technical skills and a strong understanding of key areas such as health science, physics, anatomy and pathology. In the Cardiac specialisation, you will focus on the cardiovascular system including cardiac pressures and congenital heart disease. In the Vascular specialisation, you will explore the circulatory system for signs of disease or obstruction. Complete more than 2,000 practical hours of supervised imaging and clinical assessments and pursue a clinical project or research pathway in your final year. Benefit from flexible learning with online study options and on-campus workshops. Graduates will be eligible to apply for registration with the Australian Sonographer Accreditation Registry (ASAR) as an accredited sonographer.

CAREERS

Accredited medical sonographers can work in a variety of settings, including hospitals, private practice, clinics, laboratories and research.

ALL SPECIALISATIONS
- A bachelor degree in medical radiation science or allied health or health science, or equivalent qualification with a minimum Grade Point Average (GPA) of 5 or international equivalent; or
- A relevant graduate diploma in medical/cardiac/vascular sonography or equivalent qualification with a minimum GPA of 5 or international equivalent; or
- Relevant accreditation as a medical/cardiac/vascular sonographer with five years of accredited experience; or
- Relevant accreditation as a medical/cardiac/vascular sonographer with two years' experience where accreditation was awarded following completion of a recognised bachelor degree.

IN ADDITION, FOR THE GENERAL SPECIALISATION:
- Successful completion of prerequisite courses within the last ten years from a recognised higher education institution.

DEGREE STRUCTURE

EXAMPLE: GENERAL SPECIALISATION

LEVEL ONE
- Ultrasound Physics and Instrumentation
- Professional Issues for Sonographers
- Abdominal Sonography
- Superficial Parts Sonography

LEVEL TWO
- Obstetric and Gynaecologic Sonography
- Vascular Sonography
- Musculoskeletal Sonography
- Clinical Sonography Portfolio

LEVEL THREE (RESEARCH PATHWAY)
- Qualitative Design for Nursing, Midwifery and Health Research OR Quantitative Design for Nursing, Midwifery and Health Research
- Minor Thesis 1
- Health Science Minor Thesis 2

WE ALSO OFFER

Master of Physiotherapy (Graduate Entry)

Masters by Research

Doctor of Philosophy (PhD)

Master of Clinical Pharmacy

*This program is not available to onshore student visa holders.

IMPORTANT NOTE

These programs are not available to international student visa holders and are only available part-time and through online delivery. Theory examinations can be completed at external exam centres, however all students are required to attend clinical assessments on campus. Applicants are also responsible for organising their own training position in an Ultrasound department in order to complete the required scanning experience.

unisa.edu.au/study
Be at the forefront of innovation and technology. Join a vibrant hub of forward-thinking students, academics and researchers, working to unlock new possibilities in the communication and information technology, engineering, science, defence and aerospace industries. Collaborate with industry through real-world projects and fieldwork to provide solutions that have a positive impact on end-users. Study near Technology Park in Adelaide’s northern suburbs — a nexus of more than 100 high-tech companies with opportunities for knowledge sharing, product development, research and professional networking.

“I’m really impressed with the balance between theoretical and practical aspects of my study. It provides a fun and enjoyable way to learn concepts that are necessary for our professional development. The teaching staff are also extremely approachable.”

Steve Nyanchoga
KENYA
Bachelor of Engineering (Honours) (Electrical and Electronic)

“I chose to study in Adelaide because it is a peaceful and organised city with a lot of cultural diversity. The University of South Australia is also well-ranked and Mawson Lakes Campus has modern learning spaces, which are great for private study and group projects.”

Ana Cruz Baltuano

PROGRAM CODE: LBAF | CRICOS CODE: 095900M
*see pages 91–92 for details

Take the first steps towards becoming a pilot and build a career that will allow you to travel the world. Study at a university that teaches theory and practice at the same time, with 15-20 hours of real flight training experience provided in the first year of your degree. You will also have the option to separately study for your Commercial Pilot Licence, which you can do concurrently with your university studies (subject to specific entry requirements). Develop fundamental knowledge in aerodynamics, meteorology, navigation, flight planning, and aircraft power plants and systems. Access state-of-the-art technologies on campus, including a CASA-certified Boeing 737 Next Generation flight simulator. You will also gain real-world experience through our connection with the Civil Aviation Safety Authority (CASA) by submitting flight plans and accessing the latest aerodrome alerts.

Note: For the flight training component of this degree, you must obtain a minimum of a Class A Medical with at least six months validity. You must also remain compliant with the Aviation Academy’s Drug and Alcohol Management Plan (DAMP).

Following additional flight training, this degree can lead to the following careers:
- Commercial pilot / corporate pilot / firefighting pilot / medical and air ambulance pilot / defence force pilot / flight instructor

DEGREE STRUCTURE

FIRST YEAR
- Flight Training Theory 1
- Professional and Technical Communication
- Introduction to Aviation
- Aviation Practice
- Commercial Pilot Theory
- Flight Experience

SECOND YEAR
- Communications and Research Methods
- Aviation Physics 1N
- Aviation Law
- University Elective
- Introduction to Aviation Management
- Introduction to Aviation Safety
- Elective

THIRD YEAR
- Airline Transport Pilot Theory 1
- Risk and Safety Management Systems
- Elective
- Airline Transport Pilot Theory 2
- Large Aircraft Flight Operations
- Aviation Project
- Airline Operations Management

Bachelor of Aviation (Management)
unisa.edu.au/aviation

Develop a global career in aviation management. Build your knowledge in complex airport and flight operations. Focus on key areas such as aviation law, airline finance, operations management, economics and marketing, safety and human factors, and professional and technical communication. Learn about air operations dispatch, airport management, computer-controlled flight management systems, crew resource management, flight operation technologies, flight planning and traffic control. Access our state-of-the-art flight simulators to build your understanding of pilot operations and different flying conditions. Benefit from close links to industry with coursework and materials aligned directly to industry needs and international best practice. Complete an aviation project in your final year, which focuses on a real-world challenge and showcases your knowledge along with critical analytical, research and presentation skills.

