THE VU WAY

What is The VU Way?
The VU Way is our innovative approach to learning and teaching, based on the Block Model. In the Block Model, students study one unit every four weeks, rather than the traditional form of university teaching in which multiple units are delivered at the same time (see diagram below). The Block Model is based on similar approaches adopted by universities in the UK, North America and Scandinavia; but VU was the first university in Australia to introduce the Block Model to students in the first year of undergraduate degrees in 2018. By 2022, all vocational and higher education courses will be delivered in The VU Way.

As a student, The VU Way provides greater choice and flexibility. The consolidated timetable, small group classes, online subjects and blocks (units) offered repeatedly throughout the year provide:

- block-style teaching so you can focus on one subject at a time
- a simple timetable where classes are scheduled on three days per week so you can balance your work/life commitments
- smaller class sizes so you can build friendships with your classmates
- extra support such as peer mentoring, academic workshops and career preparation.

Health Insurance
All international students require health insurance whilst studying in Australia. The type you require is determined by the type of visa you require.

Student Visas
It is a condition of your student visa that you have Overseas Student Health Cover (OSHC) for the entire duration of your stay in Australia. OSHC gives you access to out-of-hospital and in-hospital medical services.

Allianz Global Assistance is the preferred provider for OSHC; the University has negotiated special rates for VU students who apply for the ‘Essentials’ cover through VU, and additional inclusions beyond the standard policy coverage. New policies for OSHC in 2019 commence at A$275 for a single adult for 5 months.

If you wish to arrange health insurance through your education agent or another provider, you should carefully compare the premium fee and the items covered by the insurance, since some health insurance policies do not cover all expenses that you may incur in the course of medical treatment that the VU-organised policy covers.

Confirmation of Enrolment (CoE)
A CoE is a document issued by Victoria University that you will need to apply for an Australian student visa. You must apply for the visa at home. If you are not applying for a student visa, you will not require a CoE.

How to Apply
Follow the steps on page 19 of this guide to find out how to apply for our Study Abroad or Exchange programs.

Refund Policy
Find information about VU’s refund policy at:
vu.edu.au/international-refunds

Working and Studying
Student visa holders can work a maximum of 40 hours per fortnight (two weeks) when their course is in session and unlimited hours when their course is not in session.

For information on work rights which relate to the Working Holiday Visa please visit the Department of Home Affairs website:
homeaffairs.gov.au

Working Holiday Visas
Allianz Global Assistance is also the preferred provider for Overseas Visitors Health Cover (OVHC). Only students entering Australia on a working holiday visa can purchase this type of cover.

VU has five Melbourne campuses at which Exchange and Study Abroad students generally study. Two of these campuses are located in the CBD and another two are within 10km of the city centre, enabling students to easily access all that Melbourne has to offer.

**Footscray Park**
Our largest campus, Footscray Park, features fantastic facilities and provides a great student experience. Located in Melbourne’s multicultural hub of Footscray, the campus is only 10 minutes by train from the city. Footscray Station and UniLodge @ VU, our student accommodation, are within walking distance. The campus houses cafés, world-class sports facilities, state-of-the-art lecture theatres and learning commons, and an aquatic and fitness centre. Subjects taught at Footscray Park include business, engineering, sports and exercise science, and education.

The campus overlooks the famous Flemington race course - home of the Melbourne Cup. Situated next to public parklands, the campus provides the perfect place to relax after classes.

**City Flinders**
Occupying prime position in Melbourne’s city centre, our City Flinders campus consists of two buildings on Flinders Street and Flinders Lane. Both buildings are just minutes from Flinders Street Station, the Yarra River and the world-class Southbank dining precinct.

The campus is just a short walk from Melbourne’s iconic Degraves St, a bustling laneway home to Melbourne’s famous cafe culture scene.

Courses in business and information systems are taught here.

**City Queen**
The City Queen campus is made up of two historic buildings in Melbourne’s legal precinct. The campus is located a short walk from Flagstaff Station. Home to the Victoria Law School and the College of Law and Justice, City Queen includes two moot courts, a law library, computer laboratories, lecture theatres and a student lounge. Several VU-run research centres, including the Sir Zelman Cowen Centre and the Mitchell Institute, are based here.

To read more about VU’s other campuses visit: [https://www.vu.edu.au/campuses](https://www.vu.edu.au/campuses)
St Albans
Located in a peaceful setting surrounded by native grassland and eucalyptus trees, the St Albans campus is within walking distance of St Albans station. The campus houses simulation laboratories and practical learning facilities for health science students, including trainee nurses and paramedics. Sports and recreation facilities, a childcare centre and café are among features of this picturesque campus.

Footscray Nicholson
Amid Footscray’s vibrant dining and shopping precinct, Footscray Nicholson is just a short walk from Footscray Station. From here you can take the train to the city in just 10 minutes. Units in education, digital media, music, social work, and arts are taught at this campus. The campus offers contemporary classrooms, a café, meeting rooms, childcare centre and information technology services.

Services at selected campuses include a beauty day spa and hair salon, chaplaincy, childcare centres and kindergartens, a graphic design studio, and health and wellbeing clinics.

Fitness centres are located at Footscray Park, St Albans, Werribee and Footscray Nicholson, and we also have our own Community Sports Stadium in Footscray.
Beyond the classroom, we offer a range of programs and activities to help you make new friends, experience the Australian lifestyle and feel included in the community.

**Orientation**
As a new international student, you need to arrive in Australia before your course starts and in time to attend your compulsory orientation session. Aim to arrive at least a week before your international orientation so you have time to explore Melbourne and attend O-Fest events on your campus. International orientation provides important information from VU staff, students and community organisations about living in Melbourne and getting started at VU.

**Student Mentors**
Student mentors are experienced VU students who are trained to help you adjust to university life and meet your academic goals. At the start of each semester, you might see student mentors near our student service centres. Student mentors offer advice on:
- navigating the campus
- learning to use MYVU Portal and the online library
- setting up and/or accessing your timetable and student email
- joining VU clubs and societies.
Once you’re settled, our mentors can help you to improve your time management, critical thinking and problem-solving skills, and develop exam preparation techniques.

Living Costs
Finding the right accommodation to suit your budget is a challenge for international students.

You should factor the cost of housing into your budget before you come to Australia, and have access to funds to cover possible rent increases while you are here. Some of these costs have been highlighted in the table to the right.

For further estimates on what it costs to rent through the private market in Melbourne, go to: studymelbourne.vic.gov.au/money-and-budgeting

You might also need to consider the purchase of equipment, textbooks or clothing, such as a uniform, for some units.

Below is a list of additional items that you’ll need to factor into your budget:

• Overseas Student Health Cover
• books and stationery
• travel to work placements
• library expenses