CAREERS
- Airport services manager / airport operations manager / air traffic controller / commercial manager / human resources manager / logistics manager / marketing and business development manager / maintenance and safety specialist

Study South Australia’s only honours degree combining construction management, quantity surveying and building surveying. Learn about the fundamentals of construction including building technology and building structures. Develop your knowledge in contract administration, development regulation and development economics. Tailor your studies by choosing to focus on two key specialisation areas in years 1 and 2, including Quantity Surveying, Building Surveying or Construction Management. Graduate career ready by completing the Professional Practice Program as part of your degree. Gain at least 450 hours of skills and competencies through a range of engagement activities such as placements, internships, guest lectures, industry panels, site visits, networking and events.
CIVIL ENGINEERING

Bachelor of Engineering (Honours)

Degrees:

*see pages 91–92 for details

Prepare for a career in civil engineering. Choose to specialise in Civil, Civil and Construction Management, or Civil and Structural. Access industry-standard facilities on campus including the largest strong floor in Australia, along with high-tech testing and computer-modelling equipment. Graduate career ready by completing the Professional Practice Program as part of your degree. Gain at least 450 hours of skills and competencies through a range of engagement activities such as placements, internships, guest lectures, industry panels, site visits, networking and events. You will also have the opportunity to complete projects that tackle engineering challenges for real clients, from the tender phase through to feasibility, concept development and detailed design. Go on an overseas study exchange and choose from over 25 countries and more than 60 universities worldwide. Graduate with a degree accredited by Engineers Australia and be eligible to apply for membership. You will also be eligible for membership with comparable international institutions.

Bachelor of Engineering (Honours) (Civil)

PROGRAM CODE: LHMI | CRICOS CODE: 099377D

*see pages 91–92 for details

Study South Australia’s only degree combining civil engineering and construction management. Learn to plan, implement and deliver major construction projects while meeting critical deadlines and budgets. Develop a strong foundation of engineering knowledge in your first year, with specialist project management courses such as Construction Scheduling and Advanced Construction Management starting in your third year.

CAREERS
Civil project manager / civil construction manager / civil engineer / geotechnical engineer / water resources engineer / environmental engineer / engineering consultant / project engineer / transport engineer / structural engineer / project coordinator

We also offer...

Bachelor of Construction Management
Bachelor of Engineering (Honours) (Surveying)
Bachelor of Engineering (Honours) (Civil), Bachelor of Business
Bachelor of Engineering (Honours) (Civil and Structural)

PROGRAM CODE: LHMI | CRICOS CODE: 081807A

*see pages 91–92 for details

Build a career constructing, managing and maintaining the civil infrastructure that supports modern living. Develop the skills to design the formation of structures like bridges, buildings, airports, tunnels, ports, and water systems. Study specialist structural engineering courses covering structural analysis, earthquake and masonry engineering, and advanced steel and concrete structures. Learn how to manage the social, environmental and financial components of large-scale construction projects to ensure they are delivered with a minimal footprint, on time and on budget.

CAREERS
Structural engineer / civil engineer / structural design engineer / civil designer / construction manager / environmental engineer / transport engineer / geotechnical engineer / project coordinator

DEGREE STRUCTURE

CIVIL AND CONSTRUCTION SPECIALISATION

FIRST YEAR
Programming Concepts
Engineering Materials
Mathematical Methods for Engineers 1
Sustainable Engineering Practice
Mathematical Methods for Engineers 2
Engineering Mechanics
Electrical and Electronic Systems
Engineering Design and Innovation
SECOND YEAR
Engineering Modelling
Mechanics of Materials
Introduction to Surveying and Spatial Sciences
Engineering and Environmental Geology
Introduction to Water Engineering
Road Design and Traffic Management
Civil Engineering Techniques
Professional Engineering Design Practice
THIRD YEAR
Business Management for Engineers
Soil Mechanics
Steel and Timber Design
Hydraulics and Hydrology
Water Resources Systems Design
Geotechnical Engineering
Reinforced Concrete Design
Construction Scheduling
FOURTH YEAR
Industrial Experience N
Engineering Capstone Experience A
Engineering Honours Project A
Contract Administration
Principles of Project Management
Engineering Capstone Experience B
Engineering Honours Project B
Advanced Construction Management
Building Estimating

WE ALSO OFFER

Bachelor of Engineering (Honours) (Mechanical), Bachelor of Business

Bachelor of Information Technology

Program Code: LBCP CRICOS Code: Varies
*see pages 91–92 for details

Build a dynamic career as an IT professional. Study core courses that will give you a solid foundation in IT, network, database and programming fundamentals, and systems analysis. Study a general IT degree or choose the specialisation that interests you most. Learn with the latest industry-standard technologies and tools in the IT Development Studio and IT Innovation Studio located on campus. Gain valuable practical experience through industry placements and internships, and collaborate with a real client on a final year ICT project. Graduate with a degree accredited by the Australian Computer Society.

DEGREES:
- Bachelor of Information Technology
- Bachelor of Information Technology (Games and Entertainment Design)
- Bachelor of Information Technology (Mobile Application Development)
- Bachelor of Information Technology (Networking and Cybersecurity)
- Bachelor of Information Technology (Software Development)

unisa.edu.au/IT
Media, Innovation and Entrepreneurship, International Business, Marketing, or Management. Enjoy the flexibility of having the option to transfer into a specialised IT degree and receive study credit for successfully completed courses.

CAREERS
Software developer / networking analyst / web developer / IT consultant / database developer / IT manager / systems analyst / computer programmer / user interface developer

DEGREE STRUCTURE

FIRST YEAR
Information Technology Fundamentals Problem Solving and Programming Network Fundamentals Design Thinking Studio Object Oriented Programming Data Driven Web Technologies System Requirements and User Experience System Requirements Studio

SECOND YEAR
Interface Design, Interaction and Experience Web Development Data Structures Agile Development with .NET

THIRD YEAR
Computer Game Design Concepts Small Business for Professionals Mobile Game Development Artificial Intelligence Elective Game Engines and Graphics ICT Project

Bachelor of Information Technology (Mobile Application Development)

PROGRAM CODE: LBCP | CRICOS CODE: 083331E

*see pages 91–92 for details

Build a dynamic career as a mobile app developer. Develop the technical knowledge and specialist software skills to design your own apps for various platforms. Influence how people interact with social networks, entertainment, e-commerce and information sourcing and sharing. Study highly specialised courses that will teach you how to develop apps in languages such as C++ and .NET, which will get you career-ready. Learn from industry experts and develop the techniques to successfully pitch your app ideas to investors or start your own company.

CAREERS
Mobile app developer / Android and iOS app developer / software applications programmer / web developer / entrepreneur

DEGREE STRUCTURE

MOBILE APP SPECIALISATION

FIRST YEAR
Information Technology Fundamentals Problem Solving and Programming Network Fundamentals Design Thinking Studio Object Oriented Programming Data Driven Web Technologies System Requirements and User Experience System Requirements Studio

SECOND YEAR
Interface Design, Interaction and Experience Web Development Data Structures Agile Development with .NET

Systems Design Tools for Software Development Software Development with C++ Elective

THIRD YEAR
Small Business for Professionals Concurrent Programming Mobile Game Development Information Security Management Mobile Application Enterprise Development Mobile Enterprise Workshop

Bachelor of Information Technology (Networking and Cybersecurity)

PROGRAM CODE: LBCP | CRICOS CODE: 067899J

*see pages 91–92 for details

Focus on the security of information in contemporary IT systems. Be at the forefront of security intelligence, finding new ways to combat escalating cyber-attacks and defending against spamming, malware, viruses and other threats. Develop the skills to support a network roll-out and infrastructure maintenance, as well as knowledge in networking topologies, routers and firewalls. Complete specialist courses including Digital Forensics, Cloud, Virtualisation and Storage, Information Security Management, and Network Security. The core networking courses will also prepare you to sit industry certification exams and will also help you build essential skills in CCNA, CISCO and CCNP.

CAREERS
Cybersecurity analyst / network administrator / network engineer / cybersecurity consultant / cybersecurity governance manager / policy adviser / IT service delivery manager

DEGREE STRUCTURE

NETWORKING AND CYBERSECURITY SPECIALISATION

FIRST YEAR
Information Technology Fundamentals Problem Solving and Programming Network Fundamentals Design Thinking Studio Object Oriented Programming Data Driven Web Technologies System Requirements and User Experience System Requirements Studio

SECOND YEAR

Learn to develop new and exciting applications for different industries and markets. Apply technical skills and creativity to game-type productions, software and interfaces. Study core courses that will give you a solid foundation in IT, network, database and programming fundamentals, and systems analysis. You will then complete highly specialised courses focusing on computer graphics programming, multimedia design and information visualisation. Explore interface design, interaction and experience; tools for software development; game asset creation; computer game design concepts; mobile game development; and artificial intelligence.

CAREERS
Game designer / Android and iOS developer / mobile games developer / video game designer / video game system designer / game programmer / web developer / multimedia specialist

DEGREE STRUCTURE

CALKES AND ENTERTAINMENT SPECIALISATION

FIRST YEAR
Information Technology Fundamentals Problem Solving and Programming Network Fundamentals Design Thinking Studio Object Oriented Programming Data Driven Web Technologies System Requirements and User Experience System Requirements Studio

*see pages 91–92 for details

Go beyond traditional programming and develop specialist skills in software engineering. Study core courses to build your base knowledge in IT, network, database and programming fundamentals, and systems analysis. You will then explore advanced concepts and research methods in computer science including systems development, database and knowledge management, health informatics, networking and security. Learn to develop large, complex systems and focus on key areas such as tools for software development, software development with C++, agile development with .NET, concurrent programming, artificial intelligence, and cloud programming. You will also develop the cognitive skills needed for critical thinking, and the ability to understand and analyse the technical and design elements of software engineering. Complete a major specialist project focusing on a real-world IT issue, along with three software engineering minors in your final honours year. Learn with the latest industry-standard technologies and tools in the IT Development Studio and IT Innovation Studio located on campus. Graduate with a degree accredited by the Australian Computer Society.

Unravel the mysteries of the natural and physical world. Build your career as a scientist, making predictions and informed decisions through the systematic study of the nature and behaviour of the physical universe. Study the fundamentals of science through observation, experiment and measurement. Tailor your degree by choosing two majors that align with your interests and career goals, including Applied Physics, Biology, Chemistry, Ecosystem Sciences, or Mathematics. Gain practical experience through laboratory and field work. Access state-of-the-art facilities and engage with researchers at the multi-million dollar Future Industries Institute on campus. Continue your studies with the Master of Teaching (Secondary) to become a science teacher.

*Note: Students interested in taking a major in another area of science can discuss their options with the University after enrolment.*

Build a career in environmental sustainability, exploring how humans interact with the environment and how we can best manage it. Study core courses in biology, soil science, ecology, conservation, geology and social sciences. Complete in-depth examinations in biological and earth sciences. Develop essential skills working with Geospatial Information Systems (GIS) to capture, analyse and manage spatial and geographic data. Choose a major study area to tailor your degree, including Ecology and Conservation, or Earth Science and Environmental Chemistry. Learn in a state-of-the-art immersive virtual environment on campus using Project LivE visualisation technology, which transforms traditional classroom activities into interactive learning. Access cutting-edge digital imagery of local environments and the tools to process data and evaluate its meaning. Through this technology you will become familiar with the latest digital imaging, mapping and spatial analysis techniques. Gain additional practical experience through hands-on field work and real-world projects. Continue your studies through the Master of Teaching (Secondary) to teach science up to Year 10 and Environmental Science to Year 12.

PROGRAM CODE: LBMH | CRICOS CODE: 095006G
*see pages 91–92 for details

Prepare for a career in the growing field of data science where skilled professionals are in high demand. Discover ways to analyse and interpret vast amounts of data to provide intelligent business insights. Learn to solve complex problems through quantifying and understanding data. Study a balanced mix of courses in mathematics, information technology and data science. In first year, you will focus on building your mathematical and programming skills with courses in calculus, statistical methods, fundamentals of programming, and databases. You will then move into applied data science studies through cross-disciplinary areas such as web development, data structures, mathematical communication and mathematical modelling. In final year, you will develop skills in programming and networking, project management and analytics. Gain hands-on experience through a major ICT project working on a real-world challenge and strengthen your abilities in research, analysis and interpretation of data. Continue your studies with the Master of Teaching (Secondary) to become a mathematics teacher.

CAREERS

Data scientist / data analyst / business intelligence analyst / data architect / data mining engineer / visualisation designer / data consultant / big data engineer / big data researcher / teacher (with further study)

PROGRAM CODE: LBMH | CRICOS CODE: 095007G
*see pages 91–92 for details

Apply mathematical methods and models to find solutions to practical problems. Explore the relationship and application of mathematics to other disciplines such as physics, engineering, information technology and biology. Develop your problem-solving and analytical skills by studying key courses in simulation theory, algebra, differential equations and stochastic calculus. Broaden your knowledge and skills through additional courses in IT and programming focusing on statistical methods, fundamentals of programming, and understanding databases. Participate in the Maths Clinic program in your final year, working closely with an industry partner on a real-world project. Gain international experience through a study exchange. Continue your studies with the Master of Teaching (Secondary) to become a mathematics teacher. You also have the option of transferring into the Bachelor of Mathematics (Data Science) and receiving study credit for successfully completed courses.

CAREERS

Biostatistician / cryptanalyst / data analyst / forecast analyst / business intelligence developer / mathematician / information analyst / data modeller / information security analyst / researcher / teacher (with further study)

To learn more about how to become a teacher, visit unisa.edu.au/become-a-teacher

DEGREE STRUCTURE

FIRST YEAR

Calculus 1
Statistical Methods
Problem Solving and Programming
Discrete Mathematics

Calculus 2
Linear Algebra
Object Oriented Programming
Data Driven Web Technologies

SECOND YEAR

Applied Probability
Data Structures
Web Development
Interface Design, Interaction and Experience
Mathematical Communication
Mathematical Modelling
Data Analytics using R
Analytics for Decision Making

THIRD YEAR

Linear Programming and Networks
Predictive and Descriptive Analytics
Visualisation for Data Science
Mathematics Clinic 1 OR Elective

Text and Social Media Analytics
Business Intelligence and Analytics
ICT Project OR Advanced Mathematics Clinic
Mathematical/IT OR Science Elective

Master of Information Technology (Enterprise Management)

unisa.edu.au/IT

Nested with: Graduate Certificate in Information Technology (LCG), Graduate Diploma in Information Technology (Enterprise Management) (LCG)

POSTGRADUATE

INFORMATION TECHNOLOGY & DATA SCIENCE

Master of Information Technology (Enterprise Management)

unisa.edu.au/IT

Mawson Lakes and City West Campus

2 years full-time

A$34,300 pa* indicative 2021

IELTS Total .......... 6.5
IELTS Reading .......... 6.0
IELTS Writing .......... 6.0

PROGRAM CODE: LMIG | CRICOS CODE: 081872C
*see pages 93–95 for details

Discover the latest trends and developments in information technology coupled with contemporary business management practices. Designed for professionals with an IT or non-IT background, you will learn about strategic
stakeholder engagement, business intelligence and the management of complex information systems in a business setting. Study a range of theoretical courses covering universal IT practices, including areas like Information Systems, Organisational Transformation and Business Modelling, Information Governance, and Project Management. Tailor your studies through elective courses covering topics such as data and web mining, security operations, network infrastructure, commercial law, global business, marketing, accounting and people management. Complete a major project where you will work on a real-world issue or challenge within a structured team, applying modern IT and management techniques. Graduate with a qualification accredited by the Australian Computer Society.

CAREERS
Business and systems analyst / ICT manager / software programmer / applications programmer / ICT network and support manager / solutions architect / ICT project manager / ICT portfolio manager / ICT test manager

ENTRY REQUIREMENTS
- Bachelor degree in any discipline from a recognised higher education institution; or
- Graduate certificate in information technology or a graduate certificate in information systems from a recognised higher education institution; or
- Graduate diploma in information technology or a graduate diploma in information systems from a recognised higher education institution.

DEGREE STRUCTURE

FIRST YEAR
IT Concepts
Business Practices for IT Professionals
Project Management for IT Professionals
Professional Communication

Business Intelligence and Analytics
Enterprise Systems using SAP
Business Systems Analysis
E lective 1

SECOND YEAR
Security Principles
Business Process Modelling
IT Stakeholder Engagement
E lective 2

Enterprise Architecture
Information Governance
Capstone Professional Project

Master of Cybersecurity
unisa.edu.au/IT

Join a rapidly growing industry tasked with protecting critical IT infrastructure and information. Study technical topics such as network infrastructure, security operations, web and cloud security, and cybersecurity planning and compliance. Develop the leadership and negotiation skills needed for a cybersecurity expert, and to manage cybersecurity projects and personnel. Explore cybersecurity defence strategies for complex environments, including penetration testing and presentation methods for communicating technical topics to broader audiences. Learn how to apply technical skills to organisational contexts with a focus on risk management and incident response. Gain valuable practical experience by completing a final-year cybersecurity exercise where you will devise and implement a defence strategy for a complex enterprise environment. Collaborate with our Innovation and Collaboration Centre, and access industry expertise in technology, design, business growth, management, marketing and commercialisation.

CAREERS
Security analyst / cryptanalyst / security software developer / cybersecurity specialist / system security engineer / cyber solutions architect / cybersecurity adviser / cybersecurity manager / test lead

ENTRY REQUIREMENTS
- Applicant must have completed at least four years of study leading to a bachelor degree in information technology with a UniSA equivalent Grade Point Average (GPA) of at least 5.0.
- Applicants who have completed a bachelor degree or higher in another discipline may also be considered for entry based upon their IT expertise gained through formal tertiary studies and/or relevant work experience. These applicants are required to submit a detailed curriculum vitae.

DEGREE STRUCTURE

FIRST YEAR
IT Concepts
Network Infrastructure
Security Principles
Security Governance

Security Consultancy
Network Security
Operating Systems and Application Security
Web and Cloud Security

SECOND YEAR
Digital Forensics Essentials
Industrial Internet Security
Enterprise Security
Cybersecurity Risk and Compliance

Security Architecture
Capstone Professional Project

Master of Data Science
unisa.edu.au/IT

Nested with: Graduate Certificate in Data Science (LCDS), Graduate Diploma in Data Science (LGDS)

Mawson Lakes Campus
Real-world projects

2 years full-time

IELTS Total .............. 6.5
IELTS Reading ........... 6.0
IELTS Writing ............ 6.0

$36,600 pa* indicative 2021

February and July intakes

PROGRAM CODE: LMDS | CRICOS CODE: 079912G

Enter the revolutionary field of big data where there is a growing demand for qualified data scientists. Learn how to find patterns, make meaning and draw value from large data sets, which can be applied across a wide range of industries and business environments. Build strong foundational skills in data and statistics such as data analytics, big data basics, statistical programming, and relational databases and warehouses. Learn to analyse and visualise rich data sources, spot data trends and generate data management strategies. Benefit from coursework designed in consultation with industry, including the Institute of Analytics Professionals of Australia and the leader in business analytics and software – SAS. Complete a professional project in your final year, gaining practical experience in modern data techniques and practices.

CAREERS
Data scientist / big data visualiser / business intelligence analyst / information security analyst / social media analyst / customer insights analyst / data analyst / data engineer / research analyst

ENTRY REQUIREMENTS
- Bachelor degree in information technology or mathematics from a recognised higher education institution; or
- Graduate diploma or graduate certificate in data science from a recognised higher education institution.

DEGREE STRUCTURE

FIRST YEAR
Data Science Professional Development

Unsupervised Methods in Analytics
Predictive Analytics

Social Media Data Analytics
Customer Analytics in Large Organisations
Data Science Professional Development

Advanced Analytic Techniques 1
Advanced Analytic Techniques 2
Capstone Professional Project
Master of Engineering (Engineering Management)

unisa.edu.au/engineering

DEGREE STRUCTURE

FIRST YEAR
- Professional Engineering Practice E
- 3 x Electives
- Engineering Research Practice
- 3 x Electives

SECOND YEAR
- Engineering Economic Analysis
- Enterprise Resource Planning
- Minor Thesis 1 (Eng)

- Supply Chain Management G
- Operations Management Systems
- Minor Thesis 2 (Eng)

ENTRY REQUIREMENTS
- Bachelor degree in engineering, science or technology from a recognised higher education institution, or
- Graduate certificate or graduate diploma in engineering from a recognised higher education institution

DEGREES:
- Master of Engineering (Civil and Infrastructure)
- Master of Engineering (Water Resources Management)

CAREERS
- Operations manager / project manager / construction manager / quality assurance manager / business development manager / program delivery manager / business improvement manager / asset and facilities manager

Master of Engineering (Civil and Infrastructure)

unisa.edu.au/engineering

DEGREES:
- Master of Engineering (Civil and Infrastructure)
- Master of Engineering (Water Resources Management)

ENTRY REQUIREMENTS
- Bachelor degree or equivalent qualification in civil engineering, or a related discipline, from a recognised higher education institution.
- Depending on the specialisation chosen, a related discipline may be other four-year engineering or science degrees.
- Applicants who do not meet the standard entry requirements will be assessed on a case-by-case basis by the Program Director.
- Some applicants may be eligible for Advanced Standing and can complete the program in one year or 1.5 years of full-time study.

ENTRY REQUIREMENTS
- Bachelor degree in engineering, science or technology from a recognised higher education institution, or
- Graduate certificate or graduate diploma in engineering from a recognised higher education institution

DEGREES:
- Master of Engineering (Civil and Infrastructure)
- Master of Engineering (Water Resources Management)

CAREERS
- Civil engineer / structural engineer / geotechnical engineer / civil construction manager / civil project manager / operations manager / civil division manager

DEGREE STRUCTURE
- Civil and Infrastructure Specialisation
  - FIRST YEAR
    - Soil Mechanics
    - Steel and Timber Design
    - Research Data Analysis
  - Elective 1
  - Elective 2
- Geotechnical Engineering
  - Reinforced Concrete Design
  - Advanced Soil Mechanics
  - Elective 3
- Engineering Masters Industrial Experience
  - Engineering and Environmental Masters Design Project
  - Masters Research Theory and Practice
  - Elective 4
  - Elective 5

you can choose electives that cover a broad range of topics including green infrastructure, environmental pollution and monitoring, natural resource management, and water quality management.

**CAREERS**
Water resources engineer / project engineer / environmental consultant / water infrastructure manager / technical lead – water quality and treatment / project manager / operations manager

**DEGREE STRUCTURE**

**WATER RESOURCES SPECIALISATION**

**FIRST YEAR**
- Soil Mechanics
- Hydraulics and Hydrology
- Research Data Analysis
- Geographical Information Systems and Analysis
- Water Resources Systems Design
- Geotechnical Engineering
- Design of Flood and Drainage Systems
- Elective 1

**SECOND YEAR**
- Engineering Masters Industrial Experience
- Masters Research Theory and Practice
- Engineering and Environmental Masters Design Project
- Elective 2
- NBE Masters Research Project
- Elective 3
- Elective 4

---

**Master of Engineering (Electrical Power)**

**PROGRAM CODE:** LMEL | **CRICOS CODE:** 079908C

*see pages 93–95 for details

Further your knowledge in electrical engineering with a particular focus on electrical power. Studying modern power systems, renewable and distributed energy generation, and advanced machine modelling. Tailor your studies through a range of elective courses focusing on areas such as advanced control, digital signal processing, industrial autonomous systems and linear electronic circuits. Complete a minor thesis as a core course, applying advanced research methods to a real-world challenge (such as renewable energy storage or the optimisation of electrical power systems), or an industry-related project.

**CAREERS**
Electrical engineer / project engineer / operations manager / project development manager / renewable energy projects manager / asset management manager / sustainable energy engineer / researcher

**DEGREE STRUCTURE**

**ELECTRICAL POWER SPECIALISATION**

**FIRST YEAR**
- Renewable Energy Systems UG
- Power System Analysis
- Engineering Research Practice

**CORE COURSES**
- Digital Communications
- Digital Signal Processing
- VLSI Design
- Power Electronics
- Advanced Control and Signal Processing
- Electronic Filters and Amplifiers
- Modern Communication Systems
- Network Infrastructure
- Learning in the Workplace Project

**SECONd YEAR**
- Renewable and Distributed Power Generation
- Advanced Electrical Machines
- Advanced Power System Modelling and Analysis
- Engineering Minor Thesis 1
- Engineering Minor Thesis 2

Select one of:
- Engineering Economic Analysis
- Total Quality Management
- Lean Six Sigma
- Project Planning and Control
- Enterprise Resource Planning
- Operations Management Systems

---

**Master of Engineering (Telecommunications)**

**PROGRAM CODE:** LMEL | **CRICOS CODE:** 079909B

*see pages 93–95 for details

Further your knowledge in electrical engineering, coupled with information and communication technologies. Focus on wireless and mobile communication systems, theory and coding, and complex telecommunication networks. Tailor your studies through a range of elective courses covering topics such as modern communication systems, optical communications, advanced control and network infrastructure. Complete a minor thesis as a core course, applying advanced research methods to a real-world challenge, or industry-related project.

**CAREERS**
Telecommunications engineer / network engineer / telecommunications engineer / network planning manager / telecommunications development manager / researcher

**DEGREE STRUCTURE**

**TELECOMMUNICATIONS SPECIALISATION**

**FIRST YEAR**
- Digital Communications
- Digital Signal Processing
- Engineering Research Practice

**CORE COURSES**
- VLSI Design
- Advanced Control and Signal Processing
- Renewable Energy Systems
- Power Electronics
- Energy and Society

**SECOND YEAR**
- Telecommunications Networks
- Mobile Communications and Wireless Access
- Information Theory and Coding
- Engineering Minor Thesis 1
- Engineering Minor Thesis 2

Select one of:
- Engineering Economic Analysis
- Total Quality Management
- Lean Six Sigma
- Project Planning and Control
- Enterprise Resource Planning
- Operations Management Systems

---

**WE ALSO OFFER**
Graduate Diploma in Engineering (Engineering Management)
Develop advanced and integrated knowledge in sustainability, natural resources and geospatial sciences. Designed for environmental scientists and managers, this qualification will help further your expertise in natural and water resources management. Explore the theory and practice of managing and sustaining our natural and built environment through core courses and advanced electives. Build your understanding of managing resources within a sustainability framework, applying systems thinking, spatial data management and analysis, and complex project management. Complete a major industry research project, focusing on a real-world issue or challenge. Engage with world-class researchers and focus on improvements and innovations in sustainable principles and environmental practices.

CAREERS
Natural resource manager / environmental manager / environmental management consultant / environmental planner / sustainability adviser / environmental policy adviser / environmental scientist / project manager / researcher

ENTRY REQUIREMENTS
- Bachelor degree, graduate certificate or graduate diploma in a relevant discipline (typically including science, engineering, environmental studies or environmental management) from a recognised higher education institution, or equivalent qualification.
- Some applicants may be eligible for Advanced Standing and can complete the program in one year or 1.5 years of full-time study.
- Applicants with qualifications in other disciplines are encouraged to apply and will be assessed on a case-by-case basis.
Undergraduate admissions

You will need to have completed one of the following for entry:

» An Australian Year 12 or equivalent international program; or
» A recognised Foundation Studies program; or
» A SAIBT, Eynesbury, TAFE or other recognised tertiary pathway program.

To apply, visit unisa.edu.au/international/apply

AUSTRALIAN TERTIARY ADMISSION RANK (ATAR)

If you are an international student studying the Australian Year 12 curriculum in Australia or offshore, entry to our undergraduate degrees is determined by a Selection Rank score, which is provided for every program. The Selection Rank is your Australian Tertiary Admissions Rank (ATAR) including any Adjustment Factors (formerly known as Bonus Points). Applications for entry are completed through the South Australian Tertiary Admissions Centre (SATAC).

For more information, and to apply, visit satac.edu.au

STUDY CREDIT

If you have completed previous studies at university, in a diploma program or an equivalent post-secondary qualification, you may be eligible to receive study credit, exemptions or advanced standing towards your degree. You may also be considered for credit if you have work experience in an area relevant to your studies.

To check your eligibility, visit creditassessor.unisa.edu.au

Postgraduate admissions

You will need to have completed one of the following for entry:

» An undergraduate degree, to the required standard, from a recognised higher education institution in Australia or the international equivalent; and/or
» The equivalent professional work experience.

The University offers both coursework and research degrees.

English language requirements

The table on the next page sets out the minimum English language requirements for entry into our degrees (but should be used as a guide only). Many degrees require higher English language proficiency scores, so you will need to check the specific score for your preferred program.

Applicants from countries where English is an official language, or who have recent study experience in an English setting, may be eligible to use this to meet the English language proficiency requirement. Certified documentation is required. We will consider all applications on a case-by-case basis.

The Centre for English Language at the University of South Australia (CELUSA) provides programs designed to prepare students from non-English speaking backgrounds for university study. CELUSA is suited to both undergraduate and postgraduate applicants that do not meet the University’s English language entry requirements and offers Academic English (AE) language preparation programs.

For more information, visit unisa.edu.au/english-language-requirements

STREAMLINED VISA APPLICATION

Apply to study with one of our education partners and receive a packaged offer that allows you to apply for one student visa for the entire duration of your study under the Simplified Student Visa Framework (SSVF). For more information, see pages 86-87.

</tbody>
</table>

**Note 1:** Students require an additional year of study following their high school studies. This can include the successful completion of a recognised pre-tertiary program; Foundation Studies; or one year of study at a recognised tertiary or higher education institution.

**Note 2:** Students must have a minimum of six points for entry (some programs require a higher score) and have completed 3x A levels. The score is calculated using the best 3 subjects and can include local languages and 1 Advanced Subsidiary (AS) grade. AS grades cannot be used for any pre-requisite subject/s. The scoring system is A*=6, A=5, B=4, C=3, D=2, E=1.

**Note 3:** Selection Rank is your Australian Tertiary Admission Rank (ATAR) including any Adjustment Factors (formerly known as Bonus Points).

For other countries, please contact our International Office (e) unisa.edu.au/enquire • (p) +61 8 8302 0114
Undergraduate pathway options

There are many alternative pathways to help you gain entry into the University of South Australia. This includes on-campus programs delivered at City West and City East, as well as other off-campus options.

To learn more, visit unisa.edu.au/international-pathways

---

THE SOUTH AUSTRALIAN INSTITUTE OF BUSINESS AND TECHNOLOGY (SAIBT)

SAIBT offer an early transition program and a range of diploma programs that provide entry into over 90 undergraduate degrees at the University of South Australia (please note some programs require a competitive Grade Point Average). The SAIBT programs are an ideal alternative if you are ineligible for direct entry into your preferred degree. Successful completion of your SAIBT program will provide direct entry into either first or second year (with credit granted) of your chosen program.

Diplomas include:
- Diploma of Arts
- Diploma of Business
- Diploma of Engineering
- Diploma of Information Technology
- Diploma of Health Science

---

CENTRE FOR ENGLISH LANGUAGE (CELUSA)

The Centre for English Language at the University of South Australia (CELUSA) delivers high quality Academic English programs designed to prepare students from non-English speaking backgrounds for university study. CELUSA is suited for applicants who do not meet the University’s English language entry requirements and offers Academic English (AE) language preparation programs. Students who are eligible for and successfully complete an AE program (at an appropriate level) will be able to commence their studies at the University of South Australia or a pathway program through SAIBT. CELUSA is also an IELTS and OET test centre.

---

STREAMLINED VISA APPLICATION

Apply to study with one of our education partners and receive a packaged offer that allows you to apply for one student visa for the entire duration of your study under the Simplified Student Visa Framework (SSVF).

CONTACT US

Contact our international office to find out if you are eligible for entry into a pathway program. Submit an online form at unisa.edu.au/enquire or phone +61 8 8302 0114

unisa.edu.au/study
Eynesbury College offers a range of programs that can lead into the first or second year of an undergraduate degree at the University of South Australia.

**Eynesbury College programs include:**
- English Language programs (for undergraduate and postgraduate entry)
- Senior High School (Years 10, 11 and 12)
- Foundation Studies Program
- Diploma Studies: Business or Computing & IT
- Diploma: Business, Engineering or Computing and IT

Located in the city centre, Eynesbury College is close to our City East and City West campuses, and offers excellent teaching quality and support for students. The college is also a Pearson PTE Academic test centre.

---

TAFE SA packaged programs offer you a practical way of achieving your end goal of an undergraduate degree from the University of South Australia.

Successfully completing a TAFE SA Diploma, Advanced Diploma or Associate Degree provides entry into a range of undergraduate degrees at the University of South Australia, and credit for previous study can lead you directly into year 1, 2 or 3, reducing the overall study time through credit transfers.

TAFE SA English for Academic Purposes 20 (064266M) and English for Academic Purposes Advanced (086001K) can provide direct entry into some degrees.

HEP code: PRV14002
How to apply: undergraduate and postgraduate

1. **Find your degree**
   Explore your study options in this guide or go online for more information.
   [unisa.edu.au/study](unisa.edu.au/study)

2. **Check admission requirements**
   Make sure you are aware of entry requirements for the University as well as individual program requirements.
   - English language requirements
   - Guidelines on genuine temporary entry
   - Guidelines on living costs and evidence of funds
   [unisa.edu.au/international/apply](unisa.edu.au/international/apply)

3. **Apply**
   Once you have found the program you wish to study, you can apply online either directly or via an Education Agent. Apply at least two months before you intend to start studying. Some students may require more time to ensure they receive their visa.
   - **Apply directly** — You can apply directly via our secure online service. Save your application and return later to continue the process and track your progress.
   - **Education Agents** — Depending on your country of citizenship, you may be required to apply through one of our registered Education Agents. A full list is available online at [unisa.edu.au/find-an-agent](unisa.edu.au/find-an-agent)

   **Supporting documentation**
   Attach the following documents to your online application to avoid delays.
   - Certified* copies of academic transcripts and graduation certificates, including information on your institution’s grading system as required;
   - English language test results (e.g. IELTS or TOEFL) where applicable;
   - Detailed syllabi/course outlines of previous studies if you are applying for credit or advanced standing;
   - Additional academic and employer references if required; and
   - A certified* copy of the personal details page and signature page of your passport.

   *A certified copy is a copy of the original document that has been certified by an official such as a University of South Australia Education Agent or staff member, justice of the peace, notary public, police officer or examining authority.
Application assessment

Application outcomes will be advised within one to two weeks from the date received (including all supporting documentation required).

If you are eligible for your chosen program, an offer letter package will be sent to you, or your Education Agent, via email. If you are not eligible, we may suggest alternative programs or pathway studies. Your application will be assessed in accordance with the University’s Selection and Entry to Programs Policy, which includes the guidelines on genuine temporary entry and guidelines on living costs and evidence of funds.

unisa.edu.au/international/apply

Accept your offer

To accept a place in your offered program, you will need to:

- Check the offer letter package
- If all details are correct, log in and complete the following steps:
  1. View your offer.
  2. Click the Actions button and select Respond to Offer.
  3. Ensure the offer details are correct and select Accept Offer.
  4. Upload any additional documents required to meet your condition/s (if applicable).
  5. Select the box to confirm you have read, understood and agree to the terms and conditions of the offer.
  6. Enter your full name and any comments you have before clicking Accept Offer.
  7. Pay via bank transfer or credit card using the Western Union GlobalPay for Students portal.
  8. Once you have finalised your payment, we will action your acceptance.

If you have an Education Agent, they can help you accept your offer via student-unisa.studylink.com

Student visas

We will send you a Confirmation of Enrolment (CoE) document, which you can use to apply for a student visa for entry into Australia. Apply for your student visa as soon as you receive your CoE.

unisa.edu.au/student-visa

Student payments

The Western Union GlobalPay for Students service helps you make payments in your preferred currency without extra fees and delays.

- Pay your tuition fees quickly.
- Make payments online, by bank transfer or via credit card.
- Track payments and receive status updates by text and email.

unisa.edu.au/westernunion

Prepare for arrival

Enrol online

Enrol online from any location and have the same choice as local students when organising your timetable.

Travel bookings

Flights to Australia can be heavily booked during January, February and July, so check with your travel agent early for flight options. Do not confirm bookings until you receive your CoE document. Once you have confirmed your travel arrangements, you can request our airport pick-up service and on-arrival temporary accommodation if needed.

Arrive on time

Arrive before Orientation Week to receive vital information and have the best possible start to university. If you are unable to arrive by the commencement date, you may have to defer your offer. Please note, some programs have compulsory orientation.

Orientation

We will welcome you to Adelaide with orientation sessions and activities to introduce you to life in Adelaide and on campus. You will also have the opportunity to meet other new students.

Bachelor of Nursing* | DNUR | 06002C | 3 | 15 Jul | 29 | IELTS 6.0 | Year 1
Bachelor of Theology (Honours) | DBTH | 07090G | 3 | 15 Jul | 29 | IELTS 6.0 | Year 1
Bachelor of Visual Communication | DBVC | 07080G | 3 | 15 Jul | 29 | IELTS 6.0 | Year 1

---

**NOTES**

- Some programs may have additional entry requirements. For further details and to view the most up-to-date program information, visit unisa.edu.au/study.

### IMPORTANT INFORMATION

The University of South Australia reserves the right to alter, amend or delete any program, fees, course, admission requirement, or mode of delivery without prior notice.

### Fees

Fees listed are valid for students enrolled in the 2023 academic year only. Commencing students enrolled should be aware that annual tuition fees will increase each year of study. You will be liable for these fees upon acceptance of an offer from the University.

In the event of a variation between the fees listed here and the approved schedule of tuition fees found at unisa.edu.au/study, the approved schedule will prevail.

All fees are listed in Australian dollars (AUD).

* *PhD Pathways to Masters* for select business degrees (marked with an *) in this chart, you can complete a bachelor and master’s qualification in just four years of study with our PhD Pathway to Masters package. For more information, visit unisa.edu.au/business_degree.

### IMPORTANT INFORMATION

The University of South Australia reserves the right to alter, amend or delete any program, fee, course, admission requirement, or mode of delivery without prior notice. Some programs may have additional entry requirements. For further details and to view the most up to date program information, visit: [unisa.edu.au/study](http://unisa.edu.au/study)

For International students, IELTS English language requirements please refer to page 77 for minimum English language requirements for postgraduate study.

Fees listed are valid for students enrolled in the 2021 academic year only. Commencing students enrolled should be aware that annual tuition fees will increase for each year of study. You will be liable for these fees upon acceptance of an offer from the University.

In the event of a variation between the fees listed here and the approved schedule of tuition fees found at [unisa.edu.au/study](http://unisa.edu.au/study), the approved university schedule will prevail.

All fees are listed in Australian dollars (A$).

Graduate Certificate

Graduate Certificate in Advanced Clinical Musculoskeletal and Sports Physiotherapy

Graduate Certificate in Breast Imaging

Graduate Certificate in Building Surveying

Graduate Certificate in Business Administration

Graduate Certificate in Business Administration

Graduate Certificate in Compositing and Tracking

Graduate Certificate in Data Science

Graduate Certificate in Dynamic Effects and Lighting

Graduate Certificate in Engineering (Engineering Management)

Graduate Certificate in Environmental Science

Graduate Certificate in Film and Television

Graduate Certificate in Financial Planning

Graduate Certificate in Health Research

Graduate Certificate in Human Resource Management

Graduate Certificate in Information Technology

Graduate Certificate in Management

Graduate Certificate in Marketing

Graduate Certificate in Organisational Safety and Human Factors

Graduate Certificate in Space Studies

**POSTGRADUATE KEY**

**Campus codes**

CE City East
CW City West
ML Mawson Lakes
M Magill

*This program is not available to onshore student visa holders.

**2021 Academic calendar**

SP = Study Period

Semester 1

SPI 11 Jan 2021 – 26 Mar 2021
SP2 1 Mar 2021 – 3 Jul 2021
SP3 5 Apr 2021 – 18 Sept 2021

Semester 2

SP4 28 Jun 2021 – 10 Sep 2021
SP5 26 Jul 2021 – 27 Nov 2021
SP6 20 Sep 2021 – 3 Dec 2021

**Business School only**

**SP2** 1 Mar 2021 – 12 Jun 2021
**SP4** 14 Jun 2021 – 8 Aug 2021
**SP5** 2 Aug 2021 – 20 Nov 2021

**Summer Term**

**SP7** 1 Nov 2021 – 5 Feb 2022

Please note that some programs may have a different start date. Please check your offer letter for details.

Actual teaching dates may vary for some programs. It is important that students consult their timetable for exact teaching dates.

Commencement of study begins with Orientation. Please ensure your travel plans enable you to arrive in time for this.

**IMPORTANT INFORMATION**

The University of South Australia reserves the right to alter, amend or delete any program, fee, course, admission requirement, or mode of delivery without prior notice.

Some programs may have additional entry requirements. For further details and to view the most up to date program information, visit: [unisa.edu.au/study](http://unisa.edu.au/study)

For International students

IELTS English language requirements for postgraduate study can be found on our website [unisa.edu.au](http://unisa.edu.au).

For International students

Please note the University calculates a Grade Point Average (GPA) on a scale from 1–7. For more information, go to: [unisa.edu.au/gpa](http://unisa.edu.au/gpa)

**Fees**

Fees listed are valid for students enrolled in the 2021 academic year only. Commencing students enrolled should be aware that annual tuition fees will increase for each year of study. You will be liable for these fees upon acceptance of an offer from the University.

In the event of a variation between the fees listed here and the approved schedule of tuition fees found at [unisa.edu.au/study](http://unisa.edu.au/study), the approved university schedule will prevail.

All fees are listed in Australian dollars (A$).
How to apply

Find a research area

Business and Law
- Accounting
- Applied Economics
- Arts Management
- Finance
- Human Resource Management and Organisation Behaviour
- International Business
- Law
- Management and Corporate Social Responsibility
- Marketing
- Property
- Sports, Tourism and Leisure Management
- Sustainability Governance

(e) unisa.edu.au/enquire
**Check your eligibility**

Your eligibility will depend upon the type of research degree you wish to study, as well as your prior qualifications and professional experience. Students from non-English speaking countries will also need to demonstrate their capacity to undertake study in English before being accepted into a program. The eligibility criteria listed below are the minimum requirements. Eligibility is also subject to the assessment of the proposed research, availability of a supervisor, and any research-specific requirements.

### MINIMUM ELIGIBILITY REQUIREMENTS

**Masters by Research**

- An honours degree, bachelor degree with honours, or a relevant bachelor degree (or equivalent) of at least three years with a minimum credit average, or an appropriate master’s degree. Qualifications will be assessed on a case-by-case basis for equivalence.
- OR
- No tertiary qualifications, but you can demonstrate research capabilities through evidence of professional work experience in the field of proposed study and by relevant publications.

**Doctor of Philosophy (PhD)**

- Honours 1, Honours 1 equivalence, Honours 2A equivalence or an appropriate master’s degree (or equivalent). Qualifications will be assessed on a case-by-case basis for equivalence.
- OR
- Individual assessment of qualifications and research capabilities as proven through evidence of professional work experience in the field of proposed study and by relevant quality publications. The outcome of this assessment will determine the program options available to you.

**Professional Doctorate**

- Honours 1, Honours 1 equivalence, Honours 2A equivalence or an appropriate master’s degree (or equivalent). Qualifications will be assessed on a case-by-case basis for equivalence.
- OR
- Individual assessment of qualifications and research capabilities as proven through evidence of professional work experience in the field of proposed study and by relevant quality publications. The outcome of this assessment will determine the program options available to you. Professional Doctorate candidates must also demonstrate at least five years practice in a relevant field, and typically within the last ten years.

### MINIMUM ENGLISH LANGUAGE REQUIREMENTS

**English language test scores**

- Results from IELTS, University of Cambridge C1 Advanced and TOEFL are generally valid for two years and must be valid at the time of commencement. For scholarships, test results must be valid at the scholarship closing date.

**International English Language Testing Systems (IELTS) Academic**

- 7.0 for English language-rich programs with a minimum of 6.0 in each sub-score*
- 6.5 for non-English language-rich programs with a minimum of 6.0 in each sub-score*

*To check which programs are English language-rich, go to unisa.edu.au/resdegree-english-requirements OR

Corresponding results from an equivalent test such as Test of English as a Foreign Language (TOEFL); the University of Cambridge C1 Advanced; Examinations for the Certificate of Proficiency in English (CPE) or the Certificate in Advanced English (CAE); the Pearson Test; or the appropriate academic English language level delivered by the Centre for English Language at the University of South Australia (CELUSA).
Search for a supervisor

The University of South Australia has internationally-recognised research supervisors with expert knowledge across an impressive range of research areas. To begin your search, go to our dedicated website.

Find a scholarship

There are a variety of scholarships and funding opportunities available to help you financially throughout your studies. Scholarships are assessed on competitive merit and are awarded to the best candidates. Scholarships typically provide support for three years for PhD and Professional Doctorate candidates, and two years for students studying a master’s qualification.

Scholarships have specific opening and closing dates, so make sure you read the criteria. If you are applying for a scholarship, you should indicate this when you apply for entry into your research degree through our online application system.

unisa.edu.au/resdegrees

Apply

You should prepare the following before commencing your online application:

» Two referee reports (visit unisa.edu.au/resdegree-referee-reports);
» Transcripts and parchments of completed undergraduate, honours and postgraduate programs;
» Certification of English language proficiency;
» Passport details or evidence of citizenship;
» Outline of your proposed research;
» Current Curriculum Vitae; and
» Evidence of publications.

You will also need to know your program code. See pages 98-100 for details.

To apply, go to unisa.edu.au/applyonline
